Subject: Resolution Related to the County's Application, submitted on behalf of the Eleventh Judicial Circuit of Florida, for Fiscal Year 2024-2029 Grant Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, in the amount of \$2,000,000 for the Adult Drug Court Trauma Stimulant Initiative

Executive Summary

The Board of County Commissioners (Board) is asked to approve a resolution retroactively authorizing the County Mayor or County Mayor's designee's action, acting as the fiscal agent for the Eleventh Judicial Circuit of Florida (Court), in applying for \$2,000,000 in grant funding from the United States Department of Health and Human Services, Health Resources and Services Administration (HHS), Substance Abuse and Mental Health Services Administration (SAMHSA) to support Miami-Dade County's (County) Adult Drug Court Trauma Stimulant Initiative Project (TSI Project). This item also seeks the Board's approval to authorize the County Mayor or the County Mayor's designee, acting as fiscal agent for the Court, to amend the grant application, as needed, to receive and expend such grant funds, and to execute such contracts or agreements as may be required by program guidelines for the TSI Project, and to exercise the provisions contained therein.

The grant amount is intended for a five-year performance period starting September 30, 2024 and ending September 30, 2029. The TSI Project addresses the need for treatment rather than incarceration for individuals with Stimulant Use Disorders (STUDs). Its goal is to increase access to stimulant use treatment, trauma therapy, anger management, and co-parenting counseling to enhance participant outcomes. The TSI Project supports a continuum of care, including prevention, harm reduction, treatment, and recovery services for individuals with STUDs involved with the courts. Harm reduction services funded by this grant must adhere to applicable federal, state, and local laws, regulations, and other relevant requirements.

This item also authorizes the County Mayor or the County Mayor's designee, acting as fiscal agent for the Court, to apply for, receive, and expend additional future funds that may become available for the TSI Project, and to execute any necessary contracts or agreements, and to exercise the provisions contained therein.

Recommendation

It is recommended that the Board approve the attached resolution, which does the following:

- Retroactively authorizes the County Mayor or the County Mayor's designee's action, acting as the fiscal agent for the Court, as authorized by Resolution No. R-79-03, in applying for approximately \$2,000,000 in funding from the HHS for a five-year performance period, beginning September 30, 2024 and ending September 30, 2029;
- Authorizes the County Mayor or the County Mayor's designee, acting as the fiscal agent for the Court, to: execute any amendments to the grant application; to receive and expend awarded grant funds; to execute any agreements or documents as may be required by program

guidelines for the TSI Project; and to exercise the provisions contained therein, including termination and amendment clauses of any such contracts and agreements, so long as such amendments do not change the role of the County, commit County funds (other than an in-kind contribution required to be fiscal agent), or the purpose of the TSI Project; and

- Authorizes the County Mayor or the County Mayor's designee, acting as the fiscal agent for the Court, to apply for, receive and expend additional future funds that may become available for the TSI Project; to execute such agreements or documents as may be required by the County to act as fiscal agent for the Court with respect to such future available funds, and to exercise provisions contained therein.

Where necessary, the item waives the requirements of Resolution No. R-130-06, which requires contracts to be executed by non-County parties prior to being placed on a Board agenda for the reasons stated below.

Scope

The impact of this resolution is countywide as the TSI Project is intended to expand substance use disorder treatment and recovery support services in existing drug courts throughout Miami-Dade County.

Delegation of Authority

Resolution R-79-03 authorizes the County to act as the fiscal agent for the Court in connection with grants coordination. This item authorizes the County Mayor or designee to: amend the grant application, as needed; to receive and expend awarded grant funds; to execute any contracts or agreements as may be required by program guidelines for the TSI Project and to exercise the provisions contained therein, including termination and amendment clauses, so long as such amendments do not change the role of the County, commit County funds (other than an in-kind contribution required to be fiscal agent), or change the purpose of the TSI Project. Further authorizes the County Mayor or County Mayor's designee, acting as fiscal agent for the Court, to apply for, receive and expend additional future funds that may become available for the TSI Project, and to execute contracts and agreements as may be required by the County to act as fiscal agent for the Court with respect to such future available funds, and to exercise provisions contained therein, including termination and amendment clauses, so long as such amendments do not change the role of the County, commit County funds (other than an in-kind contribution required to be fiscal agent), or change the purpose of the TSI Project.

Fiscal Impact/Funding Source

The total amount of the anticipated federal grant award is \$2,000,000, which is comprised of five awards in the amount of \$400,000 per year, subject to continuation approval. No County matching funds are required.

Track Record/Monitor

The Office of Management and Budget-Grants Coordination Division (OMB-GCD) and Court have an extensive history of managing grant projects and will coordinate project implementation and management. The SAMHSA TSI Project grant award will be administered by OMB Assistant Director, Daniel T. Wall.

Background

The Court's Adult Drug Court (ADC), established in 1989, offers drug offenders a voluntary diversion and treatment program to avoid prosecution and become drug-free. Participants, identified as having

substance abuse issues, undergo intensive supervision by a judge and rehabilitation through treatment for at least one year. Upon successful completion, the judge may discharge the case, allowing participants to "graduate" from the program. Graduates may also qualify to expunge their arrest records, benefiting future employment prospects. The program provides an opportunity for first-time offenders and others to resolve legal issues and break free from the cycle of substance abuse.

Family Resource Center of South Florida (FRC), established in 1978, is dedicated to preventing and treating child abuse and neglect by strengthening families. As a leader in child welfare services, the organization offers a wide range of programs supporting over 2,500 children, adolescents, and adults annually. Most referrals come from agencies such as the Florida Department of Children and Families, Citrus Family Care Network, the Miami-Dade County Juvenile Court, and the Guardian Ad Litem Program.

ADC and FRC work collaboratively by addressing both the legal and therapeutic needs of individuals and families dealing with substance abuse issues. ADC focuses on diverting offenders from the criminal justice system into treatment programs, while the FRC provides essential services, such as counseling and family support, to help prevent child abuse and neglect.

When a parent or caregiver involved in ADC is identified as having a substance abuse problem impacting their family, FRC may step in to provide additional support services. These services can include parenting classes, family therapy, and case management to ensure the individual not only completes their treatment, but also strengthens family bonds and provides a safe environment for children. Together, both entities work to ensure long-term recovery and family stability, reducing the risk of further legal issues or child welfare concerns.

The Court aims to enhance its substance abuse and mental health services through a SAMHSA grant (No. TI-24-004) for the Trauma Stimulant Initiative (TSI) Project. ADC has received previous SAMHSA funding for similar initiatives, which achieved a remarkable 79.1% graduation rate—significantly higher than the ADC's overall 61% rate. The TSI Project continues its collaboration with the FRC to address critical needs such as trauma history and anger management. The TSI Project targets the ADC's participant demographic, which is often affected by substance use and related parenting challenges. Annually, 35%-45% of these participants are identified as having a history of trauma and stimulant use. The TSI Project proposes a comprehensive approach addressing the interconnected issues of unresolved trauma, stimulant use disorders, co-parenting skills, and anger management. The TSI Project is supported by a \$2 million budget over the five-year performance period and will serve at least 200 individuals (40 annually). The Matrix Intensive Outpatient Model will focus on stimulant use disorders, while trauma therapies such as Eye Movement Desensitization and Reprocessing (EMDR), Cognitive Processing Therapy (CPT), and Dialectical Behavioral Therapy (DBT) will be employed. Additionally, Cognitive Behavioral Therapy (CBT) will focus on anger management, a key factor in reducing relapse risk. These evidence-based treatments aim to reduce relapse rates for stimulant use disorders by 15% within 12 months, improve co-parenting behaviors, and expand access to trauma therapy.

As the fiscal agent for the grant, the County will coordinate project implementation and management. OMB-GCD will monitor the project and serve as liaison with SAMHSA. The Court will handle project drawdowns, in concert with the County's Finance Department; process the disbursement and expenditure of grant funds; and manage programmatic and fiscal reporting in accordance with Project reporting and auditing procedures stipulated by SAMHSA. Effective January 7, 2025, the Finance Department's role will transition to the Clerk of Court and Comptroller. The notice of award from the HHS is included herein as Attachment 1.

and Members, Board of County Commissioners
Page No. 4

This item seeks a waiver of Resolution No. R-130-06, which requires all non-County parties to execute contracts prior to placement of any legislative item on the Board's agenda. A waiver of Resolution No. R-130-06 is required to ensure that, upon receipt of the grant funds from SAMHSA, the County can immediately execute contracts and agreements with the service providers to comply with federal funding requirements and timelines and to ensure that services are not interrupted.

- o Identify the social determinants of health (SDOH) domains and the Culturally and Linguistically Appropriate Services in Health and Health Care ([CLAS](#)) Standards that the grantee organization will work to address and improve for the identified population(s) of focus.
- o Develop a disparity reduction quality improvement action plan to address

behavioral health disparities based on the available data on access, use, and outcomes.

Annual Federal Financial Report (FFR or SF-425)

All financial reporting for recipients of Health and Human Services (HHS) grants and cooperative agreements has been consolidated through a single point of entry, which has been identified as the Payment Management System (PMS). The Federal Financial Report (FFR or SF-425) initiative ensures all financial data is reported consistently through one source; shares reconciled financial data to the HHS grants management systems; assists with the timely financial monitoring and grant closeout; and reduces expired award payments.

The FFR is required on an annual basis and must be submitted **no later than 90 days after the end of each incremental period/budget period**. The FFR should reflect cumulative amounts. Additional guidance to complete the FFR can be found at <https://www.samhsa.gov/grants/grants-management/reporting-requirements>.

SAMHSA reserves the right to request more frequent submissions of FFRs. If so, the additional submission dates will be shown below.

Your organization is required to submit an FFR for this grant funding as follows:

- By 12/28/2025, submit the Federal Financial Report (FFR)/(SF-425).
- The grant recipient staff member(s) responsible for FFR preparation, certification and submission of the FFR must either submit a request for New User Access or Update User Access to the FFR Module as applicable. Refer to the PMS User Access website <https://pms.psc.gov/grant-recipients/user-access.html> for information on how to submit a New User Access, Update User Access or Deactivate User Access. You can also view PMS Video on how to request new user access @ <https://youtu.be/kdoqaXfiuI0> and PDF resource with instructions on Requesting Access @ https://pms.psc.gov/forms/New-User-Request_Granttee.pdf

-
- Instructions on **how to submit an FFR via PMS** are available at <https://pmsapp.psc.gov/pms/app/help/ffr/ffr-grantee-instructions.html> (The user must be logged in to PMS to access the link). Updates to the FFR instructions effective 4/1/2022 are also available @ <https://pms.psc.gov/grant-recipients/ffr-updates.html>
 - While recipients must submit the FFR in PMS, the FFR can also be accessed by connecting seamlessly from the eRA Commons to PMS by clicking the Manage FFR link on the Search for Federal Financial Report (FFR) page in eRA Commons, which will redirect to PMS. SAMHSA will not accept FFRs submitted by email or uploaded as an attachment into eRA. To access the Manage FFR link in eRA Commons, the individual must be registered in eRA Commons and assigned the Financial Status Reporter (FSR) role for their organization. The individual assigned the FSR role is responsible for reporting the statement of grant expenditures for their organization. Refer to the page [Managing eRA User Accounts](#) on SAMHSA's website for instructions on how to assign the FSR role.

If you have questions about how to set up a PMS account for your organization, please contact the PMS Help Desk at PMSSupport@psc.hhs.gov or 1-877-614-5533.

Note: While recipients will use PMS to report all financial expenditures as well as to drawdown funds, recipients will continue to use eRA Commons for all other grant-related matters, including submitting progress reports, requesting post award amendments, and accessing grant documents such as the Notice of Award.

Standard Terms for Awards

Your organization must comply with the Standard Terms and Conditions for the Fiscal Year in which your grant was awarded. The Fiscal Year for your award is identified on your Notice of Award. SAMHSA's Terms and Conditions webpage is located at: <https://www.samhsa.gov/grants/grants-management/notice-award-noa/standard-terms-conditions>.

Standards for Financial Management

Recipients and subrecipients are required to meet the standards and requirements for financial management systems set forth in 45 CFR part 75 Subpart D. The financial systems must enable the recipient and subrecipient to maintain records that adequately identify the sources of funds for federally assisted activities and the purposes for which the award was used, including authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and any program income. The system must also enable the recipient and subrecipient to compare actual expenditures or outlays with the approved budget for the award. SAMHSA funds must retain their specific identity – they may not be commingled with non-federal funds or other federal funds. “Commingling funds” typically means depositing or recording funds in a general account without the ability to identify each specific source of funds with related expenditures.

Reasonable Costs for consideration

Recipients must exercise proper stewardship over Federal funds and ensure that costs charged to awards are allowable, allocable, reasonable, necessary, and consistently applied regardless of the source of funds according to “Reasonable Costs” consideration per 2 CFR § 200.404 and the “Factors affecting allowability of

costs” per 2 CFR § 200.403. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost.

Consistent Treatment of Costs

Recipients must treat costs consistently across all federal and non-federal grants, projects and cost centers. Recipients may not direct-charge federal grants for costs typically considered indirect in nature, unless done consistently. If part of the indirect cost rate, then it may not also be charged as a direct cost. Examples of indirect costs include (administrative salaries, rent, accounting fees, utilities, office supplies, etc.). If typical indirect cost categories are included in the budget as direct costs, it is SAMHSA’s understanding that your organization has developed a cost accounting system adequate to justify the direct charges and to avoid an unfair allocation of these costs to the federal government. Also, note that all awards are subject to later review in accordance with the requirements of [45 CFR 75.364](#), [45 CFR 75.371](#), [45 CFR 75.386](#) and [45 CFR Part 75, Subpart F](#), Audit Requirements.

Compliance with Award Terms and Conditions

FAILURE TO COMPLY WITH THE ABOVE STATED TERMS AND CONDITIONS MAY RESULT IN ACTIONS IN ACCORDANCE WITH [45 CFR 75.371](#), REMEDIES FOR NON-COMPLIANCE AND [45 CFR 75.372](#) TERMINATION. THIS MAY INCLUDE WITHHOLDING PAYMENT, DISALLOWANCE OF COSTS, SUSPENSION AND DEBARMENT, TERMINATION OF THIS AWARD, OR DENIAL OF FUTURE FUNDING.

All previous terms and conditions remain in effect until specifically approved and removed by the Grants Management Officer.

Data Collection and Performance Measurement

Data Collection/Performance Measurement All SAMHSA recipients are required to collect and report certain data so that SAMHSA can meet its obligations under the Government Performance and Results (GPRA) Modernization Act of 2010. You must document your plan for data collection and reporting in your Project Narrative in response to Section E: Data Collection and Performance Measurement in Section V of this NOFO.

Recipients are required to report performance on measures such as the following:

- number of individuals served
- diagnoses
- abstinence from substance use
- housing stability
- employment/education status
- social connectedness
- health/behavioral/social consequences
- access to treatment
- treatment(s) provided
- retention in treatment

criminal justice involvement

The contractor for the SPARS system will provide technical assistance and training to SAMHSA recipients.

This information will be gathered using a uniform data collection tool provided by SAMHSA. Recipients are required to submit data via SAMHSA's Performance Accountability and Reporting System (SPARS); and access will be provided upon award. An example of the required data collection tool (i.e., National Outcome Measures (NOMs) or NOMS client level services tool) can be found [here](#). This information will be gathered using SAMHSA's Performance Accountability and Reporting System (SPARS); access will be provided upon award.

In addition to these measures, recipients will be expected to collect and report data on the frequency and type of substance use 90 days prior to incarceration. Recipients will be required to collect data via a face-to-face interview using this tool at three data collection points: intake to services, six months post intake, and at discharge. Recipients will be expected to do a GPRA interview on all clients in their specified unduplicated target number and are also expected to achieve a six-month follow-up rate of 80 percent. Data are to be submitted through the specific online data collection tool within seven days of data collection or as specified after award. GPRA training and technical assistance will be offered to recipients.

Performance data will be reported to the public as part of SAMHSA's Congressional Justification.

The collection of these data enables SAMHSA to report on key outcome measures relating to the program. In addition to these outcomes, performance measures collected by recipients will be used to demonstrate how SAMHSA's programs are reducing disparities in behavioral health access, retention, service use, and outcomes nationwide.

Performance data will be reported to the public as part of SAMHSA's Congressional Budget Justification.

Project Performance Assessment

In addition, recipients are required to report on their progress addressing the goals and objectives identified in your Project Narrative. Recipients must periodically review the performance data they report to SAMHSA (as required above), assess their progress, and use this information to improve the management of their project. The project 13 performance assessment should be designed to help you determine whether you are achieving the goals, objectives, and outcomes you intend to achieve and whether adjustments need to be made to your project.

Performance assessments should be used to determine whether your project is having/will have the intended impact on behavioral health disparities. Recipients should also review the behavioral health Disparities Impact Statement (DIS) submitted within the first two months of the award. See Section VI.3 for information on required progress reports.
