Agenda Item No. 8(P)(1)

Resolution No. R-242-25

Subject: Recommendation to Access a Sourcewell Contract for the Purchase of Facility Maintenance, Repair, Operation (MRO), Industrial, Building-Related Supplies, and Equipment

Summary

This item is for the purchase of a wide variety of facility maintenance, repair, and operation supplies (Facility MRO) to include public safety and emergency management equipment, industrial and building-related supplies, and equipment to support the operational needs of multiple County departments. Product categories to be purchased under this contract include, but are not limited to, air filters, cleaning supplies, electrical and electronic supplies, appliances, fasteners, hand tools, HVAC supplies, lab supplies, lighting, motors, paint, plumbing, pumps, safety, security, welding, and other categories.

This contract was awarded to W.W. Grainger, Inc. (Grainger) by Sourcewell, a public corporation and agency created under the laws of the state of Minnesota. As part of Grainger's Disadvantaged Business Enterprise (DBE) Program and other diversity initiatives, they are partnering with five or more Miami-Dade County certified Small Business Enterprise (SBE) firms engaged in the resale of Facility MRO. The goal is for these SBE firms to become Grainger's authorized resellers, affording the County the option to drive the majority of the County's spend under this contract through these SBE firms in accordance with the terms and conditions of the contract. Grainger has approved five authorized and certified SBE resellers; however, Grainger's program is open to all qualified County certified SBE firms. As more certified SBE firms become authorized resellers, Grainger will align them by category, based on their expertise and business capabilities.

By fostering a partnership between Grainger and local SBE firms, this initiative supports job creation and economic growth, allowing small businesses to scale up while ensuring that the County's diverse needs can be met efficiently. While Grainger will provide comprehensive supply chain and inventory management, SBE firms will be responsible for providing a full range of services including, but not limited to, managing sales, customer service, billing, and returns. This collaboration enhances supplier diversity, fosters innovation through local expertise, strengthens community ties, and creates a more resilient supply chain. It also positions the County as a model for inclusive economic development while enabling SBE firms with the support of Grainger to deliver tailored, high-quality solutions that drive long-term sustainability and mutual success.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve accessing a competitively established contract by Sourcewell, *Contract No. 091422-WWG, Facility MRO, Industrial, Building-Related Supplies, and Equipment*, with Grainger in the cumulative amount of \$15,745,771 for the remainder of the initial term, which expires on November 8, 2026, and the two, one-year extension periods, for multiple County departments. This contract will replace a competitively established access contract by OMNIA Partners, *Contract No. 192163, Maintenance Repair and Operations (MRO) Supplies, Parts, Equipment*, which was approved under the Mayor's delegated authority; however, the allocation has been nearly exhausted. The recommended Sourcewell contract offers greater advantages, including higher savings and enhanced partnerships with SBEs. This contract will enable the County to achieve greater flexibility, improved efficiency, and more favorable pricing for the purchase and delivery of a wide variety of Facility MRO supplies and equipment. An alternate procurement method

could have been to establish a pool of prequalified vendors; however, accessing this contract was deemed more efficient for County operations.

Background

A Request for Proposals was issued under full and open competition on the Sourcewell Purchasing Portal on July 26, 2022. Twenty proposals were submitted in response, and Grainger was the highest-ranked proposer. Sourcewell, previously known as the National Joint Powers Alliance (NJPA), offers cooperative procurement solutions to government entities. Grainger's headquarters is in Illinois, but it has two-physical locations within the County and offers a comprehensive number of products in Facility MRO, offering discounts and uninterrupted service during emergency situations.

Overall, Sourcewell provides a higher total discount rate compared to the current OMNIA contract. Additionally, Grainger offers an Incentive Program to increase Category Discounts by 3% if total purchases increase by 12% during the previous year or if purchases total at least \$25,000. These incremental savings and additional benefits will enable the County to achieve greater flexibility, improved efficiency, and convenient means for departments to place regular and special orders via the web, phone, or by email. This capability is very important, especially during hurricane season, for urgent departmental needs to protect infrastructure and personnel, as well as to maintain safety equipment.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the remainder of the initial term expiring on November 8, 2026 is \$7,872,886. Should the County choose to exercise, at its sole discretion, the two, one-year extensions, the estimated cumulative value will be \$15,745,771 and expire on November 8, 2028. The current contract is valued at \$1,000,000 for a two-year and six-month term and expires on June 30, 2025. The allocation under the new access contract is higher than the current contract as the current contract was established under delegated authority to gauge usage and benefits for the departments.
