Agenda Item No. 8(P)(8)

Resolution No. R-556-25

Subject: Request for Additional Expenditure Authority to Prequalification Pool for Dewatering
and Tank Cleaning Services

Summary

This pool is used for the purchase of dewatering and tank cleaning services at various locations throughout Miami-Dade County (County) on an as needed basis for the Department of Transportation Public Works (DTPW), Department of Solid Waste Management (DSWM) and Water and Sewer Department (WASD). These services are essential for maintaining water and wastewater plant structures, tanks, clarifiers, containment units, and other water and wastewater processing facilities. Additionally, they support the County's extensive drainage system, which includes miles of varying diameter pipes servicing public rights-of-way, as well as the sewer and storm drain systems for landfills, transfer stations, trash and recycling centers, administration buildings, and other facilities. While the pool serves multiple County departments, this request for additional expenditure authority is specifically for DSWM to address the department's growing needs. DSWM is requesting an additional allocation to support the maintenance of sewer and storm drain systems across various facilities, including landfills, transfer stations, trash and recycling centers, administration buildings, and other locations. These systems require regular maintenance, but due to the scale of the work, the department has been limited in its ability to address the full scope with existing resources.

The additional expenditure authority is necessary to ensure uninterrupted procurement of these essential services, supporting compliance with sewer and stormwater management requirements under the National Pollutant Discharge Elimination System (NPDES). Increased demand for these services has been driven by the expansion of proactive maintenance programs and the challenges posed by aging infrastructure. Routine flooding at DSWM facilities in recent years has caused substantial damage, leading to the need to significantly increase the frequency of cleaning sewer and storm drain systems to prevent further deterioration and maintain infrastructure standards.

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize additional expenditure authority in the amount of \$700,000 for *Prequalification Pool No. EVN0000187, Dewatering and Tank Cleaning Services*, for DSWM.

Background

This pool was established by the Board on October 3, 2023, via Resolution No. R-871-23 in the amount of \$4,317,000 for a five-year term. The pool was subsequently modified under delegated authority. This item is requesting additional expenditure authority to allow DSWM to continue procuring critical drain cleaning services for landfill facilities managed by DSWM across the County. Currently, only one County vector truck and one full-time employee are available for drain cleaning. Over the past few years, the facilities have experienced frequent flooding, resulting in significant damage. To prevent further damage and ensure the systems meet maintenance requirements, the frequency of cleaning must be substantially increased. The requested allocation will provide the necessary funding for the department's needs throughout the remaining four years of the pool term.

Scope

The impact of this item is countywide in nature.

Delegated Authority

There is no additional delegation of authority sought in this item as the authority to solicit pricing and award contracts up to an aggregate amount of the allocation authorized by the Board, exercise all provisions of the solicitation documents and any resulting contracts pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38, and add vendors to the pool at any time, subject to ratification by the Board on a bi-annual basis, was granted when the pool was established. Any contract award under the prequalification pool exceeding \$5,000,000, is subject to ratification by the Board.

Fiscal Impact/Funding Source

The pool expires on November 30, 2028, and has a current cumulative allocation of \$4,817,000. If this request is approved, the pool will have a modified cumulative allocation of \$5,517,000. The requested increase in expenditure authority is based on \$300,000 per year to allow DSWM to clean the drains on a regular basis and supplement the cleaning efforts by the maintenance team.

Department	Existing Cumulative Allocation	Additional Allocation Requested	Modified Cumulative Allocation	Funding Source	Pool Manager
DSWM	\$500,000	\$700,000	\$1,200,000	General Fund / Proprietary Funds	Karina Careaga
Multiple	\$4,317,000	\$0	\$4,317,000	Multiple	Multiple
Total	\$4,817,000	\$700,000	\$5,517,000

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with SPD's Procurement Guidelines to determine vendor responsibility, including verifying corporate status and that there are no performance and compliance issues through various vendor responsibility lists and a keyword

internet search. The lists that were referenced included convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. With the exception of the litigation that was resolved through a settlement agreement between the County and Synagro South, LLC (Synagro) via Resolution No. R-769-23, there were no adverse findings relating to vendor responsibility. The settlement stipulated that the dispute would not impact Synagro's ability to do conduct business with the County or result in it being a non-responsible bidder for any current or future contracts with the County.
