Subject: Resolution Approving the Department of Transportation and Public Works' 2025
Updated Title VI Program Plan

Executive Summary

As a condition of receiving ongoing federal funds, the Federal Transit Administration (FTA) requires each transit agency to submit an updated Title VI Program Plan every three years. The FTA regulations require the Department of Transportation and Public Works (DTPW) to brief its governing board regarding DTPW's Title VI Program and related policies and obtain its governing board's approval of the updated Title VI Program. As such, this resolution of the Board of County Commissioners (Board) approves the DTPW's 2025 updated Title VI Program for submission to the FTA. Attached as Exhibit 1 is the 2025 updated Title VI Program Executive Summary that provides an overview of the program's various components, including an explanation as to how DTPW responded to each of the FTA's requirements. The Title VI Program update is a triennial requirement under the Civil Rights Act of 1964. It documents DTPW's compliance with federal nondiscrimination requirements in transit services, policies, and investments. On-time submission demonstrates adherence to FTA Circular 4702.1B guidance and ensures continued eligibility for federal funding.

Recommendation

It is recommended that the Board, through the attached resolution, approve the 2025 updated Title VI Program.

Scope

The scope of this item is countywide as it covers all transportation facilities and amenities.

Delegation of Authority

This item authorizes the County Mayor or the County Mayor's designee to submit the 2025 updated Title VI Program to the FTA.

Fiscal Impact/Funding Source

There is no financial impact to approving the 2025 updated Title VI Program.

Track Record/Monitor

Melissa Rolle-Scott, Assistant Director and Chief Administrative Officer, or her designee, will oversee the submission of the 2025 updated Title VI Program to the FTA.

Background

DTPW, as a federal grant recipient, is required by the FTA to conform to Title VI of the Civil Rights Act of 1964, as amended. Title VI requires that no person in the United States, on the grounds of race, color, or national origin, be excluded from, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. DTPW has prepared its 2025 updated Title VI Program in compliance with Title 49 CFR Section 21.9(b) and with FTA Circular 4702.1B “Title VI Requirements and Guidelines for Federal Transit Administration Recipients,” issued October 1, 2012 (FTA Circular). This is a three-year look back from December 1, 2022, through November 30, 2025. DTPW’s Office of Civil Rights and Labor Relations has taken the necessary steps to ensure that all future Title VI updates are submitted to the Board for approval well in advance of FTA due dates.

A copy of the entire 2025 updated Title VI Program and its appendices will be available for review at [Miami-Dade County TransitNet – Title VI](#).

**2025 TITLE VI
PROGRAM UPDATE
Executive Summary**

Submitted in fulfillment of Title VI of the Civil Rights Act of 1964
and FTA Circular 4702.1B

EXECUTIVE SUMMARY

DTPW, as a federal grant recipient, is required by the Federal Transit Administration (FTA) to conform to Title VI of the Civil Rights Act of 1964, as amended (Title VI). Title VI requires that no person in the United States, on the grounds of race, color, or national origin, be excluded from, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

DTPW has prepared its 2025 Title VI Program Update (2025 Program Update) in compliance with Title 49 CFR Section 21.9(b) and with FTA Circular 4702.1B “Title VI Requirements and Guidelines for Federal Transit Administration Recipients,” issued October 1, 2012 (FTA Circular).

This report represents the 2025 triennial update of the original document submitted by Miami-Dade County in November 1988. This 2025 Program Update is a three (3) year lookback for the period of December 1, 2022, to November 30, 2025.

The 2025 Program Update complies with FTA Circular, covers nine (9) general reporting requirements, includes five (5) program-specific requirements, and offers guidelines for recipients based on the population served by DTPW.

GENERAL REPORTING REQUIREMENTS

1. Title VI Notice to the Public. DTPW’s Notice to the Public informing the community of their rights under Title VI of the Civil Rights Act of 1964 was reproduced in poster form and distributed throughout DTPW’s fleet of buses and Metrorail Stations. The Notice also includes a Spanish and Haitian Creole translation within the text of each poster. Additionally, the Notice can be found on DTPW’s website at <https://www.miamidade.gov/transit/library/title-vi-outreach-statement.pdf>.
2. Title VI Complaint Procedure. DTPW’s Title VI Notice to the Public includes instructions on how to file a complaint alleging discrimination based on race, color, or national origin. Additionally, the complaint procedure is also described on DTPW’s website at <https://www.miamidade.gov/global/service.page?Mduid=ser1499958278524275>.
3. Title VI Complaint Form. Any person who believes they have been discriminated against under Title VI may file a formal complaint with DTPW’s Office of Civil Rights and Labor Relations. The complaint form is posted on DTPW’s website at <https://www.miamidade.gov/transit/library/title-vi-discrimination-form.pdf>. There were no Title VI complaints, investigations, or lawsuits filed against DTPW during the reporting period.
4. Public Outreach and Involvement Activities. In compliance with 49 CFR Section 21.9(b), FTA Circular 4702.1B Chapter III-5.8, and FTA Circular 4703.1, DTPW has developed a comprehensive Public Participation Plan (PPP). This plan outlines DTPW’s commitment

to inclusive, equitable, and accessible public engagement, particularly for individuals and communities who have been historically underserved due to race, color, national origin, LEP, income level, or disability.

The PPP is designed to ensure that all stakeholders have meaningful opportunities to participate in transportation planning and decision-making processes. It also integrates environmental justice principles to help identify and address disproportionately high and adverse effects on minority and low-income populations. During a typical year, DTPW actively engages the public by participating at local events, conducting interactive presentations, performing outreach activities throughout the DTPW transit service area, and combination of social media and digital advertising within communities across Miami-Dade County.

5. Access for Limited English Proficiency (LEP) Persons. DTPW is committed to ensuring meaningful access to its transit services for individuals with LEP. In alignment with Title VI of the Civil Rights Act of 1964 and the USDOT's LEP Guidance, DTPW has developed a comprehensive LEP Plan that outlines strategies for identifying LEP populations, translating vital documents, providing interpreter services, training staff, and ensuring that LEP individuals are effectively engaged in transit planning and service delivery.
6. Minority Representation on Planning and Advisory Boards. DTPW provided the demographic breakdown of members of transit-related, non-elected planning boards, advisory councils, committees or similar bodies, and a description of efforts made to encourage participation of minorities on such committees.
7. Sub-Recipient Monitoring. As a designated recipient of FTA funds, DTPW receives, administers, and allocates funds to subrecipients and is responsible for documenting compliance with Title VI. DTPW's responsibilities include monitoring subrecipient compliance with Title VI, collecting and reviewing Title VI documents, including subrecipient Title VI data to FTA, and providing assistance and support to subrecipients.
8. Title VI Efficiency Analysis for Determining Site or Location of Facility. In accordance with 49 CFR part 21, the FTA requires that recipients conduct a Title VI efficiency analysis during the planning stages when determining the site or locations of facilities to ensure that any displacements of persons from their residences and businesses are not determined on the basis of race, color, or national origin. During the time period of this Program Update, DTPW had one (1) construction project, the South Dade Electric Bus Maintenance Facility, and a Title VI Efficiency Analysis was conducted to demonstrate that the facility site was selected in accordance with the FTA Circular 4702.1B.
 - South Dade Transit Maintenance Facility

Miami-Dade County Department of Transportation and Public Works (DTPW) is a new bus maintenance and operations facility to serve the South Dade area. The new facility is a 100% all-electric vehicle facility, the first in Florida and one of the largest in the nation. Existing South

Dade transit services require an additional maintenance and operations facility that can accommodate additional fleet vehicles consisting of approximately 100 new, battery-electric articulated buses.

The new operations and maintenance facility supports improved mobility between downtown Miami and residents in Pinecrest, Palmetto Bay, Cutler Bay, Homestead, and Florida City.

9. Annual Certification and Assurances. As a federal grant recipient, DTPW files its annual Certification and Assurances with FTA. The most recent annual certification and assurance was signed June 6, 2025.

PROGRAM SPECIFIC REQUIREMENTS

1. Service Standards and Policies. DTPW's system-wide service standards are contained in the agency's "Miami-Dade Transit Service Standards" document dated November 4, 2009. These standards and policies assist in guiding the development and delivery of service in support of DTPW's mission to enhance the quality of life of Miami-Dade County residents, businesses, and visitors by delivering safe, clean, efficient, reliable, sustainable, and equitable public transportation infrastructure and services. They also provide benchmarks to ensure that service design and operations practices do not result in discrimination on the basis of race, color, or national origin.
2. Demographic Data. Consistent with the requirements of Title VI, DTPW staff use geographic information systems (GIS) mapping software to create maps that identify affected low-income, minority, and LEP communities. The analysis is shared with DTPW staff working with affected communities to identify strategies to engage minority, low-income, and LEP populations.
3. Title VI Monitoring Program. As mentioned above, as a designated recipient of FTA funds, DTPW receives, administers, and allocates funds to subrecipients and is responsible for documenting compliance with Title VI. DTPW's responsibilities include monitoring subrecipient compliance with Title VI, collecting and reviewing Title VI documents, including subrecipient Title VI data to FTA, and providing assistance and support to subrecipients.
4. Major Service Change Policy, Disparate Impact Policy, and Disproportionate Burden Policy. All changes in service meeting the definition of "Major Service Change" are subject to a Title VI efficiency analysis prior to Board approval of the service charge. While performing a Title VI efficiency analysis, DTPW will analyze how the proposed Major Service Change could disparately impact minority populations, as compared to non-minority populations. Additionally, DTPW will also analyze how the proposed Major Service Change could disproportionately burden low-income populations, as compared to non-low-income populations.

5. Service and/or Fare Efficiency Analysis. During the reporting period for this 2025 Program Update, DTPW had one (1) Major Service Change:

- Metrobus Network formerly Better Bus Network (BBN)

The Better Bus Network represents the first major overhaul of Miami-Dade's bus routes in nearly 40 years. This initiative was developed to modernize the transit system, making it more efficient and responsive to the needs of the community. The redesign was initiated in response to changing population dynamics, jobs centers and traffic patterns in the county.

BCC approved the Better Bus Network on October 05, 2021, with the resolution for implementation on, or after, April 2022

Phase I- July 2023

Three high frequent corridors:

1. Key Biscayne
2. 62nd Street
3. Transitway

Phase II – November 2023

- 96% of the originally approved plan
- 4% service reduction due to operator shortage • mainly existing service reductions formalized
