Agenda Item No. 8(P)(6)

Resolution No. R-1166-25

Subject: Request for a Non-Competitive Designated Purchase for Additional Expenditure Authority and Approval of Supplemental Agreement No. 4 for Airport Security Communications

Summary

This item is for additional expenditure authority and approval of Supplemental Agreement No. 4 to continue purchasing technical support and preventative and corrective maintenance services for the Miami International Airport (MIA) Airport Security Network (ASN) for the Miami-Dade Aviation Department (MDAD). Over the past several years, airport security requirements have significantly evolved, leading to the introduction of new technologies and expansions to the ASN infrastructure. With the expansion of the ASN to include 69 additional locations, the services provided under the contract have increased, requiring adjustments to the contract to maintain consistent service delivery. Supplemental Agreement No. 4 formalizes the addition of the new locations, adjusts the monthly service fees to reflect the increased level of services, and incorporates the most recent County and Federal Aviation Administration (FAA) contract provisions.

The additional allocation will cover higher maintenance and warranty costs, and provide for future work under this contract that will support the expansion of MDAD's security infrastructure across new locations. These upcoming installations are critical to meeting regulatory compliance, modernizing surveillance capabilities, and enhancing perimeter and internal security coverage at MDAD's facilities. Each identified location aligns with MDAD's strategic security objectives and supports their mission to maintain a secure, efficient, and compliant operational environment.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve a non-competitive designated purchase pursuant to Section 2-8.1(b)(3) of the Miami-Dade County Code (Code), by a two-thirds vote of the Board members present, under *Contract No. L-4400001195, Airport Security Communications*, to authorize additional expenditure authority in the amount of \$2,368,608 and approve Supplemental Agreement No. 4 for MDAD.

Background

This legacy contract was awarded by the Board to Certified Network Professionals, Inc. (CNP) on February 7, 2017, via Resolution No. R-105-17 in the amount of \$14,469,000 for a six-year term with two, two-year options to renew (OTRs). During the initial term of the contract, additional expenditure authority was approved by the Board via Resolution No. R-853-20 to address MIA's evolving and increasingly complex security requirements by expanding and modifying the existing integration and server environment and implementing new technologies. The modification included approximately \$4 million for complete upgrades to the ASN, including adding 44 new locations as part of MDAD's security network expansion efforts, as well as higher monthly maintenance fees resulting from the increased efforts required to provide a consistent level of onsite performance for the new locations. The contract was subsequently modified under delegated authority to approve additional expenditure authority for the purchase of software, licenses, and associated professional services to upgrade MIA's credentialing

system, as well as to cover the increased cost of standard maintenance support services and warranty. The contract is currently in the second OTR term.

In order to address current and future needs resulting from evolving airport security requirements, MDAD has continued to introduce new technologies and has considerably increased the scope of work required from CNP under this contract. Since the approval of the first contract modification, an additional 69 locations have been added to the ASN as part of the MIA security network expansion efforts that included Homestead Airport and the Perimeter Intrusion Detection System. The addition of these locations requires added support from CNP for the continuation of consistent service delivery and performance on the contract.

Competition is not practicable due to the critical nature of the ASN and lack of availability of authorized service providers. The ASN includes fully integrated components from three manufacturers. All components are dependent on one another to function properly. Relying on multiple service providers for technical support, maintenance, and repair services could result in system downtime. CNP is the only authorized service provider for all three manufacturers. Accordingly, it is in the County's best interest to approve this designated purchase pursuant to Section 2-8.1(b)(3) of the Code to continue providing warranty and maintenance services as well as to fund future expansion projects for the ASN.

Scope

Miami International Airport is located within District 6, which is represented by Commissioner Natalie Milian Orbis; however, the impact of this item is countywide in nature.

Delegated Authority

The County Mayor or the County Mayor's designee will have the authority to execute Supplemental Agreement No. 4 and exercise all provisions contained therein, pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.

Fiscal Impact/Funding Source

The contract expires on February 28, 2027, and has an existing cumulative allocation of \$25,854,062. If this request is approved, the contract will have a modified cumulative allocation of \$28,222,670. The requested increase in expenditure authority is based on increased monthly fees and projected costs for future expansion projects for the ASN.
