Subject: Recommendation for Approval of a Non-competitive Designated Purchase to Exercise the Four, One-year Option to Renew Terms with Expenditure Authority for Rainfall Data Monitoring and Analysis

Agenda Item No. 8(P)(7)

Resolution No. R-394-26

Summary

This item is seeking approval to exercise the four, one-year option to renew (OTR) terms with expenditure authority under this contract, to allow the Miami-Dade Water and Sewer Department (WASD) to maintain the reliability and efficiency of Miami-Dade County's wastewater management system through the continued acquisition of the Gauge Adjusted Radar-Rainfall (GARR) Monitoring System. The GARR system provides critical, highly accurate rainfall data by integrating radar technology with ground-based measurements, which is essential for managing the County's extensive wastewater network, predicting flooding, and preparing for emergencies.

Due to the specialized nature of the GARR data and the unique proprietary technology involved, only one vendor, Vieux & Associates Inc. (Vieux & Associates), can meet this requirement. Their proprietary technology includes advanced radar systems and exclusive algorithms that integrate radar and gauge data to deliver highly accurate and actionable rainfall information. This makes Vieux & Associates the sole provider capable of offering the comprehensive data and analysis services necessary for the County's operations. As no other vendors offer a comparable solution, exercising the OTRs is essential to ensure that the County continues receiving the high-quality data needed to manage the wastewater system effectively, preventing risk to public health and property damage.

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize a non-competitive designated purchase pursuant to Section 2-8.1(b)(3) of the Code of Miami-Dade County to exercise the four, one-year options to renew with expenditure authority in the amount of \$509,308, by a two-thirds vote of the Board members present, under *Contract No. SS-10483, Rainfall Data Monitoring and Analysis*, for WASD.

Background

The current sole source contract, awarded under the Mayor's delegated authority on January 1, 2025, is for the amount of \$244,767 for a two-year term and includes four, one-year OTRs. The contract is currently in the initial term. Board approval is required as the expenditure authority for the OTR terms exceeds the County Mayor's delegated authority.

WASD uses this contract to purchase GARR data and analysis services, which include access to highly accurate rainfall data, real-time monitoring, and comprehensive analysis necessary for effective wastewater management. These services are critical for ensuring the uninterrupted functionality of WASD's wastewater collection and transmission systems (WCTS), which include over 1,000 pumping stations and more than 2,500 miles of collection mains. The specialized GARR data is necessary for the modeling, analysis, and real-time decision-making required to manage the WCTS response to wet-weather flow events. This information is used to evaluate system performance and track infiltration and inflow (I/I) levels. Additionally, this data will be used to determine baseline conditions of historical storm events and characterize the intensity and return period of storm events to ensure compliance with

regulatory guidelines. Exercising the OTR terms will ensure that these services are maintained at a fixed and predictable cost, which is essential for budgeting and long-term planning.

Competition is not practicable, as Vieux & Associates, Inc. is the exclusive provider of the specialized technology and data required. Their proprietary radar and data integration systems are uniquely capable of delivering the comprehensive rainfall monitoring and analysis services needed for the County's wastewater management operations. Accordingly, it is in the County's best interest to approve this designated purchase pursuant to Section 2-8.1(b)(3) of the County Code to continue these services.

Scope

The impact of this item is countywide in nature.

Delegated Authority

The County Mayor or the County Mayor's designee will have the authority to exercise all provisions of the contract, including any cancellation, renewals, or extensions, pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.

Fiscal Impact/Funding Source

The initial contract term expires on December 31, 2026, and has a current allocation of \$244,767. If approved, the contract's cumulative allocation will be \$754,075 and will expire December 31, 2030. The requested allocation is based on anticipated needs for the OTR terms.

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with SPD's Procurement Guidelines to determine vendor responsibility, including verifying corporate status and that there are no performance and compliance issues through various vendor responsibility lists and a keyword internet search. The lists that were referenced included convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to vendor responsibility.
