Agenda Item No. 3(B)(1)

From: Daniella Levine Cava
Mayor

Resolution No. R-587-26

Subject: Recommendation for Ratification of an Emergency Contract for Electrical
Infrastructure Oversight and Maintenance Service

Executive Summary

This item is to ratify an emergency contract award for electrical infrastructure oversight and maintenance services for Miami-Dade County's (County) Lightspeed Facility (Lightspeed), in the amount of \$358,256 for the People and Internal Operations Department (PIOD). Lightspeed is one of the County's most critical facilities, housing the County's 911 call center, 311 operations, the Real Time Crime Center (RTCC), and Communications, Information and Technology (CITD) servers.

On April 25, 2025, a construction incident led to the compromise of electrical systems by Suffolk Construction Company, Inc. (Suffolk), the contractor on the adjacent Integrated Command and Communications Center project (IC3). Continuous operation of Lightspeed is essential to ensure uninterrupted emergency response services for residents and visitors. Any disruption to its electrical systems could pose an immediate threat to public health, safety, and welfare. Therefore, PIOD acted quickly to resolve any electrical problems.

Solares Electrical Services, Inc. ("Solares") was engaged on an emergency basis to provide electrical infrastructure oversight and monitoring on Lightspeed. Solares was uniquely qualified for this engagement, as they were already on site performing electrical work under a separate active construction contract at Lightspeed, giving them firsthand knowledge of the building's electrical and mechanical systems.

Recommendation

It is recommended that the Board of County Commissioners (Board) approve ratification of an emergency contract award, *Contract No. E-10684, Electrical Infrastructure Oversight and Maintenance Service* to Solares Electrical Services, Inc. in the amount of \$358,256. The County is pursuing all remedies available under the contract with Suffolk, including recovery of costs associated with this emergency contract award.

The IC3 at Lightspeed represents a much-needed investment in the County's public safety infrastructure. Currently, emergency management and public safety communications operations are dispersed across multiple facilities, and lack the resiliency, technological integration, and shared location required to support continuity of critical services during major disasters or security events. The IC3 addresses these vulnerabilities by consolidating critical functions into a single, resilient facility designed to support sustained emergency communications and ensure essential services continue without interruption during emergency scenarios.

The IC3 will strengthen the County's ability to deliver timely public information and a coordinated emergency response during hurricanes, severe weather, and other major incidents, reducing response delays and enhancing the County's capacity to protect lives and property for our community. The facility reflects nationally recognized best practices in emergency management

facility design, integrating hardened, weather-proof infrastructure, redundant systems, and centralized command functions during hurricanes, major disasters, and security incidents.

Background

On April 25, 2025, following a construction incident at Lightspeed, PIOD declared an emergency and executed an emergency purchase to secure continuous oversight of the facility's electrical and cooling systems to protect public health and safety. Lightspeed houses the County's 911 call center, 311 operations, the RTCC, and critical servers supporting 911 ITD operations, PIOD security, and other essential County functions. Additional details about the incident are not included in this memorandum in order to safeguard confidential information regarding the County's security plan and security systems.

Under this emergency purchase, Solares provided around-the-clock monitoring and management of electrical systems and controls and remained on site to supervise and protect the County's investment in the newly installed mechanical equipment, ensuring that the corrective work did not cause damage. As the only entity with the knowledge and familiarity of this equipment, Solares was uniquely capable of performing the work needed.

Scope

Lightspeed is located within District 12, which is represented by Commissioner Juan Carlos Bermudez; however, the scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the emergency contract is \$358,256 for a one-time purchase.
