Resolution No. R-612-26

Subject: Approval of a Contract Award Recommendation for Concourse F to H Interconnector
at Miami International Airport; Contract No. CA004A

EXECUTIVE SUMMARY

Miami-Dade County continues to advance the transformation of Miami International Airport (MIA) into a world-class aviation hub through the expanded \$12 billion Modernization In Action (M.I.A.) Plan. Aligned with the goals of MIA's Forward Flight Team and the CARE-MIA Advisory Board, this long-term program delivers critical capital improvements that enhance infrastructure, support growing passenger demand, and strengthen MIA's role as a leading U.S. airport and the premier Gateway to Latin America and the Caribbean.

Maintaining the reliability and integrity of existing airport infrastructure is essential to ensuring consistent, high-quality operations. As part of these ongoing efforts, the Miami-Dade Aviation Department (MDAD) is advancing a major initiative to implement post-security interconnectivity between multiple concourses at MIA. This program is designed to strengthen operational performance, improve passenger flow dynamics, and optimize end-to-end airline processes across the airport. To deliver these improvements, MDAD issued a competitive solicitation for construction services, ensuring the work is executed to the highest standards of safety, efficiency, and continuity of airport operations.

This item seeks approval from the Board of County Commissioners (Board) to award a competitive construction contract to the joint venture of Lemartec-NV2A JV, LLC (Lemartec-NV2A) for MIA Concourse F to H Interconnector; Contract No CA004A. The Architect of Record (Carty Architecture) reviewed the project's bid tally and determined that Lemartec-NV2A base bid of \$35,999,471.00 is 35 percent below the \$54,974,729.00 base estimate prepared by MDAD's cost consultant, RIB US Cost, Inc. Due to the difference between the two estimates, a Responsibility Review was held on April 30, 2026 by Carty Architecture, MDAD and Lemartec-NV2A, and it was confirmed that Lemartec-NV2A is capable of delivering this project successfully, as detailed on page 3 of this memorandum.

The County has agreed to pay Lemartec-NV2A a total compensation of \$50,930,968.00, which includes a 10 percent contingency of \$3,599,947.00, an Inspector General Fee of \$125,133.00, an Art in Public Places Fee of \$752,674.00, and three (3) Dedicated Allowance Accounts (\$100,000.00 for contaminated soil treatment and disposal; \$10,000,000.00 for the TSA office relocation and refurbishment of existing airline space; and \$353,743.00 for permitting costs). The contract term is 820 consecutive calendar days from the effective date of the Notice to Proceed.

RECOMMENDATION

It is recommended that the Board approve the attached resolution awarding Contract No. CA004A to Lemartec-NV2A, for the project entitled: "MIA Cc F to H Interconnector" pursuant to Section 2-8.1 of the Miami-Dade County Code.

SCOPE

The project work scope involves the construction of all work identified in the design packages incorporated into the project, which were prepared by two separate design firms: Carty Architecture, prepared Design Packages 1 and 3, and Leo A. Daly, prepared Design Package 2.

The work shall be performed and completed in accordance with the construction documents for each design package, including but not limited to full compliance with all applicable codes, regulations, and standards; coordination with the architectural and engineering teams and other project stakeholders; adherence to the approved project schedules; obtaining all required permits and inspections; and maintaining all safety and security protocols throughout the duration of the work. The work associated with each design package is outlined below.

- Package 1 includes the MIA Concourse G-to-Concourse H domestic interconnector, comprised of a new four-story structure with new escalators, elevators, and a circulation connector routed through an existing space that will be renovated to provide access to the new third-level domestic connector in Concourse H.
- Package 2 includes the MIA Concourse F-to-Concourse H tenant relocations required to clear the way for the construction activities in Package 3.
- Package 3 reconfigures existing office spaces into a secure/sterile corridor connecting the concourses. The sterile portion of the corridor (for international arriving passengers) will connect Concourse F to Concourse H, while the secure portion of the corridor (for all other passengers) will connect Concourse G to Concourse H.

MIA is located within District 6, which is represented by Commissioner Natalie Milian Orbis; however, the impact of this agenda item is countywide, as MIA is a regional asset.

Project Name: MIA Cc F to H Interconnector

Project No.: CA004A

Contract No: CA004A

Project Location: MIA

Project

Description: To provide construction services at MIA for furnishing all labor, materials, equipment, tools, supervision, and services necessary to implement post-security interconnectivity between multiple concourses at MIA.

Approval Path: Board of County Commissioners, Section 2-8.1 of the Miami-Dade County Code

BACKGROUND:

As part of MIA's broader modernization strategy, the implementation of post-security interconnectivity between multiple concourses has emerged as a top priority, reflecting the airport's commitment to enhancing operational efficiency, elevating the passenger experience, and optimizing end-to-end airline processes. The project will establish secure, post-security connectivity between Concourse F and

Concourse J while maintaining current operational levels. It will also serve as a critical enabling component for the Central Terminal Redevelopment project and other capital improvement projects, while supporting the upgrade of security checkpoint equipment.

The base bid submitted by Lemartec-NV2A JV, LLC in the amount of \$35,999,471.00 is approximately 35 percent lower than the \$54,974,729.00 base-bid estimate prepared by MDAD's cost consultant, RIB U.S. Cost, Inc. Multiple bids were received for the project; however, Lemartec-NV2A submitted the lowest responsive and responsible base bid.

During the Responsibility Review held in April, it was concluded that the variance between Lemartec-NV2A's bid and the cost estimate is primarily attributable to cost efficiencies gained from the joint venture, established subcontractor relationships, and streamlined procurement practices. Lemartec-NV2A also provided detailed clarification regarding cost allocations across several bid categories, including General Requirements, Concrete, Communications, Security and Alarm Systems, and Earthwork. In addition, Lemartec-NV2A reaffirmed that they have a thorough understanding of the project scope, specifications, drawings, and all technical requirements. Based on these findings, Carty Architecture supports the award recommendation to Lemartec-NV2A for this contract, expressing confidence that the firm can deliver the project on schedule and in accordance with County standards.

Liquidated damages have been established and will be deducted from the contract amount of \$1,098.98 for each calendar day delay due to a non-excusable delay. Liquidated indirect costs recoverable by Lemartec-NV2A shall be \$1,922.88 per day for each day the project is delayed.

Procurement History

This construction project, known as Contract No. CA004A, was advertised on February 24, 2026, by the County under full and open competition and closed on April 16, 2026, resulting in four (4) bids received from Lemartec-NV2A, OEC-Paradise JV, Allied Contractors, Inc., and OHLA Building, Inc. On April 23, 2026, the County's Strategic Procurement Department (SPD) issued its Compliance Review, concluding that a compliance review for CA004A cannot be conducted due to the Interim Final Rule (IFR) released by the U.S. Department of Transportation on October 3, 2025 (see Attachment "B" as attached). This Interim Final Rule temporarily suspended the requirements of the DBE program. This project remains subject to all other applicable federal requirements including, but not limited to, Davis-Bacon Wage Rates.

A copy of the SPD Project Worksheet for CA004A shows that this project is a DBE, and no measures are assigned to this construction project due to the Interim Final Rule, resulting in the temporary suspension of the requirements under the DBE Program. A copy of the SPD Project Worksheet is enclosed. (See Attachment "C" as attached)

In a letter dated May 11, 2026, addressed to the Aviation Department, the Architect of Record, Carty Architecture, confirmed that the recommended low bidder qualifies for award of this construction contract. (See Attachment "D" as attached)

SBD's Capital Improvements Information System (CIIS) database has two (2) evaluations for Lemartec-NV2A, with an average evaluation rating of 3.8 out of 4.0 points, which is indicative of an overall performance that is approaching a superior rating. (See Attachment "E" as attached)

According to SPD's Firm History Report, Lemartec-NV2A has been awarded three (3) contracts within the last three years, with a total value of \$900,341,553.00 (see Attachment "F" as attached). The firm has no prior work history with Miami-Dade County, as their partnership was formed in May 2023; however, each firm had successfully performed work for the County independently. Most notably, in 2026, Lemartec Corporation completed the new design-build Ibis parking garage at MIA, adding more than 2,240 spaces, including 50 electric vehicle charging stations. At the same time, NV2A Group, LLC continues to perform design-build work on the Dadeland South Intermodal Station modernization.

NV2A's contract encompasses all major architectural, structural, civil, and systems upgrades associated with the station reconstruction, and the project remains active.

The Contract Summary, Bid Bond, and Required Affidavits (also called "Combined Affidavit") executed by Lemartec-NV2A are enclosed. (See Attachment "G" as attached)

SUBJECT: Compliance Review
Project No. CA004A
MIA Cc F to H Interconnector

On October 3, 2025, the U.S. Department of Transportation issued an Interim Final Rule (IFR) pausing the establishment of the Disadvantaged Business Enterprise (DBE) program goals in contracts until firms have been recertified under the new program standard.

Consistent with the IFR, a no-goal determination has been made for the referenced project. Because no DBE goal may be established under the current rule, this memorandum is being issued solely to document that, due to the requirements of the IFR, a Compliance Review cannot be completed at this time.

The project remains subject to all other applicable federal requirements including, but not limited to, Davis-Bacon Wage Rates.

Re: Bid No. CA004A Miami International Airport (MIA) F to H Interconnector Architect of Record Bid Evaluation, Analysis, and Initial Recommendation for Award

Dear Ms. Novela,

As the Architect of Record for the Miami International Airport (MIA) Concourse F to H Interconnector, our team has completed a review of the bids received in response to the MDAD's solicitation. Based on our evaluation of the four bids received and comparison with the estimate prepared by RIB US Cost dated 03/25/2026, the lowest responsible bidder is Lemartec-NV2A JV.

The base bid amount of \$35,999,471 submitted by Lemartec-NV2A JV is significantly lower than the escalated RIB US Cost base estimate of \$54,974,729. The difference is \$18,975,258 or approximately 35% lower.

Lemartec-NV2A JV has validated through the responsibility review meeting held on April 30th, 2026, their understanding of the scope of work as well as answering satisfactorily all of our team's questions. The following are some of the most notable items in their estimate that were discussed at the meeting:

- **Division 01 - General Requirements:**

Lemartec-NV2A JV's bid \$3,841,045 vs. RIB US Cost estimate \$7,750,841 (\$3,909,796 or 50% lower). Lemartec-NV2A JV explained that their strong presence at MIA and in surrounding areas, with ongoing construction projects, provides them with an advantage over other bidders. This advantage translates into significant cost efficiency in their bid.

- **Division 03 - Concrete:**

Lemartec-NV2A JV's bid \$837,316 vs. RIB US Cost estimate \$3,187,652 (\$2,350,336 or approx. 74% lower). Lemartec-NV2A JV Contractors' pricing reflects strong relationships

with their subcontractors. Additionally, they clarified that all the concrete piles are under Division 31 Earthwork, which explains why they're lower.

• **Division 27 – Communications, Security, and Alarm Systems:**

Lemartec-NV2A JV's bid \$1,272,415 vs. RIB US Cost estimate \$492,567 (\$779,848 or approx. 158% higher). The representatives explained that Division 27 should be evaluated together with Division 28, where their bid is lower than the RIB US cost estimate. Additionally, through efficient procurement strategies and strong subcontractor relationships, the bidder was able to reduce the overall cost.

• **Division 31 - Earthwork:**

Lemartec-NV2A JV's bid \$1,555,356 vs. RIB US Cost estimate \$1,181,594 (\$373,762 or approx. 32% higher). As explained above, since all concrete piles are included under Earthwork, reviewing Division 03 together with Division 31 reduces the variance. This is further supported by their strong presence in the area and established relationships with subcontractors.

Lemartec-NV2A JV reassured to all present that they have:

- A thorough understanding of project scope, drawings and specifications along with technical requirements for this project.
- All line items as described in the drawings and specifications as part of their bid.
- All allowances, as specified.
- Clear acknowledgement of all addenda and County requirements.
- Competitive pricing aligned with the project's expectations and budget.

We believe Lemartec-NV2A JV is fully capable of delivering this project successfully, on schedule, and in accordance with County standards and is aware of all the scope needed to complete the project. For these reasons, we recommend award of contract to Lemartec-NV2A JV.

Sincerely,

By submission of an offer, the Offeror certifies that with respect to this solicitation and any resultant contract, the Offeror –

- 1) is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms as published by the Office of the United States Trade Representative (USTR);
- 2) has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country included on the list of countries that discriminate against U.S. firms as published by the USTR; and
- 3) has not entered into any subcontract for any product to be used on the Federal project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18 USC § 1001.

The Offeror/Contractor must provide immediate written notice to the Owner if the Offeror/Contractor learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The Contractor must require subcontractors provide immediate written notice to the Contractor if at any time it learns that its certification was erroneous by reason of changed circumstances.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR § 30.17, no contract shall be awarded to an Offeror or subcontractor:

The Offeror agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in all lower tier subcontracts. The Contractor may rely on the certification of a prospective subcontractor that it is not a firm from a foreign country included on the list of countries that discriminate against U.S. firms as published by USTR, unless the Offeror has knowledge that the certification is erroneous.

This certification is a material representation of fact upon which reliance was placed when making an award. If it is later determined that the Contractor or subcontractor knowingly rendered an erroneous certification, the Federal Aviation Administration (FAA) may direct through the Owner cancellation of the contract or subcontract for default at no cost to the Owner or the FAA.

This single execution shall have the same force and effect as if each of the above affidavits had been individually executed.

- d) To refrain from seeking a waiver request after establishment of the contract, unless extenuating circumstances emerge that the FAA determines justified.

CERTIFICATION OF OFFEROR/BIDDER REGARDING TAX DELINQUENCY AND FELONY CONVICTIONS

The applicant must complete the following two certification statements. The applicant must indicate its current status as it relates to tax delinquency and felony conviction by inserting a checkmark (✓) in the space following the applicable response. The applicant agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification in all lower tier subcontracts.

- 2) The applicant represents that it is (☐) is not (☒) a corporation that was convicted of a criminal violation under any Federal law within the preceding 24 months.

Note

If an applicant responds in the affirmative to either of the above representations, the applicant is ineligible to receive an award unless the Sponsor has received notification from the agency suspension and debarment official (SDO) that the SDO has considered suspension or debarment and determined that further action is not required to protect the Government's interests. The applicant therefore must provide information to the owner about its tax liability or conviction to the Owner, who will then notify the FAA Airports District Office, which will then notify the agency's SDO to facilitate completion of the required considerations before award decisions are made.
