

RYAN WHITE PART A PROGRAM PRESCRIPTION DRUG FORMULARY (Sorted by Brand Name)

This is a comprehensive list of medications that may be required by individuals who have HIV or AIDS. To access these medications funded by the Ryan White Part A/MAI Program, eligible clients must also reside permanently in Miami-Dade County and have a gross household income below 400% of the most current Federal Poverty Level (FPL) guidelines used by the local Part A/MAI Program.

There may be special situations where medications are needed that are not on this list (i.e., HIV-related heart disease or HIV-related kidney failure) and there is a mechanism set up to deal with such extenuating circumstances. However, additions to the Formulary are currently restricted to life-saving or cost-saving medications.

**IMPORTANT NOTES:**

<sup>1</sup> Effective March 1, 2016, use local drug coding system (i.e., "RW Miami Pharma Code") as developed by Miami-Dade County Office of Management and Budget.

<sup>2</sup> Medications assigned a letter notation "A" are available through the Florida AIDS Drug Assistance Program (ADAP). These medications will only be covered by the County's Ryan White Part A or Minority AIDS Initiative Programs if the ADAP has a waitlist or the medications are not available through ADAP. In addition, if another letter notation is indicated, the specified criteria under the designated letter must be met. Refer to the accompanying Comments/Notations attachment for more details on each letter notation. **Yellow** shading in the list below reflects the addition of **any** new medication, ADAP or other. **Green** shading is a new or revised notation to an existing medication.

<sup>3</sup> Prescription Drug referrals will be good for the life of the prescription and may be written for one (1) initial (original) and no more than five (5) monthly refills for medications listed on this Formulary as deemed necessary by the client's physician and as allowable by State of Florida law; unless the client becomes ineligible for Ryan White Part A or MAI Program-funded services.

<sup>4</sup> Vaccines (Hep A, Hep B, Pneumovax, etc.) have been removed from the Ryan White Program Prescription Drug Formulary. Where applicable, vaccines may be provided and billed for under the Ryan White Program outpatient medical care services using the appropriate Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) code, only if these vaccines are not available from any other funding source (e.g., Medicaid, ADAP, private insurance, etc.).

<sup>5</sup> All medications dispensed should be generic unless a generic is not available. However, Ryan White Part A/MAI Program-funded prescription drug service providers must use the most cost-effective product, either brand or generic, whichever is less expensive at the time of dispensing.

<sup>6</sup> There is no limitation on dosage or formulation unless otherwise noted specifically on this Formulary.

<sup>7</sup> The Ryan White Program must always be used as the payer of last resort.

<sup>8</sup> If the Notation cell on the Part A Formulary indicates an "A" and is highlighted yellow (or shaded) this means the medication was recently added to the ADAP Formulary through its Phase 2 expansion; and these medications are part of a transition grace period through June 30, 2018. During this grace period, clients may continue to use Part A to access these highlighted medications; but, they are expected to enroll in or maintain active enrollment in ADAP before June 30, 2018. An original prescription or electronic prescription (eScript) is required for ADAP enrollment. **This Notation is no longer applicable.**

<sup>9</sup> Effective August 19, 2019, all antiretrovirals will be automatically added to the Ryan White Program Part A Prescription Drug Formulary once they are added to the Florida ADAP Formulary, unless the Part A Recipient (i.e., Miami-Dade County) deems discussion with the Partnership necessary.
