

HAB HIV Performance Measures

The Health Resources and Services Administration, HIV/AIDS Bureau (HRSA/HAB) has developed several performance measures that can be used by all programs funded by the Ryan White HIV/AIDS Program that provide HIV care or other relevant services. The measures can be used either at the provider or system level. Striving to reach 100% achievement for each performance measure is a laudable goal, but is not required. HRSA/HAB recommends that grantees use national benchmarks and baseline data to set realistic goals for funded agencies. As a result, the Miami-Dade HIV/AIDS Partnership and the County's Ryan White Program have adopted several of these performance measures.
