

# **Ryan White Program Service Delivery Guidelines Fiscal Year 2018 (Year 28)**

*Miami-Dade County  
Office of Management and Budget  
Grants Coordination*

**Effective March 1, 2018**

*(unless otherwise noted herein)*

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number H89HA00005, CFDA #93.914 - HIV Emergency Relief Project Grants, for a partial award of \$11,816,877, as of March 16, 2018. (NOTE: The FY 2018 award amount will be updated when the final Notice of Award has been received. This total is still pending as of May 11, 2018.) Development and distribution of this document was 100% federally funded. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

**RYAN WHITE PROGRAM SERVICE DELIVERY GUIDELINES**  
**FY 2018 (YEAR 28)**

**TABLE OF CONTENTS**

**SECTION I: SERVICE DEFINITIONS**

|   | <b><u>Page #</u></b> |
|---|----------------------|
| I. GENERAL REQUIREMENTS – All Service Categories .....  | 8-14                 |
| II. MINORITY AIDS INITIATIVE (MAI) REQUIREMENTS – Medical Case Management, Outpatient/Ambulatory Health Services, Outreach Services, AIDS Pharmaceutical Assistance, Substance Abuse Services (Residential) ..... | 15-16                |
| III. REFERRAL REQUIREMENTS – All Service Categories .....   | 16-17                |
| IV. ADDITIONAL EXPECTATIONS FOR SERVICE PROVISION TO IMPROVE CLIENT HEALTH OUTCOMES .....   | 17-18                |
| V. REQUIRED DISCLAIMER FOR HRSA-SUPPORTED PUBLICATIONS .....  | 18-19                |
| VI. REQUIREMENTS FOR HANDWRITTEN DOCUMENTS, SIGNATURES, OR NOTES .....  | 19                   |
| VII. PROGRAM INCOME REQUIREMENTS .....  | 19-20                |
| VIII. ALLOWABLE SERVICES .....  | 20-21                |

***IMPORTANT NOTE:** Service definitions appear in alphabetical order below. The Service Priority number (SP#) is indicated, as established by the Miami-Dade HIV/AIDS Partnership for FY 2018 (Year 28). Service category names have been changed to reflect HRSA Policy Clarification Notice #16-02.*

|   |              |

**Ryan White Program  
Service Delivery Guidelines  
Fiscal Year 2018  
(Year 28)**

**Section I –  
Service Definitions**

*Miami-Dade County  
Office of Management and Budget  
Grants Coordination*

## I. GENERAL REQUIREMENTS – All Service Categories

**IMPORTANT NOTES:** Except for Substance Abuse Services (Residential), all Ryan White Program Part A and Minority AIDS Initiative-funded services are restricted to outpatient services only. The Ryan White Program must always be the payer of last resort.

- A. Service Delivery Standards:** All subrecipients (providers) will adhere to the *Ryan White Program System-wide Standards of Care* and other applicable standards and guidelines that are relevant to individual service categories (i.e., *Ryan White Program Medical Case Management Standards of Service, Primary Medical Care Standards for Chart Review, and Oral Health Care Standards*); and Public Health Service Clinical Guidelines for the Treatment of AIDS-Related Disease, HAB HIV Core Clinical Performance Measures for Adult/Adolescent Clients, etc.), as may be amended. Please refer to Section III of this FY 2018 Service Delivery Guidelines book for details.
- B. Client Eligibility Criteria:** Providers must document that clients who receive Ryan White Program-funded services have a Ryan White Program Certified Referral or have documentation on file that the client:
- Is HIV positive or has AIDS; a confirmatory HIV test result is required, unless otherwise specifically noted herein;
    - **IMPORTANT NOTE:** For the purpose of linkage to care for a newly diagnosed client who has a preliminary reactive test result and a pending confirmatory HIV test result only, such clients may receive limited Medical Case Management (including Treatment Adherence Services and peer support), Outpatient/Ambulatory Health Services, or Outreach Services while the confirmatory HIV test result is pending. These limitations are further detailed under the corresponding service definitions in Section I of this local FY 2018 Ryan White Program Service Delivery Guidelines book. This is necessary in order to reduce a related barrier in accessing care in a timely manner for this population. Services funded by Ryan White Program dollars will either continue or cease for the client depending on the results from the confirmatory HIV test.
  - Has a documented gross household income that does not exceed 400% of the 2018 Federal Poverty Level (FPL) for core medical services (see below for definition);
    - Income level caps for support services vary and can be found in the individual service definitions located within this book.

- Although the Ryan White Program has no cash asset qualifications, providers are required to check for Property Information on the property tax page of the Miami-Dade County Tax Collector website (<https://www.miamidade.county-taxes.com/public>) to ensure that all Ryan White Program-eligible clients are screened at initial intake and at each 6-month re-assessment to ensure that they do not have additional income from rental property. Clients who have more than one property listed in their name must have their gross household income adjusted accordingly. Documentation to support the completion of this search (showing additional properties or no properties) must be filed in the client's chart. The review must be conducted on the client's name not solely on the address of record.
- Is a current and permanent physical resident of Miami-Dade County;
- Is documented as having been properly screened for Medicaid, , Medicaid Managed Medical Assistance (MMA) or Long-term Care (LTC), Medicare, other public sector funding, and private insurance, as appropriate. While clients qualify for and can access Medicaid, Medicaid MMA or LTC, Medicare, other public funding, or private insurance for services, they will not be eligible for Ryan White Program-funded services, except for those services, tests, and/or procedures, etc., related to the client's HIV disease that are not covered by other funding sources.
- The Ryan White Program is the payer of last resort:
  - Ryan White HIV/AIDS Program legislation, codified in Title XXVI of the Public Health Service Act, stipulates that funds received will not be utilized to make payments for any item or service to the extent that payment has been made, or can reasonably be expected to be made, by another payment source. At the individual client level, this means recipients (the County) must assure that funded subrecipients (service providers) make reasonable efforts to secure non-Ryan White HIV/AIDS Program funds whenever possible for services to eligible clients. In support of this intent, it is an appropriate use of Ryan White HIV/AIDS Program funds to provide case management (medical or non-medical) or other services that, as a central function, ensure that eligibility for other funding sources is aggressively and consistently pursued [e.g., Medicaid, Children's Health Insurance Program (CHIP), Medicare, other local or State-funded HIV/AIDS programs, and/or private sector funding, including private insurance].

- An exception of this requirement extends to clients who have Veterans Administration (VA) benefits, who are otherwise eligible for Ryan White Program services and choose to access the Ryan White Program first.
- In addition to each subrecipient's internal Client Rights and Responsibilities statement, following the Florida Patient's Bill of Rights and Responsibilities (Section 381.026, Florida Statutes), and the local Ryan White Program's Client Rights and Responsibilities, it is expected that each client served by the local Ryan White Program understands that they have the right to:
  - Be treated with courtesy and respect, with appreciation of his or her individual dignity, and with protection of his or her need for privacy [and confidentiality; as well as receive courteous, considerate care and professional services];
  - Receive a prompt and reasonable response to questions and requests;
  - Know who is providing medical [and dental] services and who is responsible for his or her care;
  - Knows what [core medical and] support services are available, including whether an interpreter is available if he or she does not speak English;
  - Know what rules and regulations apply to his or her conduct;
  - Be given by the health care provider information such as diagnosis, planned course of treatment, alternatives, risks, and prognosis;
  - Refuse any treatment, except as otherwise provided by law;
  - Be given full information and necessary counseling on the availability of known financial resources for care;
  - Know whether the health care provider or facility accepts the Medical assignment rate, if the client is covered by Medicare [or understands what is covered by the local Ryan White Program, including whenever a charge applies for the client to pay];
  - Receive prior to treatment, a reasonable estimate of charges for medical care [if applicable in accordance with sliding fee schedule and program income requirements];
  - Receive a copy of an understandable itemized bill and, if requested, to have the charges explained;
  - Receive medical treatment or accommodations [or any other Ryan White Program-funded services], regardless of race, national origin, creed, religion, disability, [age, ethnicity, gender, gender identification, sexual orientation, marital status], or source of payment;
  - Receive treatment for any emergency medical condition that will deteriorate from failure to provide treatment [subject to funding

- source limitations, such as the Ryan White Program's limitation for outpatient services];
  - Know if medical treatment is for purposes of experimental research and to give his or her consent or refusal to participate in such research;
  - Express complaints regarding any violation of his or her rights [without fear of reprisal; and receive a copy of the subrecipient's complaint and grievance procedures]; and
  - Be involved in the decision making process.
- Clients are responsible for:
    - Providing correct, truthful, and complete information as requested;
    - Following instructions provided by his or her care team;
    - Assisting his or her physician and medical case manager in developing [and adhering to] a plan of care;
    - Keeping appointments or canceling no later than 24 hours in advance of the appointment;
    - Respecting others;
    - Being compliant with taking his or her prescribed medications, and notifying the medical case manager or medical provider in a timely manner if there are problems with medications;
    - Following service provider rules and regulations; and
    - Knowing program requirements, limitations, and restrictions; or requesting same from service provider prior to service delivery.
  - Involuntary Disenrollment of Clients:
    - In support of a service provider's (subrecipient's) internal policies and procedures related to client rights and responsibilities, a client may be involuntarily disenrolled (dismissed) from the local Ryan White Part A/MAI Program, or from a specific subrecipient agency, for the following reasons:
      - Fraudulent use of program assistance;
      - Falsification of documents or purposeful omissions of information required to confirm program eligibility for services;
      - Persistent noncompliance with the medical case manager and client's plan of care; or
      - Disruptive, unruly, abusive or uncooperative behavior to the extent that continued enrollment seriously impairs the service provider's ability to furnish services to either the client or other clients. Such behavior includes, but is not limited to, threats or acts of violence, verbal abuse and harassment, criminal activity, and destruction or theft of property.

- This disenrollment provision **does not apply** to clients with medical or mental health diagnoses if the client's behavior is attributable to such diagnoses.
- An involuntary disenrollment **must be documented** in the client record/chart. This documentation must clearly indicate: 1) the client received at least one (1) verbal **and** one (1) written warning of the full implications of their actions; 2) that service provider staff attempted to educate the client regarding their rights and responsibilities; 3) that service provider staff offered assistance that would enable the client to comply with the organization's rules of conduct; and 4) that appropriate staff determined the client's behavior is not attributable to the client's medical or mental health condition.
- If involuntary disenrollment is warranted and appropriate after completing the four (4) aforementioned steps, service provider staff must attempt to connect the client to another service provider agency to ensure continuity of care. Depending on the circumstances, the service provider is expected to make every effort to connect the client to another agency to ensure continued access to HIV medical care.
- In all cases of involuntary disenrollment/dismissal, the County's Ryan White Program Administrator must be notified of such via a telephone call; then the County will provide further instructions.

**IMPORTANT NOTE:** Some service categories [i.e., Other Professional Services (Legal Services and Permanency Planning), Medical Transportation, etc.] may have more restrictive client eligibility criteria. Carefully review each service category description for additional information.

Additionally, Ryan White Program clients must be re-assessed for income and Miami-Dade County residency eligibility every six (6) months as mandated in the *Ryan White Program Medical Case Management Standards of Service*, unless otherwise specified.

**CLIENT ELIGIBILITY DOCUMENTATION, INCLUDING SPECIFIC DOCUMENTATION REQUIRED FOR THE SERVICE CATEGORY (E.G., PHYSICIAN'S CERTIFICATION OF HOMEBOUND STATUS, LETTER OF MEDICAL NECESSITY, ETC.), MUST BE MAINTAINED IN EACH ORGANIZATION'S CLIENT CHARTS AND IS SUBJECT TO AUDIT BY THE OFFICE OF MANAGEMENT AND BUDGET-GRANTS COORDINATION (OMB). FAILURE TO MAINTAIN CLIENT ELIGIBILITY DOCUMENTATION MAY RESULT IN FORFEITURE OF REIMBURSEMENT FOR SERVICES RENDERED.**

- C. Core Medical Services:** These services, as defined in the Ryan White HIV/AIDS Treatment Extension Act of 2009, and in HRSA Policy Clarification Notice #16-02, are currently limited to the following categories as prioritized by the Miami-Dade HIV/AIDS Partnership (planning council): AIDS Pharmaceutical Assistance (Local Pharmaceutical Assistance Program – LPAP); Health Insurance Premium and Cost-Sharing Assistance for Low-income Individuals (Health Insurance Assistance); Medical Case Management, including Treatment Adherence Services; Medical Nutrition Therapy (locally, as a component of outpatient/ambulatory health services); Mental Health Services; Oral Health Care; Outpatient/Ambulatory Health Services; and Substance Abuse Outpatient Care. Ryan White Program clients may access any of these services without restriction as long as Ryan White Program eligibility has been determined either via a Ryan White Program Certified Referral or an Out of Network (OON) referral, also known as the “General Certified Referral for Ryan White Program Services,” that is generated by a non-Ryan White Program case manager. An OON referral must be accompanied by appropriate Ryan White Program supporting documentation of client eligibility for services and this documentation must be kept in the client chart at the Ryan White Program referral site. **[IMPORTANT NOTE:** without the Ryan White Program Certified Referral or OON Referral the core medical services provider must collect all appropriate documentation for eligibility and enter such information into the Service Delivery Information System (SDIS). See Section III., Referral Requirements, below for more information.]
- D. Support Services:** These services, as defined in the Ryan White HIV/AIDS Treatment Extension Act of 2009, and in HRSA Policy Clarification Notice #16-02, are currently limited to the following categories as prioritized by the Miami-Dade HIV/AIDS Partnership (planning council): Food Bank; Medical Transportation; Other Professional Services (Legal Services and Permanency Planning); Outreach Services; and Substance Abuse Services (Residential). Except in certain outreach scenarios (see revised Outreach Services definition), clients may only receive these support services if they have a Ryan White Program Certified Referral or an OON referral for the service. The Health Resources Services Administration (HRSA; the federal funding source for this program) expects that clients receiving a support service are documented as being engaged in ongoing medical care and treatment.
- E. Performance Improvement and Outcome Measures:** All subrecipients will develop internal performance improvement programs and collaborate with the Miami-Dade County Ryan White Program Quality Management Program contracted to Behavioral Science Research Corporation (BSR). Providers will be evaluated against the outcome measures contained in Miami-Dade County Professional Service Agreements (contracts), the Health Resources and Services Administration’s HAB HIV Performance Measures to include Core, All Ages, Adolescent/Adult, Children, HIV-Exposed Children, Medical Case Management (MCM), Oral Health Care, AIDS Drug Assistance Program (ADAP), and Systems-

Level measures, as may be amended; Ryan White Program Minimum Primary Medical Care Standards for Chart Review; Ryan White Program Oral Health Care Standards; and/or the Performance Improvement Plan (PIP) and its addenda; where applicable. Subrecipients will be responsible for collecting and reporting on specific data to measure performance and outcomes, as detailed in the documents listed above.

Subrecipients funded for AIDS Pharmaceutical Assistance (Local Pharmaceutical Assistance Program - LPAP), Medical Case Management (including Treatment Adherences Services), Mental Health Services, Oral Health Care, Outpatient/Ambulatory Health Services, Outreach Services, Substance Abuse Outpatient Care, and Substance Abuse Services (Residential) must participate in external quality assurance reviews, utilizing individual standardized tools as developed by the Ryan White Program, the Performance Improvement Advisory Team (PIAT), and the Miami-Dade HIV/AIDS Partnership (Partnership). As standardized tools are developed by the Ryan White Program, the PIAT, and the Partnership for Ryan White Program-funded core medical and support services, providers will be required to utilize such tools and participate in related external quality assurance reviews.

- F. Reporting:** Providers must report monthly activity according to the recorded number of client visits, dates of services, type of procedures (if applicable), units of service provided, and unduplicated number of clients served. See individual service category definitions for additional reporting requirements, where applicable.

In addition, the local Ryan White Program uses the nationally recognized HIV Care Continuum model to identify gaps or barriers affecting the program's ability to connect HIV+ people with core medical and support services and to improve client health outcomes. The HIV Care Continuum (or HIV Treatment Cascade) is a model used to identify issues and opportunities related to improving the delivery of services to people living with HIV across the entire continuum of care. This continuum has five steps: (1) HIV Diagnosis; (2) Linkage to Care; (3) Retention in Care; (4) Access to Antiretroviral Therapy; and (5) Viral Load Suppression. Timely reporting of service delivery information, documenting prescribed HIV medications, and uploading or manually entering viral load test results is necessary to track client health outcome, to identify gaps in service delivery or barriers to care, and to identify program improvements to assist clients in achieving and maintaining viral load suppression.

**II. MINORITY AIDS INITIATIVE (MAI) REQUIREMENTS (as may be amended)** – The following requirements will apply to the following service categories if funded with MAI resources: Medical Case Management, Outpatient/Ambulatory Health Services, Outreach Services, AIDS Pharmaceutical Assistance (Local Pharmaceutical Assistance Program - LPAP), and Substance Abuse Services (Residential).

MAI funds are designated to reduce the HIV-related health disparities and improve the health outcomes for disproportionately impacted, HIV+ minority populations, such as Black/African Americans, Black Haitians, and Hispanics. **IMPORTANT NOTE:** For FY 2018, other minority groups not listed in this paragraph may receive available services funded through the Ryan White Part A Program, not through MAI-funded services.

The goal of MAI, like the Ryan White Part A Program, is viral load suppression. MAI funding should be used to address health disparities and health inequalities among minority communities. As instructed by HRSA, MAI funds are to be used to deliver services designed to address the unique barriers and challenges faced by hard to reach, disproportionately impacted minorities within the Eligible Metropolitan Area (EMA). MAI-funded services must be consistent with epidemiologic data and the needs of the community, and be culturally appropriate. MAI-funded services should use population-tailored, innovative approaches or interventions that differ from usual service methodologies and that specifically address the unique needs of targeted sub-groups.

The overarching goal of the MAI is to improve health outcomes by preventing transmission or slowing disease progression for disproportionately impacted communities by:

- Getting persons living with HIV disease into care at an earlier stage in their illness,
- Assuring access to treatments that are consistent with established standards of care, and
- Helping individuals to remain in care.

Organizations funded to provide MAI services in Miami-Dade County must also meet the following criteria:

- 1) Are located in or near to the targeted community they are intending to serve;
- 2) Have a documented history of providing services to the targeted community(ies);
- 3) Have documented linkages to the targeted populations, so that they can help close the gap in access to service for highly impacted minority communities;
- 4) Provide services in a manner that is culturally and linguistically appropriate; and

- 5) Understand the importance of cross-cultural and language appropriate communications and general health literacy issues (including cultural competency, limited English proficiency, etc.) in an integrated approach to develop the skills and abilities needed by HRSA-funded providers and staff to effectively deliver the best quality health care to the diverse populations they serve.

**Providers must clearly specify the target population(s) to be served [i.e., Black/African American (including but not limited to Haitians) or Hispanic. If more than one racial/ethnic group is targeted, the percentage that each group will represent of the total number of minority clients to be served must be identified.**

**III. REFERRAL REQUIREMENTS** – All Ryan White Program-funded providers may accept Ryan White Program Certified Referrals for service if the referral is current, signed and dated (by hand or electronically), includes the title of the referring Medical Case Manager, and indicates the referral’s end date, which may be different depending on the service category. The Ryan White Program Certified Referral verifies that all client eligibility documentation (HIV status, financial income level verification, and current permanent Miami-Dade County residency) and all required consents (Notice of Privacy Practices, SDIS Consent to Release and Exchange Information, and the Composite Consent) have been gathered by the referring Ryan White Program-funded Medical Case Manager and can be found in the client chart at the referring agency’s location. Ryan White Program Certified Referral forms must also be kept on file in the client’s chart at each site where a referral has been received. Failure of the referring agency to maintain appropriate eligibility documentation in the client chart, or of the receiving agency to maintain the actual Ryan White Program Certified Referral in the client chart, is subject to corrective action and fiscal repayment to the County.

A General or Out of Network (OON) Referral may be generated by a non-Part A or non-MAI-funded case manager [e.g., Medicaid Managed Medical Assistance (MMA) or Long Term Care (LTC) care coordinator/case manager, etc.]. A client who is not receiving local Ryan White Part A/MAI-funded Medical Case Management services may also use the OON Referral forms to self-refer themselves to Ryan White Part A/MAI Program core medical or support services in Miami Dade County. However, when an OON Referral, including client self-referral, is used, the OON Referral cover page, Demographics page, and Client Eligibility Checklist must be provided to the agency from where the services are being requested. In addition, when using this OON Referral process, all documentation supporting client eligibility (see Section VI, Eligibility Checklist, of this FY 2018 Service Delivery Guidelines for a list of allowable documents), current Viral Load test results, current CD4 test results (for Oral Health Care services), and consent forms (available at the provider site receiving the referral) required by Miami-Dade County must be attached to the referral. This supporting documentation must be kept in the client chart or the electronic medical record at the site of the agency receiving the referral. For these referrals, a brief intake must be entered into the Service Delivery Information System (SDIS) so that the Part A or MAI-funded organization may generate reimbursement requests (billing) for

services rendered. For the agency receiving an OON referral, failure to maintain the actual OON referral and all supporting documentation and consent forms on file in the client's chart or the electronic medical record is also subject to corrective action and fiscal repayment to the County. Under no circumstances can an agency receiving an OON referral require that the client be assigned a Part A or MAI-funded Medical Case Manager.

Referrals must specify an end date that is detailed in each of the corresponding, specific service category definitions [e.g., Food Bank – referral expires after 4 months; Substance Abuse Services (Residential) – after 4 months; Other Professional Services (Legal Services and Permanency Planning) – after 1 year; and Health Insurance Assistance – on December 31<sup>st</sup> or the end date of the client's health plan policy year]. The Outreach Referral end date is thirty (30) calendar days from the initial referral date. At least one encounter must be provided within this 30-day period. Final Outreach Services must be provided within ninety (90) calendar days of the initial referral date. After ninety (90) calendar days the outreach case should be closed, unless there is a well-documented reason for keeping the outreach case open. OON referrals are good for up to six months, regardless of the service; then a re-certification with supporting documentation is required.

A Ryan White Program Certified Referral is not required to access a core medical service **IF** the provider of the core medical service collects and maintains the appropriate documentation to support eligibility and consents for service. If a service provider agency maintains one client record where all documents reside in that one record, then a Ryan White Program Certified Referral is also not required to access a core medical service at that same provider agency. If a service provider agency maintains multiple records (e.g., medical and social service charts) for a client, then the records must be complete and easily accessible to determine eligibility during a monitoring site visit, record review, or technical assistance visit, and a Ryan White Program Certified Referral is not required in this case. In such cases where no Ryan White Program Certified Referral or Out of Network Referral is used, failure of the provider agency to maintain appropriate eligibility documentation in the client chart is subject to corrective action and fiscal repayment to the County.

All referrals to Ryan White Part A Program's Oral Health Care services should include the client's primary care or HIV physician's contact information (name, address, phone and fax numbers, and email if available) and note any known allergies the client may have. This information can be included in the comments section of the referral; or on page 2 of the Client Eligibility Documentation Checklist for OON Referrals.

**IV. ADDITIONAL EXPECTATIONS FOR SERVICE PROVISION TO IMPROVE CLIENT HEALTH OUTCOMES** – Ryan White Program-funded services should be provided in such a manner as to address the goals of the following national initiatives:

## **Healthy People 2020**

Healthy People 2020 is a national initiative led by the U.S. Department of Health and Human Services (HHS) that sets priorities for all HRSA programs. The initiative has four overarching goals: (1) attain high-quality, longer lives free of preventable disease, disability, injury, and premature death; (2) achieve health equity, eliminate disparities, and improve the health of all groups; (3) create social and physical environments that promote good health for all; and (4) promote quality of life, healthy development, and healthy behaviors across all life stages.

## **National HIV/AIDS Strategy (NHAS) – Updated to 2020 [SUBJECT TO CHANGE]**

The updated National HIV/AIDS Strategy (NHAS) has four strategy goals: (1) reduce new HIV infections; (2) increase access to care and optimize health outcomes for people living with HIV; (3) reduce HIV-related health disparities and health inequities; and (4) achieve a more coordinated national response to the HIV epidemic. The NHAS recognizes the importance of early entrance into care for people living with HIV to protect their health and reduce their potential of transmitting the virus to others. HIV disproportionately affects people who have less access to prevention, care and treatment services and, as a result, often have poorer health outcomes. Therefore, the NHAS advocates adopting community-level approaches to reduce HIV infection in high risk communities and reduce stigma and discrimination against people living with HIV. Ryan White Part A Program-related areas of critical focus include: 1) broad support for people living with HIV or AIDS to remain engaged in comprehensive care, including support for treatment adherence; and 2) universal viral suppression among people living with HIV or AIDS.

## **V. REQUIRED DISCLAIMER FOR HRSA-SUPPORTED PUBLICATIONS –**

When issuing statements, press releases, request for proposals, bid solicitations and other HRSA-supported publications and forums describing projects or programs funded in whole or in part with HRSA funding, the following acknowledgement and disclaimer must be included on all products produced by HRSA grant funds:

“This project is/was supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under [grant number] and [title] for [grant amount]. [i.e., specify grant number as H89HA00005, title as CFDA #93.914 - HIV Emergency Relief Project Grants, and total award amount as indicated in Attachment G of the contract, as may be amended. A total of \_\_\_% of this project was financed with nongovernmental sources. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.”

The actual grant number, title, and grant amount to complete the paragraph directly above are found in each subrecipient’s Exhibit C, Attachment G, under the corresponding Professional Services Agreement for Ryan White Program Services in Miami-Dade County, as may be amended. The percentage is provided by the subrecipient.

Examples of HRSA-supported publications include, but are not limited to, manuals, toolkits, resource guides, case studies, issues briefs, and websites/webpages if the site references the Ryan White Program.

**VI. REQUIREMENTS FOR HANDWRITTEN DOCUMENTS, SIGNATURES, OR NOTES** – All handwritten notes and/or signed entries in a client’s record must be complete and legible. Such entries must be made in ink (preferably black or blue ink) or typed. Pencil or erasable ink shall not be used. Any mistakes made within paper based client records must be corrected by drawing a thin line through the mistake; do not erase, scratch out, or use “white-out”. Corrected mistakes should be initialed and dated. Failure to maintain handwritten records as indicated in this section is also subject to corrective action and potential fiscal repayment to the County for any related disallowed services.

**VII. PROGRAM INCOME** – In accordance with HRSA Policy Clarification Notice #15-03 and HRSA’s National Monitoring Standards for the Ryan White Program (National Monitoring Standards, Fiscal, Part A, Section C: Income from Fees for Services Performed, Revised April 2013), Subrecipients are required to have a Program Income policy which specifically addresses the generation of program income by and for the Ryan White Program. Program income means gross income earned by the non-Federal entity (e.g., the Subrecipient) that is directly generated by a supported activity or earned as a result of the Federal award during the period of performance (i.e., grant fiscal year) except as provided in 45 CFR § 75.307(f), which relates to the generation of income after the period of performance (i.e., after closeout). For purposes of the Ryan White Part A Program, program income includes, but is not limited to, income from fees for services performed (i.e., fees paid by clients based on a sliding fee schedule, or other third parties). Program income does not include rebates, credits, discounts, and interest earned on any of them. Generating income for the Ryan White Program shall be used to help offset other costs incurred by, or non-reimbursable costs specific to, the Ryan White Program.

Accordingly, the Subrecipient will charge the client for services in accordance with its internal Program Income Policy, subject to the sliding fee schedule where applicable. The Subrecipient will also document each instance where a client was asked to pay in accordance with the Program Income Policy, but the Subrecipient was unable to collect such payment after at least three attempts. The Subrecipient will document any instances where a client was unable to pay; and will not refuse services for non-payment.

The Ryan White Program uses the “additive” alternative whereby program income must be used for the purposes for which the award was made, and may only be used for allowable costs under the award. For Ryan White Part A Programs, allowable costs are limited to core medical and support services, clinical quality management, and administrative expenses (including planning and evaluation) as part of a comprehensive system of care for low-income people living with HIV or AIDS. The Subrecipient will document and

track all payments received in accordance with its Program Income Policy, and report to the Recipient (i.e., County) on the annual Final Line Item Expenditure Report (FLIER). Such revenue must be deposited into the account of the program that generated it, and it must be used for the sole purpose to grow or benefit that program. Please carefully review HRSA Policy Clarification Notice #15-03 for more detail regarding this requirement.

**VIII. ALLOWABLE SERVICES** – The next subsections include details of direct client services that are allowable for Ryan White Program-eligible clients and have been prioritized by the Miami-Dade HIV/AIDS Partnership (planning council) as services to be offered through the local Part A and MAI Programs in Fiscal Year 2018.

These services must be provided in accordance with the Ryan White HIV/AIDS Program legislation as codified in Title XXVI of the Public Health Service Act. Services must also be provided in accordance with HRSA’s Policy Clarification Notice #16-02, “Ryan White HIV/AIDS Program Services: Eligible Individuals & Allowable Uses of Funds,” as may be amended. Accordingly, HRSA Policy Clarification Notice #16-02’s guidance has been incorporated into the service definitions of this local Ryan White Program Service Delivery Guidelines book. These services appear in alphabetical order based on the new service category title. The following is a crosswalk of the service category titles from Fiscal Year 2016 to the current titles:

| <b>Original Service Category Name<br/>(RFP 0313 through FY 2016)</b> | <b>New Service Category Name<br/>(PCN #16-02 beginning FY 2017 and continuing in<br/>FY 2018)</b>   |
|--|---|
| Prescription drugs   | AIDS Pharmaceutical Assistance (Local Pharmaceutical Assistance Program – LPAP)   |
| Food bank  | Food Bank   |
| Health insurance services  | Health Insurance Premium and Cost Sharing Assistance for Low-Income Individuals (Health Insurance Assistance)   |
| Medical case management  | Medical Case Management, including Treatment Adherence Services (Medical Case Management) <i>(includes Peer Education and Support Network, locally)</i> |
| Transportation vouchers  | Medical Transportation (vouchers; discounted EASY Tickets)  |
| Mental health therapy/counseling                                     | Mental Health Services  |
| Oral health care   | Oral Health Care  |
| Legal assistance   | Other Professional Services (Legal Services and Permanency Planning)  |

| <b>Original Service Category Name<br/>(RFP 0313 through FY 2016)</b> | <b>New Service Category Name<br/>(PCN #16-02 beginning FY 2017 and continuing in<br/>FY 2018)</b> |
|--|---|
| Outpatient medical care  | Outpatient/Ambulatory Health Services   |
| Outreach Services  | Outreach Services   |
| Substance abuse counseling -<br>outpatient                           | Substance Abuse Outpatient Care   |
| Substance abuse counseling -<br>residential                          | Substance Abuse Services (Residential)  |

As related to provision of services under this grant funding, contracted subrecipients must also adhere to all applicable requirements in the County's corresponding Professional Services Agreement and in the federal Uniform Guidance regulations, as codified in 2 CFR 200 and 45 CFR 75.

Federal Ryan White HIV/AIDS Program legislation provides grant funds to be used for care and treatment of people diagnosed with HIV. HRSA Program Letter dated June 22, 2016, prohibits the use of Ryan White Part A and MAI funds for PrEP medications and related medical services, such as physician visits and laboratory costs associated with the provision of PrEP services.

**Within the Ryan White Program network of service providers (subrecipients), it is the client's choice of which provider he or she wishes to receive services from.**

**AIDS PHARMACEUTICAL ASSISTANCE  
(LOCAL PHARMACEUTICAL ASSISTANCE PROGRAM – LPAP)  
(General HIV/AIDS Population & MAI)  
(YEAR 28 Service Priority #4 for Part A and #3 MAI)**

- A. **AIDS Pharmaceutical Assistance (Local Pharmaceutical Assistance Program – LPAP)** is a core medical service. The purpose of the **LPAP** component (i.e., prescription drug services) of the AIDS Pharmaceutical Assistance service category, in accordance with federal Ryan White Program guidelines, is “to provide therapeutics to treat HIV/AIDS or to prevent the serious deterioration of health arising from HIV/AIDS in eligible individuals, including measures for the prevention and treatment of opportunistic infections.” LPAPs must be compliant with the Ryan White HIV/AIDS Program’s requirement of payer of last resort.

This service includes the provision of medications and related supplies prescribed or ordered by a Physician or other licensed medical practitioner to prolong life, improve health, or prevent deterioration of health for HIV+ persons who are ineligible for Medicaid, Medicare Part D, ADAP, or other public sector funding, or have private insurance with limited or no prescription drug coverage. Supplies are limited to consumable medical supplies necessary for the administration of prescribed medications.

**IMPORTANT NOTE: Services are restricted to outpatient services only. Inpatient, emergency room, and urgent care center prescription drug services are not covered. Vaccines provided during a medical office visit are no longer found in the local Ryan White Part A Program Prescription Drug Formulary, but may be available under Outpatient/Ambulatory Health Services. Prescription drug co-payment assistance is not provided for clients with prescription drug discount cards. LPAP services may not be provided on an emergency basis (defined as a single occurrence of short duration). See the General Revenue Short-term Medication Assistance protocol in Section XII of this FY 2018 Ryan White Program Service Delivery Guidelines book for information on how to access to medications on a short-term, emergency basis.**

1. **Medications Provided:** This service pays for injectable and non-injectable prescription drugs, pediatric formulations, appetite stimulants, and/or related consumable medical supplies for the administration of medications. Medications are provided in accordance with the most recent release of the local Ryan White Part A Program Prescription Drug Formulary, with the Ryan White Part A/MAI Program as the payer of last resort. The local Ryan White Part A Program Prescription Drug Formulary is subject to change due to guidance from HRSA, the federal granting agency, and/or the Miami-Dade HIV/AIDS Partnership’s Medical Care Subcommittee.

## **2. Client Education and Adherence:**

- Providers are expected to educate clients on the importance of adhering to their medication regimen with the objectives of reducing the risk of developing and spreading a resistant virus, and to ensure a healthy life for the client.
- Providers are expected to offer basic education to clients on various treatment options, including information about state of the art combination drug therapies.
- Clients must be encouraged to take medications as prescribed, as well as to follow the recommendations made by Physicians, Nutritionists, and Pharmacists regarding medication management.

## **3. Coordination of Care:**

- Providers must maintain appropriate contact with other caregivers (i.e., the client's Medical Case Manager, Physician, Nutritionist, Counselor, etc.) and with the client in order to monitor that the client adheres to their medication regimen; and ensures that the client receives coordinated, interdisciplinary support for adherence, and assistance in overcoming barriers to meeting treatment objectives.
- Providers will be expected to immediately inform Medical Case Managers when clients are not adhering to their medication regimen (i.e., the client misses prescription refills, misses physician visits, or is having other difficulties with treatment adherence).
- Providers are expected to ensure immediate follow-up with clients who miss their prescription refills, physician visits, and/or who experience difficulties with treatment adherence.

## **B. Program Operation Requirements:**

- Providers are encouraged to provide county-wide delivery. However, Ryan White Program funds may not be used to pay for the delivery of medications or consumable medical supplies unless one of the following conditions is met by the client, is documented by the client's Physician, and said documentation is maintained in the client's chart:
  - (1) The client is permanently disabled (condition is documented once);

- (2) The client has been examined by a Physician and found to be suffering from an illness that significantly limits his/her capacity to travel [condition is valid for the period indicated by the Physician or for sixty (60) calendar days from the date of certification].

**IMPORTANT NOTE:** Medical Case Managers requesting home delivery must have documentation on file that meets one of the conditions listed above.

- Providers must specify provisions for home delivery of medications and related supplies and equipment for eligible Ryan White Program clients who require this service.
- Provision of this service may not be limited to an agency's own clients unless Public Health Service (PHS) 340B covered entity status requires this restriction. However:
  - Clients needing this service may only go to, or be referred to, the pharmacy in which their Primary Care Physician or prescribing practitioner is located or affiliated with (e.g., by subcontract, etc.). This is due to PHS 340B Pharmacy drug pricing limitations, and HRSA's requirements that the Ryan White Part A/MAI Program use PHS 340B drug pricing wherever possible.
  - If the provider is a PHS 340B covered entity and the client is enrolled in the Florida ADAP Program, that client is eligible for PHS 340B pricing for prescriptions not covered by the ADAP formulary regardless of whether or not the client is the agency's own client.
- Pharmacy providers are directed to use the most cost-effective product, either brand name or generic name, whichever is less expensive at the time of dispensing. An annual, signed assurance is required from the service provider regarding this directive.
- The LPAP-funded service provider must be linked to an existing Medical Case Management system through agreements with multiple Medical Case Management providers. Providers are contractually required to enter into formal referral agreements that detail responsibilities of both parties and penalties for not complying with the referral agreement.

A Ryan White Program Certified Referral Form for LPAP Services must be completed by a Medical Case Manager [or a General Out of Network (OON) Referral from a non-Part A or non-MAI case manager] and must be attached to the original prescription presented by the client or the client's designee. The Ryan White Program Certified Referral Form must include a client ID number traceable to the case management agency initiating the referral and a client CIS number assigned by the Ryan White Program Service Delivery Information System, if applicable. The referring case management agency is responsible for collecting and reporting all required client eligibility documentation, release of information, consent for services, and demographic information. The Ryan White Program's referring Medical Case Management agency maintains this information on-site. The non-Part A or non-MAI referring case management agency must include this documentation with the OON Referral form. Prescription referrals require the full name of the client's prescribing Physician or practitioner and/or the Primary Care Physician.

Referrals for Ryan White Program-funded LPAP services have a maximum of five (5) refills plus the original fill, regardless of recertification dates. However, if during the recertification process it is determined that the client is no longer eligible for Ryan White Program services or the client has missed their recertification deadline, the Medical Case Manager must immediately notify the pharmacy to cancel the remaining refills.

**C. Rules for Reimbursement:** Dependent on the type of pharmacy provider, please adhere to the following reimbursement structures.

- Where applicable, providers will be reimbursed for prescription drugs based on the PHS 340B price of the prescription provided to the Ryan White client, plus a flat rate dispensing fee. Total costs should include the cost of home delivery, as allowable, and other direct costs associated with the provision of this service. Providers must stipulate the flat rate dispensing fee that will be added to the PHS price. (For example, if the PHS price of a prescription is \$185.00, and the provider's proposed flat rate dispensing fee is \$11.00, then the total reimbursement amount is equal to \$196.00.) An estimate of the number of clients (unduplicated caseload) expected to receive these services must be included on the corresponding price form.
- Where applicable, providers will be reimbursed for prescription drugs based on the Average Wholesale Price (AWP) of the prescription provided to the Ryan White client, minus a per-prescription discount rate. Total costs should include the cost of home delivery, as allowable. Providers must stipulate the discount rate that they will be subtracting from the AWP, which may not be less than 10%. Please note that providers may utilize a discount rate higher than 10% (i.e., AWP - 14%). (For example, if the AWP of a prescription is \$1,756.00, and the provider's proposed discount rate is 10%,

then the total reimbursement rate is equal to \$1,580.40.) An estimate of the number of clients (unduplicated caseload) expected to receive these services must be included on the corresponding price form.

- Reimbursement for consumable medical supplies is limited and must be related to the administration of medications (e.g., for insulin injection in diabetics, etc.). Approved consumable medical supplies are found in Attachment B of the most current, local Ryan White Program Prescription Drug Formulary.
- No multiplier will be applied to Medicare or Medicaid rates for consumable medical supplies.

**D. Additional Rules for Reporting and Documentation:** Providers must document client eligibility for this service and report monthly activity (i.e., through reimbursement requests) in terms of the individual drugs dispensed (utilizing a locally-defined drug coding system to be provided by the County), the number of prescriptions filled for each drug, the number of pills or units dispensed, the amount of Ryan White Program funds spent dispensing each drug, and the unduplicated number of clients that received each drug limited to those medications listed in the most recent release of the local Ryan White Part A Program Prescription Drug Formulary.

Provider monthly reports (i.e., reimbursement requests) for consumable medical supplies must include the number of clients served, medical supply distributions with HCPCS codes as appropriate per client, and dollar amounts per client.

**E. Ryan White Part A Program Prescription Drug Formulary:** Ryan White funds may only be used to purchase or provide vitamins, appetite stimulants, and/or other prescription medications to HIV/AIDS clients as follows:

- Prescribed medications that are included in the most recent release of the Ryan White Part A Program Prescription Drug Formulary. This formulary is subject to periodic revision; and
- Medications, appetite stimulants, or vitamins that have been prescribed for the client by his/her Physician. **IMPORTANT NOTE:** Prescriptions for vitamins may be written for a 90-day (calendar days) supply.

**F. Letters of Medical Necessity:** The following medications and test require a completed Ryan White Letter of Medical Necessity or Prior Authorization Form (See Section V of this FY 2018 Service Delivery Guidelines book for copies of the Letters of Medical Necessity, as may be amended):

*Medications:*

- **Aptivus** (Tipranavir)
- **Fuzeon** (Enfuvirtide)
- **Neupogen** (Filgrastim)
- **Procrit or Epogen** (Epoetin Alpha)
- **Roxicodone** (Oxycodone) **and Percocet** (Oxycodone/APAP)
- **Sporanox** (Itraconazole)
- **Testosterone** (Cypionate and Enanthate injection only)

*Test:*

- **Highly Sensitive Tropism Assay** [required to prescribe Selzentry (Maraviroc)] – (The Ryan White Program LOMN for the Highly Sensitive Tropism Assay is only required when ViiV Healthcare or any other funding source does not pay for the test.)

*Miscellaneous (for use in coordination with the Florida Department of Health process, where applicable):*

- **Nutritional Supplements** (for Adults)

**IMPORTANT NOTES:**

- **Medical Case Managers must work with clients to explore in a diligent and timely manner all health insurance options and evaluate the client's best option to ensure that health insurance premiums, deductibles and prescription drug co-payments are reasonable and covered by the appropriate payer source. For Medicare Part D recipients, any client whose gross household income falls below 150% of the 2018 Federal Poverty Level (FPL) must be enrolled in the Low Income Subsidy (LIS) Program. In addition, for Medicare Part D recipients, any client whose gross household income falls between 135% and 150% of the FPL must be enrolled in ADAP for assistance with prescription drug expenses. For Medicare Part D recipients, any client whose gross household income falls above 150% of the FPL or does not qualify for the LIS and who falls into the "donut hole," must be referred to the ADAP Program.**
- **AS OMB RECEIVES ADDITIONAL INFORMATION FROM FEDERAL FUNDERS AND/OR STATE LEGISLATIVE BODIES REGARDING IMPLEMENTATION OF THE PATIENT PROTECTION AND AFFORDABLE CARE ACT (ACA), HEALTH EXCHANGES, OR ANY SUBSEQUENT HEALTH CARE LAW, THESE GUIDELINES MAY BE REVISED.**

**FOOD BANK**  
*(YEAR 28 Service Priority #9)*

**Food Bank** is a support service. The Food Bank program is a central distribution center providing actual food items (groceries), and personal hygiene products when available, for low income persons who are living with HIV or AIDS. Groceries are distributed in cartons or bags of assorted products to eligible Ryan White Program clients. Local Food Bank assistance will be provided on a temporary, as needed basis to eligible clients to help maintain their health by providing a balanced, adequate diet.

Food Bank providers must offer nutritional counseling to all Food Bank clients through qualified staff supervised by a Licensed Dietitian or Nutritionist. A referral to a Registered Dietitian under a Ryan White Program-funded Outpatient/Ambulatory Health Services provider (specialty care; a core medical service) may also be made for nutritional services to meet this requirement. Proof of the provision of nutrition services from the Food Bank provider, or a referral for nutrition services to an appropriate provider, or the client declining such service must be documented in the client's record.

Ryan White Program funds for Food Bank services may not be used for water filtration/purification systems in communities where issues of water safety do not exist, household appliances, pet foods, or other non-essential products.

**A. Program Operation Requirements:**

**Standard Provisions**

Food Bank services may be provided only on an **emergency basis**. For this program, an emergency is defined as an extreme change of circumstance: loss of income (i.e., job loss or departure of person providing support), loss of housing, or release from institutional care (substance abuse treatment facility, hospital, jail, or prison) within the last two weeks. Duration of Food Bank service provision is to be **temporary**. Other emergencies, as defined by the client's Medical Case Manager, must be documented in the client's chart as they arise. A severe change to the client's medical condition, as defined below under the provision for additional occurrences, may also be considered an emergency.

Medical Case Managers must conduct initial and ongoing assessment of each client to determine if the client is eligible for food-related services under any other public and/or private funding source, including food stamps or other charity care food banks.

The provision of this service will be limited to twenty (20) occurrences within the Ryan White Part A Fiscal Year (March 1, 2018 through February 28, 2019). One (1) occurrence is defined as all Food Bank services provided within one (1) calendar

week. For example, a client could receive Food Bank services once a week every week for five (5) months, or twice per month for ten (10) months, in the grant Fiscal Year or any variation thereof, with the limit of twenty (20) occurrences in the grant Fiscal Year.

Groceries, including personal hygiene products when available, can be picked up on a weekly or monthly basis. If groceries will be picked up on a **weekly** basis, the client will be limited to groceries valued at \$65.00 per week at each pick-up. A client accessing Food Bank services on a weekly basis may not pick up groceries sooner than seven (7) days from the prior pick-up day.

If the client chooses to pick up his/her groceries on a **monthly** basis, the client will be limited to \$65.00 per week multiplied by the number of times the original day of pick-up occurs in the month. A client accessing Food Bank services on a monthly basis may not pick up groceries in a new month prior to the same pick-up day from the previous month.

Providers must make every effort to obtain matching funds, donations, or any supplemental assistance for the program and these efforts should be documented. Providers must also be familiar with and capable of referring clients to other community, faith-based, and/or neighborhood Food Bank sites when the client is not in an emergency situation and/or has reached their Food Bank allowance limit.

Providers must be able to provide ethnic foods and foods suited to special client dietary needs.

### **Initial Referral and Additional Occurrences**

A letter of medical necessity is NOT required for a referral to Food Bank services for the client's first twenty (20) occurrences during the grant fiscal year; however, the circumstances justifying the referral to Food Bank services should be clearly documented in the client's chart and a Ryan White Part A Certified Referral should be generated by the Medical Case Manager. A completed Out of Network Referral is also acceptable for this support service. Once the client's initial twenty (20) occurrences are exhausted, the client may NOT receive additional Food Bank services during the same Ryan White Part A Fiscal Year (i.e., March 1, 2018 through February 28, 2019) **without a Ryan White Program Nutritional Assessment Letter for Food Bank Services.**

A **severe** change to the client's medical condition (i.e., new HIV-related diagnosis/symptom, wasting syndrome, protein imbalance, recent chemotherapy, recent hospitalization, etc.) may warrant additional occurrences of Food Bank services. When needed for the additional occurrences, the **Ryan White Program Nutritional Assessment Letter for Food Bank Services** must be completed by a licensed medical provider **OR** a Registered Dietitian not associated with the Part

A-funded Food Bank provider. The client must be reassessed for the medical condition justifying additional Food Bank services every four (4) months. The Physician or Registered Dietitian must specify the frequency and number of additional Food Bank visits (occurrences) that should be allowed for the client (maximum of sixteen additional occurrences).

### **Provision for Families**

In addition to the maximum amount defined above for groceries available per week to eligible clients, each additional adult who is HIV+ and lives in the same household is eligible to receive \$65.00 per week in groceries subject to the same service guidelines. Each dependent (i.e., minors under 18 years of age and living in the same household as the client who is HIV+) is also eligible to receive \$20.00 per week in groceries, subject to the same service guidelines above. The HIV+ client must provide documentation to prove the dependent's age and place of residence.

- B. Rules for Reimbursement:** Providers will be reimbursed based on properly documented invoices reflecting the distribution of weekly bags of groceries, including personal hygiene products, plus a dispensing charge to be agreed upon between the provider and the Office of Management and Budget-Grants Coordination (OMB). The cost of the weekly bag of groceries will not exceed \$65.00. Providers will also submit a quarterly reconciliation of actual expenditures for food costs, staffing expenses, and other line items as listed on the approved budget.
- C. Additional Rules for Reporting:** Providers must report monthly activities according to client visits (i.e., weekly occurrences). Providers must also submit to OMB an assurance that Ryan White Program funds were used only for allowable purposes in accordance with the contract agreement, and that the Ryan White Program was used as the payer of last resort. Providers must also submit an assurance regarding compliance with all federal, state, and local laws regarding the provision of Food Bank services, including any required licensure and/or certifications.
- D. Additional Rules for Documentation:** Providers must maintain documentation of the amount and use of funds for purchase of non-food items, and make this documentation available to OMB staff upon request.
- E. Special Client Eligibility Criteria:** A Ryan White Program Certified Referral or an Out of Network Referral (accompanied by all appropriate supporting documentation) is required for this service. Current referrals expire automatically on February 28<sup>th</sup> of each Fiscal Year (or February 29<sup>th</sup> if a leap year). Each Medical Case Management referral must document the number of eligible dependents (i.e., minors). For additional occurrences, the client must be reassessed for the medical

condition justifying additional Food Bank services every four (4) months. Providers must document that HIV+ clients who receive Ryan White Part A-funded Food Bank services have gross household incomes that do not exceed 250% of the 2018 Federal Poverty Level (FPL).

Clients receiving Food Bank services must be documented as having been properly screened for Food Stamps, home-delivered meal services through Medicaid's Long Term Care (LTC) program, other community food bank programs, or other public sector funding as appropriate. Medical Case Managers must document a client's need for food services in the client's Plan of Care (POC), and indicate if the client is eligible to access food services under other available programs, with the understanding that the Ryan White Program-funded Food Bank services are provided on an emergency basis and as payer of last resort. If the client is eligible to receive food service benefits from another source, the Medical Case Manager will assist the client in applying to such program(s). If the client already receives food stamp benefits at the time he/she applies for Ryan White Program-funded Food Bank services, the client must submit a copy of his/her Food Stamp program award/benefit letter as documentation that the award is \$100.00 or less per month in food stamp benefits. If the client applied for Food Stamp benefits and was denied, a copy of the denial letter must be filed in the client's chart and a copy should accompany the referral for Food Bank services.

While clients reside in institutional settings (i.e., nursing home or a substance abuse residential treatment facility) they will not qualify for Ryan White Part A Program-funded Food Bank services. Similarly, while clients qualify for and can access other public funding for food services, they will not be eligible for Ryan White Part A Program-funded Food Bank services, unless the provider is able to document that the client has an emergency need, or has applied for such benefits and eligibility determination is pending (a copy of benefit application must be kept in the client's chart).

**HEALTH INSURANCE PREMIUM AND COST SHARING  
ASSISTANCE FOR LOW-INCOME INDIVIDUALS  
(HEALTH INSURANCE ASSISTANCE)  
(YEAR 28 Service Priority #3)**

**Health Insurance Premium and Cost Sharing Assistance for Low-income Individuals (Health Insurance Assistance)** is a core medical service category. This service category includes the provision of financial assistance paid on behalf of eligible individuals living with HIV or AIDS to maintain continuity of health insurance or to facilitate receiving medical and pharmacy benefits under a health care coverage program (health insurance policy). This service is available to assist low income, program-eligible clients with purchasing health insurance that provides comprehensive primary medical care (outpatient/ambulatory) and pharmacy benefits that include a full range of antiretroviral (ARV) medications. This service may also assist with cost sharing (i.e., cover premiums, co-payments, and deductibles) on behalf of eligible clients, where allowable and as defined herein. In all cases, a complete financial assessment and disclosure from the client is required. No payments or reimbursements can be made directly to a client.

To use Ryan White HIV/AIDS Program funds for health insurance premium assistance, the County must ensure that clients are selecting health coverage that, at a minimum, includes at least one drug in each class of core antiretroviral therapeutics from the Department of Health and Human Services (DHHS) treatment guidelines along with appropriate HIV care through Outpatient/Ambulatory Health Services. The County must also assess and compare the aggregate cost of paying for the health insurance option versus paying for the full cost for medications and other appropriate HIV Outpatient/Ambulatory Health Services to ensure that purchasing health insurance is cost effective in the aggregate, and allocate funding to this service category only when determined to be cost effective.

Locally, stand-alone dental insurance premium and co-payment assistance are not covered under this service category.

In Miami-Dade County, Health Insurance Assistance is divided into two (2) major categories: 1) limited assistance with private health insurance, employer-sponsored health insurance, or ADAP Premium Plus wraparound assistance for clients with COBRA coverage, which is identified in program components I through III directly below; and 2) assistance with the Federal Health Insurance Exchange [i.e., Affordable Care Act (ACA) Marketplace], which is identified in program components IV through VII directly below. Program components VIII and IX directly below detail assistance under the ADAP/Part A ACA Wraparound Project (for assistance with paying program-allowable co-payments and deductibles). Federal funding under this service category may not be used to supplant existing federal, state, or local funding for health insurance premium and cost-sharing assistance.

**Health Insurance Assistance under this service category is available to program-eligible HIV positive (HIV+) clients only.** If a Family Plan is selected, the Ryan White Program will only provide assistance, where applicable, for the program-eligible HIV+ client. No HIV negative persons in a Family Plan will receive this assistance. Additionally, all costs in a Family Plan must be separated out, so that the costs specific to the HIV+ client are clearly indicated.

A Ryan White Program Certified Referral or an Out of Network Referral (accompanied by all appropriate supporting documentation) is required for this service and must be updated prior to the end of the client's health insurance policy year. The client's insurance policy information including benefits, policy number, and billing ID number is required in order to process the request for Health Insurance Assistance.

**For Medicare Part D recipients, any client whose gross household income falls below 150% of the 2018 Federal Poverty Level (FPL) must be enrolled in the Low Income Subsidy (LIS) Program. In addition, for Medicare Part D recipients, any client whose gross household income falls between 135% and 150% of the FPL must be enrolled in ADAP for assistance with prescription drug expenses. For Medicare Part D recipients, any client whose gross household income falls above 150% of the FPL or does not qualify for the LIS and who falls into the "donut hole," must be referred to the ADAP Program.**

**I. – III. ADAP PREMIUM PLUS (INCLUDING COBRA), EMPLOYER-SPONSORED INSURANCE, PRIVATE HEALTH INSURANCE**

**I. ADAP Premium Plus Program**

The ADAP Premium Plus program (APPP) is a Florida Department of Health (FDOH) AIDS Drug Assistance Program (ADAP) service for eligible clients who need help paying their health insurance premiums, as well as medication copayments and deductibles. This assistance is available through ADAP to clients who meet ADAP eligibility requirements, and is subject to Florida ADAP rules, requirements, and limitations.

Florida ADAP's Premium Plus program offers the following two (2) types of services:

- Assistance with Medication Co-payments and Deductibles:
  - Available to eligible individuals enrolled in ADAP with the following insurance types only:
    - Medicare Part D
    - Medicare Advantage
    - Employer-sponsored insurance (group health insurance)

- Full Benefit Assistance:
  - Assistance with premium payments and ADAP formulary drug co-payments and/or deductible costs. ADAP offers full benefit assistance for individuals with the following insurance types only:
    - Employer-sponsored insurance (group health insurance)
    - COBRA (Consolidated Omnibus Budget Reconciliation Act)\*
    - ADAP-approved ACA Marketplace health insurance plans\*

**\*IMPORTANT NOTES:**

- The local Ryan White Part A Program does not provide premium or deductible assistance to clients in the ADAP Premium Plus program.
- Limited Part A co-payment assistance is available only to ADAP Premium Plus clients with a COBRA or ADAP/Part A-approved ACA Marketplace health insurance plan, as follows:
  - This limited co-payment assistance includes program-allowable doctor office visit co-payments, lab and diagnostic co-payments, and non-ADAP formulary prescription drug co-payments (as long as the medication is on the local Ryan White Part A Prescription Drug Formulary), and within Part A Program limitations.
  - Clients with COBRA coverage (whether or not the COBRA plan is an ACA plan) or an ADAP/Part A-approved ACA Marketplace health insurance plan who need Part A assistance with these co-payments may do so following the guidelines in Section IX. ADAP/PART A ACA Wraparound Co-payments, directly below. A Ryan White Program Certified Referral from a Ryan White Program Medical Case Manager, or an Out of Network Referral (with supporting documentation), is required to obtain this assistance. With such referral, a GAP Card reflecting “Premium Plus” wraparound coverage will be provided to eligible clients to facilitate the process.

**II. Health Insurance Deductibles**

This health insurance component is available to help maintain a client's existing private or employer-sponsored health insurance coverage by paying the annual deductible, thereby minimizing the client's reliance on the Ryan White Part A Program for related core medical services.

- A. **Program Operation Requirements:** Under no circumstances shall payment be made directly to clients who receive this assistance. The maximum amount of assistance a client may receive annually is \$4,500 **per calendar year**. A complete financial assessment and disclosure are required.
- B. **Rules for Reimbursement:** Providers will be reimbursed for dollars expended *per deductible per client, plus a dispensing rate*. Billing code **DED** must be used for this health insurance component, when applicable.
- C. **Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars expended *per deductible per client*. The service provider must also report the number of unduplicated clients served each month.
- D. **Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy provides comprehensive primary care and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

### **III. Prescription Drug Co-Payments and Co-Insurance**

This health insurance component is available to eligible clients with private or employer-sponsored health insurance who are required to pay a co-payment or co-insurance for their medications, but are financially unable to pay such expense.

- A. **Program Operation Requirements:** Assistance for both prescription drug co-payments and co-insurance is restricted to those medications on the most current, local Ryan White Part A Program Prescription Drug Formulary. **Prescription drug co-payment assistance is not provided for clients with prescription drug discount cards.**
- B. **Rules for Reimbursement:** Providers will be reimbursed for dollars expended *per prescription drug co-payment/co-insurance per client, plus a dispensing rate*. Billing code **COP** must be used for this health insurance component, when applicable.
- C. **Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars *per prescription drug co-payment/co-insurance per client*. The service provider must also report the number of unduplicated clients served each month.

- D. Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy provides comprehensive primary care and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

#### **IV. - VII. LOCAL IMPLEMENTATION OF THE AFFORDABLE CARE ACT (FEDERAL HEALTH INSURANCE EXCHANGE)**

According to the Affordable Care Act (ACA), the current Federal healthcare law (which is subject to change), individuals must have healthcare coverage that meets Minimum Essential Coverage or pay a fee (penalty) for each month they are without insurance coverage. Minimum Essential Coverage (MEC) is defined as the type of coverage an individual needs to have to meet the individual responsibility requirement under the ACA. More information regarding the MEC's "10 essential health benefits" can be found at the following web page:

<https://www.healthcare.gov/coverage/what-marketplace-plans-cover/>.

Ryan White Part A/MAI Program Medical Case Managers will facilitate the process of identifying clients who are eligible to enroll in an ACA Marketplace health insurance plan. Once an ACA-eligible client is identified, wherever applicable and in order to ensure the Ryan White Program is the payer of last resort, the Medical Case Manager will inform the client that they must enroll in an appropriate, cost-effective health insurance plan during the open enrollment period, or at other allowable times due to a qualifying event (see <https://www.healthcare.gov/> for details). The Medical Case Manager must also inform the client of the consequences (tax penalties) for not enrolling. The Medical Case Manager will also explain the benefits of enrolling in a health insurance plan, and inform the client of any assistance for which they may qualify. The Medical Case Manager will assist with the local Part A Program-approved enrollment process and will make appropriate referrals to the contracted Ryan White Part A Health Insurance Assistance subrecipient (currently Miami Beach Community Health Center, Inc.) who will complete the process and make appropriate payments on behalf of ACA-eligible/enrolled clients.

Medical Case Managers are expected to discuss and complete all of the necessary Ryan White Part A Program paperwork with the ACA-eligible client and assist with the enrollment following the local Part A Program-approved enrollment process. Medical Case Managers of ACA-eligible clients will assist their clients in clearly communicating the client's health care needs (e.g., HIV status, specialty care needs, physician preferences, prescribed medications, etc.), using the local ACA Assessment form. Once completed, this form will be submitted to the designated Centralized Enrollment Specialist (currently American Exchange LLC) for

assistance with evaluating the health care plan options that meet the client's individual needs and are cost effective, and identifying the best option.

Until further notice, it is important to note that the Ryan White Program's Federal funding source, the Health Resources and Service Administration (HRSA), requires Ryan White Programs to "vigorously pursue" enrolling eligible clients in an ACA Marketplace health insurance plan. HRSA also requires its Ryan White Programs to inform such clients of the consequences of not enrolling in such a plan. Furthermore, HRSA requires Ryan White Programs to "vigorously pursue" reconciliation of any Advanced Premium Tax Credits in relation to any Ryan White Program financial assistance provided to maintain access to such health insurance benefits. For this reason, clients receiving this assistance are required to file Federal income tax returns, and submit copies of these returns and reconciliation reports to their Medical Case Manager for possible repayment to the Ryan White Program. For purposes of compliance with Federal mandates related to the Affordable Care Act, "vigorously pursue" includes the following:

- Identify clients who are eligible to enroll in the ACA Marketplace, or identify clients who qualify for an ACA exemption;
- Inform ACA-eligible clients of the requirements to have Minimum Essential Coverage;
- Discuss the benefits of having health insurance with the ACA-eligible clients;
- Advise ACA-eligible clients of the federal tax penalties associated with not having Minimum Essential Coverage;
- Assist ACA-eligible clients with enrollment in the ACA Marketplace through the designated Centralized Enrollment Specialist (i.e., currently, through American Exchange LLC);
- Document ACA enrollments and non-enrollments; and
- Reconcile Advanced Premium Tax Credits with any related tax refunds and assistance provided by the Ryan White Part A Program.

If a client is found to be ACA-eligible but chooses not to enroll in a health insurance plan, the Medical Case Manager must document the client's reason for not enrolling, based on the client's completion of the local ACA Decline form in the client's own words. This communication with the client must be documented by the Medical Case Manager in the individual progress notes in the client's chart and in the Service Delivery Information System (SDIS), the local Ryan White Part A Program data management information system.

Medical Case Managers must also inform their clients about the fees/penalties associated with the failure to enroll in an ACA Marketplace health insurance plan if eligible. Clients must also be informed that the Ryan White Part A Program is

not allowed to assist the clients with paying the fees/penalties associated with not having Minimal Essential Coverage.

**Clients are strongly encouraged not to enroll in an ACA Marketplace health insurance plan on their own and not to allow the ACA Marketplace to automatically re-enroll them.** Clients who enroll on their own or allow the ACA Marketplace to automatically re-enroll them may inadvertently choose a plan that is not cost effective, does not sufficiently cover their needs, or does not meet the Ryan White Part A or the ADAP program guidelines or limitations for assistance. Furthermore, ADAP clients who enroll on their own in the ACA Marketplace may lose all access to ADAP assistance with ADAP prescription drugs, ACA premiums, and ACA drug co-payments.

The following documents provide additional guidance related to local implementation of and assistance with the ACA (See Section IX, Local Implementation of the Affordable Care Act Requirements, of this FY 2018 Ryan White Part A Program Service Delivery Guidelines book):

- ACA Matrix
- ACA Assessment Tool
- ACA Acknowledgement form
- ACA Exemption Checklist
- ACA Decline form, when applicable (i.e., when a client chooses not to enroll in the ACA, use this form ONLY AFTER the benefits of obtaining health insurance and the tax penalties for not enrolling have been fully explained to the client)
- ACA GAP Card
- Policy on Reconciliation of Advanced Premium Tax Credits
- Policy on ACA Refunds

Referrals to Ryan White Part A Program Health Insurance Assistance (each component) will expire annually on the date the policy period ends. The client's assigned Medical Case Manager will receive a SDIS pop-up reminder 30-days prior to expiration of the referral. For example, referrals for calendar year health insurance plans will expire on December 31<sup>st</sup>, and a reminder would be issued through the SDIS on December 1<sup>st</sup>.

**Local Ryan White Part A Program assistance for ACA Marketplace health insurance plans is limited to a maximum total out-of-pocket cost that is at or below \$6,500 per year. No exceptions.**

**IMPORTANT NOTE:** It is critical that all Ryan White Program Medical Case Managers: 1) follow proper and consistent directions from the Recipient (i.e., Miami-Dade County Office of Management and Budget-Grants Coordination/Ryan White Program) when screening Ryan White Part A and ADAP clients for ACA

participation, and 2) share a clear and appropriate message with clients regarding the local health insurance program's rules and limitations.

#### IV. ACA Premiums (Part A ACA Assistance)

This health insurance component is available to clients who are eligible to enroll in an ACA Marketplace health insurance plan, but are financially unable to pay their health insurance premiums. As indicated above, assistance is limited to plans that are cost-effective, include comprehensive medical coverage (HIV outpatient/ambulatory health services), and provide access to antiretroviral (ARV) medications and other medications the client may need. It is also strongly recommended that such plans include the client's Physician, who manages their HIV care on an outpatient basis, as an In-Network provider, because co-payment assistance for out of network providers is not covered by the local Ryan White Part A Program. ACA Premiums assistance is limited, as follows:

**A. Program Operation Requirements:** This component is limited to Ryan White Part A Program clients (NON-ADAP clients) who have an eligible ACA Marketplace health insurance plan with premiums paid by Part A. For these clients, the amount of ACA premium assistance from the Ryan White Part A Program is limited to \$1,000.00 per month per client. All metal levels (e.g., bronze, silver, gold, and platinum) are acceptable as long as the plan is appropriate to the client's needs and is cost effective.

Clients (with guidance from the designated Centralized Enrollment Specialist) must select an appropriate and cost effective plan that has a premium amount at or below \$1,000 per month in total. The client may **not** be enrolled in a more expensive plan with the expectation that the client would simply pay the difference, regardless of the amount of the difference.

**B. Rules for Reimbursement:** Providers of ACA Premiums assistance to non-ADAP clients will be reimbursed for dollars expended *per ACA Premium per client, plus a dispensing rate.* Billing code **ACAP** must be used for ACA Premium payments for clients assisted by Part A. Such payments can be made up to three (3) months in advance (i.e., quarterly) and payments are tracked (by monthly date range) in the SDIS reports (i.e., invoices/bills). Do **not** use this billing code if the client's ACA premiums are paid by ADAP, as this cannot be charged to Part A under this component.

**C. Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars *per premium per client.* Providers must also report the number of unduplicated clients served each month.

- D. Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy is cost effective, provides comprehensive primary care, and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

**V. ACA Deductibles (Part A ACA Assistance)**

This health insurance component is available to help maintain a client's ACA Marketplace health insurance coverage by paying the annual deductible, thereby minimizing the client's reliance on the Ryan White Part A Program for related core medical services.

- A. Program Operation Requirements:** As payer of last resort, the Ryan White Part A Program may assist with ACA Marketplace health insurance deductible payments for eligible clients up to a maximum of \$4,500 per year.

**See Section IX of these Service Delivery Guidelines for information regarding the use of the GAP Card to facilitate access to deductible assistance. Note the deadline for submitting claims to the Part A Program.**

- B. Rules for Reimbursement:** Providers will be reimbursed for dollars expended *per ACA deductible per client plus a dispensing rate*. Billing code **ACADED** must be used for Ryan White Part A Program clients who have an ACA Marketplace health insurance plan BUT are NOT ADAP clients. Billing code **WRPDED** must be used for Ryan White Part A Program clients who have an ACA Marketplace health insurance plan AND ARE ADAP clients enrolled under the ADAP/Part A ACA Wraparound Project (i.e., where ADAP is paying the premiums).

- C. Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars *per ACA deductible per client*. Providers must also report the number of unduplicated clients served each month.

- D. Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy is cost effective, provides comprehensive primary care, and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

## **VI. ACA Prescription Drug Co-payments (Part A ACA assistance)**

This health insurance component covers prescription drug co-payments for eligible clients who have an active ACA Marketplace health insurance policy, where applicable and within program limitations as detailed below.

- A. Program Operation Requirements:** Under this component, the Ryan White Part A Program only covers prescription drug co-payments for clients whose health insurance premiums are paid by Part A, for medications found on the most current, local Ryan White Part A Program Prescription Drug Formulary. This component is NOT applicable to clients whose premiums are paid by ADAP (see subsection VIII below for details on limited drug co-payment assistance for ADAP/Part A ACA Wraparound clients).

**Prescription drug co-payment assistance is not provided for clients with prescription drug discount cards.**

**See Section IX of these Service Delivery Guidelines for information regarding the use of the GAP Card to facilitate access to co-payment assistance. Note the deadline for submitting claims to the Part A Program.**

- B. Rules for Reimbursement:** Providers will be reimbursed for dollars expended *per ACA prescription drug co-payment per client, plus a dispensing rate*. Billing code **ACACOP** must be used to record ACA prescription drug co-payments for Ryan White Part A Program clients who have an ACA Marketplace health insurance policy, BUT not for clients whose premiums are paid by ADAP.
- C. Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars *per ACA prescription drug co-payment per client*. Providers must also report the number of unduplicated clients served each month.
- D. Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy is cost effective, provides comprehensive primary care, and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

**VII. ACA Doctor Office Visit, Laboratory & Diagnostic Co-payments (Part A ACA Co-payment Assistance)**

This health insurance component covers limited co-payment assistance as detailed below for eligible clients for whom the Ryan White Part A Program is paying their ACA health insurance premiums.

**A. Program Operation Requirements:** Through the “Part A ACA Co-payment Assistance” component, eligible clients with an active ACA Marketplace health insurance policy, whose premiums are paid by Part A, may receive assistance with the following co-payments, if the services are IN-NETWORK, OUTPATIENT/AMBULATORY, AND related to the client’s HIV status, related co-morbidity, or complication of HIV treatment:

- Physician or medical practitioner office visit co-payments
- Laboratory/Diagnostic co-payments

**This co-payment assistance is limited to allowable services rendered within the geographic boundaries of Miami-Dade County.**

**Out of network providers and services are not covered.**

**See Section IX of these Service Delivery Guidelines for information regarding the use of the GAP Card to facilitate access to co-payment assistance. Note the deadline for submitting claims to the Part A Program.**

**B. Rules for Reimbursement:** Providers will be reimbursed for dollars expended *per Part A ACA office visit or lab/diagnostic co-payment per client, plus a dispensing rate.* Furthermore:

- Billing code **PTAOV** must be used for these ACA Co-Payment clients for whom Part A is paying their allowable doctor/medical practitioner office visit co-payments.
- Billing code **PTALAB** must be used for these ACA Co-Payment clients for whom Part A is paying their allowable laboratory and diagnostic co-payments.

**C. Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars *per Part A ACA office visit or lab/diagnostic co-payment per client.* Providers must also report the number of unduplicated clients served each month.

- D. Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy is cost effective, provides comprehensive primary care, and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

## **VIII - IX. CLIENTS IN THE ADAP/PART A ACA WRAPAROUND PROJECT**

### **VIII. ADAP/Part A ACA Wraparound Project General Limitations**

- Eligibility for this component extends to ADAP clients with incomes between 100% and 400% of the Federal Poverty Level.
- Part A does **not** assist with these ACA premium payments, as these premiums are paid by the Florida ADAP.
- For Plan Year 2018, Part A has limited ADAP/Part A ACA Wraparound assistance to the following twenty-eight (28) ADAP/Part A-approved plans only:
  - BCBS of Florida, d.b.a. Florida Blue:
    - BlueOptions Gold 1505
    - BlueOptions Gold 1805
    - BlueOptions Platinum 1418
    - BlueOptions Platinum 1424
    - BlueOptions Silver 1410
    - BlueOptions Silver 1423
    - BlueOptions Silver 1431
    - BlueSelect Gold 1535
    - BlueSelect Gold 1835
    - BlueSelect Platinum 1451
    - BlueSelect Platinum 1457
    - BlueSelect Silver 1443
    - BlueSelect Silver 1456
    - BlueSelect Silver 1464
    - BlueSelect Silver 1736S
  - Celtic Insurance Company:
    - Ambetter Balanced Care 1 (2018)
    - Ambetter Balanced Care 2 (2018)
    - Ambetter Balanced Care 3 (2018)
    - Ambetter Balanced Care 4 (2018)
    - Ambetter Balanced Care 10 (2018)
    - Ambetter Balanced Care 12 (2018)
    - Ambetter Secure Care 3 (2018) with 3 Free PCP Visits

- Health Options, Inc. d.b.a. Florida Blue:
  - myBlue Gold 1605
  - myBlue Silver 1603
  - myBlue Silver 1604
  - myBlue Silver 1710
  - myBlue Silver 1712S
  
- Molina Health Care of Florida - Molina Marketplace Silver

**IX. ADAP/PART A ACA Wraparound Co-payments**

This health insurance component covers limited co-payment assistance for eligible clients who are enrolled in ADAP/Part A AND have an active ACA Marketplace health insurance policy where the premium is paid by ADAP, where applicable and within program limitations as detailed below.

**A. Program Operation Requirements:**

- ADAP covers the prescription drug co-payments for all medications on the most current Florida ADAP Formulary, for eligible ADAP/Part A clients who have an active ACA Marketplace health insurance policy under one (1) of the twenty-eight (28) ADAP/Part A-approved health insurance plans indicated above. The following web page includes a list of the most current Florida ADAP Formulary medications:  
<http://www.floridahealth.gov/diseases-and-conditions/aids/adap/adap-formulary.html>
  
- Through the Ryan White Part A Program’s “ADAP/Part A ACA Wraparound Project” component, eligible ADAP/Part A clients who have an active ACA Marketplace health insurance policy or a policy through COBRA (Consolidated Omnibus Budget Reconciliation Act), where ADAP pays the premiums for one (1) of the twenty-eight (28) ADAP/Part A-approved plans indicated above or pays the premium for a COBRA policy, may receive assistance with the following co-payments, if the services are IN-NETWORK, OUTPATIENT/AMBULATORY, AND related to the client’s HIV status, related co-morbidity, or complication of HIV treatment:
  - Physician or medical practitioner office visit co-payments
  - Laboratory/Diagnostic co-payments
  - Prescription drug co-payments

- This assistance is limited to medications found on the most current, local Ryan White Part A Program Prescription Drug Formulary. See the following web page:
  - <http://www.miamidade.gov/grants/ryan-white-program.asp#Prescription>
- This Part A assistance does **not** include medications found on the most current Florida ADAP Formulary.
- **IMPORTANT NOTE:** Medications not available through the client's health insurance policy that are found on the most current, local Ryan White Part A Program Prescription Drug Formulary can be covered by the Part A Program. In such cases, the client's Medical Case Manager or external case manager must issue a Ryan White Program Certified Referral or Out of Network (OON) Referral (with appropriate back-up documentation), respectively, for the Part A Program prescription drug service category.
- **Prescription drug co-payment assistance is not provided for clients with prescription drug discount cards.**
- **IMPORTANT NOTE: Part A ACA co-payment assistance is limited to program allowable services rendered within the geographic boundaries of Miami-Dade County, with the exception of mail order for prescription drug co-payments, where applicable.**
- **See Section IX of these Service Delivery Guidelines for information regarding the use of the GAP Card to facilitate access to ACA Wraparound co-payment assistance. Note the deadline for submitting claims to the Part A Program.**

**B. Rules for Reimbursement:** Providers will be reimbursed for dollars expended *per ACA co-payment per client, plus a dispensing rate.* Furthermore:

- Billing code **ACADRG** must be used for ADAP/Part A ACA Wraparound clients for whom Part A is paying their allowable prescription drug co-payments (i.e., non-Florida ADAP Formulary medications).
- Billing code **ACAOV** must be used for ADAP/Part A ACA Wraparound clients for whom Part A is paying their allowable doctor/medical practitioner office visit co-payments.
- Billing code **ACALAB** must be used for ADAP/Part A ACA Wraparound clients for whom Part A is paying their allowable laboratory and diagnostic co-payments.

**C. Additional Rules for Reporting:** Monthly activity reporting for this service must be in dollars *per ADAP/Part A ACA Wraparound co-payment per client*. Providers must also report the number of unduplicated clients served each month.

**D. Additional Rules for Documentation:** Providers must maintain proof that the health insurance policy is cost effective, provides comprehensive primary care, and has a formulary with a full range of ARV medications. Providers must also issue an annual assurance that funds were not used to cover costs of liability risk pools or social security.

**MEDICAL CASE MANAGEMENT,  
INCLUDING TREATMENT ADHERENCE SERVICES  
(General HIV/AIDS Population & MAI)  
(YEAR 28 Service Priority #2 for Part A and MAI)**

**Medical Case Management, including Treatment Adherence Services (hereinafter referred to as Medical Case Management)** are core medical services. The local Ryan White Program Medical Case Management service category has two (2) distinct components: **Medical Case Management and the Peer Education and Support Network (PESN)**. *Providers are required to offer both components of this service category.* Medical Case Management services help clients improve health outcomes. As such, Medical Case Management providers should be able to analyze the care that a client receives to ensure that the client is obtaining the services necessary to improve his or her health outcomes.

The Health Resources and Services Administration's HIV/AIDS Bureau (HRSA/HAB) defines Medical Case Management as a range of client-centered activities focused on improving health outcomes in support of the HIV Care Continuum. Activities may be prescribed by an interdisciplinary team that includes other specialty care providers. Medical Case Management includes all methods of encounters (e.g., face-to-face meetings, phone contact, and any other documented forms of communication). Key activities include: (1) initial assessment of service needs (including review of medical, financial, social, and other needs, upon intake); (2) development of a comprehensive, individualized service plan (including coordination of services required to implement the plan); (3) timely and coordinated access to medically appropriate levels of health and support services and continuity of care; (4) continuous client monitoring to assess the efficacy of the care plan; (5) re-evaluation of the care plan at least every six months with adaptations as necessary or more often as needed; (6) ongoing assessment of the client's and other key family members' needs and personal support systems; (7) treatment adherence counseling to ensure readiness for and adherence to complex HIV treatments; and (8) client-specific advocacy and/or review of utilization of services. In addition to providing the medically oriented services above, Medical Case Managers may also provide benefits/entitlement counseling and referral activities (to core medical and support services) by assisting eligible clients in obtaining access to other public and private programs for which they may be eligible (e.g., Medicaid, Medicare, Medicare Part D, State AIDS Drug Assistance Program, Pharmaceutical Manufacturer's Patient Assistance Programs, other state or local health care and supportive services, and insurance plans through the health insurance Marketplaces/Exchanges).

Visits to ensure readiness for and adherence to complex HIV treatments shall be considered either billable under Medical Case Management or Outpatient/Ambulatory Health Services, depending on how the visit occurred. Treatment Adherence Services provided during a Medical Case Management visit shall be reported in the Medical Case Management service category (using the ADH billing code indicated below); whereas, Treatment Adherence services provided during an Outpatient/Ambulatory Health Service

visit shall be reported under the Outpatient/Ambulatory Health Services category (using the appropriate CPT billing code).

The purpose and objectives of Medical Case Management are: 1) to maintain the client in ongoing medical care and treatment to improve client health outcomes; 2) to coordinate services across funding streams; 3) to reduce service duplication across providers; 4) to assist the client with accessing needed services; 5) to use available funds and services in the most efficient and effective manner; 6) to increase the client's adherence to the care plan (i.e., medication regimen) through counseling; 7) to empower clients to remain as independent as possible; and 8) to control costs while ensuring that client needs are properly addressed.

### **MEDICAL CASE MANAGEMENT COMPONENTS**

- I. Medical Case Management:** Medical Case Managers must be knowledgeable about the diversity of programs and be able to develop service plans from various funding streams. They are responsible for helping clients access needed services, not just Ryan White Program-funded services. Medical Case Managers will continue to have a training emphasis on addressing client housing issues (e.g., instability, homelessness, etc.) and identifying available housing assistance programs in Miami-Dade County, among other training topics.

Locally, in addition to the key activities indicated above, Medical Case Managers are responsible for performing the following functions: 1) conducting the initial intake; 2) managing and coordinating referrals, assisting with initial appointments, and coordinating services identified in the care plan, etc.; 3) monitoring client adherence to the care plan and medication regimens, as well as ensuring that service providers involved in the client's care are rendering services as requested; 4) evaluating services provided to the client by all funding sources to determine consistency with the established care plan; 5) conducting secondary prevention; and 6) closing client cases when warranted and documenting the reason for case closure [including, but not limited to, case closures for clients with whom there has been no contact for more than six (6) months]. Medical Case Managers should run "Last Known Contact Report", "Client Assessment Due", and "Missing CD4/Viral Load Analysis" reports in the SDIS monthly to identify any clients who may be at risk for falling out of care, and follow-up as appropriate (including a referral to Outreach Services if allowable) to locate the client and bring them back into care. Medical Case Managers will manually close the case in the SDIS if they, and any outreach workers, are unable to locate a client who has had no face-to-face contact for six (6) months. The Service Delivery Information System (SDIS) will automatically close a client's case if the Viral Load (VL) lab test result is nine (9) months or 270 days old. A CD4 lab test result is optional following the U.S. Department of Health and Human Services (DHHS) treatment guidelines.

Medical Case Managers are expected to review, understand, and comply with the related case management activities indicated throughout the service definition as stated above in the Health Insurance Assistance section of these Service Delivery Guidelines.

- II. Peer Education and Support Network (PESN):** At the option of the client, the Medical Case Management agency will assign an HIV+ "Peer" (i.e., PESN, Case Aide, Peer Educator, Peer Navigator) to provide "peer support," including client orientation and education about health and social service delivery systems. The HIV+ Peer may assist with initial client intake, paperwork and applications for financial and medical eligibility, educating new clients on the process of accessing core and support services, encouraging treatment adherence, as well as accompanying clients to initial appointments for medical care and other services. The HIV+ Peer may also make phone calls or send mail, including electronic mail, (where authorized by the client) to clients for the purpose of reminding them of medical appointments, in order to improve the client's attendance and reduce no-shows. Peers are restricted from completing Ryan White Program Certified Referrals, Plans of Care, and Comprehensive Health Assessments, as these are functions of a Medical Case Manager. The HIV+ Peer may also provide stress management guidance to their clients. For a description of PESN Essential Functions see Section VII of these Service Delivery Guidelines.

Support group meetings and related activities are not an allowable function of the local Peer Education and Support Network services.

The Peer will have basic knowledge of HIV/AIDS services and receive necessary training on HIV funding streams.

As incentives for productivity, providers are encouraged to provide the Peer with educational opportunities, as well as a standard living wage and medical benefits.

If the client decides not to access the PESN services, then the Medical Case Manager will also be responsible for providing the following services: 1) presentation of information regarding the HIV service delivery system across funding streams, and 2) assistance to clients in preparing applications for other benefit programs.

**The following requirements apply to both Medical Case Management and PESN services (including Minority AIDS Initiative services) as indicated:**

- A. Program Operation Requirements:** Providers must ensure that Medical Case Management services include, at a minimum, the following: peer support, assessment, follow-up, direction of clients through the entire system of health and support services, and facilitation and coordination of services from one service

provider to another. Providers of Medical Case Management services are expected to educate clients on the importance of complying with their medication regimen.

Medical Case Managers and Peers operate as part of the clinical care team and must maintain frequent contact with other providers (the client's Physician, other medical practitioner, Nutritionist, Pharmacist, Counselor, HOPWA Housing Specialist, etc.) and with the client in order to assure the client adheres to medication regimens and ensure that the client receives coordinated, interdisciplinary support for adherence, attendance at medical care appointments, picking up prescriptions and re-fills, and assistance in overcoming barriers to meeting treatment objectives.

Medical Case Management providers are expected to empower clients to be actively involved in the development and monitoring of their treatment and adherence plans, and to ensure that immediate follow-up is available for clients who miss their prescription refills, physician visits, and/or who experience difficulties with adherence. Medical Case Management providers must ensure that the client is knowledgeable about HIV/AIDS; understands CD4 count, viral load, adherence and resistance concepts; understands the reason for treatment; identifies and addresses the possible factors or barriers affecting treatment adherence; and understands his/her treatment regimen to the best of the client's ability.

**1. Medical Case Manager Qualifications:**

Providers of this service will adhere to the educational and training requirements of staff as detailed in the *Ryan White Program System-wide Standards of Care* and the *Ryan White Program Medical Case Management Standards of Service* (see Section III of this FY 2018 Service Delivery Guidelines book), as may be amended.

**2. Provider Requirements:**

- a) **Contractual.** Providers will be expected to report to Miami-Dade County the following, in the scope of services and/or upon request:
- An explanation of the training -- including cultural sensitivity issues -- that has been and will be offered to medical case management staff, including "peers."
  - An explanation of how a client's adherence to treatment will be monitored and how adherence problems will be identified and resolved.

- An explanation of how the provider will serve clients who speak English, Spanish, and Creole or who have limited language proficiency. **Medical Case Management providers must budget for the following expenses or otherwise accommodate client needs for: American Sign Language interpreter, foreign language interpreter, Braille, and other materials to accommodate clients with disabilities, limited English language proficiency, and/or low literacy levels.**
  - A description of linkage agreements in place with other HIV/AIDS service providers.
  - As the Ryan White Program is the payer of last resort, clients who have Medicaid Managed Medical Assistance (MMA) or Long Term Care (LTC) plans are not eligible to receive case management or referral services from the Ryan White Part A/MAI Program. The MMA and LTC plans are required to provide their clients with case management/care coordination.
- b) **Required Forms.** Medical Case Management staff will utilize Ryan White Program standardized forms, as approved by the Miami-Dade HIV/AIDS Partnership and the County, for all Medical Case Management functions.
- c) **Referrals.** All referrals made by Part A or MAI-funded Medical Case Managers to Ryan White Program services must be made utilizing the Ryan White Program Certified Referral process, which is available through the Service Delivery Information System (SDIS). Referrals cannot be made for services not documented in the client's Plan of Care. However, in the case of emergency, a Plan of Care may be amended within two (2) business days to allow for the referral. Referrals for non-Part A or non-MAI services made by Part A/MAI Medical Case Managers will use the general certified referral form in the Service Delivery Information System (SDIS). Referrals made to Part A/MAI services by non-Part A or non-MAI funded case managers will use the Out of Network (OON) general certified referral form available from the County's Office of Management and Budget-Grants Coordination – Ryan White Program. The OON Referral must be accompanied by appropriate supporting documentation and signed consents.

All referrals from Medical Case Management services to Ryan White Part A Program Oral Health Care services should include the client's primary care or HIV physician's contact information (name, address, phone and fax numbers, and email if available) and note

any known allergies the client may have. This information can be included in the comments section of the referral.

- d) **Caseload.** Medical Case Managers should have an active caseload of no more than 70 clients. Clients limited to only "situational needs" should not be included in the "active" caseload count.
- e) **Peer schedules.** Providers are reminded that some "peer" workers may be eligible for disability income and/or other supplemental income. Consequently, a part-time work schedule should be well-planned to meet the needs and benefits of the peer employee.
- f) **Comprehensive Health Assessments.** Medical Case Managers are expected to complete a Comprehensive Health Assessment annually for each client. However, brief updates should be conducted at 6-month intervals in conjunction with the client's re-certification (re-assessment) process (See Section III of this FY 2018 Service Delivery Guidelines book, Miami-Dade County Ryan White Program Medical Case Management Standards of Service, Standard #7, NOTE).
- g) **Progress Notes.** Services must be documented in progress notes in a timely manner, preferably within 24 hours of service, but no later than 48 hours (i.e., 2 business days) after occurrence. Any Medical Case Management or Peer Education and Support Network encounter not properly recorded in the Service Delivery Information System (SDIS) within 48 hours (i.e., 2 business days) will be rejected in the SDIS. Requests for an override related to this type of rejection may be submitted to Miami-Dade County-Office of Management and Budget/Ryan White Program for review. A reasonable justification for the delay in recording an encounter in the SDIS must be included for review of related override requests. Depending on the agency's reason for the delay, the County may opt to disallow the encounter.

A reasonable justification for the delay in entering a timely progress note would include the following, if such reason caused the Medical Case Manager, Peer Educator, or the Medical Case Management Supervisor to miss the 48-hour time limit for entering progress notes:

- An event beyond the Medical Case Manager, Peer Educator, or Medical Case Management Supervisor's control, such as an illness, proven data system (e.g., SDIS or provider's data

system) access issues, or extreme weather event directly affecting program operations.

- A documented and previously approved event such as the aforementioned staff persons' vacation or attendance at a Ryan White Program meeting or training.

**B. Additional Service Delivery Standards:** Providers of this service will adhere to the *Ryan White Program Medical Case Management Standards of Service*. (Please refer to Section III of this FY 2018 Service Delivery Guidelines book for details.)

**C. Rules for Reimbursement:** The units of service used for Medical Case Management and PESN reimbursements are as follows. (**IMPORTANT NOTE:** *except for MCM, PESN, OMB, HIV/AIDS, SDIS, HIPAA, and PESN, all acronyms used in this section are billing codes.*)

1. *Medical Case Management (MCM) Services* are reimbursed by unit cost, where one unit equals one minute of actual time, at rates not to exceed \$1.00 per unit/minute. Each funded providers' corresponding price form breaks down the allocation for this service into "Face to Face encounters" (FFE) or "Other encounters". Other encounters are defined as any non-FFE contact with or on behalf of the client. See table below.
2. *Peer Education and Support Network (PESN) Services* are reimbursed by unit cost, where one unit equals one minute of actual time, at rates not to exceed \$0.50 per unit/minute. Each funded providers' corresponding price form breaks down the allocation for this service into "Face to Face encounters" (FFE) or "Other encounters". Other encounters are defined as any non-FFE contact with or on behalf of the client. See table below.
3. Providers are required to document in the client's chart each unit of service performed (including the type of encounter and length of time spent) as face-to-face encounters or activities conducted on behalf of a client. Units of service must be documented and reported separately for PESN and Medical Case Management services.
4. Client eligibility screening for voucherable services is billable as a unit of service depending on the amount of time spent with the client. Costs related to the distribution of voucher services should be covered under the dispensing charge allowed for handling of vouchers under the Medical Transportation service category (i.e., discounted transportation EASY Tickets).

5. No two Peer Educators can bill for the same time and for the same client when specifically using the Face-to-Face (FFE) and Adherence (ADH) services codes.
6. The following table reflects MCM and PESN encounter/activity billing codes (in alphabetical order **by code**) that will be active in FY 2018:

| <b>Medical Case Management &amp; PESN</b>                     |   |  |
|---|---|--|
| <b>Activity</b><br>(with Limitation,<br>if applicable)        | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>   |
| <b>Affordable Care Act (ACA) Health Insurance Marketplace</b> | <b>ACA</b>  | This code includes any and all activities with or on behalf of the client, such as researching health insurance plans, discussing plan options, assisting with the application process, communicating with American Exchange LLC on behalf of the client, and documenting all efforts, related to the client's enrollment in private insurance through the Affordable Care Act Health Insurance Marketplace. This code also includes time spent explaining the health insurance plan to client, how it works, what documents the client is required to present, as well as what benefits and restrictions the client has under the plan. Do NOT use this ACA code to record time spent actually enrolling a client on-line in an ACA Marketplace health insurance plan (i.e., activities spent navigating or directly enrolling clients on-line in <a href="http://www.healthcare.gov">www.healthcare.gov</a> are not billable to the local Ryan White Program). |
| <b>Adherence Counseling</b>                                   | <b>ADH</b>  | This code includes adherence activities with the client such as medication counseling, risks and benefits of treatment, compliance with treatment regimen, education on medication resistance, compliance with medical and other core service appointments, and review of HIV case management portal information.<br><br>Do NOT use this ADH code to record time spent by a medical provider (Physician, Advanced Registered Nurse Practitioner, Physician Assistant, etc.) providing adherence counseling, as this would be billed under outpatient/ambulatory health services.   |

| <b>Medical Case Management &amp; PESN</b>              |   |  |
|--|---|--|
| <b>Activity</b><br>(with Limitation,<br>if applicable) | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>   |
| <b>Case Closure Activity</b>                           | <b>CCA</b>  | This code includes activities related to closing a client's case at the medical case management agency and in the SDIS. The limit in the SDIS for this activity per client is 30 units (i.e., 30 minutes; see "Definition of a Unit" above).   |
| <b>Collateral Contacts</b>                             | <b>COL</b>  | <p>This code is to be used by Peer Educators and Medical Case Management Assistants <b>only</b> to record communication with other care providers <b>inside</b> and <b>outside</b> of the Peer or Medical Case Management Assistant's own agency for <b>all</b> coordination of care activities conducted on behalf of the client. This includes telephone contacts or other electronic methods of communication (e.g., email or fax) with the outside or inside agency to obtain or provide additional information for the client's care.</p> <p>This code may also be used to document travel time with or on behalf of the client that is specific to care coordination, linkage to care, or retention in care activities conducted by Peer Educators or Medical Case Management Assistants. In such cases, documentation in the client chart must include reason for travel in relation to care coordination, linkage to care, or retention in care.</p> <p>This code <b>CANNOT</b> be used when pulling a chart to copy documents for a client's personal use or for filing documents. Instead, use the DOC billing code for pulling a chart or filing.</p> <p>Medical Case Managers and Medical Case Management Supervisors <b>CANNOT</b> use the COL code. Medical Case Managers and Medical Case Management Supervisors must use POC for <b>all</b> Plan of Care and coordination of care activities. See POC section below.</p> |
| <b>Consulting w/<br/>Staff</b>                         | <b>CON</b>  | This code includes activities related to case consultation with internal staff. This code may <b>only</b> be billed by the agency's OMB-authorized Medical Case Management Supervisor or Lead Medical Case Manager.  |

| <b>Medical Case Management &amp; PESN</b>              |   |  |
|--|---|--|
| <b>Activity</b><br>(with Limitation,<br>if applicable) | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>   |
| <b>Documentation</b>                                   | <b>DOC</b>  | <p>This code includes activities related to documenting any encounter in the SDIS, such as the progress note, face-to-face encounter, telephone contact, etc. This service code also includes time spent filing or organizing the client chart or pulling the chart to make copies that are unrelated to coordination of care for the client. This code also includes conducting peer reviews of client charts.</p> <p><b>Do <u>not</u> use this DOC code to record documentation of activities related to the client's care plan. Instead use POC to record <u>any</u> Plan of Care activity conducted by the Medical Case Manager or Medical Case Management Supervisor.</b></p> |
| <b>Eligibility Specialist (with Bachelor's Degree)</b> | <b>ESM</b>  | <p>This code is <b>only</b> for use by OMB-authorized Eligibility Specialists who have educational qualifications similar to a Ryan White Program Medical Case Manager (i.e., Bachelor's degree) (billable at \$1.00 per minute). This code is to be used <b>only</b> by authorized persons completing Ryan White Program eligibility and facilitating the financial eligibility review process at Jackson Health System for purposes of assisting eligible clients in obtaining a Jackson Health System/Jackson Memorial Hospital "J card" with the "IO1" designation of the Ryan White Program as the payer source.</p>  |
| <b>Eligibility Specialist (no degree)</b>              | <b>ESP</b>  | <p>This code is <b>only</b> for use by OMB-authorized Eligibility Specialists who do NOT have educational qualifications similar to a Ryan White Program Medical Case Manager (i.e., no degree) (billable at \$0.50 per minute). This code is to be used only by authorized persons completing Ryan White Program eligibility and facilitating the financial eligibility review process at Jackson Health System for purposes of assisting eligible clients in obtaining a Jackson Health System/Jackson Memorial Hospital "J card" with the "IO1" designation of the Ryan White Program as the payer source.</p>  |

| <b>Medical Case Management &amp; PESN</b>              |   |   |
|--|---|---|
| <b>Activity</b><br>(with Limitation,<br>if applicable) | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>  |
| <b>Face-to-Face<br/>Encounter</b>                      | <b>FFE</b>  | <p>This encounter is defined as any time the Medical Case Manager, Peer Educator, or Medical Case Management Supervisor has direct contact with the client in person. In consultations with a child and one or more adults, encounters are billed for one family member only who must be HIV+ and eligible for Ryan White Program-funded services. The FFE encounter includes activities that are conducted face-to-face with the client where no other encounter code is appropriate. FFE may also include referral activities if done face-to-face with the client.</p> <p>FFE may also be used to record travel time for the purpose of attending a medical appointment or social service appointment, only when traveling with the client. If travel is included in a FFE encounter, the appropriate reason and length of time must be documented in the client chart.</p>                                  |
| <b>Newly Identified<br/>Clients</b>                    | <b>NIC</b>  | <p>This code is to be used <b>only</b> for newly identified HIV+ clients in advance of confirming client eligibility for local Ryan White Program services. This code shall be used prior to completing a formal Ryan White Program Intake and Assessment for NIC client. <b>The limit in the SDIS for this activity is a combined total of 3 encounters, to be completed within a 30-calendar day period, by a Medical Case Manager and/or Peer Educator.</b></p> <p>These visits are to be used for: 1) providing supportive counseling and support in preparation for linkage to care (i.e., connection to a medical provider), 2) assisting the client in gathering documentation to confirm program eligibility in order to link these clients to outpatient primary medical care or Medical Case Management services, and 3) referring the client to a medical provider for an initial medical visit.</p> |

| <b>Medical Case Management &amp; PESN</b>              |   |   |
|--|---|---|
| <b>Activity</b><br>(with Limitation,<br>if applicable) | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>  |
| <b>Newly Identified Clients</b><br><i>(continued)</i>  | <b>NIC</b>  | <b>IMPORTANT NOTE:</b> Newly identified clients may be linked to care using the NIC code as indicated directly above; however, services funded by Ryan White Program dollars will either continue or cease for the client depending on the results from the confirmatory HIV test.  |
| <b>Electronic Override Activity</b>                    | <b>OVR</b>  | This code may <b>only</b> be used by authorized Medical Case Management Supervisors or Lead Medical Case Managers. The limit in the SDIS for this activity per client is 30 units (i.e., 30 minutes; see “Definition of a Unit” above).   |
| <b>Plan of Care</b>                                    | <b>POC</b>  | This code is <b>only</b> to be used by Medical Case Managers and Medical Case Management Supervisors to record <b>all</b> Plan of Care activities (including initial development of the Plan of Care, ongoing updates, follow-up, communication with other providers <b>within</b> the Medical Case Manager or Medical Case Management Supervisor’s own agency <b>or with an outside agency</b> for coordination of care). This includes face-to-face encounters related to the Plan of Care, as well as phone conversations, emails, faxes, and related referrals.<br><br>Peer Educators and Medical Case Management Assistants are <b>NOT</b> authorized to create or update the Plan of Care; and, therefore, are restricted from using this POC code. |
| <b>Safety Backup (PESN only)</b>                       | <b>PSFT</b>   | As a safety precaution, Ryan White Program Outreach Workers who must locate clients in high-risk areas or very rough neighborhoods may go out in two-person teams. In this scenario, a Peer Educator may accompany the Outreach Worker; and the Peer Educator should document the activity in the client chart, making note that they went to a high risk area with an Outreach Worker and clearly stating that they went along as a safety back-up. The Peer Educator should use the PSFT safety back-up code to record the entire service. Both the Peer Educator and the   |

| <b>Medical Case Management &amp; PESN</b>                  |   |   |
|--|---|---|
| <b>Activity</b><br>(with Limitation,<br>if applicable)     | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>  |
| <b>Safety Backup<br/>(PESN only)</b><br><i>(continued)</i> | <b>PSFT</b>   | Outreach Worker may reflect the time they spent on the encounter and have their agency or respective agencies report for the time and be reimbursed accordingly. The Peer Educator <b>cannot</b> use any other encounter code or billing code for this activity on the same day.  |
| <b>Chart Review</b>  | <b>REV</b>  | This code includes activities related to reviewing client charts for quality management purposes, to ensure proper documentation and coding. This code may <b>only</b> be billed by the agency's OMB-authorized Medical Case Management Supervisor or Lead Medical Case Manager.  |
| <b>Telephone<br/>Encounter</b>                             | <b>TEL</b>  | This code includes telephone contacts with the client or the client's representative, or leaving a voice message for the client. This activity does not include telephone contacts with other care providers.<br><br><b>IMPORTANT NOTE:</b> Telephone contacts with other care providers, for the purpose of coordinating care for clients, should be recorded as a collateral (COL) encounter if conducted by a Peer Educator or Medical Case Management Assistant. Use the Plan of Care (POC) code if the telephone contact was done by a Medical Case Manager or the Medical Case Management Supervisor for the purpose of coordinating care. See COL and POC above for additional guidance. |
| <b>RW-Approved<br/>Training</b>                            | <b>TRN</b>  | This code includes time spent at local Ryan White Program-approved training for Medical Case Managers, Peer Educators, Medical Case Management Supervisors, and Outreach Workers (using OTRN), such as quarterly case management supervisor trainings, Service Delivery Information System trainings, and quarterly Ryan White Program Provider Forums. The TRN code may not be used to bill for any training that is not a Ryan White Program-specific training; for example: use of the TRN code <b>CANNOT</b> be used to bill for staff attendance at Miami-Dade County HIV/AIDS   |

| <b>Medical Case Management &amp; PESN</b>              |   |   |
|--|---|---|
| <b>Activity</b><br>(with Limitation,<br>if applicable) | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>  |
| <b>RW-Approved<br/>Training</b><br><i>(continued)</i>  | <b>TRN</b>  | Partnership and Committee meetings, on-site technical assistance provided by Behavioral Science Research Corporation (the Program's contracted quality management provider), appreciation luncheons, agency-specific staff development activities, HIPAA refresher training, confidentiality training, SE-AETC on-line training modules, Linkage to Care Team meetings, or other employer-required training. Travel time is not included when billing the TRN code. Billing staff, data entry staff, and other administrative staff may not use the TRN code. |
| <b>Test &amp; Treat /<br/>Rapid Access</b>             | <b>TTRA</b>   | This code should be used to record TTRA activities performed by the Medical Case Manager, Medical Case Management Supervisor, or Peer Educator, following the protocol indicated in Section XIV of these Service Delivery Guidelines.   |

**ADDITIONAL IMPORTANT NOTES:**

- 1) There is no special billing code or activity code for ADAP-related services. ADAP-related services should be coded with the appropriate code from the table above.
- 2) MCM Supervisor direct service duties include activities related to, with, or on behalf of a client such as maintaining their own client case load, conducting case consultation with the Medical Case Manager for complex client issues or problems, and assisting the Medical Case Manager or client with the client's treatment adherence issues and/or other problems related to appropriate care.
- 3) MCM Supervisor administrative duties include staff scheduling, payroll, performance evaluations, general supervision, training unrelated to Ryan White Program activities, and other non-client related services. Do NOT use the billing codes above to record general administrative activities.

- D. Rules for Reporting:** Providers of PESN and Medical Case Management services must report, separately, their monthly activities according to one-minute "Face-to-Face" encounters and one-minute "Other" encounters. In addition, providers must report the number of unduplicated clients served. Providers must develop a method to track and report client wait time (e.g., the time it takes for a client to be scheduled to see a Medical Case Manager after calling for an appointment; and upon arrival for the appointment, the time the client spends waiting to see the Medical Case Manager and the wait time reaching a live person for assistance by telephone) and to make such reports available to OMB staff or authorized persons upon request.
- E. Applicability to Local Ryan White Program Requirements:** If a staff person of a Ryan White Program-funded service provider has a Ryan White Program Medical Case Management caseload, even one client, they will be required to adhere to the local Ryan White Program Service Delivery Guidelines, Medical Case Management Standards of Service, and Quality Management Program activities, whether or not they appear on the program's line item budget and regardless of the percentage of time and effort spent performing Ryan White Program Medical Case Management activities. Similarly, if provider's staff supervises any Ryan White Program Medical Case Management staff, whether or not they are on the budget for such, they also must follow the requirements in the local Ryan White Program Service Delivery Guidelines, Standards for Medical Case Management Supervisors, and Quality Management Program requirements.
- F. Additional Rules for Documentation:** Providers must also maintain documentation to support educational requirements in the personnel records for Medical Case Management staff and ensure that such documentation is available for review by authorized persons.

**MEDICAL TRANSPORTATION  
(VOUCHERS)  
(YEAR 28 Service Priority #7)**

**Medical Transportation (vouchers)** is a support service. Medical Transportation is the provision of non-emergency transportation services that enables an eligible client to access or be retained in core medical and support services. Locally, this service is limited to specially-designated, discounted EASY Tickets (transportation vouchers) from the Miami-Dade County Department of Transportation and Public Works (DTPW; formerly Miami-Dade Transit Agency-MDTA) to eligible HIV+ clients attending medical and/or social service appointments. Only monthly discounted EASY Tickets are available.

Providers of discounted EASY Tickets must demonstrate coordination with Miami-Dade County transportation agencies and services, Medicaid Special Transportation, Miami-Dade County Special Transportation Services (STS), and other existing transportation programs to avoid duplication of services. In addition, providers of transportation tickets are encouraged to apply annually to the Miami-Dade Transit Agency's Transportation Disadvantaged Program (<http://www.miamidade.gov/transit/transportation-disadvantaged-program-guidelines.asp>) in order to obtain assistance for clients who are eligible under that program, where applicable. As a reminder, in all cases, the Ryan White Program must be used as the payer of last resort.

- A. Program Operation Requirements:** Discounted EASY Tickets are available to program-eligible clients who meet the requirements of this service category, for unlimited trips during the calendar month. These specially-designated EASY Tickets will not be usable in other months and are not "re-loadable."

These monthly transportation tickets must be distributed in a timely manner (no later than the 5<sup>th</sup> business day of the month) in order to maximize ticket usage. Unused discounted EASY Tickets (transportation vouchers) **cannot** be returned to the DTPW for credit. Unused or undistributed discounted EASY tickets **cannot** be charged to the Ryan White Program.

Providers must inform clients that this type of assistance is **not** an entitlement. Therefore, the level of assistance provided to individual clients is based on relative need and voucher availability. Clients must also be informed that the availability of transportation tickets is contingent upon funding availability and, therefore, the continuance of this type of assistance is not guaranteed.

Multiple instances of reduced fare transportation assistance per client per month are **NOT** allowed regardless of circumstance, payer source, and/or government assistance program that is using/providing the subsidized fare. As payer of last resort, the Ryan White Program can only reimburse subrecipients (service providers) for EASY Ticket fares (vouchers) distributed to eligible clients that are

**NOT ELIGIBLE** to receive subsidized transportation assistance or fares under **ANY OTHER** program. **Effective April 1, 2018**, this restriction will be closely monitored by the County's DTPW and the Office of Management and Budget (OMB) as a condition of the Ryan White Program having program access to the discounted EASY Tickets. Lost or stolen EASY tickets cannot be replaced by the local Ryan White Part A Program and replacements will not be considered by DTPW.

Regular reconciliation through a secure data system match of clients receiving discounted EASY Tickets through the Ryan White Part A Program will be conducted on a quarterly basis between the County's authorized OMB and DTPW staff, to ensure clients are not receiving more than one (1) instance of reduced fare transportation assistance per month. Clients found to be receiving duplicative discounted transportation services may be banned from receiving any additional assistance from one or both sources (the County's Ryan White Program or DTPW). **Medical Case Managers and Medical Transportation subrecipients must inform clients of this restriction and the reconciliation process.**

Prior to distributing these transportation vouchers starting with the April 2018 passes, **subrecipients of Medical Transportation services must ensure that clients:** 1) review and sign the "Miami-Dade County Ryan White Part A Program Acknowledgement to Receive Monthly Transportation Assistance" attesting to their understanding of this restriction, including consent for the reconciliation data system match; 2) indicate that they have not received other discounted transportation assistance for the same month; and 3) indicate that they do not qualify to receive free or subsidized transportation assistance (fare) from any other program. This client acknowledgement/consent form is required prior to the client receiving a discounted EASY Ticket **each month**. A copy of the acknowledgement for each month of service must be maintained in the client's record/chart at the Medical Transportation subrecipient's site.

Providers must document criteria, policies, and procedures utilized to determine transportation EASY Tickets allotments for clients that must take into account not only minimum requirements, but also consideration for those clients who demonstrate the greatest need for these services. This documentation must be provided to the Miami-Dade County Office of Management and Budget-Grants Coordination upon request.

Documentation of multiple [at least three (3)] monthly medical and/or social service appointments must be submitted by the client to his/her Medical Case Manager before the client can receive transportation assistance. If allowable appointments are appropriately documented in the client chart for each month of service, the Ryan White Program will not restrict the total number of months in which the client can receive transportation services during the grant Fiscal Year. Service providers will monitor the consistency of client attendance at these monthly medical and/or social

service appointments to ensure compliance with the requirement for use of transportation vouchers under this program. If clients are non-adherent to appointments this must be documented and service providers will have the discretion, on a case-by-case basis, to not issue a voucher to continually non-compliant clients. “Non-compliant” is defined herein as two missed appointments in two consecutive months (e.g., two months in which two or more appointments have been missed each month without acceptable excuse or cancellation for cause by client would be considered non-compliant). Miami-Dade County Office of Management and Budget-Grants Coordination staff will also monitor compliance with this restriction.

- B. Rules for Reimbursement:** Discounted EASY Tickets cost \$56.25 per month; and this rate may be subject to change. The number of discounted EASY Tickets available for distribution should be consistent throughout the duration of the contract period, unless the cost of these EASY Tickets changes, and must take into consideration the total budget request, agency capacity, client eligibility, and demand for this service. For any given month, once an allotment of tickets has been exhausted, providers may not distribute additional tickets for that month. Providers will be reimbursed based on properly documented service utilization reports from the Service Delivery Information System (SDIS), indicating the date of discounted EASY Ticket distribution, client CIS number, and dollar amount including dispensing charge. Dispensing charges, not to exceed 15%, will be reimbursed after services have been provided, client utilization and disbursement information is submitted to the County, and vendor payment has been documented. This service is subject to audit by the Office of Management and Budget-Grants Coordination. Discounted EASY Ticket orders, invoices, and payments, as well as monthly distribution logs and acknowledgement of program limitations signed by the client, will be reviewed.
- C. Additional Rules for Reporting:** Providers must report monthly activity according to the dollar amount of the tickets issued, the number of tickets distributed, date of distribution per client, and the unduplicated number of clients served. As stated above in Medical Transportation section A above, a reconciliation data system match will be conducted quarterly of all clients receiving discounted EASY Tickets through the Ryan White Part A Program. This reconciliation review will be conducted by the County’s authorized Ryan White Program Recipient (OMB) and DTPW staff.
- D. Special Client Eligibility Criteria:** A Ryan White Program Certified Referral or an Out of Network Referral (accompanied by all appropriate supporting documentation) is required for this service and must be updated every six (6) months. Clients receiving Ryan White Program Part A-funded Medical Transportation assistance must be documented as having gross household incomes below 150% of the 2018 Federal Poverty Level (FPL). Clients receiving discounted EASY Tickets (transportation vouchers) must be documented as having been

properly screened for other public sector funding as appropriate every six (6) months. While clients qualify for and can access other public funding [including, but not limited to, Medicaid, Medicaid Managed Medical Assistance (MMA), or Medicaid Long-term Care (LTC) transportation services; or the County's Golden Passport program, etc.) for transportation services], they will not be eligible for Ryan White Part A-funded Medical Transportation (discounted EASY Tickets) assistance.

**MENTAL HEALTH SERVICES**  
*(YEAR 28 Service Priority #6)*

**Mental Health Services** are core medical services. These Mental Health Services include the provision of outpatient psychological and psychiatric screening, assessment, diagnosis, treatment, and counseling services offered to clients living with HIV or AIDS. Services are based on a treatment plan, conducted in an outpatient group or individual session, and provided by a mental health professional licensed or authorized within the State of Florida to render such services. Such professionals typically include psychiatrists, psychologists, and licensed clinical social workers (see below for additional allowable professions under the local Ryan White Part A Program).

These services may be used by appropriate mental health providers to assess and diagnose a mental health illness. However, a diagnosed mental health illness is required to receive treatment and counseling under this service category. Psychiatric treatment that is part of medical visit or a medication management and evaluation process must be recorded and billed under Outpatient/Ambulatory Health Services.

Mental Health Services are allowable only for program-eligible clients living with HIV or AIDS. This service is not available to non-HIV family members. Ryan White Program funds may **not** be used for bereavement support for uninfected family members or friends.

Mental Health Services reimbursed under Part A of the Ryan White Program are limited to conditions impacting the treatment of the client's underlying HIV disease (i.e., assessing, diagnosing, and treating a mental health condition that hinders HIV treatment adherence) and treated within the context of the client's HIV or AIDS diagnosis. This service is intended to address HIV-related issues and strengthen coping skills to increase adherence and access to ongoing medical care and treatment. It is important for the Level I or Level II mental health professional to regularly gauge the client's progress, and determine if the client is still in need of the service.

- **Mental Health Services (Level I):** This level includes *intensive* mental health therapy and counseling (individual, family, and group) provided solely by *state-licensed mental health professionals*. Direct service providers would possess **a Doctorate degree in psychology or counseling or related field (PhD, EdD, Psy.D), and must be licensed by the State of Florida** as a Licensed Clinical Psychologist, LCSW, LMHC, or LMFT to provide such services.
- **Mental Health Services (Level II):** This level includes *intensive* mental health therapy and counseling (individual, family, and group) provided solely by *state-licensed mental health professionals*. Direct service providers would possess **a Master's degree in psychology, psychotherapy or counseling or related field (MS, MA, MSW, or M.Ed.), and must be licensed by the State of Florida** as a LCSW, LMHC or LMFT to provide such services. **Direct service providers may also be:** 1) Florida registered interns as defined by Florida Statute (F.S.) 491.0045

(Clinical Social Work Intern, Mental Health Counselor Intern, or Marriage and Family Therapy Intern), or 2) a Psychology Intern, Postdoctoral Resident, or Fellow satisfying Rule 64B19-11.005 of the Florida Administrative Code (F.A.C.). Such interns will provide services under the supervision of a licensed State of Florida LCSW, LMHC, LMFT or Licensed Psychologist to provide such services.

### **Mental Health Service Components:**

**Level I counseling services** include psychosocial assessment and evaluation, testing, diagnosis, treatment planning with written goals, crisis counseling, periodic re-assessments, re-evaluations of plans and goals documenting progress, and referrals to psychiatric and/or other services as appropriate. Issues of relevance to HIV/AIDS clients such as risk behavior, substance abuse, adherence to medical treatments, depression, panic, anxiety, maladaptive coping, safer sex, and suicidal ideation will be addressed. Mental health professionals are encouraged to practice and introduce motivational interviewing and harm reduction strategies to their clients, if deemed clinically appropriate. Services at this level are provided for clients experiencing acute, sporadic mental health problems and are generally not long term [individual counseling shall not exceed 32 encounters per Fiscal Year and five (5) units (maximum of 2 ½ hours) per session; 1 encounter = 1 day of service].

**Level II counseling services** include crisis counseling, re-evaluations of plans and goals documenting progress, and referrals to psychiatric and/or other services as appropriate. Issues of relevance to HIV/AIDS clients such as risk behavior, substance abuse, adherence to medical treatments, depression, panic, anxiety, maladaptive coping, safer sex, and suicidal ideation will be addressed. Mental health professionals are encouraged to practice and introduce motivational interviewing and harm reduction strategies to their clients, if deemed clinically appropriate. Services at this level are provided for clients experiencing acute, sporadic mental health problems and are generally not long term [individual counseling shall not exceed 32 encounters per Fiscal Year and five (5) units (maximum of 2 ½ hours) per session; 1 encounter = 1 day of service].

**Group Counseling (Levels I and II)** refers to a group of individuals [minimum of three (3) Ryan White Program clients, maximum of fifteen (15) total clients] with similar problems meeting under the expert guidance of a trained mental health professional. Members of the group will be selected by the mental health professional in order to maximize the interaction, learning, and benefits derived from a group dynamic. Group counseling provides therapy in a social context, reduces the feeling of isolation many clients experience, provides an opportunity for clients to share methods of problem-solving, and allows the therapist an opportunity to observe how an individual interacts with others.

- A. Program Operation Requirements:** Staff must demonstrate knowledge of HIV disease, its psychosocial dynamics and implications, including cognitive impairment, and generally accepted treatment modalities and practices. Services may be delivered to non-HIV+ family members (as defined by the client) only if the HIV+ client is also being served. Providers will comply with super-confidentiality laws as per State of Florida's guidelines. The ratio of group counseling participants to counselors may not be lower than 3:1 and may not be higher than 15:1, as described above. One visit is equal to one half-hour counseling session.

Clients who are newly diagnosed with HIV or have returned to care should be offered the opportunity to speak with a mental health provider as a routine component of the services available through the local Ryan White Part A Program. An initial mental health visit could be used to identify, assess, or verify mental health conditions that may affect a client's treatment adherence. Subsequent or on-going Mental Health Services under the Ryan White Part A Program require a mental health diagnosis documented in the client's chart. To facilitate this process for newly diagnosed or returned to care clients who are following the Test & Treat / Rapid Access (TTRA) protocol, the TTRAMH service code should be used to document the Mental Health Services provided. TTRAMH services are limited to one encounter (all mental health services provided on one day) within 30 days of starting the TTRA protocol, while program eligibility is being determined. For clients following the Newly Identified Client (NIC) protocol, Mental Health Services may be provided with these same limitations when using the NICMH service code.

- B. Additional Service Delivery Standards:** Level I and Level II providers must adhere to generally accepted clinical guidelines for psychological treatment of persons with HIV/AIDS-related illnesses. (Please refer to Section III of this FY 2018 Service Delivery Guidelines book for details.)
- C. Rules for Reimbursement:** Reimbursement for individual and group Mental Health Services will be based on a half-hour counseling session not to exceed \$32.50 per unit for Level I individual counseling; \$35.00 per unit for Level I group counseling; \$32.50 per unit for Level II individual counseling; and \$35.00 per unit for Level II group counseling. Reimbursement for individual counseling units are calculated for each client receiving the therapy (i.e., number of individual counseling units per client), whereas, reimbursement for group counseling units are calculated for the counselor that provided the group counseling (i.e., number of group counseling units per counselor). The TTRAMH and NICMH codes are reimbursable under Level I or Level II individual counseling at \$32.50 per unit (i.e., per half-hour session).
- D. Additional Rules for Reporting:** The unit of service for reporting monthly activity of individual and group Mental Health Services is a one-half-hour counseling session and the unduplicated number of clients served. Providers will report individual and group activity separately for Level I and Level II Mental Health Services.

- E. Additional Rules for Documentation:** Providers must also maintain certifications and licensure documents of the mental health professionals providing services to Ryan White Program clients, and must make these documents available to OMB staff or authorized persons upon request. Client charts **must** include a detailed treatment plan for each eligible client that includes required components and the mental health professional's signature.

**ORAL HEALTH CARE**  
*(YEAR 28 Service Priority #5)*

**Oral Health Care** is a core medical service. This service includes diagnostic, preventive, and therapeutic services provided by a dental health care professional licensed to provide dental care in the State of Florida, including general Dentists, dental specialists, and Dental Hygienists, as well as licensed Dental Assistants. In accordance with Rule 64B5-9.011 of the Florida Administrative Code, Dental Assistants who are formally trained or have an appropriate certification (e.g., radiography) meet HRSA's requirement of a licensed Dental Assistant.

This service may include diagnostic, preventive, and restorative services; endodontics, periodontics, and prosthodontics (removable and fixed); maxillofacial prosthetics; implant services (limited to removal of implant or repair of implant abutment); oral and maxillofacial surgery; and adjunctive general services as detailed and limited in the most current, local Ryan White Program Oral Health Care Formulary.

- A. Program Operation Requirements:** Provision of Oral Health Care services for any one client is limited to an annual cap of \$5,600 per the Ryan White Part A Fiscal Year (March 1, 2018 through February 28, 2019). Very limited exceptions to the annual cap may be approved by the County, with consultation from the Miami-Dade HIV/AIDS Partnership's Ad Hoc Oral Health Care Committee as needed, on a case-by-case basis for the provision of preventive Oral Health Care services only.

Clients referred for Oral Health Care by a Ryan White Part A or MAI Medical Case Manager require a Ryan White Program Certified Referral Form, as approved by the Miami-Dade HIV/AIDS Partnership and the County. If the client is referred by a non-Part A or non-MAI provider ("Out of Network" provider), an OON general certified referral form must be submitted accompanied by the required medical, financial, and permanent Miami-Dade County residency documentation as well as all required consent forms and Notice of Privacy Practices. Clients coming without a referral, but with necessary documentation to support Ryan White Part A Program eligibility and current (not more than 6 months old) Viral Load and CD4 lab test results, are also able to access Ryan White Part A Oral Health Care services, upon completion of a brief intake in the SDIS by the Oral Health Care provider agency and the client's signed consent for service.

When a referral from a Dentist to a dietitian is needed, the Dentist must coordinate with the client's Primary Care Physician to obtain the required referral to nutrition services (i.e., a referral to Ryan White Program outpatient specialty care services). This is necessary to ensure communication between the care team (e.g., Physician and Dentist). The client's Medical Case Manager should also be informed of the client's need for nutrition services.

All referrals to Ryan White Part A Oral Health Care services should include the client's primary care or HIV Physician's contact information (name, address, phone and fax numbers, and email if available) and note any known allergies the client may have. This information can be included in the comments section of the referral.

**Providers must offer, post, and maintain a daily walk-in slot for clients with urgent/emergent dental issues. Clients who come into or contact the office with urgent/emergent dental issues (e.g., pain, broken tooth, situation requiring immediate treatment, or situation causing client high level of distress) will be triaged by appropriate dental staff; and those clients with substantial issues will be seen as soon as possible, but within 48 hours (i.e., two business days).**

- B. Additional Service Delivery Standards:** Providers of this service will adhere to the most current, local *Ryan White Program System-wide Standards and Ryan White Program Oral Health Care Standards*. (Please refer to Section III of this FY 2018 Service Delivery Guidelines book for details.) Providers will be required to demonstrate that they adhere to generally accepted clinical guidelines for Oral Health Care treatment of HIV and AIDS-specific illnesses, upon request and through monitoring site visits or quality management record reviews.
- C. Rules for Reimbursement:** Providers will be reimbursed for all routine and emergency examination, diagnostic, prophylactic, restorative, surgical and ancillary Oral Health Care procedures, as approved by the Miami-Dade HIV/AIDS Partnership and included in the most current, local Ryan White Program Oral Health Care Formulary using the 2018 American Dental Association Current Dental Terminology (CDT 2018) codes for dental procedures. Reimbursement is in accordance with the rates indicated in the most current, local Ryan White Program Oral Health Care Formulary; flat fee, no multiplier.

An estimate of the number of clients (unduplicated caseload) expected to receive these services must be included on the corresponding price form.

- D. Children's Eligibility Criteria:** Providers must document that HIV+ children who receive Part A-funded Oral Health Care services are permanent residents of Miami-Dade County and have been properly screened for other private or public sector funding [i.e., private insurance, Medicaid, the Medically Needy Program, Children's Health Insurance Program (CHIP), Florida KidCare, etc.), as appropriate. While children qualify for and can access private insurance, Medicaid (all programs), or other public sector funding for Oral Health Care services, they will not be eligible for Ryan White Part A-funded Oral Health Care services, except those dental procedures excluded by the other funding sources.

- E. Additional Client Eligibility Criteria:** Clients receiving Oral Health Care must be documented as having been properly screened for other public sector funding as appropriate every six (6) months. While clients qualify for and can access dental services through other public funding [including, but not limited to, Medicaid, Medicaid Managed Medical Assistance (MMA), Medicaid Long Term Care (LTC), or private health insurance], they will not be eligible for Ryan White Part A Program-funded Oral Health Care except for such program-allowable services that are not covered by the other sources or if their related benefits have been maxed out for the benefit period.
- F. Ryan White Program Oral Health Care Formulary:** Ryan White Part A Program funds may only be used to provide Oral Health Care services that are included in the most recent release of the most current, local Ryan White Program Oral Health Care Formulary. The Formulary is subject to periodic revision.
- G. Rules for Documentation:** Providers must maintain a dental chart or electronic record that is signed by the licensed provider (e.g., Dentist, etc.) and includes a treatment plan, dates of service, services provided, procedure codes billed, and any referrals made. Providers must also maintain professional certifications, licensure documents, and proof of training, where applicable, of the dental staff providing services to Ryan White Program clients. Providers must make these documents available to OMB staff or authorized persons upon request.
- H. Rules for Reporting:** Provider monthly reports (i.e., reimbursement requests) for Oral Health Care must include the number of clients served, billing code for the dental procedures provided, number of units of service provided, and the corresponding reimbursement rate for each service provided. Providers must also develop a method to track and report client wait time (e.g., the time it takes for a client be scheduled to see the appropriate dental provider after calling for an appointment; and upon arrival for the appointment, the time the client spends waiting to see the dental provider) and to make such reports available to OMB staff or authorized persons upon request.

**OTHER PROFESSIONAL SERVICES:  
LEGAL SERVICES AND PERMANENCY PLANNING  
(YEAR 28 Service Priority #12)**

**Other Professional Services (Legal Services and Permanency Planning)** are support services. Other Professional Services allow for the provision of professional and consultant services rendered by members of particular professions licensed and/or qualified to offer such services by local governing authorities. Locally, this service category is limited to the provision of Legal Services and Permanency Planning to people living with HIV or AIDS who would not otherwise have access to these services, with the goal of maintaining clients in health care. Legal Services are available to eligible individuals with respect to powers of attorney, do-not-resuscitate orders, and interventions necessary to ensure access to eligible benefits, including discrimination or breach of confidentiality litigation as it relates to services eligible for funding under the Ryan White Program, especially but not limited to assistance with access to benefits and health care-related services.

**A. Program Operation Requirements:** Funds may be used to support and complement pro bono activities. All legal assistance under Ryan White Part A Program funding will be provided under the supervision of an attorney licensed by the Florida Bar Association. Only civil cases are covered under this Agreement. Therefore, the service provider will assist eligible Ryan White Program clients with civil legal HIV-related issues which will benefit the overall health of the client and/or the Ryan White Program care delivery system in the following areas:

- Collections/Finance – issues related to unfair or illegal actions by collection agencies related to health care debt (e.g., bankruptcy due to health care debt).
- Employment Discrimination Services – issues related to discrimination while at work, unfair terminations, unfair promotion policies, or hostile work environment as related to HIV diagnosis or status.
- Health Care Related Services – issues related to ensuring that the client is treated in a fair manner, and issues relating to breach of confidentiality by divulging HIV status or other confidential medical/income information without client consent.
- Health Insurance Services – issues related to seeking, maintaining, and purchasing of private health insurance.
- Government Benefit Services – issues related to obtaining or retaining public benefits which the client has been denied and is eligible to receive, including but not limited to Social Security Disability and Supplemental Income Services (SSDI and SSI) benefits, Unemployment Compensation, as well as welfare appeals, and similar public/government services.

- Rights of the Recently Incarcerated Services – issues related to a client’s right to access and receive medical treatment upon release from a correctional institution.
- Adoption/Guardianship Services – issues relating to preparation for custody options for legal dependents including standby guardianship, joint custody, or adoption.
- Permanency Planning – this component helps clients/families make decisions about the placement and care of minor children after their parents/caregivers are deceased or are no longer able to care for them, including: the provision of social service counseling or legal counsel regarding the drafting of wills or delegating powers of attorney. This sub-component includes preparation of advance directives, healthcare power of attorney, durable powers of attorney, and living wills.

**IMPORTANT NOTES:**

- Adoption/Guardianship is related to Permanency Planning under HRSA Policy Clarification Notice #16-02; however, for local tracking purposes, it has been identified as a separate billable component.
- Adoption/Guardianship and Permanency Planning activities do not include any legal services that arrange for guardianship or adoption of children after the death of their normal caregiver. Proper planning must occur prior to the death of the client (i.e., parent/guardian).

Providers should demonstrate experience in providing similar services and the ability to meet the multi-lingual needs of the HIV/AIDS community.

- B. Rules for Reimbursement:** The unit of reimbursement for this service is *one hour (or fraction thereof)* of legal consultation and/or advocacy provided by an attorney or paralegal at a rate not to exceed \$90.00 per hour.
- C. Additional Rules for Reporting:** Monthly activity reporting for this service will be on the basis of *one hour of legal consultation and/or advocacy* provided by an attorney or paralegal. Legal Services and Permanency Planning providers must submit an annual written assurance that: 1) Ryan White Program funds are being used only for Legal Services and Permanency Planning directly necessitated by an individual’s HIV status; 2) Ryan White Program funds are not used for any criminal defense or for class action suits unrelated to access to services eligible for Ryan White Program funding; and 3) the Ryan White Program was used as the payer of last resort.

- D. Special Client Eligibility Criteria:** A Ryan White Program Certified Referral or an Out of Network Referral (accompanied by all appropriate supporting documentation) is required for this service and must be updated annually. Providers must also document that HIV+ clients receiving Ryan White Program Part A-funded Other Professional Services (Legal Services and Permanency Planning) are permanent residents of Miami-Dade County and have gross household incomes that do not exceed 200% of the 2018 Federal Poverty Level (FPL).
- E. Additional Rules for Documentation:** Client charts must include a description of how the Legal Service or Permanency Planning services are necessitated by the individual's HIV status, the provision of services, client eligibility (Ryan White Program Certified Referral or Out of Network Referral with supporting documentation), and the hours spent in the provision of such services.

**OUTPATIENT/AMBULATORY HEALTH SERVICES**  
**(General HIV/AIDS Population & MAI)**  
***(YEAR 28 Service Priority #1 for Part A and # 1 MAI)***

- A. **Outpatient/Ambulatory Health Services** are core medical services. These services include primary medical care and outpatient specialty care required for the treatment of people living with HIV or AIDS. These services focus on timely/early medical intervention and continuous health care and disease treatment and management over time. Primary medical care for the treatment of HIV infection includes the provision of care that is consistent with the Public Health Service (PHS) guidelines. Such care must include access to antiretroviral (ARV) and other prescription drug therapies, including prophylaxis and treatment of opportunistic infections (OI) and combination ARV therapies.

**IMPORTANT NOTE: Services are restricted to outpatient services only.**

For the outpatient medical services to be considered Ryan White Program allowable, such services must be provided in relation to a client's HIV+ diagnosis, co-morbidity, or complication related to HIV treatment. This program allowable relationship must be clearly documented in the client's medical chart, in the Primary Care Physician's referral to specialty care services, and in any corresponding Ryan White Program Certified Referral or general Out of Network Referral. A list of Allowable Medical Conditions, last updated March 19, 2018, as may be amended, is included in Section VIII of this FY 2018 Service Delivery Guidelines book for reference. For clarity, one or more of the listed conditions along with one of the following catch-phrases should be included in the Physician's notation and related referral, as appropriate:

- Service is in relation to this client's HIV diagnosis.
- Service is needed due to a related co-morbidity.
- Service is needed due to a condition aggravated or exacerbated by this client's HIV.
- Service is needed due to a complication of this client's HIV treatment.
- Routine diagnostic test conducted as a standard of care (SOC)
  - The SOC should be implemented as recommended by established medical guidelines, including, but not limited to, Public Health Service (PHS), American Medical Association, Health Resources and Services Administration; see Minimum Primary Medical Care Standards for Chart Reviews in Section III of this Service Delivery Guidelines document or other local guidelines.

Treatment of Gender Identity Disorder/Gender Dysphoria (e.g., Delestrogen and its administration, etc.) are not considered related to HIV, a co-morbidity, or a complication of HIV treatment, and, therefore, is not covered by the Ryan White Part A/MAI Program.

**I. Primary Medical Care**

- 1. Primary Medical Care Definition and Functions:** Primary medical care includes the provision of comprehensive, coordinated, professional diagnostic and therapeutic services rendered by a Physician, Physician Assistant, Clinical Nurse Specialist, Nurse Practitioner, Advanced Registered Nurse Practitioner, or other health care professional who is licensed in the State of Florida to practice medicine to prescribe ARV therapy in an outpatient setting. Outpatient settings include clinics, medical offices, and mobile vans where clients in general do not stay overnight. **Emergency rooms or urgent care centers are not considered outpatient settings, and are not covered. Inpatient (hospital, etc.) services are also not covered.**

Allowable activities include: medical history taking; physical examination; diagnostic testing, including, but not limited to, laboratory testing; treatment and management of physical and behavioral health conditions; behavioral risk assessment, subsequent counseling, and referral; preventive care and screening; pediatric development assessment; prescription and management of medication therapy; treatment adherence; education and counseling on health and prevention issues; and referral to specialty care related to client's HIV diagnosis, co-morbidity, or complication of HIV treatment. Services also include diagnosis and treatment of common physical and mental conditions, prescribing and managing medication therapy, education and counseling on health issues, continuing care and management of chronic conditions, and referral to specialty care (including all medical subspecialties if related to the client's HIV diagnosis, co-morbidity, or complication of HIV treatment), as necessary. Chronic illnesses usually treated by primary care providers include hypertension, heart failure, angina, diabetes, asthma, chronic obstructive pulmonary disease (COPD), depression, anxiety, back pain, thyroid dysfunction, and HIV.

Visits to ensure readiness for and adherence to complex HIV treatments shall be considered either billable under Medical Case Management or Outpatient/Ambulatory Health Services, depending on how the visit occurred. Treatment Adherence Services provided during an Outpatient/Ambulatory Health Service visit shall be reported under the Outpatient/Ambulatory Health Services category (using the appropriate CPT billing code); whereas, Treatment Adherence Services provided during a Medical Case Management visit shall be reported in the Medical Case Management service category (using the ADH billing code).

**One (1), initial primary medical care visit may be provided to a newly identified client who has a preliminary reactive test result and a pending confirmatory HIV test result, if the client was properly referred by a Medical Case Manager or Outreach Worker. To be valid for this purpose, the referral must have an indication that the client is a “newly identified client” (NIC).**

**Such initial primary medical care visit must be scheduled and provided within 30 calendar days of referral from the Medical Case Manager or Outreach Worker. Otherwise, a confirmatory HIV test result will be required to obtain further services.**

### **Limitations on Specialty Testing**

If a phenotype lab test is needed, a *Ryan White Program Letter of Medical Necessity, completed by a Physician, for Antiretroviral Phenotype including Phenosense Resistance Assays for Experienced Patients* is required. **IMPORTANT NOTE:** genotype tests with or without Virtual Phenotype tests do not require a Letter of Medical Necessity.

Before prescribing Selzentry (Maraviroc), a Highly Sensitive Tropism Assay (test), formerly known as the Trofile Tropism Assay, must be performed and documented in the client's chart to determine appropriateness of the treatment regimen. The Highly Sensitive Tropism Assay includes the Trofile, Trofile DNA, or Quest Diagnostics Tropism assay. If the cost of the Highly Sensitive Tropism Assay is being covered by ViiV Healthcare's Tropism Access Program (TAP) (<https://www.viivhcdxresource.com/TropismTesting/TAP>) or any other payment source, clients must access the test through those resources first.

Only when the cost of the Highly Sensitive Tropism Assay is no longer covered by ViiV Healthcare's TAP or any other source, then the client's medical provider must verify and document on the corresponding Ryan White Program Letter of Medical Necessity that the client has been found to be ineligible for the test to be paid for by any other payment source.

Another test currently covered by ViiV Healthcare at no charge to eligible clients or the Ryan White Program is the HLA-B\*5701 screening test. This screening test is available to assist clinicians in identifying clients who are at risk of developing a hypersensitivity reaction to abacavir (Ziagen). Whenever the cost of the HLA-B\*5701 screening test can be covered by the ViiV Healthcare or any other source, providers cannot bill the local Ryan White Program for reimbursement of this test. Information regarding ViiV Healthcare's HLA-Aware™ Program for the HLA-B\*5701 screening test can be found at the following webpage: <https://viivhcdxresource.com/HLA/AwareProgram>.

The Ryan White Program must be the payer of last resort. Utilization of these tests (Highly Sensitive Tropism Assay and HLA-B\*5701 screening test) as billed to the local Ryan White Program will be monitored, and reimbursement may be denied if documentation does not support the use of Ryan White Program funds as a last resort.

2. **Client Education:** Providers of primary medical care services are expected to provide the following basic education as part of client care:
  - Treatment options, with benefits and risks, including information about state of the art combination drug therapies and reasons for treatment;
  - Self-care and monitoring of health status;
  - HIV/AIDS transmission and prevention methods; and
  - Significance of CD4 counts, viral load and related disease aspects, adherence and resistance concepts.
  
3. **Adherence Education:** Providers of primary medical care services are responsible for assisting clients with adherence in the following ways:
  - Adherence with medication regimens in order to reduce the risk of developing and spreading a resistant virus and to maintain health;
  - Taking medications as prescribed, and following recommendations made by Physicians, Physician Assistants, Advanced Registered Nurse Practitioners, Nutritionists, and Pharmacists;
  - Client involvement in the development and monitoring of treatment and adherence plans; and
  - Ensuring immediate follow-up with clients who miss their prescription refills, medical appointments, and/or who experience difficulties with treatment adherence.
  
4. **Coordination of care:** Providers of primary medical care services are responsible for ensuring continuity and coordination of care. They must:
  - Maintain contact as appropriate with other caregivers (Medical Case Manager, Nutritionist, Specialty Care Physician, Pharmacist, Counselor, etc.) and with the client in order to monitor health care and treatment adherence;
  - Ensure that the client receives coordinated, interdisciplinary support for adherence and assistance in overcoming barriers to meeting treatment objectives; and
  - Identify a single point of contact for Medical Case Managers and other agencies that have a client's signed consent and other required information.

5. **Additional primary medical care services may include:**

- Respiratory therapy needed as a result of HIV infection.

II. **Outpatient Specialty Care**

1. **Outpatient Specialty Care Definition and Functions:** This service covers short-term ambulatory treatment of specialty medical conditions and associated diagnostic procedures for HIV+ clients who are referred by a primary care provider through a Ryan White Program Certified Referral, OON referral, or prescription referral. Specialty medical care includes cardiology, chiropractic, colorectal, clinical psychiatry, dermatology, ear, nose and throat/otolaryngology, endocrinology, gastroenterology, hematology/oncology, hepatology, infectious disease, orthopedics/rheumatology, nephrology, neurology, nutritional assessments or counseling (performed by a Registered Dietitian), obstetrics and gynecology, ophthalmology/optometry, pulmonology, respiratory therapy, urology, and other specialties **as related to the client's HIV diagnosis, co-morbidities, or complications of HIV treatment (see Allowable Medical Conditions List in Section VIII of this FY 2018 Service Delivery Guidelines book)**. Additional medical services may include outpatient rehabilitation, podiatry, physical therapy, occupational therapy, and speech therapy as related to the client's HIV diagnosis, co-morbidities, or complications of HIV treatment. Pediatrics and specialty pediatric care are included in the list of specialties above. A Mental Health Services provider may also make referrals to clinical psychiatry. **(IMPORTANT NOTE:** Referrals to outpatient specialty care services should include documentation or a notation to support the specialty's relation to the client's HIV diagnosis, co-morbidity, or complication of HIV treatment.)

Chiropractic services under the Ryan White Program are limited to services in relation to the client's HIV diagnosis. These services may relate to pain caused by the disease itself or pain that is a consequence of HIV medications. Chronic pain is also considered a co-morbidity to HIV and may also be treated when appropriate. Chiropractors affect the nervous system and immune system by utilizing spinal adjustments and physiotherapy to the spine and body that may assist the nervous system in operating to the best of its ability to fight HIV-related infection, disease, and symptomatology. Chiropractic physicians may adjust, manipulate, or treat the human body by manual, mechanical, electrical or natural methods; by the use of physical means or physiotherapy, including light, heat, water, or exercise, or by the administration of foods, food concentrates, food extracts, and items for which a prescription is not required. Chiropractic services for non-HIV related injuries or conditions are not covered. Examples of non-HIV related injuries or conditions are slip and falls, car accidents, sports injuries, and acute pain.

Podiatry services under the County's Ryan White Program are limited to services in relation to a client's HIV diagnosis or co-morbidity (e.g., diabetes). The local Ryan White Part A/MAI Program will reimburse providers for the diagnostic evaluation of foot and ankle pain. Podiatry services for the treatment of peripheral neuropathy, HIV-related medication side effects (e.g., HAART/protease inhibitor medication regimens may cause ingrown toenails), onychomycosis, and diabetic foot care due to circulatory problems will be covered by the County's Ryan White Program. Conditions such as hammer toes, bunions, heel spurs may be covered if related to neuropathies. Sprains or fractures are not covered unless a direct connection to neuropathies is present. Furthermore, general podiatry services for non-HIV-related or non-diabetic-related foot injuries or conditions are not covered by the County's Ryan White Program.

Optometry and ophthalmology services under the Ryan White Program are also limited to services in relation to a client's HIV diagnosis or co-morbidity. An annual eye exam solely for the purpose of routine eye care (especially for vision correction with glasses or contact lenses) is not covered by the local Ryan White Part A/MAI Program. In accordance with the local Ryan White Part A Program's Allowable Medical Conditions list, last updated March 19, 2018, as may be amended, clients must meet at least one of the following criteria to access ophthalmology/optometry services:

- Client has a low CD4 count (at or less than 200 cells/mm<sup>3</sup> *currently*)
- Client has a comorbidity (e.g., diabetes, hypertension, STI, etc.)
- Client has a prior diagnosis of cytomegalovirus retinitis (CMV)
- Client has Immune Reconstitution Syndrome

Furthermore, referrals to an optometrist or ophthalmologist must indicate a condition attempting to rule out complications of HIV. See the Allowable Medical Conditions List in Section VIII of these Service Delivery Guidelines for a list of conditions that would apply, such as manifestations due to opportunistic infections, visual disturbances to rule out complications of HIV, and history of sexually transmitted infections (STI) or complications of STI.

Per Federal guidelines, acupuncture services are not covered under this service category, as Ryan White Program funds may only be used to support limited acupuncture services for HIV+ clients as part of substance abuse treatment services.

Although the selection of a Ryan White Program-funded service provider is based on client choice, whenever possible, pregnant women should be referred to the University of Miami OB/GYN Department (Ryan White Part D Program, etc.) due to its specialized care for this HIV population. Furthermore, whenever possible and also based on client choice, providers are strongly encouraged to refer clients who are 13 to 24 years of age to the University of Miami's pediatric and adolescent

care departments due to their specialized care for this HIV population and age group.

**IMPORTANT NOTE:** primary medical care provided to people living with HIV or AIDS is not considered specialty care.

2. **Client Education:** Providers of specialty care services will be expected to provide the following basic education as part of client care:

- Basic education to clients on various treatment options offered by the specialist;
- Taking medications pertaining to specialty care treatment as well as adhering to treatment recommendations made by the Primary Care or HIV Physician; and
- Educating clients about HIV/AIDS and its relationship to the specialty care service being provided.

3. **Coordination of Care:** The specialist must communicate, as appropriate, with the Primary Care Physician and client for results, follow-up, and/or to re-evaluate the client in order to coordinate treatment.

**The following subsections B. through G. are for both Primary and Specialty Care, unless otherwise noted:**

**B. Program Operation Requirements:**

- Providers must offer, post, and maintain walk-in hours to ensure maximum accessibility to Outpatient/Ambulatory Health Services, to ensure that medical services are available to clients for urgent/emergent issues;
- Providers must demonstrate a history and ability to serve Medicaid and Medicare eligible clients; and
- For Primary Medical Care Only: Providers must ensure that medical care professionals: 1) have a minimum of three (3) years of experience treating HIV clients; or 2) have served a high volume of HIV+ clients (i.e., >50% of individual caseload per practitioner) in the past year. Certification from the American Academy of HIV Medicine (AAHIVM) is encouraged, but not required.
- For Outpatient Specialty Care Only: A referral from the client's Primary Care or HIV Physician is required for all program-allowable specialty care services.

**C. Additional Service Delivery Standards:** Providers of Outpatient/Ambulatory Health Services will also adhere to the following guidelines and standards, as may be amended (please refer to Section III of this FY 2018 Service Delivery Guidelines book for details):

- Public Health Service Clinical Guidelines for the Treatment of AIDS Specific Illnesses (as amended and current)
- HAB HIV Performance Measures to include the following, as may be amended:
  - Core
  - All Ages
  - Adolescent/Adult
  - Children
  - HIV-Exposed Children
  - Medical Case Management (MCM)
  - Oral Health Care
  - AIDS Drug Assistance Program (ADAP)
  - Systems-Level
  - Frequently Asked Questions
- Minimum Primary Medical Care Standards for Chart Review

**D. Rules for Reimbursement:** Providers will be reimbursed for program allowable outpatient primary medical care and specialty care services as follows, unless a procedure has been disallowed or discontinued by the Miami-Dade County Office of Management and Budget-Grants Coordination:

- Reimbursements for medical procedures and follow-up contacts to ensure client's adherence to prescribed treatment plans will be no higher than the rates found in the "2018 Florida Medicare Part B Physician Fee Schedule (Participating, Locality/Area 04), modified December 26, 2017."
- Reimbursements for medical procedures performed at Ambulatory Surgical Centers (ASC) will be no higher than the rates found in the "2018 Florida Medicare Part B ASC Fee Schedule, by HCPCS Codes and Payment Rates, modified December 26, 2017; for Core Based Statistical Area 33124 (Miami, FL)." (Applies only to organizations with on-site or affiliated Ambulatory Surgical Centers).
- Reimbursements for medical procedures performed at Outpatient Hospital centers will be no higher than the rates found in the approved "Medicare Addendum B Outpatient Prospective Payment System (OPPS) by HCPCS Code for CY 2018 (January 2018), modified December 21, 2017 (note

“11.29.17CURRENT” in file name).” (Applies only to organizations with on-site or affiliated outpatient hospital centers).

- Evaluation and management visits and psychiatric visits will be reimbursed at rates no higher than the Medicare “allowable” rates times a multiplier of up to 2.0.
- Reimbursements for lab tests and related procedures will be based on rates no higher than those found in the “2018 Medicare Clinical Diagnostic Laboratory Fee Schedule, for Florida (FL), revised for January 2018, modified December 28, 2017.” If the client is eligible for ADAP, that program should be accessed for genotype and phenotype testing if available. A Letter of Medical Necessity is required for Ryan White Program reimbursement for phenotype tests (not including virtual phenotype tests), as well as for the Highly Sensitive Tropism Assay if ViiV Healthcare is no longer covering the cost of the test. This is necessary to ensure use of the Ryan White Program as the payer of last resort.
- Reimbursements for injectables will be based on rates no higher than those found in the “2018 Medicare Part B Drug Average Sales Price (ASP) Drug Pricing Files, Payment Allowance Limits for Medicare Part B Drugs, dated December 12, 2017 (payment limit column).”
- No multiplier will be applied to reimbursement rates for laboratory tests and related procedures, for non-evaluation and management procedures, for injectables, or for supplemental procedures.
- Medical procedures with an active Current Procedural Terminology (CPT) code that are excluded from the Medicare Fee Schedules may be provided on a supplementary schedule, upon request from the provider to the County for review. A flat rate along with a detailed description of the procedure and a cost justification for each supplemental procedure must be included in the provider’s submission request for review and approval by the County.
- Consumable medical supplies are limited and are only covered when needed for the administration of prescribed medications. Allowable consumable medical supplies are available only through the local Ryan White Program’s AIDS Pharmaceutical Assistance (Local Pharmaceutical Assistance Program – LPAP) service category. A list of allowable consumable medical supplies can be found as an attachment to the most current, local Ryan White Program Prescription Drug Formulary (i.e., Attachment B of the referenced Formulary).

- E. Rules for Reporting:** Providers' monthly reports (i.e., reimbursement requests) for Outpatient/Ambulatory Health Services must include the number of clients served, billing code for the medical procedures provided, number of units of service provided, and the corresponding reimbursement rate for each service provided. Providers must also develop a method to track and report client wait time (e.g., the time it takes for a client be scheduled to see the appropriate medical provider after calling for an appointment; and upon arrival for the appointment, the time the client spends waiting to see the medical provider) and to make such reports available to OMB staff or authorized persons upon request.
- F. Additional Rule for Reimbursement:** Requests for reimbursement of primary and/or specialty medical care services that are not submitted to the County within four (4) calendar months from the date of service may be denied.
- G. Additional Rules for Documentation:** Providers must ensure that medical records document services provided (e.g., medical visits, lab tests, diagnostic tests, etc.), the dates and frequency of services provided, as well as an indication that services were provided for the treatment of HIV infection, a co-morbidity, or complication of HIV treatment. Clinician notes must be signed by the licensed provider of the service and maintained in the client chart or electronic medical record. Providers must maintain professional certifications and licensure documents of the medical staff providing services or ordering tests, and must make them available to OMB staff or authorized persons upon request. Providers must ensure that chart notes are legible and appropriate to the course of treatment as mandated by Florida Administrative Code 64B8-9.003; and pursuant to Article VII, Section 7.1, of the provider's Professional Services Agreement with Miami-Dade County for Ryan White Program-funded services.
- H. Additional Client Eligibility Criteria:** Clients receiving Outpatient/Ambulatory Health Services must be documented as having been properly screened for other public sector funding as appropriate every six (6) months. While clients qualify for and can access medical services through other public funding [including, but not limited to, Medicare, Medicaid, Medicaid Managed Medical Assistance (MMA), Medicaid Long Term Care (LTC), or private health insurance], they will not be eligible for Ryan White Part A-funded Outpatient/Ambulatory Health Services, except for such program-allowable services that are not covered by the other sources.

**IMPORTANT NOTE: FEDERAL FUNDERS AND/OR STATE LEGISLATIVE BODIES REGARDING IMPLEMENTATION OF THE PATIENT PROTECTION AND AFFORDABLE CARE ACT (ACA), HEALTH EXCHANGES, OR ANY SUBSEQUENT HEALTH CARE LAW, THESE GUIDELINES MAY BE REVISED.**

**OUTREACH SERVICES**  
**(General HIV/AIDS Population & MAI)**  
***(YEAR 28 Service Priority #10 for Part A and #4 for MAI)***

**I. Definition and Purposes of Outreach Services**

Ryan White Program **Outreach Services** are support services. Ryan White Part A/MAI Outreach Services in Miami-Dade County will target HIV positive (HIV+) clients in need of assistance accessing HIV care and treatment who are:

- Newly diagnosed with HIV or AIDS, not receiving medical care;
- HIV+, formerly in care, currently not receiving medical care (lost to care);
- HIV+, at risk of being lost to care; or
- HIV+, never in care.

Ryan White Program Outreach Services are directed to those persons known to be HIV+ and consist of activities to: a) engage and enroll newly diagnosed clients into the system of care; b) assist HIV+ clients who are lost to care with re-entry into the care and treatment system; and c) assist HIV+ clients determined to be at risk of being lost to care with their retention and access to ongoing medical care and treatment.

Outreach programs must be: 1) conducted at times and in places where there is a high probability that people living with HIV infection and/or persons exhibiting high-risk behavior will be nearby; 2) designed to provide quantified program reporting of activities and outcomes to accommodate local evaluation of effectiveness; 3) planned and delivered in coordination with local and state HIV prevention outreach programs to avoid duplication of effort; and 4) targeted to populations known, through local epidemiologic data or review of service utilization data or strategic planning processes, to be at disproportionate risk for HIV infection.

With implementation of the Early Identification of Individuals with HIV/AIDS (EIIHA) initiative and in collaboration with the Florida Department of Health in Miami-Dade County's (FDOH-MDC) Early Intervention Program, newly diagnosed clients are the primary focus of service provision for Outreach Workers. Clients testing positive at state-licensed testing and counseling sites who sign an outreach consent form at the time they receive their preliminary reactive test result (Referral/Consent for Outreach Linkage to Care) will be contacted by Part A or MAI Outreach Workers for linkage to care either through Medical Case Management or Outpatient/Ambulatory Health Services. Outreach Workers will enter all demographic and program-related information in the Ryan White Program's Service Delivery Information System (SDIS) for every client contacted, including those not eligible for Ryan White Program-funded medical care. Thirty (30) and sixty (60) day follow-ups from the date of initial appointment with a medical provider and/or Medical Case Manager will be tracked in the SDIS.

Once an HIV+ lost-to-care or at risk of being lost-to-care client is located, or an HIV+ client newly diagnosed and/or never in care is located, an SDIS outreach referral must be made to a Medical Case Manager or medical provider of the client's choice. The Outreach Worker may assist the client in obtaining necessary documentation to receive services and may accompany the person to a point of entry into the system of care. Outreach Workers must follow-up on each referral to ensure that the client is enrolled in Medical Case Management and/or Outpatient/Ambulatory Health Services.

**IMPORTANT NOTE:** Outreach Services may be provided to clients with a rapid test preliminary positive result while a confirmatory HIV test result is pending, for the purpose of linking the client to care. It is still necessary to obtain a confirmatory HIV test result; however, within thirty (30) calendar days, Outreach Services (e.g., connecting a newly diagnosed client to Outpatient/Ambulatory Health Services or Medical Case Management services) may be provided while a confirmatory HIV test result is pending. **Time spent by Outreach Workers with clients who have a preliminary reactive test result and a pending confirmatory HIV test result is limited to a total of up to three (3) encounters within a 30-calendar day period. After which time a confirmatory HIV test result is required to continue serving the client.**

**Billing code "NIC" should be used to record such services to newly identified HIV+ clients only.** The limit in the SDIS for this activity is set at a maximum of 3 encounters by the Outreach Worker, to be completed within a 30-calendar day period. See the NIC protocol in Section XI of this FY 2018 Ryan White Program Service Delivery Guidelines book, for more detail.

**Referrals to Ryan White Program Part A or MAI-funded Outreach Services from state-licensed counseling and testing sites may only be initiated if there is a valid outreach-specific consent (Referral/Consent for Outreach Linkage to Care) signed by the client and filed in the client's chart.**

**IMPORTANT NOTE:** Outreach Workers are required to pick up the Ryan White Program Referral/Consent for Outreach Linkage to Care within 24 hours of notice that a signed consent is waiting AND must make an initial attempt to contact the client within 48 hours (i.e., 2 business days) of such notice.

The Outreach Referral end date is thirty (30) calendar days from the initial referral date. At least one encounter must be provided within this 30-day period. Final Outreach Services must be provided within ninety (90) calendar days of the initial referral date. New and lost to care clients who are served by Ryan White Part A/MAI Program Outreach Workers apart from the FDOH linkage process and are not successfully connected to care within ninety (90) calendar days should have their case closed unless there is a well-documented, reasonable justification for keeping the case open.

Newly diagnosed clients who are referred to the Ryan White Part A or MAI Program through the Florida Department of Health (FDOH) linkage referral process who are not successfully contacted by a Ryan White Program Outreach Worker within thirty (30) calendar days of receiving a signed consent shall be referred to FDOH-MDC -Linkage Specialist or Disease Intervention Specialist for appropriate follow up.

**A. Newly Diagnosed HIV+ or HIV+ Never in Care**

1. Linkage agreements form the basis of collaborative relationships between providers. Outreach providers must have formal referral and linkage agreements with one or more of the eleven (11) key points of entry to the system of care listed below for the purpose of receiving referrals for HIV+ clients identified at key points of entry.

- Florida Department of Health (FDOH) Miami-Dade County's (M-DC) Sexually Transmitted Disease (STD) clinics
- FDOH state-licensed HIV counseling and testing sites
- Hospitals/emergency room departments/urgent care centers
- Hospital discharge clinics/departments
- Substance abuse treatment providers/programs
- Mental health clinics/programs
- Adult and juvenile detention centers
- Jail and/or correctional facilities, including, but not limited to, re-entry programs
- Homeless shelters
- Detoxification centers
- Federally Qualified Health Centers (FQHCs)

Linkage agreements must include the Outreach Worker's contact information, work schedule availability, geographic areas of the County covered, and a description of the Outreach Services offered. Clients referred from a key point of entry will be assisted to obtain necessary documentation for enrollment in the service system, will receive an SDIS referral to the primary medical care and/or Medical Case Management service provider of their choice, may be accompanied to the initial appointment and must be followed-up to ensure that they are connected to care. Ryan White Program-funded outreach providers are required to cooperate with the FDOH-MDC's Early Intervention Counseling and Testing sites by supplying outreach/linkage to care workers at "Take Control Miami" events. Under the EIIHA mandate it is the responsibility of Ryan White Program-funded outreach/linkage to care workers to connect every new positive who has signed a Referral/Consent for Outreach Linkage to Care to Medical Case Management and/or Outpatient/Ambulatory Health Services; this includes connecting clients who are not eligible for Ryan White Program-funded services to appropriate care under other funding

sources. The Outreach Worker must provide the client with provider information and track the client to ensure, through 30- and 60-day follow-ups from the date of initial appointment with a medical provider and/or Medical Case Manager, that the client is actually linked to a Medical Case Manager and/or a medical provider.

**B. Outreach to People Lost to Care or at Risk of Being Lost to Care**

1. Outreach Workers must work with service providers, including Medical Case Managers, to locate people lost to medical care or Medical Case Management and bring them back to care. The Medical Case Manager, or pharmacy staff, after three (3) repeated attempts to contact the client by phone and/or mail without success, may refer the case through a Ryan White Program Certified Referral in the SDIS to an Outreach Worker. Jail linkage and prison re-entry coordinators may refer a client to an Outreach Worker if they have a signed document with permission for a Ryan White Program Part A or MAI Outreach Worker to contact them; such documents must be included with the OON referral and the supporting documentation being sent to the outreach provider. There must be clear documentation in the client chart at the referring agency, and recorded in the Ryan White Program Certified Referral, of at least three (3) repeated attempts by the Medical Case Manager, pharmacy staff, or jail linkage/prison re-entry coordinator to contact the client and the reason why the case is being referred to an Outreach Worker. A Ryan White Program Certified Referral with last known contact information on the client indicating the reason for the outreach referral must be provided to the Outreach Worker and be maintained in both the Medical Case Management and outreach client charts. In instances where it is clearly documented that a client has a history of non-compliance or clear documentation of extenuating circumstances, such as homelessness, repeated non-compliance with their treatment regimen, mental health issues, and/or a history of substance abuse, referrals to an Outreach Worker may be made after one or two attempts at contacting the client.
  
2. A Physician, Physician Assistant, or Advanced Registered Nurse Practitioner may immediately and directly request outreach assistance for a client who meets any of the conditions listed directly below in Section B.3., or for similar circumstances (e.g., abnormal lab results, significant risk of non-adherence to treatment regimen, etc.). Such circumstances must be clearly documented in the client's chart and indicate that the assistance of an Outreach Worker was requested (i.e., the medical practitioner writes a prescription for the needed outreach and documents such in the client's medical record).

3. Examples of clients considered lost to care or at risk of being lost to care, which require a valid consent for outreach and three (3) documented attempts by the referring agency to reach the client, include:

- Missing two (2) consecutive medical appointments;
- Having no contact with a Medical Case Manager for more than three months;
- Checking out of residential substance abuse treatment;
- Not “reporting to” residential substance abuse treatment;
- Missing the first medical care appointment after hospital discharge and/or referral to care;
- Missing picking up prescription medications or prescription referrals from a pharmacy or a Medical Case Manager;
- Missing an appointment with the jail linkage or prison re-entry coordinator; and/or
- Missing a medical or social service appointment that the jail linkage or prison re-entry coordinator has scheduled.

**IMPORTANT NOTE:** Clients lost to care or at risk of being lost to care may be contacted after one or two unsuccessful attempts at communication **ONLY IF** extenuating circumstances as outlined above are clearly documented in the individual client chart, and are recorded in the Ryan White Program Certified Referral or OON Referral from the Jail Linkage or Prison Re-entry programs.

Outreach providers must work with, and establish formal linkages with Ryan White Program medical providers and Medical Case Management sites in order to receive outreach referrals from these providers who will identify clients who are lost to care or at risk of being lost to care. Outreach Workers will then try to locate these clients and assist them in returning to ongoing medical care and treatment.

### **C. One Time Referrals**

If in the course of outreach activities, Outreach Workers encounter a high-risk person with no documentation of HIV+ status, a referral should be made to an HIV testing site and/or appropriate prevention program in order to determine the client’s HIV status. This one time referral may be counted and entered into the SDIS in the Outreach Registration screen. This is a **secondary** outreach function that will be monitored by OMB and should not supersede the primary goals of connecting newly diagnosed (newly identified) clients to care, as well as locating and reconnecting to the service system those clients who have been lost to care or who are at risk of becoming lost to care. These secondary Outreach Services must be planned and delivered in coordination with local HIV prevention/education programs, including counseling and testing programs, in order to avoid duplication of effort.

## **D. Allowable Outreach Activities**

1. Ryan White Part A/MAI-funded Outreach Workers may provide services to clients in the following situations to link or retain clients in HIV care: 1) for their agency's own clients; 2) upon receipt of a Ryan White Program Certified Referral for a particular client, for whom the referring agency has a valid informed outreach-specific consent signed by the client and filed in the client's chart; 3) upon receipt of a signed, completed Consent/Referral for Linkage to Care from state-licensed Counseling and Testing sites; 4) a prescription from a Physician, Physician Assistant, or Advanced Registered Nurse Practitioner; or 4) by a letter or OON Referral from a jail linkage or prison re-entry coordinator as indicated in Section B above.
2. Outreach Workers may engage in the following activities, if the activity is properly documented and filed in the client's chart at the referring agency and at the receiving agency where applicable:
  - Obtain from the client all required consents for the Outreach Worker to access client-related information in the Ryan White Program's SDIS;
  - Conduct brief intakes for new clients referred from a state-licensed Counseling and Testing Site, jail linkage or prison re-entry coordinator and enter data into the SDIS outreach registration screen;
  - Upon receipt of a proper referral, review data in the SDIS for existing clients who are lost to care or are at risk of falling out of care;
  - Complete assessments and document new clients' barriers to accessing care and lost-to-care clients' reasons for falling out of care;
  - Contact the service provider of the client's choice to coordinate appointments and obtain required documentation for services;
  - Accompany newly diagnosed, lost to care, or otherwise unconnected HIV+ clients to the initial physician appointment and/or Medical Case Management appointment for the purpose of reconnecting them to care or enrolling them in service;
  - Accompany clients, as necessary, for the purpose of assisting them to obtain necessary documents for entry into the service system;
  - Conduct home visits to meet with a client for the purpose of connecting them to care;
    - **IMPORTANT NOTE:** If a Part A/MAI-funded outreach service provider has an established agency policy not to send staff to conduct home visits, and it is

determined that a home visit is necessary for successful linkage, the client's case **must** be transitioned to a Part A/MAI-funded outreach provider that is able to conduct home visits;

- In cases of transfer due to the home visits, the new outreach provider agency replaces the previous outreach provider agency;
- Maintain tracking and contact logs for new to care and lost to care clients;
- As a safety precaution, Ryan White Program Outreach Workers who must locate clients in high-risk areas or very rough neighborhoods may go out in two-person teams. In this scenario, both Outreach Workers should document the activity in the client chart or outreach log, making note that they went to a high risk area, with one of the Outreach Workers clearly stating that they went along as a safety back-up and should use the OSFT safety back-up code to record the service. Both Outreach Workers may reflect the time they spent on the encounter and have their agency or respective agencies report for the time and be reimbursed accordingly. However, in the SDIS the encounter should only be counted/recorded (i.e., OFFE, OTEL, ORFL, etc.) by the main Outreach Worker/agency that received the referral;
  - **IMPORTANT NOTE:** If a Peer Educator is the safety back-up, the Peer Educator must use the corresponding safety encounter code, PSFT, under the PESN billing.
- Provide education on available care and treatment options and services for HIV + individuals who receive outreach services via a Ryan White Program Certified Referral, Jail linkage referral, Department of Corrections Certification or a Referral Consent Linkage to Care form with the goal of directly empowering and enabling the client to access existing HIV/AIDS service programs, including Counseling & Testing sites;
- Provide out-stationed linkage and coordination to care services at key points of entry, including but not limited to counseling and testing facilities and other facilities with a high percentage of HIV+ clients as identified by the counseling and testing facility and verified by the Ryan White Part A/MAI Program;
- Coordinate and participate in planned outreach/testing events such as "Take Control Miami" in cooperation with the FDOH-MDC;
- Conduct 30- and 60-day follow-ups from the date of initial appointment with a medical provider or Medical Case Manager to ensure the client (regardless of whether the client is receiving

services through the Ryan White Program) remains connected to care.

#### **E. Inappropriate Outreach Activities**

Funds awarded under Part A and MAI of the Ryan White HIV/AIDS Treatment Extension Act of 2009 may not be used for outreach programs that exclusively promote HIV education and prevention programs, condom distribution, and/or case finding that have as their main purpose broad-based or general HIV prevention education. Additionally, broad-scope awareness activities about HIV services that target the general public (i.e., poster campaigns for display on public transit, TV or radio public service announcements, health fairs directed at the general public, etc.) will not be funded.

Ryan White Part A/MAI Program funds may not be used to pay for HIV counseling or testing under this service category. Ryan White Part A/MAI Outreach Services must be planned and delivered in coordination with local HIV prevention programs to avoid duplication of effort.

**Outreach Workers may not conduct random searches in the SDIS for clients who are not enrolled at the Outreach Workers' assigned agency, or for clients for whom they do not have a Ryan White Program Certified Referral. Searches conducted in the SDIS to identify clients lost to care must be initiated by the Medical Case Manager or medical or pharmacy staff of the referring agency.**

**Ryan White Program-funded outreach activities are not to be used for general recruitment of clients to the Outreach Worker's agency.**

#### **F. Documentation of Outreach Activity**

All Outreach Workers must maintain documentation which includes the following:

- Name of Outreach Worker;
- Name, signature, and consent of client;
- Client's date of birth;
- Client's gender;
- Client's race and ethnicity;
- Client's address or follow-up information;
- Date of diagnosis and site of diagnosis;
- Date of the encounter;
- Type of encounter (i.e., telephone, face-to-face, collateral, travel, referral, or coordination of care);
- Description of the encounter with a client and/or work done on behalf of the client;

- Time spent on the encounter in minutes;
- Total units documented;
- For newly diagnosed clients, a Referral/Consent for Linkage to Care;
- For clients lost to care, a Ryan White Program signed outreach consent to be contacted (found at the top of the County’s Notice of Privacy Practices form);
- Site where client was identified (i.e., last known contact information, a specific geographic region, and/or key point of entry into the system of care in Miami-Dade County);
- One time referral to a testing site for a high-risk client without documentation of HIV status;
- Document “initial contact” and all “follow-up” contacts;
- Maintain call logs and tracking logs for new-to-care and lost-to-care clients;
- If lost to care or identified as at risk of being lost to care, a copy of the initiating agency’s referral to outreach;
- An individualized assessment of the client’s barriers to care or reasons for falling out of care;
- Documentation that explanation of service system and choice of provider agency were provided;
- A copy of an SDIS referral or documented attempt to make a referral by the Outreach Worker to a Medical Case Management agency and/or medical provider of the client’s choice;
- Documentation of 30- and 60-day (calendar days) follow-up on referrals to ensure that the client is enrolled in medical care and treatment;
- Final disposition of the client must be documented in SDIS, the client’s chart or service log indicating whether or not the client was connected to care (i.e., referral was made; client was taken to a medical provider or Medical Case Manager) or if the case was closed with a statement as to why it was closed; and
- Contact with the referring agency to communicate the client’s final disposition.

## **II. Outreach Worker Incentives, Program Operation Requirements, and Staff Training Requirements**

As incentives for productivity, providers are encouraged to provide Outreach Workers with educational training opportunities. The Ryan White Program also has educational and training requirements for Outreach Workers to improve productivity.

**A. Program Operation Requirements:**

1. **Staff Training.** Outreach Workers must possess at least a High School diploma or GED. All staff providing Outreach Services must complete the FDOH's "HIV/AIDS 101 – Know Your HIV Status" video training [this training is available on-line at <https://knowyourhivstatus.com/hiv-resources/>]. Outreach Workers must attend periodic training provided by the Ryan White Program's Quality Management and Training Program provided by BSR. In addition, effective June 1, 2018, any new hire Outreach Worker or Outreach Supervisor under the Ryan White Part A or MAI Programs must complete all of the Southeast AIDS Education and Training Center's (SE-AETC) web-based Medical Case Management Curriculum and Cultural Competency Curriculum modules **prior to** being approved for SDIS User Access. These curricula modules can be found at the following website: <https://www.seaetc.com/modules/>. Time spent completing the SE-AETC training modules **cannot** be charged to the local Ryan White Part A/MAI Programs.

Outreach providers must ensure that Outreach Workers are knowledgeable about resources and providers of medical care, substance abuse treatment, Medical Case Management, and other core medical and support services. At a minimum, the outreach provider should have reference material on hand which provides information on services offered, intake requirements, hours of operation, and contact personnel information. Outreach Workers must also have on hand Ryan White Program consent forms available for signature by clients lost to care or at risk of being lost to care.

2. **Hours.** Outreach Services must be offered during non-traditional business hours, 10 hours at a minimum per week, per agency. Traditional business hours are defined as 9:00 a.m. to 5:00 p.m., Monday through Friday. Each Ryan White Program-funded outreach provider must have written procedures in place to address on-call coverage to reach an Outreach Worker after traditional business hours. The written procedures should include steps for contacting an on-call medical provider and/or Medical Case Manager, where immediate intervention is necessary.
3. **Cultural Sensitivity.** Providers are encouraged to be creative in developing outreach programs that are culturally sensitive and that meet the specific needs of the identified target sub-populations (i.e., substance abusers, illiterate persons, hard of hearing, sex workers,

etc.). It is desirable that Outreach Workers reflect the community in which they are working and/or are targeting.

4. **Documentation of Units of Service.** Providers are required to document in the client's chart each unit (15-minute encounter) of outreach service performed (including the time spent) as a face-to-face encounter, telephone contact, collateral encounter on behalf of the client, coordination of care, travel, or referral activity on behalf of a client. Use the appropriate code from the following table to record outreach services (listed in alphabetical order by code):

| <b>Outreach Services</b>       |   |  |
|--------------------------------|---|--|
| <b>Activity</b>                | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>   |
| <b>Newly Identified Client</b> | <b>NIC</b>  | Use this NIC billing code to record limited services to newly identified clients whose preliminary test is positive and the confirmatory HIV test result is pending. Under this service category, use of this code is limited to three (3) encounters by the Outreach Worker within a thirty (30) calendar day period. See the NIC protocol in Section XI of this FY 2018 Ryan White Program Service Delivery Guidelines book, for more details.   |
| <b>Collateral Contacts</b>     | <b>OCOL</b>   | Use this code to record all activities related to <b>coordination of care</b> for clients, including communication with other care providers, such as telephone contacts or other electronic methods of communication (e.g., email or fax). This code also includes other coordination of care activities that are conducted for or on behalf of the client, such as <b>referral activities</b> that are not face-to-face with the client and obtaining completed documents for the client from another (outside) care provider.<br><br>This code should NOT be used for internal agency activities that are unrelated to the coordination of care for clients with outside providers. Examples of inappropriate use of this code include pulling a chart to copy documents for a client's personal use or filing for chart maintenance. |

| <b>Outreach Services</b>          |   |   |
|-----------------------------------|---|---|
| <b>Activity</b>                   | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>  |
| <b>Consultation</b>               | <b>OCON</b>   | Only Outreach Supervisors may use this OCON code. This code shall be used to record activities associated with consulting with outreach staff on Ryan White Program-related client, supervisory, or quality management issues. Supervisors are <b>REQUIRED</b> to report a minimum of 10 hours each quarter of OCON codes.  |
| <b>Documentation</b>              | <b>ODOC</b>   | Use this code to record activities related to documenting any encounter in the SDIS, such as the client's care plan, progress note, face-to-face encounter, telephone contact, etc. This service code also includes time spent filing or organizing the client chart or pulling the chart to make copies that are unrelated to coordination of care for the client.<br><br><b>IMPORTANT NOTE:</b> See subsection II.D. below regarding "Applicability to Local Ryan White Program Requirements" for staff supervising Ryan White Program-funded Outreach Workers. |
| <b>Face to Face<br/>Encounter</b> | <b>OFFE</b>   | This encounter is defined as any time the Outreach Worker or Outreach Supervisor has direct contact with the client in person. The OFFE encounter includes activities that are conducted face-to-face with the client where no other encounter code is appropriate. OFFE may also include referral activities if done face-to-face with the client.   |
| <b>Chart Review<br/>Activity</b>  | <b>OREV</b>   | Only Outreach Supervisors may use this OREV code. This code should be used to record activities associated with chart review processes to ensure that outreach staff is in compliance with this service definition, and with the Ryan White Program System-wide Standards of Care.<br><br>Effective May 1, 2018, there is no longer a required number of hours of OREV code use.  |

| <b>Outreach Services</b>                         |   |  |
|--|---|--|
| <b>Activity</b>                                  | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>   |
| <b>Chart Review<br/>Activity<br/>(continued)</b> | <b>OREV</b>   | <b>IMPORTANT NOTE:</b> See subsection II.D. below regarding “Applicability to Local Ryan White Program Requirements” for staff supervising Ryan White Program-funded Outreach Workers.   |
| <b>Referral Activity</b>                         | <b>ORFL</b>   | Use this code to record outreach referral activities that do not fit in any other outreach encounter/activity in this list.  |
| <b>Safety Back-up</b>                            | <b>OSFT</b>   | Ryan White Part A/MAI Program-funded Outreach Workers who as a safety precaution accompany a Ryan White Program Outreach Worker when locating clients in high-risk areas or very rough neighborhoods, as indicated in Section I.D.1 above, should use the OSFT safety back-up code to record the service. In this scenario, if applicable, both Outreach Workers should document the activity in the client chart or outreach log, making note that they went to a high risk area, with one of the Outreach Workers clearly stating that they went along as a safety back-up. Both Outreach Workers may reflect the time they spent on the encounter and have their agency or respective agencies bill for the time and be reimbursed accordingly. However, in the SDIS the other outreach billing code (i.e., OFFE, OTEL, ORFL, etc.) should only be counted or recorded by the main Outreach Worker/agency that received the referral. |
| <b>Outreach<br/>Telephone<br/>Encounter</b>      | <b>OTEL</b>   | Use this code to record telephone contacts.  |
| <b>Outreach Contact<br/>Travel Time</b>          | <b>OTVL</b>   | Use this code to document travel time with or on behalf of the client that is specific to care coordination, linkage to care, retention or retention in care activities. In such cases, documentation in the client chart must include reason for travel in relation to care coordination, linkage to care, or retention in care.  |

| <b>Outreach Services</b>                   |   |  |
|--|---|--|
| <b>Activity</b>                            | <b>Encounter/<br/>Activity<br/>Billing<br/>Code</b> | <b>Comment, Limitation, etc.</b>   |
| <b>Take Control<br/>Miami events</b>       | <b>TCM</b>  | Use this code to record outreach activities conducted at authorized “Take Control Miami” events.   |
| <b>Training</b>                            | <b>TRN</b>  | Use this code to record and bill for time spent attending authorized Ryan White Program trainings (TRN), such as Outreach Worker trainings, Service Delivery Information System trainings, and quarterly Ryan White Program Subrecipient (Service Provider) Forums.<br><br>The TRN code may <b>not</b> be used to bill for any training that is not a Ryan White Program training; for example: use of the TRN code <b>cannot</b> be used to bill for staff attendance at Miami-Dade County HIV/AIDS Partnership and Committee meetings, on-site BSR technical assistance visits; appreciation luncheons, agency-specific staff development activities, HIPAA refresher training, confidentiality training, AETC training modules, or other employer-required training. Travel time is not included when billing the TRN code. Billing staff, data entry staff, and other administrative staff may not use the TRN code. |
| <b>Test &amp; Treat /<br/>Rapid Access</b> | <b>TTRA</b>   | Follow the protocol in Section XIV of these Service Delivery Guidelines.   |

5. **Connection to Care.** Providers are expected to demonstrate through documentation on file at the outreach provider agency that at least fifty percent (50%) of people contacted and billed for are actually returned to primary medical care and/or Medical Case Management services or that a case was closed, and at least fifty percent (50%) of the people contacted and billed for are new to primary medical care and/or Medical Case Management services, on a quarterly basis. Connections to care will also be monitored by the County on a quarterly basis through the SDIS and/or analysis of outreach data conducted by BSR, as a Quality Management Program activity.

- B. Rules for Reimbursement:** Providers will be reimbursed on the basis of a line-item budget for Part A and MAI-funded Outreach Services. Ryan White Program Outreach Services will be paid on the basis of full-time equivalent (FTE) employees providing direct services as outlined in this service definition, as well as on the basis of other allowable direct and administrative costs. Reimbursement of salaries will be based on the approved budget and productivity as recorded by hours spent doing allowable outreach activities, people contacted, their risk factors, and the number of HIV+ people connected to care. All administrative and/or indirect expenses allocated to this service category (other than those associated with the delivery of Outreach Services to clients) are capped at 10% of the total award for the service category.
- C. Additional Rules for Reporting:** Monthly activity reporting for this service will be on the basis of an outreach contact in comparison with the amount of time and effort billed to the program for each Outreach Worker.

**Reimbursement requests will be continuously evaluated on the basis of productivity; in particular, people contacted and connected to primary medical care or Medical Case Management services. A sufficient level of Outreach Services must be provided and a corresponding bill generated through the SDIS on a monthly basis in order for reimbursement to be approved by the County. The County maintains the right to assess the sufficiency of the services provided before reimbursement for services is made.**

- D. Applicability to Local Ryan White Program Requirements:** If a staff person has a Ryan White Program outreach service caseload, even one client, they will be required to adhere to the local Ryan White Program Service Delivery Guidelines, System-wide Standards of Care, and Quality Management Program activities. This requirement is applicable whether or not the outreach staff person appears on the program's line item budget and regardless of the percentage of time and effort spent performing Ryan White Program outreach activities. Similarly, if provider's staff supervises any Ryan White Program outreach staff, whether or not they are on the budget for such, they also must follow the requirements in the local Ryan White Program Service Delivery Guidelines, System-wide Standards of Care, and Quality Management Program activities.

**SUBSTANCE ABUSE OUTPATIENT CARE  
AND  
SUBSTANCE ABUSE SERVICES (RESIDENTIAL)  
(General HIV/AIDS Population for both & MAI for Residential Services)  
(YEAR 28 Service Priorities #8 for outpatient;  
and #11 for Part A or #5 for MAI residential)**

Two types of substance abuse counseling and treatment services are included in this section: Outpatient and Residential. **Substance Abuse Outpatient Care** is a core medical service. **Substance Abuse Services (Residential)** is a support service. Both of these substance abuse service components shall comply with the following requirements:

- A. Program Operation Requirements:** Providers are encouraged to provide services that are highly accessible to target populations.

Providers are also encouraged to demonstrate linkages with other service providers relevant to the needs of HIV+ persons in substance abuse treatment programs. Providers should especially demonstrate linkages with other services relevant to the needs of people in substance abuse treatment programs including housing and shelter programs.

Service must be provided in settings that foster the client's sense of self-control, dignity, responsibility for his/her own actions, relief of anxiety, and mutual aid.

Providers are encouraged to offer program services to families to support the family unit. However, substance abuse services may be provided to members of a client's family in an outpatient setting only (i.e., non-HIV family members may not stay in the residential facility), and only if the HIV+ client is also being served. A family member's participation in the substance abuse counseling sessions is included in the per day cost charged to the Ryan White Program (See Section II.A. of this service definition on the following page for details). **IMPORTANT NOTE:** *For the purpose of this service, family members are defined as those individuals living in the same household as the client.*

Individual treatment plans must be documented in the client's chart and linked to the provision of primary medical care.

Providers must ensure that clients adhere to their treatment plan, including prescription drug regimens.

Providers of substance abuse services must offer flexible schedules that accommodate the client's nutritional needs in order to facilitate client compliance with medication regimens.

Providers are encouraged to practice and introduce motivational interviewing and harm reduction strategies to their clients, if deemed clinically appropriate.

Residential substance abuse treatment is not a pre-requisite to access Substance Abuse Outpatient Care. However, clients graduating from Substance Abuse Services (Residential) are encouraged to transition to Substance Abuse Outpatient Care.

## **I. Substance Abuse Outpatient Care (Priority #8)**

**Substance Abuse Outpatient Care** is the provision of outpatient services for the treatment of drug or alcohol use disorders. This service includes medical or other treatment and/or counseling to address substance abuse problems (i.e., alcohol and/or legal and illegal drugs) in an outpatient setting by a Physician or under the supervision of a Physician, or by other qualified personnel as indicated below. This program provides regular, ongoing substance abuse monitoring and counseling on an individual and/or group basis in a state-licensed outpatient setting.

Services include screening, assessment, diagnosis and/or treatment of substance use disorder. Allowable substance use disorder treatments include: pre-treatment/recovery readiness programs; harm reduction; behavioral health counseling associated with substance use disorder; outpatient drug-free treatment and counseling; medication assisted therapy; neuro-psychiatric pharmaceuticals; and relapse prevention. Services may offer mental health counseling to reduce depression, anxiety and other disorders associated with substance abuse; conflict resolution; anger management; and relapse prevention. All clients receiving this service must have a Diagnostic and Statistical Manual of Mental Disorders (DSM-5) diagnosis of substance use disorder.

Acupuncture therapy may be allowable under this service category only when, as part of a substance use disorder treatment program funded under the Ryan White HIV/AIDS Program, it is included in a documented plan. Acupuncture therapy must be provided by an acupuncturist who is licensed in the State of Florida to provide such service.

Providers of this service must specify the maximum number of clients expected to be enrolled in a group counseling session. The minimum amount of group participants is three (3) Ryan White Program clients per group and should be no higher than fifteen (15) total persons per group. The ratio of group counseling participants to Counselors should be no lower than 3:1 and no higher than 15:1. One unit is equal to one half-hour counseling session.

**Substance Abuse Outpatient Care levels are specific to the education level of the provider of the service, as indicated below, and are not interchangeable:**

- **Substance Abuse Outpatient Care (Level I) - Professional Substance Abuse Counseling.** Level I services include *general and intensive* substance abuse therapy and counseling (individual, family, and group) provided by trained mental health or certified addiction professionals. Activities include forming or strengthening support groups, development of understanding of treatment options, holistic or alternative therapies (meditation, visualization, stress reduction, etc.), and other areas appropriate for individual and group socio-emotional support. Direct service providers for Level I must possess at least a *doctorate or postgraduate degree* (PhD or Master's degree) in the appropriate counseling-related field, and preferably be licensed as a *certified addiction professional* (CAP), Licensed Clinical Psychologist, LCSW, LMHC, or LMFT to provide such services.
  
  - **Substance Abuse Outpatient Care (Level II) - Counseling and Support Services.** Level II services include supportive and crisis substance abuse counseling by trained and supervised Counselors (who may possess Bachelor's degrees or have related experience, and may not be licensed), peers, and facilitators. Activities include forming or strengthening support groups, development of understanding of treatment options, holistic or alternative therapies (meditation, visualization, stress reduction, etc.), and other areas appropriate for individual and group socio-emotional support. Non-certified personnel providing this Level II service will be supervised by professionals with appropriate Level I substance abuse counseling credentials.
- B. Additional Service Delivery Standards:** Providers of these services will also be required to adhere to generally accepted clinical guidelines for substance abuse treatment of persons with HIV/AIDS. (Please refer to Section III of this FY 2018 Service Delivery Guidelines book for details.)
- C. Rules for Reimbursement:** Reimbursement for individual and group Substance Abuse Outpatient Care will be based on a half hour counseling session not to exceed \$30.00 per unit for Level I individual counseling; \$34.00 per unit for Level I group counseling; \$27.00 per unit for Level II individual counseling; and \$30.00 per unit for Level II group counseling. Reimbursement for individual sessions is calculated for each client and/or family member(s) receiving the counseling, whereas, reimbursement for group sessions is calculated for the Counselor that provided the group counseling. Documentation activities are included in the Substance Abuse Outpatient Care unit of service, and are not to be billed as a separate encounter. Substance Abuse Outpatient Care may be provided to members of a client's family in an outpatient setting if the HIV+ client is also being

served. The HIV+ client must be currently receiving such services; and preferably, but not necessarily, the family member may be served on the same day as the client.

- D. Additional Rules for Reporting:** The unit of service for reporting monthly activity of individual and group counseling is a *one half-hour counseling session* provided to the client and the number of unduplicated clients served. Providers must also report, on a monthly basis, the number of group counseling units provided by each Counselor.
- E. Linkage/Referrals:** Providers of Substance Abuse Outpatient Care must document the client's progress through the treatment program, maintain linkages with one or more residential facilities, appropriate community services, including 12-step programs, and be able to refer or place clients in a residential program, in collaboration with the client, his/her Medical Case Manager, and Primary Care Physician when that is found to be appropriate. Providers are required to determine if the client is currently receiving Medical Case Management services; if not, the provider must seek enrollment of the client in a Medical Case Management program of the client's choice while the client is still receiving substance abuse treatment/counseling. A linkage agreement with the Medical Case Management provider must be established in order to ensure coordination of services while the client remains in treatment.

**IMPORTANT NOTE:** referrals from residential substance abuse services to outpatient counseling facilities should only occur when there is a need for HIV specific counseling not offered by the residential facility, or once the client has completed or left their residential treatment program.

- F. Additional Rules for Documentation:** Providers must submit an assurance to OMB that Substance Abuse Outpatient Care services are only provided in an outpatient setting. Providers must maintain professional certifications and licensure documents as required by the State of Florida for staff providing residential substance abuse treatment services to Ryan White Program clients, and must make these documents available to OMB staff or authorized persons upon request. Providers must also submit to OMB a copy of the staffing structure showing supervision by a Physician or other qualified personnel. Providers must also maintain client charts that include treatment plans with all required elements, including but not limited to measurable goals and timelines for completion. Documentation in the client chart must also clearly indicate that services were provided as allowable under the local Ryan White Program service definition, and include the quantity, frequency and modality of treatment services, the date treatment begins and ends, regular monitoring and assessment of client progress, and a signature of the individual providing the service or the supervisor as applicable. If acupuncture services were provided, a copy of

the written referral from the primary health care provider must be in the client chart.

**II. Substance Abuse Services (Residential) (Priority #11 for Part A or Priority #5 for MAI)**

This program offers substance abuse, including alcohol addiction and/or addiction to legal and illegal drugs, treatment and counseling, including HIV specific counseling, to HIV+ clients on a short-term basis. **Substance Abuse Services (Residential)** provides room and board, in a secure, drug-free, state-licensed residential (non-hospital) substance abuse treatment facility, and, when necessary, detoxification. Ryan White Program funds may not be used for hospital inpatient detoxification.

In accordance with HRSA Policy Clarification Notice #16-02, Substance Abuse Services (Residential), as part of a substance use disorder treatment program funded under the Ryan White HIV/AIDS Program, are permitted **only** when the client has received a written referral from a clinical provider. In Miami-Dade County's Ryan White Part A/MAI Program, this requirement shall be met if the client is accessing the service based on a Ryan White Program Certified Referral or Out of Network Referral as a result of a comprehensive health assessment conducted by a Medical Case Manager or other case manager or in response to a court-ordered directive to a residential treatment program. Upon arrival at the residential treatment center and PRIOR TO final enrollment in the treatment program, an assessment MUST be conducted by the residential clinical staff (e.g., Medical Director, Psychologist, Licensed Therapist, etc.) as appropriate using the Diagnostic and Statistical Manual of Mental Disorders (DSM-5) assessment tool for diagnosis of a substance use disorder. Services will then be provided by or under the supervision of a Physician or by other qualified personnel with appropriate and valid licensure and certification as required by the State of Florida.

If the client is participating in a residential treatment program, the client's family member may visit the facility and participate in the counseling sessions, but the family member may not physically live in the residential facility with the client during the treatment process. As a reminder, a family member's participation in the substance abuse counseling sessions is included in the per day cost charged to the Ryan White Program (See Section II.B. of this service definition on the following page for details).

**Residential treatment programs shall comply with the following requirements:**

**B. Rules for Reimbursement:** The unit of service for reimbursement of Substance Abuse Services (Residential) is a *client-day* of care up to a maximum amount of \$180.00 per day. The final, maximum rate is negotiated between the County's Office of Management and Budget-Grants

Coordination division and each funded subrecipient. **Under no circumstance may clients be enrolled in any Ryan White Program-funded Substance Abuse Services (Residential) program for longer than 120 calendar days within a twelve-month period. Twelve months begins on the very first day of a client’s residential treatment, and restarts every 12 months based on that original start date for Ryan White Program-funded residential substance abuse treatment services. NO EXCEPTIONS. The length of stay for existing clients will be closely monitored by the County’s OMB/Ryan White Program.**

Residential substance abuse treatment providers are strongly encouraged to do a “.RSA” search in the Service Delivery Information System (SDIS) in order to determine how many days of residential treatment service have already been billed for the client, and how many days are remaining in the client’s 120-day/12-month period. In addition, providers should call or email the client’s previous Substance Abuse Services (Residential) provider, if applicable, to inquire if any services are pending to be entered or compiled in the SDIS. This will affect the actual number of available days versus those that appear in the SDIS.

- C. **Additional Rules for Reporting:** Monthly activity reporting (i.e., reimbursement requests) for Substance Abuse Services (Residential) is per *client-day* of care and number of unduplicated clients served. Providers will indicate in the SDIS the client’s disposition after Substance Abuse Services (Residential) has ended (e.g., treatment completed, client referred to outpatient substance abuse counseling, client withdrew from treatment, etc.).
  
- D. **Linkage/Referrals:** Providers of Substance Abuse Services (Residential) must document the client’s progress through the treatment program, maintain linkages with one or more outpatient facilities and appropriate community services, including 12-step programs, and be able to refer or place clients in an outpatient program, in collaboration with the client, his/her Medical Case Manager, and the Primary Care Physician when that is found to be appropriate. Providers are required to determine if the client is currently receiving Medical Case Management services; if not, the provider must seek enrollment of the client in a Medical Case Management program of the client’s choice while the client is still receiving substance abuse treatment/counseling. A linkage agreement with the Medical Case Management provider must be established in order to ensure coordination of services while the client remains in treatment. **A client’s Ryan White Program-funded Medical Case Manager will receive an automated “pop-up” notification through the Service Delivery Information System upon the client’s discontinuance or release from, completion of, and/or relapse in residential substance abuse treatment.**

**IMPORTANT NOTE:** referrals from residential substance abuse services to outpatient counseling facilities should only occur when there is a need for HIV specific counseling not offered by the residential facility, or once the client has completed or left their residential treatment program.

- E. Special Client Eligibility Criteria:** A Ryan White Program Certified Referral or an Out of Network Referral (accompanied by all appropriate supporting documentation) is required for this service. Clients receiving Ryan White Program Part A or MAI-funded Substance Abuse Services (Residential) must be documented as having gross household incomes below 300% of the 2018 Federal Poverty Level (FPL).
- F. Additional Rules for Documentation:** Providers must also maintain professional certifications and licensure documents as required by the State of Florida for staff providing residential substance abuse treatment services to Ryan White Program clients, and must make these documents available to OMB staff or authorized persons upon request. Providers must submit to OMB a copy of the staffing structure showing supervision by a Physician or other qualified personnel, and an assurance that all services are provided in a short-term residential setting. Providers must also maintain client charts that include individual treatment plans with all required elements and document that services were provided as allowable under the Ryan White Program service definition, the quantity, frequency and modality of treatment services, the date treatment begins and ends, regular monitoring and assessment of client progress, and a signature of the individual providing the service or the supervisor as applicable. If acupuncture services were provided, a copy of the written referral from the primary health care provider must be in the client chart.
