Attachment "A" – Certified List of Property Owners

1. Executive Summary

With this re-submittal, the City of Doral (City), wishes to reinstate the annexation process begun five years ago. The City wishes to annex approximately a **one square mile area** which is contiguous to the City's current northeastern municipal boundary (See Location Aerial). There are no Terminals designated on the Miami-Dade County Land Use Plan Map within ½ mile of this area nor will this annexation create an enclave.

The Annexation Area is described as: Section 16, Township 53, Range 40 in Miami-Dade County, Florida and is bounded by NW 58th Street on the south, NW 87th Avenue on the east, NW 74th Street on the north, and NW 97th Avenue. This Section contains the West Dade Landfill, its support facilities, Miami-Dade County Police Ancillary Facilities, South Florida Water Management District facilities and a proposed area for regional soccer facilities.

The reason for this request is solely to provide a buffer/recreation area as envisioned on the Comprehensive Development Master Plan Future Land Use Map from certain incompatible uses to the north and east. The City does acknowledge that pursuant to Section 20-8.6 this is an "Area or Facility of Countywide Significance." These Areas or Facilities are those that are "deemed necessary by the Board of County Commissioners for the coordinated use of lands, development and service delivery within the County to promote the health, safety, order, convenience, prosperity, and welfare of the current and future residents and tourists of this County."

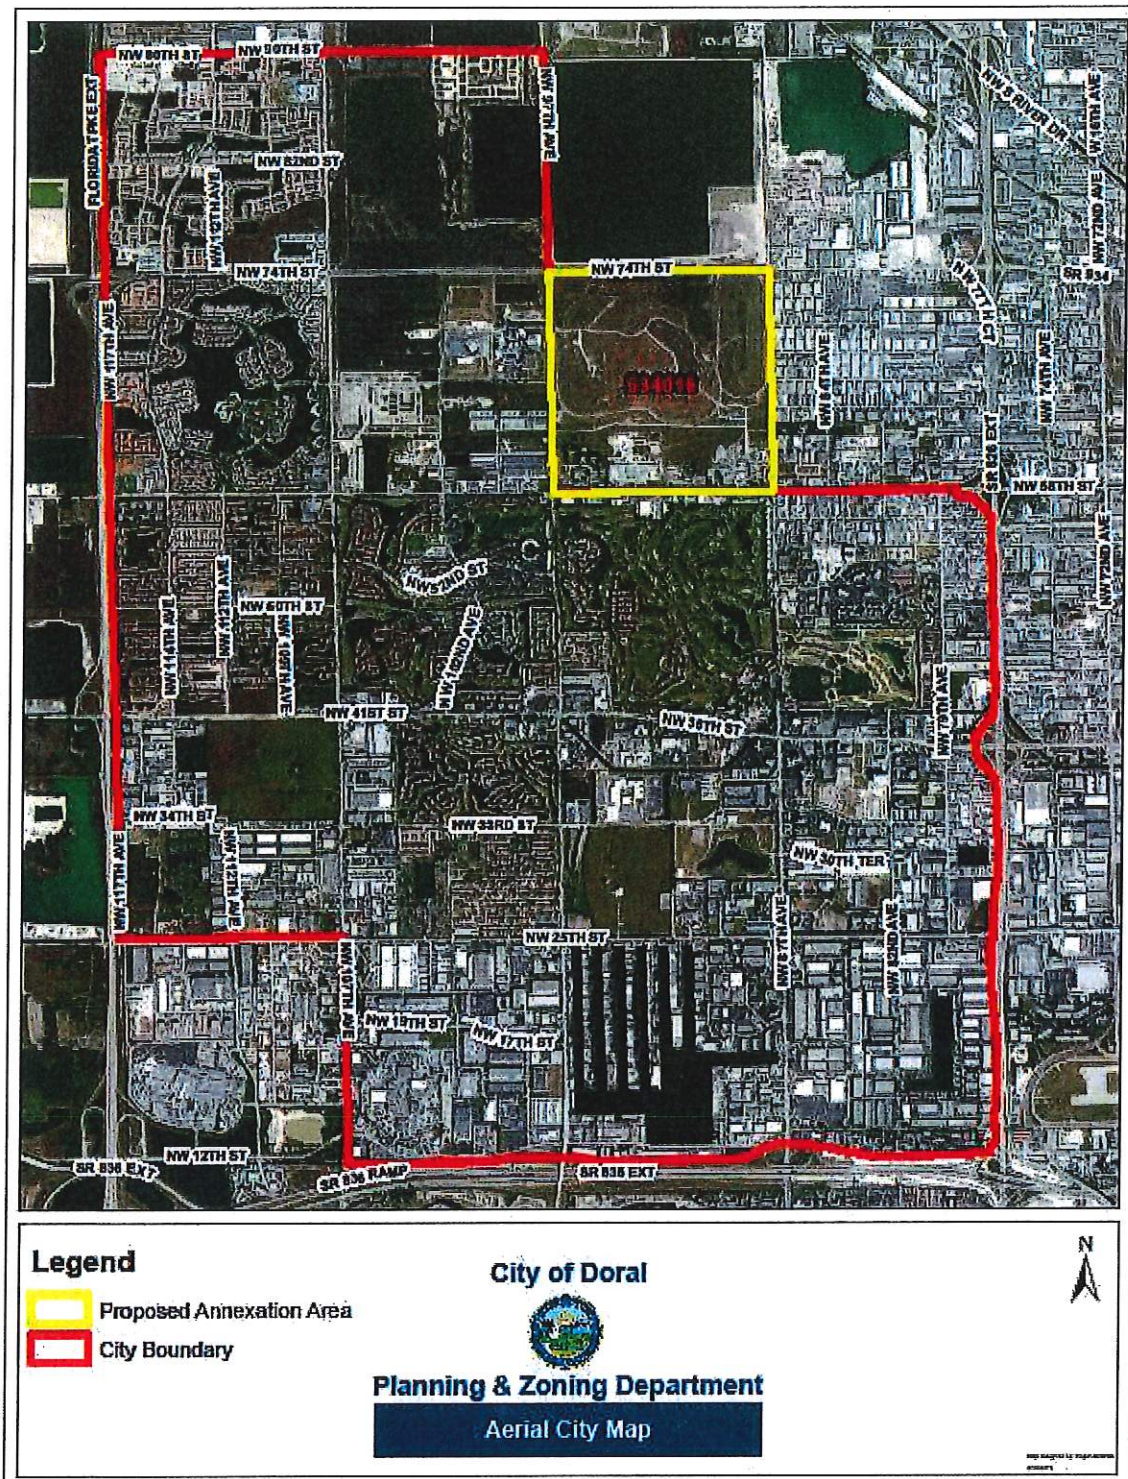

The City is a relatively new municipality, having incorporated in 2003. Miami-Dade County (County) still provides certain services as stipulated in various Interlocal Agreements and will continue to do so for the proposed Annexation Area. The City has adjusted its millage rate downward since the time of incorporation and is now lower than the millage rate for Unincorporated Miami-Dade County. The City is dissimilar from other municipalities that have incorporated in Miami-Dade County over the last 20 or so years due to the unprecedented mix of residential, commercial and industrial uses within the existing boundaries – a benefit to property owners within the annexation area. The City also includes a world class hotel and golf course, excellent schools and is considered an international hub for commerce. Because of the mix of uses and large tax base the City of Doral is considered financially well placed and a donor area.

According the BEBR, the 2015 population estimate figures show that 55,660 persons reside in the City of Doral. The addition of the Annexation Area, which has zero electors, would not impact the population of the City.

With its current successes the City wishes to expand so that the following goals of the City may be met: Improving services and infrastructure, including streets; Providing for buffering; and Providing for future green space.

In summary, the Annexation Area will further provide buffering and green space that will separate residents and businesses from incompatible uses to the north and east of the City. Through more localized planning and review and enforcement of regulations the needs of this very important employment and economic center, which is the City of Doral, will be fully realized.

Dear Mr. Osterholt:

My client, the City of Doral, is reinitiating the process to have the above referenced Section of land annexed into the City and which is located north of and adjacent to the existing municipal boundaries. More particularly, the Section is bounded by NW 58th Street on the south, NW 87th Avenue on the east, NW 74th Street on the north, and NW 97th Avenue to the west.

As referenced in Section 20-3 (G) and pursuant to the Miami-Dade County Code, Chapter 20 "Municipalities", Section 20-9 "Election on proposed boundary changes; required", a determination by the Director of the Department of Planning and Zoning (now RER) concerning the percentage of development within the annexed area is required. The determination of whether an area is more or less than fifty (50) percent developed residential shall be made in the sole discretion of the Director of the Department of Planning and Zoning (now RER)."

We would appreciate your assistance in this matter and respectfully request the referenced certification letter. If you have any questions, I may be reached at (786) 514-0121.

7. Statement of Reason for Boundary Changes

The proposed annexation area as shown abuts the City of Doral along both NW 58th Street and NW 97th Avenue. Annexing the approximately 1.0 square mile area will also insure that a buffer will be provided and that the high quality of life for businesses and visitors will remain through continued proper planning and development practices. It is a fact that the annexation area is compatible with and complementary to development already existing in Doral's surrounding office and industrial zones.

As stated in the previous paragraph, proper planning and development practices and compatibility are extremely important to the City. This area will act as a buffer/recreation area as envisioned on the Comprehensive Development Master Plan Future Land Use Map

Again, through more localized planning, review and enforcement of regulations the needs of this very important employment and economic center will be fully realized.

Finally, since the City of Doral is fiscally very sound it is able to service this area without impact to residents, businesses and other stakeholders within the current municipal boundaries.

8. Notification of Property Owners and Municipalities of City Intent

Formal notice of the public hearing by the City proceeding with the annexation has been sent to property owners within the area and within 600 feet thereof. Proof of compliance with this section shall be required. **(See Attachment "A" - CERTIFIED LIST OF PROPERTY OWNERS)**

9. Land Use Plan and Zoning

The entire Section 16 is government owned. Miami-Dade County owns approximately 630 acres while the South Florida Water Management District owns approximately 9 acres along NW 58th Street. The majority of this area is utilized as the West Dade Landfill and supporting services, Miami-Dade County Police Ancillary Facilities, South Florida Water Management District facilities and a proposed area for regional soccer facilities.

The designated future land uses are: Institutions, Utilities and Communications *and* Parks and Recreation. The entire square mile is zoned GU. These are shown on the Miami-Dade County Comprehensive Development Master Plan Future Land Use Plan Map and the respective Zoning Map.

According to the Inventory of Existing Land Uses provided by the Miami-Dade County Department of Planning & Zoning the Annexation Area is approximately 1.0 square mile (640.8 acres) in size. The following table details the major land use categories by number of acres and percentage of total. A map of the existing land uses may be found under Section 6 of this report.

Table 1.

The City has an adopted Comprehensive Development Master Plan and Land Development Code.

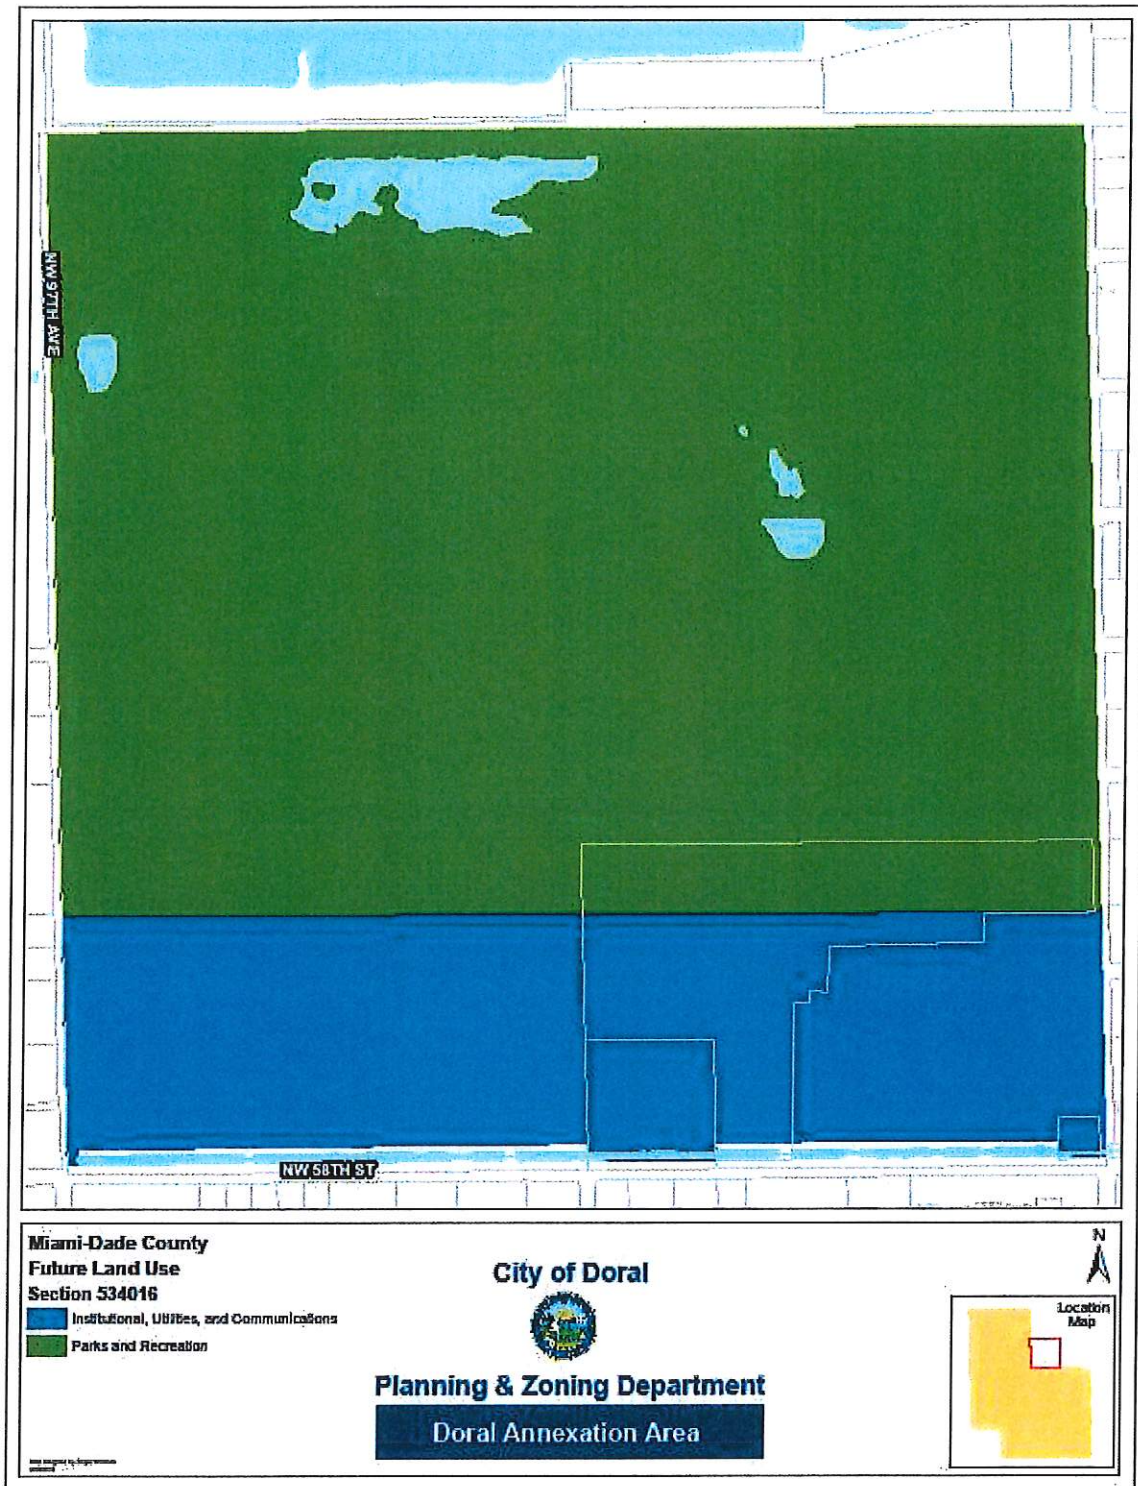

The Miami-Dade Existing Land Use Map – March, 2016 is shown above.

Future Land Use Designation for Section

Section 16 53 40 is designated Institutions, Utilities and Communications *and* Parks and Recreation on the Miami-Dade County Future Land Use Plan Map. Upon annexation, the City will re-designate those properties to the City's closest Land Use equivalent.

Please see Future Land Use Plan Map for more detailed Land Use designation locations.

Also, for reference purposes, the relevant Land Use Designation descriptions are included and were obtained from the Miami-Dade County Comprehensive Development Master Plan 2015-2025 and the City of Doral Comprehensive Development Master Plan.

Future Land Use Plan Map Designations (Miami-Dade County)

Parks and Recreation

Land Use Plan map specifically illustrates parks and recreation areas of metropolitan significance, including State parks and the Biscayne and Everglades National Parks. Also illustrated are golf courses and other parks of approximately 40 acres and larger which are significant community features. Most neighborhood local parks smaller than 40 acres in size are not specifically shown on the Plan map; however, this omission should not be interpreted as meaning that these parks will be taken out of public use. Compatible parks are encouraged in all of the residential categories and may be allowed in all other categories of the LUP map. The siting and use of future parks and recreation areas shall be guided by the Park and Open Space, and Capital Improvements Elements, and by the goals, objectives and policies of the CDMP. Both governmentally and privately owned lands are included in areas designated for Parks and Recreation use. Most of the designated privately owned land either possesses outstanding environmental qualities and unique potential for public recreation, or is a golf course included within a large-scale development. Unless otherwise restricted, the privately owned land designated as Parks and Recreation may be developed for a use or a density comparable to, and compatible with, surrounding development providing that such development is consistent with the goals, objectives and policies of the CDMP. Except as consistent with the provisions below, however, this allowance does not apply to land designated Parks and Recreation that was set aside for park recreation or open space use as a part of, or as a basis for approving the density or other aspect of, a residential (or other) development or is otherwise subject to a restrictive covenant accepted by a public entity.

The long-term use of golf courses or other private recreation or open space on privately owned land designated as Park and Recreation may be previously limited by deed restriction or restrictive covenant. A new development plan governing such land set-aside for park, recreation or open space use (restricted lands) may be approved at public hearing by the Board of County Commissioners or the applicable zoning board only if the following is demonstrated: (1) that the restricted land is subject to a restrictive covenant relating to development served by the open space, that such restrictive covenant continues to limit the use of the land to open space, and that this limitation in the restrictive covenant may be modified only with the written consent of adjacent or proximate property owners or a prescribed percentage thereof; (2) that the required written consents of the adjacent or proximate property owners have been obtained; and (3) that the proposed development will replace park or recreation land or open space that has fallen into prolonged disuse or disrepair to the detriment of the surrounding neighborhood. The development plan for such land (1) shall provide for development compatible with adjacent development; (2) shall provide by restrictive covenant that not less than two-thirds of the land subject to the new development plan (or such other proportion deemed appropriate by the Board of County Commissioners and/or appropriate Community Zoning Appeals Board but in no event less than 50 percent of such land) shall be maintained as Park, Recreational or open space for use by residents or other residents or users of the entire development for which the open space had originally been provided; (3) shall provide a financial means of assuring such maintenance, by homeowner's association, special tax district or other comparable means approved at public hearing or by the Director of the Department of Planning and Zoning or successor agency (*now Regulatory and Economic Resources*); and (4) shall provide that the residential density of the portion of the Park and Recreation-designated land eligible for development shall not exceed either the gross existing density of the development in connection with which the park-designated land

was originally set aside, or the gross density of all the ownership parcels immediately abutting the entire the park-designated land whichever is lower. An approval pursuant to this provision may allow the gross density of the combined new and existing development, and its existing zoning, to exceed the maximum otherwise allowed by the LUP map, but only to the extent necessary to enable reuse of the park designated land in accordance with this provision. Nothing herein shall be construed to permit development of property subject to a restrictive covenant accepted by the country or other public entity without compliance with the terms that covenant including, but not limited to, those terms governing modification or amendment thereof.

Certain commercial activities that support the recreational uses and relate to the resources of the park, such as marine supply stores, fuel docks or tennis and golf clubhouses may be considered for approval in the Parks and Recreation category. Other commercial recreational, entertainment or cultural uses may also be considered for approval in the Parks and Recreation category if authorized in accordance with Article 6 of the Miami-Dade Charter, as amended, and if they are related to, and would increase the quality, utility or enjoyment of the site and its natural, historical, and archaeological resources and facilities.

Some of the land shown for Parks is also environmentally sensitive. While most of these environmentally sensitive areas are designated on the LUP map as "Environmentally Protected Parks" some may be designated as Parks and Recreation due to graphic constraints (the environmentally sensitive portion of the park that is smaller than five acres). Park land which is characterized by valuable environmental resources shall be managed in a manner consistent with the goals, objectives and policies for development of the applicable environmental resources or protection area. Accordingly, resource enhancing facilities including boardwalks, nature trails, canoe trails and launches and interpretive facilities may be provided in these areas.

Institutions, Utilities and Communications

The Plan map illustrates, for information purposes, only the location of major institutional uses, communication facilities and utilities of metropolitan significance. Depicted are such uses as major hospitals, medical complexes, colleges, universities, regional water-supply, antenna fields, radio and television broadcast towers, wastewater and solid waste utility facilities such as the resources recovery plant, major government office centers and military installations. The full range of institutions, communications and utilities may be allowed under this land use category. Offices are also allowed in this map category. Internally integrated business areas smaller than 5 acres in size or up to 10 percent of the total floor area of an institutional, public facility or office use may also be approved in this map category. If the owner of land designated as Institutions, Utilities and Communications chooses to develop the land for a different use and no public agency intends to use the site for a public facility, the land may be developed for a use or a density comparable to and compatible with surrounding development providing that such development is consistent with the goals, objectives and policies of the CDMP especially Policies LU-4A and LU-4B.

The Homestead Air Reserve Base is also included in this category on the Land Use Plan map. The range of uses that may occur on the Base as it is redeveloped shall emphasize military aviation and related uses, national security, recreation uses, educational and other institutional uses. All future uses on the former Base will be consistent with the Record of Decision issued by the Secretary of the Air Force as it pertains to County use of the Base property.

Neighborhood or community-serving institutional uses, cell towers and utilities including schools, libraries, sanitary sewer pump stations and fire and rescue facilities in particular, and cemeteries may be approved where compatible in all urban land use categories, in keeping with any conditions specified in the applicable category, and where provided in certain Open Land subareas. Compatibility shall be determined in accordance to Policy LU-4A. Co-location of communication and utility facilities are encouraged. Major utility and communication facilities should generally be guided away from residential areas; however, when considering such approvals, the County shall consider such factors as the type of function involved, the public need, existing land use patterns in the area and alternative locations for the facility. All approvals must be consistent with the goals, objectives and policies of the Comprehensive Development Master Plan.

Electric power transmission line corridors are permitted in every land use category when located in established right-of-ways or certified under the Florida Electrical Power Plant Siting Act (Sections 403.501-403.518, F.S.) as an ancillary use to a new power plant, or the Transmission Line Siting Act (Sections 403.52-403.5365 F.S.) for individual electrical transmission lines. If an electric power transmission line corridor does not meet either of the above conditions, it shall be situated in an area designated as Institutions, Utilities and Communications; Industrial and Office; Business and Office; or Parks and Recreation on the adopted Land Use Plan map. When compatible with adjacent uses and permitted by County and State regulations, non-utility ancillary uses that may be located in transmission line corridors include agriculture, parking lots, open space, golf courses, bikeways and paths for walking and exercising.

Equivalent City of Doral Future Land Use Designations

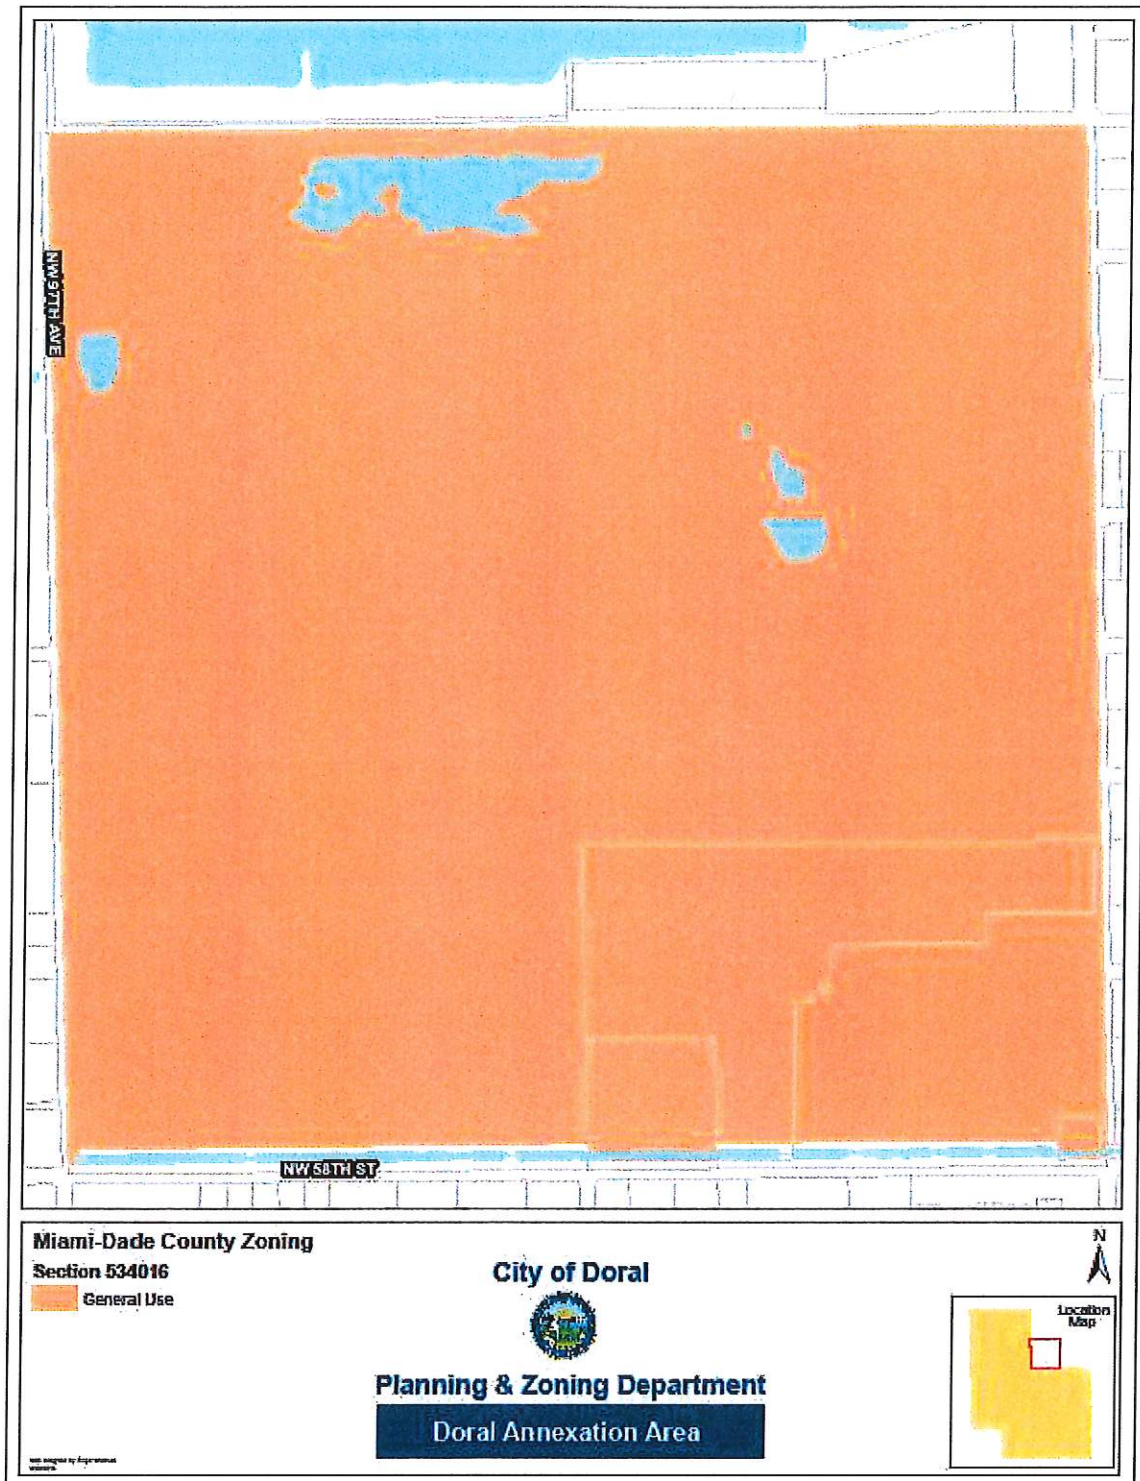

* *Institutional and Public Facility (IPF)* - The IPF category allows major community institutional uses, public facilities and utilities, including hospitals, non-profit medical facilities, universities and colleges, regional water-supply, wastewater and solid waste utility facilities, religious institutions, governmental offices and facilities, public schools, police and fire stations and libraries. Building height in the IPF category is limited to no more than six (6) stories and landscaped open space must comprise a minimum of 15% of a project site. Floor area ratio (FAR) is limited to 0.5 for the first floor and 0.25 for every additional floor, exclusive of structured parking.

Public and non-profit Institutional projects, greater than 10 acres in size, located in a self-contained, master-planned setting may include adult living facilities for the elderly as an accessory use not to exceed 25% of the gross area of the project site.

* *Public Parks and Recreation (PPR)* - This land use category includes all public parks, developed (with recreational facilities) and undeveloped. Related and ancillary facilities are also allowed such as community centers, typical public recreational facilities, meeting rooms and office/storage space for parks administration and operation. Certain commercial activities ancillary to recreational uses and related to the resources of the park, such as boat supply stores, fuel docks, or tennis and golf clubhouses are also permitted. Other commercial recreation, entertainment or cultural uses may also be considered for approval in the PPR category if they would enhance the quality, utility or enjoyment of the site and its natural, historical or archeological resources and facilities. The floor area ratio for ancillary commercial, administrative, recreation, cultural and entertainment buildings shall not exceed 0.2.

Zoning

The Annexation Area consists of lands zoned entirely GU, Interim District, as shown on the Miami-Dade County Zoning Map. Upon annexation, the City will rezone those properties to the City's closest equivalent. The City's equivalent is GU, General Use District.

Zoning Districts (Miami-Dade County)

Article XIII. GU, Interim District

Sec. 33-194. Boundary.

The boundary of GU Interim District shall be the entire unincorporated area of the County, excepting the area specifically covered by another district.

Sec. 33-196. Standards for determining zoning regulations to be applied to GU property.

(A) All properties in the GU District, which are inside the Urban Development Boundary, as shown on the Land Use Plan Map of the Comprehensive Development Master Plan, and which have not been previously trended or otherwise approved through the public hearing process for a specific use, shall be subject to the following trend determination process:

If a neighborhood in the GU District is predominantly one (1) classification of usage, the Director shall be governed by the regulations for that class of usage in determining the standard zoning regulations to be applied, including setbacks, yard areas, type of structures, height, limitations, use, etc. For the purposes of this section, "trend of development" shall mean the use or uses which predominate in adjoining properties within the GU District which because of their geographic proximity to the subject parcel make for a compatible use. The Director shall be guided in determining what constitutes a neighborhood by limiting the evaluation to separate geographic areas, which may be designated by natural boundaries (rivers, canals, etc.) and/or man-made boundaries (roads, full-and half-section lines, etc.). The Director's decision shall be subject to appeal pursuant to the provisions of Section 33-311 of the Code. If no trend of development has been established in the GU neighborhood, minimum standards of the EU-2 District shall be applied. All lots subject to compliance with the standards of the EU-2 District shall contain a minimum land area of five (5) acres gross, unless a larger minimum lot size is required by the Comprehensive Development Master Plan.

Notwithstanding the foregoing, certain platting activity occurring prior to April 12, 1974, which created lots meeting the minimum requirements of the EU-1 District on April 12, 1974, shall qualify such lots for those uses permitted in the EU-1 District. Those lots shall include only those lots indicated on:

- (1) Plats recorded prior to April 12, 1974; and
- (2) Tentative plats approved as of April 12, 1974, and finally approved and recorded within ninety (90) days after such approval; and
- (3) A tentative plat for single-family residential lots approved prior to April 12, 1974, if each lot in the approved tentative plat met the minimum standards of the EU-1 District, provided that no final plat or other tentative plat for the subject property was approved after April 12, 1974, and that as of December 31, 2003, a majority of the lots indicated on the tentative plat had been improved with residences pursuant to building permit in accordance with the tentative plat's provisions; and

- (4) Waivers of plat approved prior to April 12, 1974; and

Parcels, other than the aforementioned platted lots or tentatively approved plat lots, that prior to April 12, 1974 were purchased under a contract for deed or deeded and met the minimum requirements of the EU-1 District shall be qualified for those uses permitted in the EU-1 District. However, if such deeded parcels were contiguous to and under the same ownership on April 12, 1974, and such deeded contiguous parcels are less than the five-acre minimum site size of the EU-2 District, but exceed the minimum standards of the EU-1 District, such property shall be considered as one parcel of land and cannot be divided or used except as one lot.

(B) All properties in the GU District, which are outside of the Urban Development Boundary as shown on the Land Use Plan Map of the Comprehensive Development Master Plan and which have not been previously trended by the Department or otherwise approved through the public hearing process for a specific use, shall be governed by the following regulations:

(1) All properties designated Agriculture on the Land Use Plan Map of the Comprehensive Development Master Plan shall comply with the regulations of the AU (Agricultural) District. Exceptions to this requirement are those properties designated Agriculture on the Land Use Plan Map of the Comprehensive Development Master Plan lying within the Areas of Critical Environmental Concern pursuant to Chapter 33B of this Code. Such properties shall comply with the regulations applicable under Chapter 33B.

(2) All properties designated Open Land or Environmental Protection on the Land Use Plan Map of the Comprehensive Development Master Plan shall be subject to the trend determination process outlined in Section 33-196(A). Exceptions to this requirement are those areas lying within the East Everglades Area Boundaries pursuant to Section 33B-13, which shall comply with the regulations applicable under the East Everglades Zoning Ordinance pursuant to Chapter 33B, and those areas within the Rockmining Overlay Zoning Area, which shall comply with the regulations contained in Article XLI of this code.

City of Doral Equivalent Zoning Districts

Chapter 68, Article VII. Division 4. General Use (GU) District

Sec. 68-951. - Standard for determining regulations to be applied.

If a neighborhood in the general use (GU) district is predominantly one classification of usage, the director of the planning and zoning department shall be governed by the regulations for that class of usage in determining the standard zoning regulations to be applied, including setbacks, yard areas, type of structures, height, limitations, use, etc. For the purposes of this section, "trend of development" shall mean the use or uses which predominate in adjoining properties within the general use district (GU) which because of their geographic proximity to the subject parcel make for a compatible use. The director of the planning and zoning department shall be guided in determining what constitutes a neighborhood by limiting his evaluation to separate geographic areas which may be designated by natural boundaries (rivers, canals, etc.) and/or man-made boundaries (roads, full- and half-section lines, etc.). The director's decision shall be subject to appeal pursuant to the provisions of chapter 53. If no trend of development has been established in the general use (GU) neighborhood, minimum standards of the single-family residential-2 district shall be applied. Properties under power lines are exempted from this regulation and shall be regulated pursuant to chapter 74, article III, division 3. Public schools are also exempt from this regulation.

10. List of Services to be Provided

a. Police

The City of Doral Police Department comprises 139 full time sworn officers for the current 2015/2016 budget year. There are also 41 administrative positions within the Department. With a \$20.55 Million current year budget the Police Department is prepared to absorb any additional required police services.

Upon completion of the annexation process and municipal boundary change the City would provide immediate coverage to the area without degradation of police service. If the annexation is successful, an increase of officers would not be contemplated.

b. Fire Protection

Fire Protection is provided by Miami-Dade County fire services for the City of Doral residents. Primary Fire Rescue service for the proposed annexation area will be provided by Fire Battalion 11 and Battalion 12, as referenced below. The following station territories lie within the proposed annexation area.

Battalion 11

They also provide support services when primary response units are on other service calls. To develop proficiency and unit coordination, the Battalion units regularly drill together.

Battalion 11 is also part of Miami Dade Fire Rescue's Special Operations Division. In addition to their normal firefighting, dive rescue and emergency medical activities, Stations 17, 28, 46, and 48 have some very special capabilities.

Station 46 serves as part of the urban search and rescue (USAR-1) and the Technical Rescue Team (TRT Units). Members of these units are trained in vehicle extraction, confined space rescue, trench rescue and elevated victim rescue. Station 17 is equipped with aerial apparatus units that are especially suited for taller buildings. Stations 28 and 48 comprise the core of the County's Hazardous Materials Response Team, Rescue and USAR-1 rescue support services.

Miami-Dade Fire Rescue Department provides fire and rescue service to the annexation area. There will be no change in this service if annexation occurs. There is no cost to the City of Doral for this service. All costs are directed to the property owners in the annexed area.

c. Water Supply and Distribution

As an Area and Facility of Countywide Significance, building inspection powers are currently vested in Miami-Dade County. At such time that the area no longer meets the definition of "Areas and Facilities of Countywide Significance" the County Commission by resolution may relinquish regulatory control to the City which will then be responsible for all building inspections.

13. Tax Load on Annexation Area

Gross Revenue is based on the 2015 Taxable Real Estate and Personal Property Rolls. The Cost of Providing Services (Expenditures) is based on expected costs the City believes it will incur. Since the five parcels that currently comprise Section 16 are all owned by units of government there will be no tax revenue generated by this annexation.

The City of Doral Budget (FY 15-16) process has been completed and maintains a millage rate of 1.9000. The current Miami-Dade County millage rate is 1.9283.

Property Tax Revenue is determined by the following formula:

$$\text{Revenue} = \text{Taxable Property} \times \text{Millage} \times .95/1000$$

SECTION TOWNSHIP RANGE	2015 TAXABLE REAL ESTATE/ PERSONAL PROPERTY ROLLS	PROPERTY TAX REVENUE (All Properties Tax Exempt)	COST OF PROVIDING SERVICES	NET BUDGET GAIN/LOSS
16-53-40	\$24,668,466	0	0	0

14. Certification of Director of Planning & Zoning (now RER)
