COUNTY WEB AND MOBILE APPLICATIONS DEVELOPMENT

SUMMARY

All new or re-design of existing web or mobile applications for use by the public must be reviewed by the Communications Department (COM) for compliance with branding, usability, and accessibility standards. This is to ensure that all County online services reflect consistent County branding, and can be successfully and easily utilized by the public, including those with disabilities.

PROCEDURE

1. If there is a web application that requires review, submit the copy to the Webmanager on the online form http://intra.miamidade.gov/information/service-requests.asp no later than 45 days prior to its desired launch date to allow for modifications that may be required.

2. Prior to the development or re-design of a County web application, the developer or project manager must request a list of the existing branding, usability, and accessibility standards by submitting a request on the online form http://intra.miamidade.gov/information/service-requests.asp
