T-shirts will be distributed Monday at dismissal / pick-up. **Camp T-Shirts must be worn for field trips.**

Additional t-shirts maybe be purchased for \$10 each.

Field Trips

Field Trip Rules

To ensure that campers are safe and enjoy their time it is important they know and follow these rules. If a camper does not follow field trip rules, they may not be able to attend camp field trip days.

- Stay with your group and group leader.
- Always keep track of your field trip buddy.
- Listen to your group leader.
- Wear your camp t-shirt.
- Follow all rules of the place we are visiting.
- Do not talk to strangers.
- When traveling by van, campers must wear seatbelts at all times.
- Camp Code of conduct must be followed.

Parents, please reiterate the importance of these rules with your camper before each field trip. Please send your camper with lunch and a refillable water bottle. Please note, we do not visit gift shops or allow for purchase of any food/beverage items during field trips. Do not send cash with your child.

Field Trip Permission Forms

This form gives the Camp permission to transport your child in a county vehicle or MDPROS approve vendor bus to and from the fieldtrip facility. Forms must be signed by a parent/guardian and returned to Camp Staff prior to the fieldtrip. Forms can be returned via email by sending to Ecoadventures@miamidade.gov. The exact location of the fieldtrip as well as departure and return times from/to camp will be listed on the form. If we do not have a signed form for your camper, they will not be allowed to go on the fieldtrip. We do not have enough staff members to provide supervision at the camp while the rest of the camp is on a fieldtrip, therefore if you camper is not going to participate in the fieldtrip, please do not bring them to camp that day.

Inclusion

It is the policy of Miami Dade Parks, Recreation & Open Spaces to comply with the Americans with Disabilities Act. When a child with a disability registers for a program, an Inclusion Interview will be conducted in order to develop a plan detailing how the camper's needs will be accommodate or to note if the camper is unable to participate in the program.

The Inclusion Interview form shall be filled out when any potential participant is identified as having a disability, before, during or after the registration process.

The Inclusion Interview will be filled out during an interview with the participant and parent/guardian. The interview will be completed by the camp director or his/her designee, which shall be an employee at Recreation Leader level or above. The interview shall take place in an environment which allows for privacy and confidentiality. The employee conducting the interview shall add to the form any information that is of benefit to the inclusion process, whether there is a question relating to that issue or not.

No participant with a disability shall be discharged from the program without a completed Inclusion Interview on file. The completed form shall be kept with the registration form and utilized by field staff.

If, as a result of the interview, the camp director determines that the individual with the disability will not participate in the program, the reason(s) for the decision will be clearly documented on the interview form and kept on file for future reference. A completed form shall be kept with the registration form and utilized by field staff to implement the inclusion plan. The camp manager is responsible to assure that the interview and inclusion information is provided to all pertinent staff in a timely manner, so they may carry out the inclusion plan appropriately.

A copy of all Inclusion Interviews will be sent to the Disability Services administrative offices.

Nature Camp Rules and Code of Conduct

Safety is our main priority for all children. Campers are not permitted to leave their assigned group without a staff member or summer volunteer and must be signed out upon exiting the program.

- Campers will be under staff or volunteer supervision at all times, including to and from the restrooms
- Appropriate attire/shoes are required (closed toe shoes; sandals/cros for pool only!)
- Do not arrive prior to program start, as no supervision is available. Keep your emergency information and personal information on forms up to date (address changes, telephone numbers – work, home, emergency, cellular – and individuals authorized to pick up your child). Please email EcoAdventures@miamidade.gov with any updated information.
- At no time will a parent approach another camper should a situation arise. Parents must inform the child's counselor or supervisor if there are any issues.
- If an issue arises at camp, the camp director reserves the right to speak to the alleged camper(s) first and notify parents after.
- Respect staff, yourself, and others.
- Respect property, site and equipment. Games and equipment are to be cared for and put away after each use.
- Gum is not allowed at any time and will be confiscated.
- At the end of the program, be prompt when picking up your child. A late fee will be applied. (credit card on file will be charge \$5.00 for every 15 minutes after 6:00pm)
- EcoAdventures is not responsible for lost or stolen items. Please leave personal or valuable items at home.
- Participants may not bring card games, tablets, two-way radios, toys or any electronic devices. All electronics that are brought to camp will be held in the office. Cell phones can only be used for emergencies. Multiple offenses will result in dismissal from camp. Refunds will not be issued for campers dismissed from camp.
- Inappropriate behavior will not be tolerated. Please see the Camper Code of Conduct for further information.

Camper Code of Conduct:

Campers are expected to display appropriate behavior and respect towards others at all times. If inappropriate behavior is observed; preventive, corrective or disciplinary action will be taken. Disciplinary actions range from a verbal warning to expulsion. Parents will be notified of all developments regarding their child's behavior and of any actions that are taken. All cases of suspension and expulsion will be determined by the Camp Director.

Behavior and Discipline Procedures

MDPROS promote positive behavior and good decision making. Guidelines for behavior management are established to help create a system for dealing with inappropriate and disruptive behavior at the nature camps.

The Behavior Management Plan is to be filled out when a child engages in ongoing inappropriate, negative behavior that is disruptive to the program, and after staff has clearly communicated behavioral expectations to the child and provided appropriate verbal interventions without any positive effect on the child's negative behavior.

This policy is not for behavior for which a child should be immediately terminated from the program. Examples of this behavior include violence and aggression or illegal activities such as carrying weapons or drugs.

To use this plan effectively the Behavior Management Plan worksheet should be filled out completely by the camp supervisor during a meeting with the child and his/her parents. Some of the information that is to be discussed is if the behavior occurs in home, how it is handled there, and what methods of teaching and discipline work best for the child.

During the meeting the camp director discusses the child's behavior by stating what has occurred, the situations in which these behaviors have occurred, what staff has done to correct the problem, and how the child has responded up to that point.

Behavior and Discipline Procedures, cont'd.

Parents are asked to review the situations and provide input and suggest interventions; rewards or consequences that they feel may be more effective. After this initial meeting, the camp director will document the plan and share with the field staff that cares for that child. A training date/explanation date will be recorded on the behavior management plan. The camp director will keep the parent/guardian informed of whether the plan is working and will set dates for further review. For more severe behaviors, the plan should be reviewed more frequently. The plan should be reviewed no later than one week after its inception. If the plan works, field staff will sign the form and continue to monitor at said intervals.

If the plan is not working, field staff will notify the camp supervisor who will ask the parents/guardian for a follow-up meeting to adjust the plan, and continue to review the adjusted plan at said intervals. If the behavior has not improved after the appropriate follow up and implementation of the Behavior Management Plan, then the child will be removed from the program.

Medication Administration

The American with Disabilities Act of 1990 requires that program access be provided for individuals with disabilities in “the most integrated setting”. In order to serve persons with disabilities in the community park / cultural arts setting, trained Park staff may administer medication to participants with or without disabilities, who meet the criteria below. An Authorization for Medication form and a Medication Log form accompany this procedure. The Authorization for Medication form includes: name of participant, park site, program name, prescribing Physician’s printed name, signature and contact number, name of medication, dosage, precautions/side effects and directions for administration for park personnel, as well as Parent/Guardian’s name, relationship to participant and signature under “permission statement”. This form must be notarized. The Medication Log includes medication, dose, date, time medication given and printed name and signature of staff dispensing medication.

Medication Administration, cont'd

Criteria for dispensing medication to participants:

All of the following criteria must be met for Park staff to dispense medication to participants.

- The participant is unable to self-administer medication with cues from staff, due to age or cognition, and
- On-site Program Manager (Park Manager, Recreation Specialist or Arts Director/Supervisor) has requested that the medication schedule be altered to dispense medication at home before and/or after program hours, and parent or guardian has stated that this is not possible, and
- Medication is necessary for full and appropriate program participation, and
- Authorization for Medication form is complete and filed in Medication Log
- Once the On-site Program Manager determines the criteria above have been met, he/she will implement the following procedure:
- Park Manager delegates trained Recreation Leader, or higher level staff to begin dispensing medication.
- Designated trained staff giving medication and fills out Medication Log each time medication is dispensed.
- Program Manager puts note regarding medication on the daily attendance/roll call sheet as a reminder to staff.
- The Program Manager checks log daily to ensure proper documentation.
- The Program Manager forwards all authorization forms to Region Office.
- Medication shall not be stored on-site from day to day. Parent/Guardian will provide staff with only the daily dose to be administered each day in a clearly labeled container. Label must contain date, participant's name, dose and name of medication.
- Medication will be stored during the program in a lock box, (or locked first aid kit) kept in the Park Manager's office while participant is in the park, or in the County transportation vehicle participant is traveling in, if medication must be dispensed while participant is on field trips.
- Staff failure to follow this protocol will result in disciplinary action.
