

Sanitary Sewer Pump Station Database Codes

Miami-Dade County Department of Regulatory and Economic Resources
Division of Environmental Resources Management (DERM)

What is a pump station number?

The Sanitary Sewer Pump Station Number is how DERM identifies the owner and location of a particular sanitary sewer pump station.

The first two numbers designate the utility or property owner of the pump station.

The next four numbers are the assigned pump station number. Each sanitary sewer pump station has a unique number to identify the actual location of the pump station. The data for each pump station is tracked by the unique pump station number.

Using the example pump station: 04-105

04	105
City of Hialeah Pump Station Owner	Specific Pump Station Number
