

FORM I – CLARIFICATION REQUEST FORM

Clarification/ Question No.	Date Question Submitted	RFQ Section	Question	Respondent (Team Name)
34.	March 21, 2018	Form F3	<p>Will the County please revise footnotes (1) and (2) on Form F3- Technical Experience – Operations and Maintenance to include nominated subcontractors, consistent with what is permitted on Form F1 with respect to the Lead Architectural/Engineering Firm. This will allow the County to consider the qualifications and experience of specialist firms, including locally present ones, which can provide exceptional value as critical members of a team in discrete roles, even if not assuming a joint and several liability for the full performance of all O&M work related to the Project. We therefore request the current language to be revised to be the following:</p> <p><u>Form F3 - Technical Experience – Operations and Maintenance</u> 1) A maximum of ten (10) projects may be included. In the case of experience provided by a company related to the Lead Operations and Maintenance Firm or a Controlled Subsidiary of such Lead Operations and Maintenance Firm, specify its relation to the Lead Operations and Maintenance Firm.</p> <p>2) Only list projects on which the Lead Operations and Maintenance Firm, or a Controlled Subsidiary of such Lead Maintenance Firm, or its nominated sub-contractors (as necessary) worked within the past ten (10) years.</p>	Skanska / John Laing
35.			It is our understanding that the Lead Design Quality Manager and the Lead Construction Quality Manager can be fully embedded within the day-to-day designer and construction organizations respectively while still maintaining a direct reporting line to the	

			Lead Quality Manager, who in turn reports Developer's Project Manager. Please confirm that this understanding is correct.
