PORTMIAMI THE GATEWAY THAT CONNECTS THE WORLD

From the turquoise waters of the Caribbean to the global shipping lanes that power international trade, PortMiami stands as one of the world's most dynamic maritime gateways.

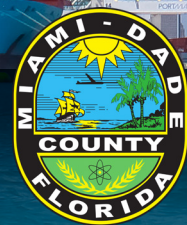

Strategically located at the crossroads of the Americas, PortMiami connects global commerce, international tourism, and regional logistics within one of the most vibrant metropolitan areas in the world.

Every year, millions of travelers begin their journeys here, while billions of dollars in cargo move through its terminals to destinations across the United States and beyond.

As the Cruise Capital of the World® and the Cargo Gateway of the Americas®, PortMiami is more than a seaport. It is an engine of economic opportunity, a hub of global connectivity, and a symbol of Miami-Dade County's leadership in international trade and travel.

In Fiscal Year 2025 alone, PortMiami welcomed 8,564,225 cruise passengers and handled more than 1.15 million TEUs of cargo, demonstrating its continued strength as one of the busiest and most influential ports in the Western Hemisphere.

With ongoing investments in infrastructure, sustainability, and innovation, PortMiami continues to evolve to meet the demands of the next generation of maritime transportation.

- In-house NVOCC providing global shipping services

MESSAGE FROM
MIAMI-DADE COUNTY MAYOR

**DANIELLA
LEVINE CAVA**

Welcome to the 2026 PortMiami Directory—capturing a defining moment in the continued rise of PortMiami as a global leader in trade and travel.

PortMiami remains the Cruise Capital of the World® and the Cargo Gateway of the Americas®, and this year's achievements reflect both record-breaking performance and forward-thinking leadership.

In fiscal year 2025, PortMiami welcomed an unprecedented 8,564,225 cruise passengers, a 4.02% increase over the previous year and the highest annual passenger count in the seaport's history. With 21 cruise lines, 66 cruise ships, and 1,156 vessel calls, our port continues to set the global standard for excellence in

cruise operations. This remarkable momentum has earned PortMiami the distinction of being named Best Cruise Port by Global Traveler Magazine for the third consecutive year—a testament to our commitment to service, innovation, and world-class experience.

Our cargo sector has likewise demonstrated sustained strength and strategic growth. PortMiami recorded 1,115,058 TEUs, marking 11 consecutive years exceeding one million TEUs and reinforcing our role as a vital engine of international commerce. Continued infrastructure investments—including the completion of phase two of the Electric Rubber-Tired Gantry Crane (eRTG) Project, expanding the South Florida Container Terminal to 18 eRTGs—are increasing yard efficiency,

improving container stacking capacity, and enhancing operational connectivity. Ongoing improvements at the Seaboard Marine yard further strengthen our ability to move goods swiftly and reliably throughout the hemisphere.

Beyond the statistics, PortMiami represents something even greater. It is a dynamic gateway where global movement intersects with economic opportunity. It is where partnerships with leading cruise lines—including the arrival of distinguished vessels such as Cunard's Queen Elizabeth, Holland America's Zuiderdam, MSC Cruises' Grandiosa, Norwegian Cruise Line's Norwegian Luna, Oceania Cruises' Allura, and Virgin Voyages' Brilliant Lady—expand our global reach and elevate the travel experience for millions.

PortMiami's continued success strengthens Miami-Dade County's position as a premier destination to live, work, invest, and explore. This directory reflects not only a year of extraordinary achievement, but a vision for the future—one built on innovation and global distinction.

MAYOR DANIELLA LEVINE CAVA**

WHITE-GLOVE SERVICE AND CUTTING-EDGE COLLABORATION

Where Service Meets the Spirit of Miami

At PortMiami, every journey begins with a promise: exceptional service rooted in meaningful relationships. From the moment travelers arrive at the water's edge, PortMiami's dedicated team works behind the scenes to ensure that every guest, partner, and visitor experiences the warmth, professionalism, and attention to detail that define Miami's world-class hospitality.

PortMiami understands that its greatest strength is its people. Every employee is committed to delivering a customer-first experience, guided by training, expertise, and a shared belief that service excellence should be felt at every touchpoint. Whether welcoming cruise guests embarking on the vacation of a lifetime or supporting the global partners who power international trade, PortMiami's culture of collaboration ensures that every interaction reflects care, precision, and pride.

This spirit of partnership extends across the entire maritime community. PortMiami works closely with both public and private sector partners to continuously elevate performance—enhancing efficiency, reliability, resiliency, and innovation throughout port operations. These collaborations help ensure that PortMiami

remains one of the most trusted and admired ports in the world.

Together with maritime partners and supply-chain allies, PortMiami is committed to delivering a level of service that mirrors the elegance and energy of the city it calls home. As Miami's iconic tropical gateway, PortMiami offers a white-glove experience that welcomes millions of travelers each year and sets the tone for unforgettable journeys across the seas.

Growing the Port the Right Way

Known globally as the Cruise Capital of the World® and the Cargo Gateway of the Americas®, PortMiami has earned its reputation through decades of thoughtful investment, innovation, and unwavering dedication to customer satisfaction.

Behind the glamour of cruise departures and the excitement of global commerce is a port that works tirelessly to evolve with the needs of the industry. Over the past several years, PortMiami successfully navigated major shifts across the maritime sector—including larger vessels, evolving shipping alliances, and global supply chain challenges—emerging stronger, more resilient, and better equipped than ever before.

Today, PortMiami stands as a modern maritime hub where advanced technology meets timeless service values. New cruise terminals welcome the world's most spectacular ships. Cargo facilities are equipped to accommodate the largest vessels sailing today. Improved inland connections streamline the movement of goods and passengers while enhancing the overall travel experience.

More than \$1 billion in improvements have been invested in PortMiami this century alone, ensuring the port remains at the forefront of global maritime innovation.

Among these advancements:

- A deep-dredged channel capable of welcoming the world's largest cargo vessels.
- Super post-Panamax gantry cranes designed to handle next-generation ships with precision.
- Electric rubber-tired gantry cranes that improve efficiency while reducing environmental impact.
- The reactivation of on-port rail, providing an energy-efficient cargo transportation option.
- The PortMiami Tunnel, offering fast, direct access to interstate highways while keeping heavy traffic away from downtown Miami.

Together, these improvements allow PortMiami to operate with exceptional efficiency while maintaining its commitment to environmental stewardship and sustainable growth.

A Port Powered by People

While PortMiami's infrastructure and technology set the stage, it is the people behind the port who truly bring the experience to life.

From skilled maritime professionals and logistics experts to hospitality teams welcoming cruise guests from around the world, PortMiami's workforce is united by a shared pursuit of excellence. Their dedication ensures that every ship, every shipment, and every traveler receives the highest standard of care.

PortMiami is also investing in the next generation of maritime leaders through new partnerships with Miami-Dade County Public Schools and Miami Dade College, designed to strengthen workforce development in the maritime, trade, and logistics sectors. By nurturing future talent, PortMiami continues to support both economic opportunity and long-term industry growth.

This combination of innovation, partnership, and human expertise is what makes PortMiami not only an essential part of Miami-Dade County's economy, but also a gateway that reflects the vibrant spirit of the city itself.

A Tropical Gateway to the World

With the shimmering waters of Biscayne Bay, the skyline of Miami as its backdrop, and the Caribbean just beyond the horizon, PortMiami offers more than a point of departure—it offers the beginning of an experience.

Every day, PortMiami welcomes travelers and global partners with the same commitment: delivering seamless service, world-class facilities,

and the unmistakable energy that makes Miami one of the most exciting destinations on earth.

For PortMiami, excellence is not a milestone—it is a daily standard.

PORTMIAMI WHERE GLOBAL TRADE MEETS ELEGANT INNOVATION

PortMiami is a global cruise and cargo hub and the main international seaport serving South Florida. With its direct access to Latin America, the Caribbean, Europe and Asia, PortMiami links the world's transoceanic shipping lanes to one of the largest tourist markets in the United States. Situated on the water's edge, PortMiami's landside facilities provide a unique blend of maritime commerce, passenger travel and regional distribution in a single active logistics center.

PortMiami has been investing in infrastructure over the last 10 years with new and replacement projects that have enhanced terminal operations, increased cargo handling capabilities, and significantly improved passenger facilities to accommodate the increased size and volume of vessels now visiting the Port. The Port is well positioned to accommodate the next generation of vessels and larger and more luxurious cruise ships. Current and future terminal projects are designed to handle these larger vessels while also improving passenger experience. In addition to having more space and amenities, travelers benefit from faster automated customs and immigration processes. The Port has been proactively building its transportation

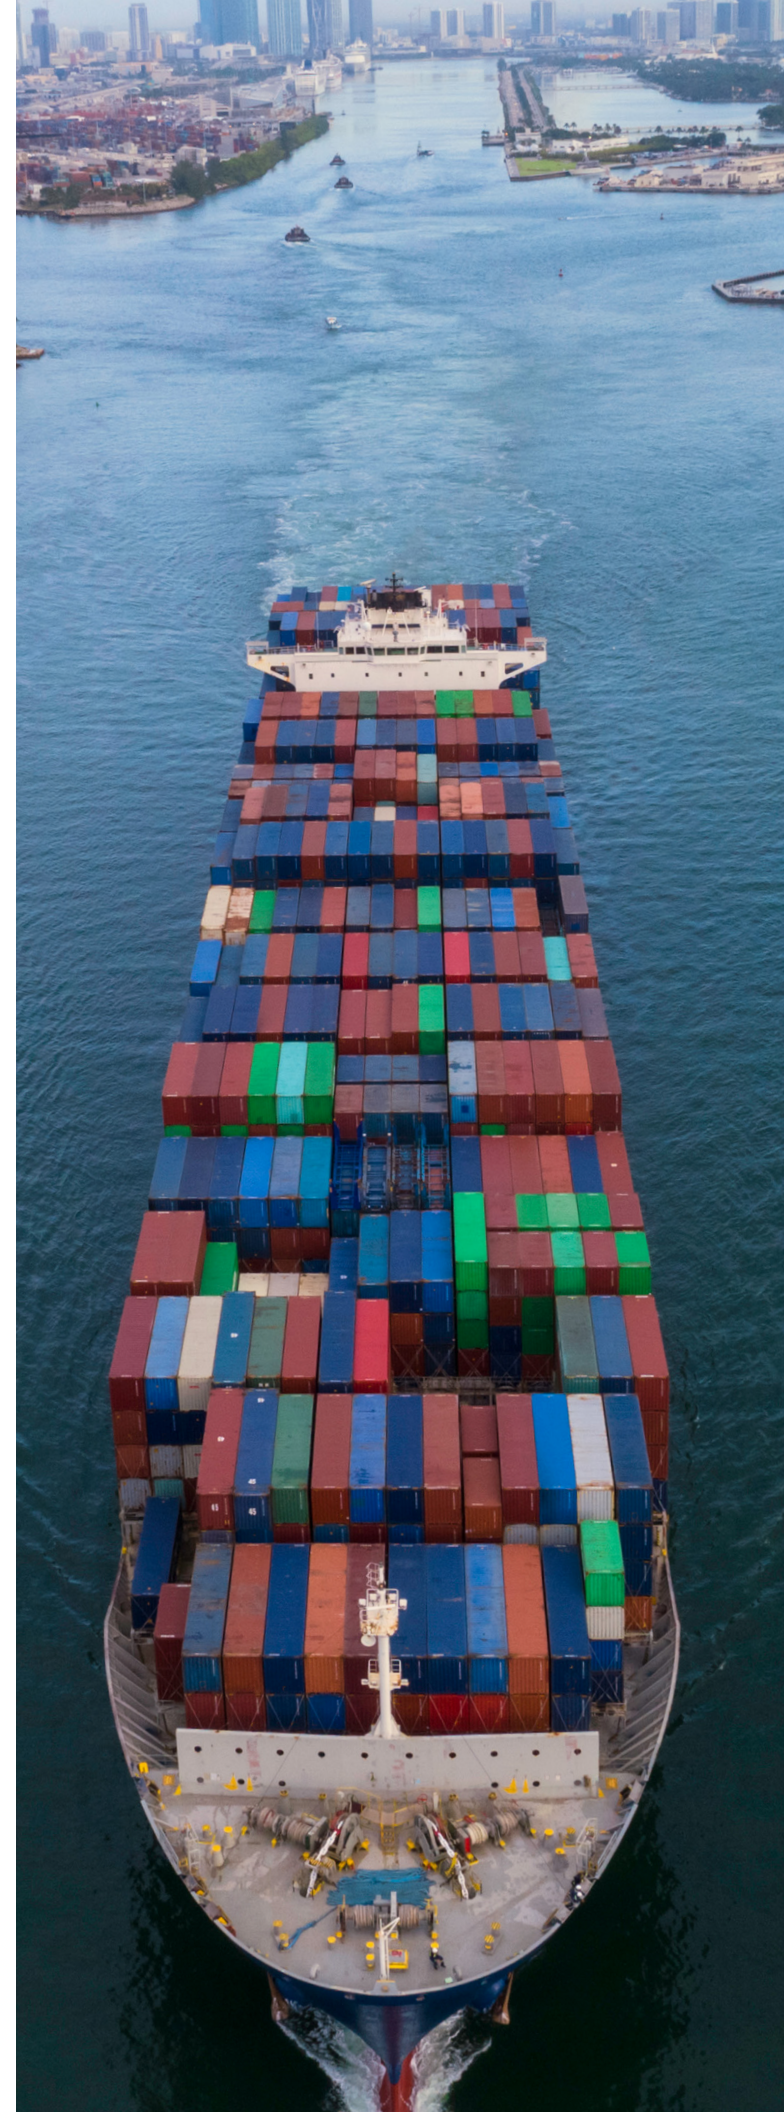

infrastructure, including highways, rail and intermodal services, to accommodate increasing volumes of cargo and passengers, and remains conveniently close to major inland hubs.

A wide variety of cargoes move through numerous global supply chains that traverse PortMiami. Ocean carriers maintain regular transoceanic services linking production and export points to distribution centers in South Florida. A wide range of containerized commodities moves in large volumes daily, including consumer products, perishables, general commodities and inventory designed for retail consumption across the country and worldwide. PortMiami's terminal operators,

ocean carriers, customs brokers and a wide network of logistics companies all play important roles in the daily movement of this cargo.

Miami continues to position PortMiami as a leading global cruise hub. As a year-round homeport for major international cruise lines, it offers routes to the Caribbean, Mexico, Central and South America, and transatlantic destinations. Ongoing efforts focus on modernizing passenger facilities, streamlining and securing customs, and improving ground transportation in and around Miami. These improvements contribute to a stronger tourism economy, meeting the growing demands of increased visitor levels to Miami-Dade County and ensuring that passenger embarking and disembarking take place in a timely and efficient manner. The benefits generated by the cruise industry for hotels, restaurants and other businesses throughout Miami-Dade County remain a key element in the success of tourism in South Florida.

PortMiami's expansion reflects the evolving role of Miami as both a major international trading center and a premier global tourist destination. Capital improvements, operational upgrades and ongoing waterfront development will help ensure PortMiami remains a major cargo gateway while accommodating the millions of international visitors who travel through Miami each year. The long-term objective is to maintain the Port as a major economic engine for future generations and as the region's premier ocean gateway to the world.

PORTMIAMI THE GLOBAL HUB FOR CARGO

PortMiami is a global trade center providing a comprehensive and sophisticated facility and logistics system to sustain modern maritime commerce.

International cargo movements at PortMiami are categorized by twenty-foot equivalent units (TEUs) by country and commodity being transported to Latin America and the Caribbean, Asia and India, Europe and the Mediterranean, and other worldwide markets. For Fiscal Year (FY) 2025, PortMiami's international cargo moved 1,115,058 TEUs, an increase of 2 percent over the 1,089,443 TEUs recorded in FY 2024. International cargo continues to move in high volumes on a monthly basis on all global trade routes in which PortMiami participates.

In the last five years, PortMiami secured more than \$97 million in federal and state grants to assist with its capital improvement program (CIP). PortMiami continues to expand its cargo

business through infrastructure and capital investments. Over the next five years, PortMiami will invest \$2 billion in its CIP in alignment with the port's resiliency, operations and future-ready strategies.

Good land connectivity for freight is important for the efficient movement of freight inland from the port. An on-dock rail connection with the Florida East Coast Railway (FEC) at PortMiami supports the movement of freight to and from the seaport. PortMiami's intermodal stack train service, known as the Thread Express, which is operated by FEC, is an additional example of the good connectivity that can be achieved for freight moved by rail from the seaport to the eastern seaboard and to Charlotte, North Carolina.

Ocean carriers remain a key element in making PortMiami a world-class cargo facility. In 2024, ZIM and MSC announced a joint shared service for the transpacific trade from Asia to multiple U.S. ports, effective February 2025. In addition, carriers have made a number of changes to their services, in an effort to maximize their use of the Miami market, and to accommodate the increased volumes of cargo coming into the port, some of which include changes to the ZIM Toucan Service.

Through ongoing investments in the future of landside infrastructure and improvements to inland connectivity and the continued modernization of carrier services, PortMiami will remain a competitive and efficient cargo port and gateway for the region.

A GLOBAL ADVANTAGE: FOREIGN TRADE ZONE NO. 281 AT PORTMIAMI

SAVINGS AND STREAMLINED LOGISTICS FROM FTZ NO. 281

Importers are amassing outstanding benefits by operating in Foreign Trade Zone (FTZ) No. 281. Businesses with the right mix of commodities, values, manufacturing waste, duty rates, number of “entries,” and proportion of exports to re-exports are racking up savings. That includes third-party logistics providers (3PLs), freight forwarders, distribution centers, manufacturers, shippers and more.

Along with having room to grow, fast access to market, and a large skilled workforce, the FTZ is one of the top factors attracting big retailer

distribution centers to Miami-Dade and South Florida.

An FTZ is a secured site located within the U.S., but technically considered outside of Customs’ jurisdiction. It allows businesses to defer, reduce, or even eliminate costly U.S. Customs’ duties on imported products.

In 2012, PortMiami served as the grantee for Foreign Trade Zone No. 281, with over 100 businesses already registered and operational. FTZ sites are active throughout much of Miami-Dade County.

One of the most significant advantages of FTZ is flexibility. Under Customs’ new Alternate Site Framework, an FTZ site can be activated and located almost anywhere in the County. This encourages commercial and industrial activity, investment and employment in neighborhoods that would otherwise be overlooked.

While most port freight strategies focus on moving cargo in and out quickly PortMiami’s FTZ strategy is about

keeping the merchandise local and conducting value-added activity before export or local distribution. This benefits the community with jobs, income and investments. Making it a best practice at PortMiami.

For more details on how to benefit from FTZ No. 281, call (305) 347-4922, send an email to FTZ281@miamidade.gov or go to www.miamidade.gov/portmiami/foreign-trade-zone-281.asp

PORTMIAMI CRUISE CAPITAL OF THE WORLD®

PortMiami remains the Cruise Capital of the World® and the leading cruise port for South Florida and one of the largest cruise hubs globally. As a key component of Miami's global logistics infrastructure, PortMiami forms a critical connection point between the major cruise routes of the world and the third most visited city in the United States, facilitating the operations of the world's major cruise lines. The scale of operations has positioned PortMiami among the world's busiest passenger ports and established Miami as a central cruise gateway.

The latest performance figures for PortMiami reflect the continued strength of the Port’s cruise business. In Fiscal Year 2025, PortMiami welcomed 8.5 million cruise passengers, an increase from the previous year and further confirmation of the Port’s position as one of the primary cruise departure points worldwide.

This continued rise in passenger traffic reflects sustained global demand for cruise travel along with ongoing investment in port facilities. Over the last few years, PortMiami has opened new terminals specifically designed for the embarkation and disembarkation of cruise passengers, including facilities serving, Carnival Corporation, MSC Cruises, Norwegian Cruise Line, Royal Caribbean Group, and Virgin Voyages. Royal Caribbean Group is also developing Terminal G, which is expected to increase passenger capacity

and expand operational capability expected to be completed in 2027.

Terminal construction represents only part of the broader infrastructure program at the port, which is intended to improve passenger processing and environmental performance. The Shore Power Program allows vessels to connect to electrical service while docked, reducing engine emissions and supporting sustainability goals shared by both the port and cruise lines. Improvements to the PortMiami Tunnel and highway network serving the port, including connections beneath Miami Harbor and into the regional roadway system, have also strengthened passenger access between cruise terminals, Miami International Airport, and hotel districts throughout Miami-Dade County.

Operational performance and passenger experience continue to drive recognition within the travel industry. PortMiami has again been named Best Cruise Port by Global Traveler Magazine, an award based on reader survey results evaluating facilities, service levels, and passenger experience. The recognition reflects continued investment in terminal construction, environmental initiatives, and long-term partnerships with cruise operators that support Miami's role as a primary departure port for international travelers.

Due to PortMiami operating in one of the largest tourism markets in the United States, the port benefits not only from its maritime role, but also from Miami's position as a global gateway. Strong international air connectivity, extensive hotel inventory, and year-round tourism activity support PortMiami's cruise operations and reinforce its function as both a seaport and a major entry point for international visitors.

PORTMIAMI SECURITY THAT POWERS FREEDOM AT PORTMIAMI

At PortMiami, safety and security are not just operational priorities—they are the foundation that allows the port to thrive as one of the world's most vibrant maritime gateways. Behind every cruise departure, every cargo shipment, and every breathtaking view of Biscayne Bay is a sophisticated, multi-layered security network designed to protect the millions of people who pass through PortMiami each year. This layered, collaborative approach to security includes a 24/7 control center offering numerous strategic surveillance camera views.

Keeping a bustling metropolitan seaport secure in today's world is no small task. With vessels arriving from across the globe and thousands of employees, partners, and visitors on-site daily, PortMiami relies on a comprehensive system of protection built on collaboration, technology, and constant vigilance. This multi-layered approach ensures that operations run smoothly while preserving the sense of freedom and excitement that defines the Miami experience.

A Unified Approach to Safety

Security at PortMiami begins with people. Staff members, tenants, maritime workers, and partners across the maritime community all

play a role in maintaining a safe and secure environment. Their collective commitment is strengthened through close coordination with local, state, and federal agencies, forming a powerful network of protection.

During heightened security situations, PortMiami activates a Unified Command structure—a coordinated system that brings together multiple agencies to manage incidents quickly and effectively. This approach ensures that the right expertise and resources are deployed when needed, often providing more support on the ground than any single agency could deliver alone.

The Unified Command team includes representatives from:

- PortMiami Safety and Security Division
- U.S. Coast Guard
- U.S. Customs and Border Protection
- Miami-Dade Fire Rescue Department
- Miami-Dade Sheriff's Office
- Florida Department of Health

The structure is designed to remain flexible and dynamic, allowing additional agencies with specialized expertise to join when needed. Partners such as the Florida Fish and

Wildlife Conservation Commission, the Florida Department of Law Enforcement, and the U.S. Department of Agriculture all contribute to strengthening PortMiami's security posture.

Innovation Enhancing Vigilance

Technology and preparedness play a vital role in maintaining PortMiami's secure environment. Through advanced monitoring systems, coordinated response protocols, and continuous training, PortMiami remains prepared to address a wide range of challenges—from natural disasters to cybersecurity threats.

Regular joint threat-based drills and exercises allow agencies and port personnel to refine response strategies and ensure seamless coordination. These exercises strengthen readiness while reinforcing the shared mission

of protecting one of the nation's most important maritime hubs.

At the same time, PortMiami's security programs are carefully designed to operate in a seamless and unobtrusive manner, ensuring that visitors, cruise passengers, and business partners experience the port's vibrant atmosphere without disruption.

Anyone who observes suspicious activity is encouraged to contact the Seaport Command Control Center at 305-470-3880 or by email at seffc@mdso.com, in accordance with guidance from the U.S. Department of Homeland Security.

PORTMIAMI COMMITMENT TO A RESILIENT FUTURE

As one of the busiest cruise and cargo gateways in the world, PortMiami recognizes the critical responsibility it holds in protecting the environment while supporting global commerce and tourism. Through innovative partnerships, advanced technology, and community-centered initiatives, PortMiami continues to lead the way in building a more resilient future for Miami and the maritime industry.

Shore Power Program: Reducing Emissions at Dock

A cornerstone of PortMiami's conservation strategy is the groundbreaking Shore Power Program, developed in partnership with major cruise lines including Carnival Corporation & plc, MSC Cruises, Norwegian Cruise Line Holdings, Royal Caribbean Group, Virgin Voyages, and Florida Power & Light Company.

PortMiami is the first major cruise port on the U.S. eastern seaboard to offer shore power capability at five cruise berths, allowing up to three vessels to connect simultaneously. This innovative system enables cruise ships to plug into landside electrical power while docked, allowing vessels to shut down their engines while still powering essential onboard functions such as lighting, refrigeration, and operational equipment.

The conservation benefits are significant. When ships connect to shore power, air and noise emissions are reduced. To put this in perspective, last year, cruise ships plugged into the electrical grid 377 times. This led to a reduction of almost 9,850 tons of greenhouse PortMiami Commitment to a Resilient Future gasses – which is about the same amount that almost over 2,000 homes burn in electricity use in a year – according to the U.S. Environmental Protection Agency (EPA) Greenhouse Gas

Equivalencies Calculator. This forward-thinking initiative was supported through \$2 million in grants from the EPA and more than \$19 million from the Florida Department of Transportation, reinforcing the importance of this investment in sustainable maritime operations.

A Community-Centered Conservation Vision

PortMiami's resiliency efforts extend well beyond its terminals. PortMiami's conservation initiatives are guided by a broader vision that balances economic growth with resilient stewardship and community wellbeing.

This vision includes projects designed to protect Miami's coastal ecosystems and natural resources. Among these efforts is a 63-acre red mangrove restoration project at Oleta River State Park, along with ongoing investments in coastal habitat protection and

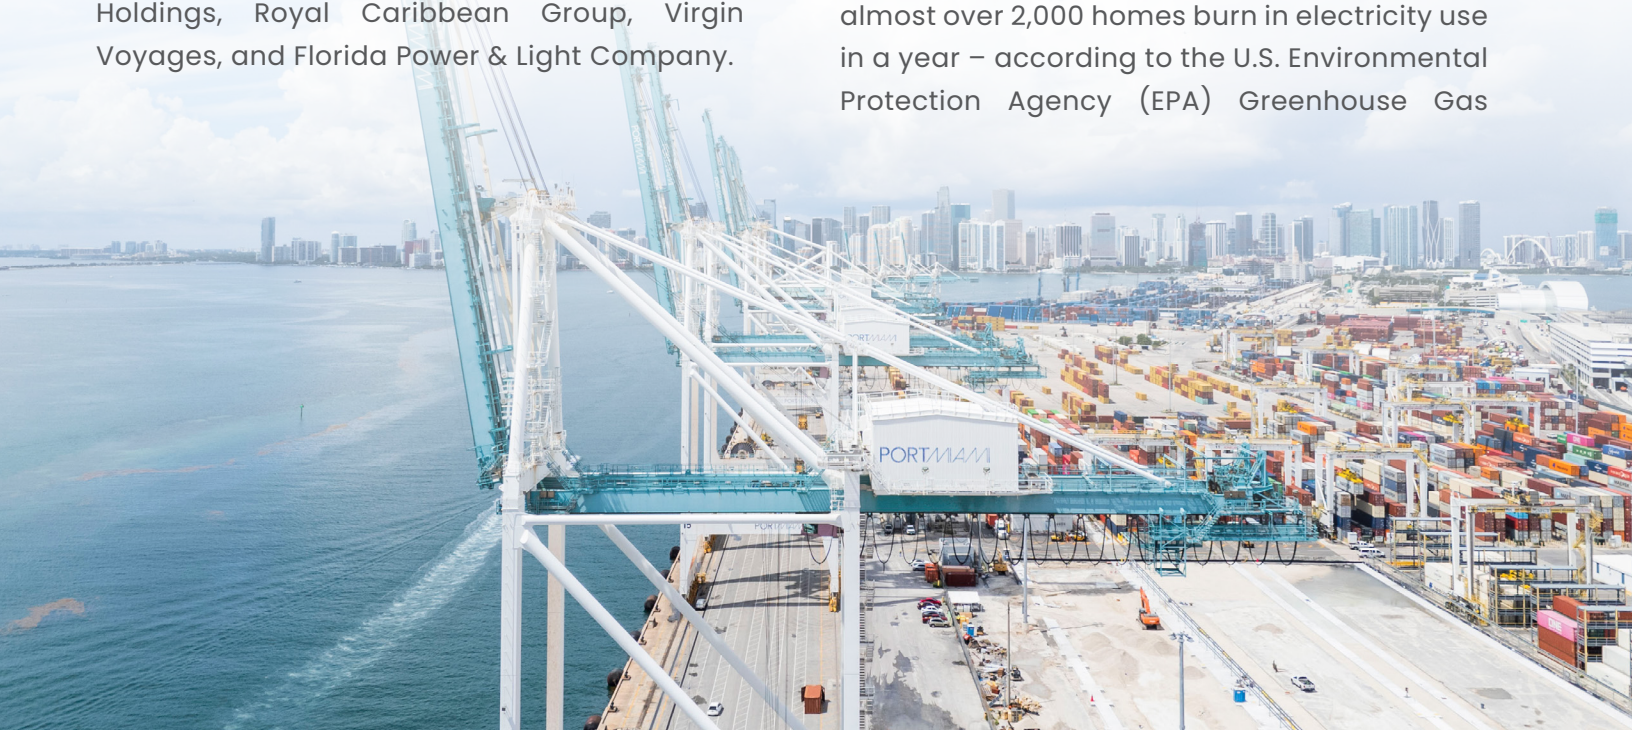

extensive Reduce, Reuse, Recycle programs across PortMiami facilities.

These initiatives demonstrate PortMiami's commitment not only to operational resiliency, but also to preserving the natural beauty and biodiversity that define South Florida.

National Recognition for Marine Conservation

PortMiami's leadership in conservation has earned national recognition. In 2023, the North American Marine Environment Protection Association (NAMEPA) honored PortMiami with the Marine Environment Protection Award for its extraordinary contributions to marine conservation.

Working alongside partners such as the University of Miami, PortMiami has supported major restoration initiatives that have resulted

INDUSTRIAL COATINGS AND SURFACE PREP BACKED BY A FULL RANGE OF SERVICES THAT STRENGTHEN AND SUPPORT CRITICAL INFRASTRUCTURE

www.championssc.com 954-462-9079

in the out planting of 10,000 staghorn coral colonies and the restoration of more than 16 acres of seagrass, helping strengthen vital marine habitats.

Reducing Carbon Footprints on Land and at Sea

PortMiami is also making major investments to reduce emissions across its land-based operations.

All ship-to-shore cranes at PortMiami are electric, eliminating emissions that would otherwise be generated by diesel-powered equipment. Cargo yard improvements at facilities such as the South Florida Container

Terminal and Seaboard Marine Cargo Yard have also replaced diesel equipment with electric and lower-emission alternatives, significantly reducing greenhouse gas output.

Advanced technologies are also helping improve efficiency. Systems such as RFID tracking and Building Management Systems help minimize equipment idling time and optimize energy use across PortMiami facilities.

Cleaner Transportation and Smarter Infrastructure

PortMiami's resiliency impact extends beyond its gates. The PortMiami Tunnel, which diverts

approximately 22,000 vehicles per day away from downtown Miami streets, has helped reduce congestion and vehicle emissions throughout the city.

At the same time, all new and renovated terminals at PortMiami are designed to meet LEED (Leadership in Energy and Environmental Design) standards for energy efficiency and resiliency. Both Carnival's Terminal F and MSC's Terminal AA have achieved LEED Silver Certification.

Infrastructure planning at PortMiami also accounts for sea-level rise and climate

resilience, with upgraded stormwater systems designed to protect surrounding wildlife, including manatees.

Through these forward-thinking initiatives, PortMiami continues to demonstrate that a thriving international seaport can operate in harmony with the environment. By investing in innovative technology, protecting marine ecosystems, and working collaboratively with industry partners, PortMiami is setting a new standard for sustainable maritime operations.

PORT MIAMI FACILITIES

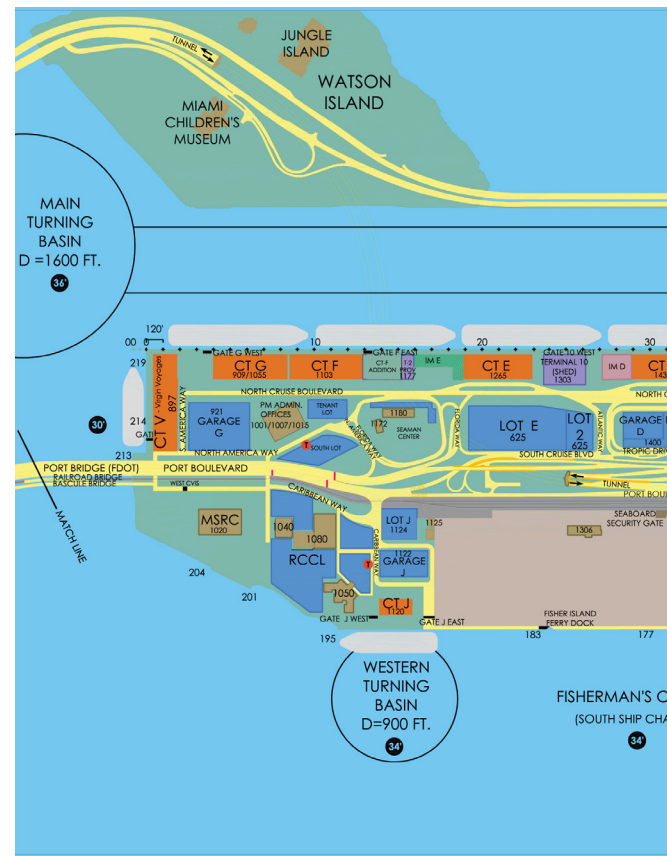

PortMiami offers world-class facilities designed to provide efficient cargo handling and smooth cruise operations. Recent enhancements, like a deeper ship channel and new cruise terminals, enhance the port's ability to provide excellent services and exceed customer expectations.

Anchorage

Ships anchoring outside the harbor must use the designated anchorage area, located eastward of a line about 1.5 nautical miles offshore and northward of a line about 0.2 nautical miles north of the sea buoy marking the main channel entrance.

Channels and Turning Basins

- The harbor entrance is approximately 2.5 nautical miles from the Atlantic Ocean. The sea buoy marking the main channel is located at Latitude 25°46.135' N, Longitude 80°15.001' W.
- Vessels entering the harbor from the Atlantic Ocean travel through Government Cut (500 feet wide, 52 feet deep).
- The main ship channel (36 feet deep), used primarily by cruise vessels, is 400 feet wide along the north side of Lummus Island and 900 feet wide along the north side of Dodge Island.
- The main ship channel forms the northern

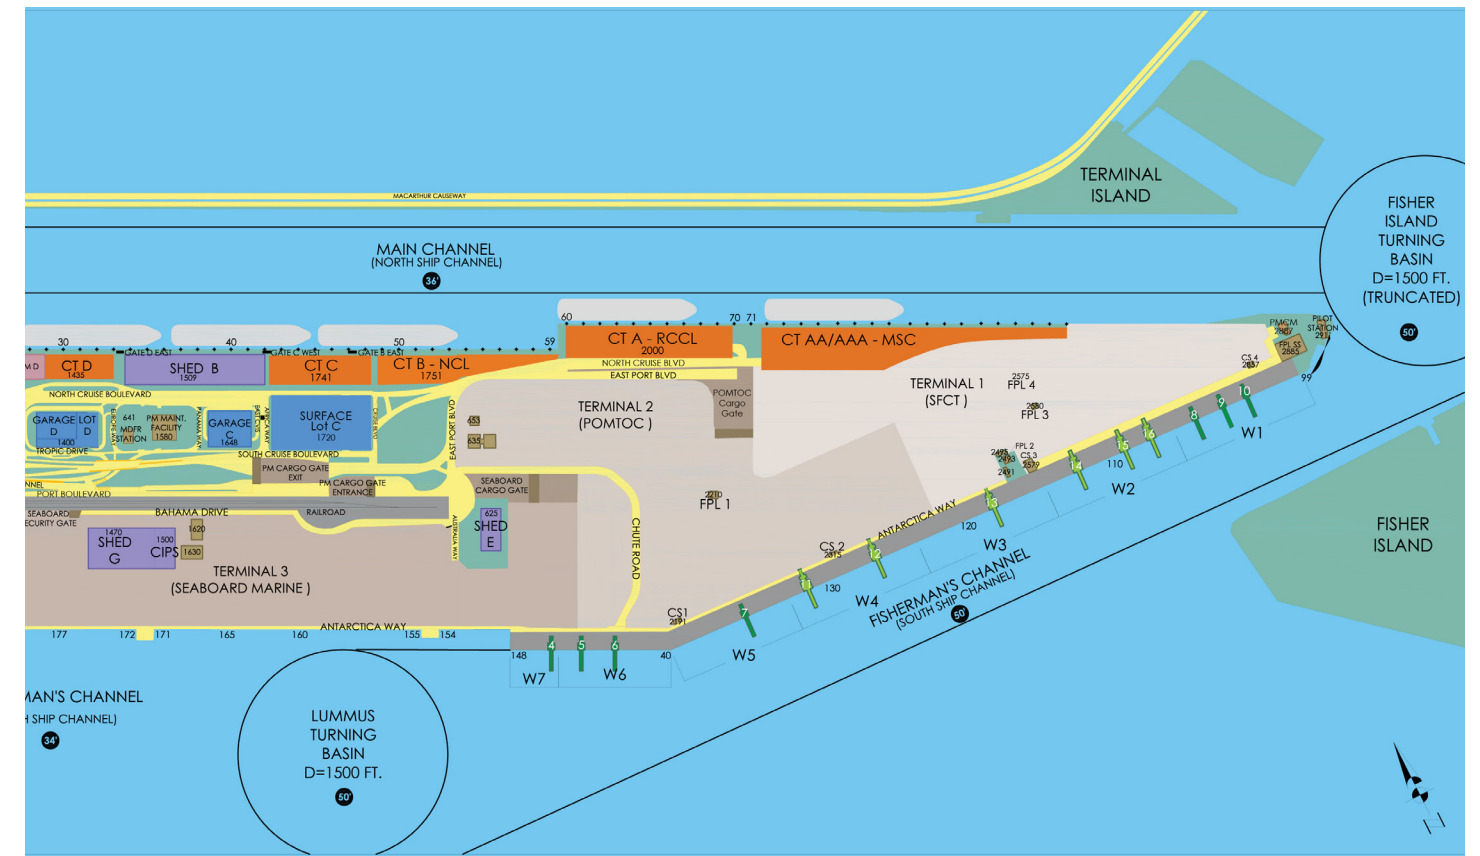

boundary of PortMiami. The channel ends at a 1,600-foot-diameter main turning basin (36 feet deep).

- The south shipping channel is 440 feet wide with a controlled depth of 50 feet.

Four turning basins are as follows:

- The Fisher Island turning basin (50 feet deep) is a truncated basin located north of Fisher Island at the junction between the main and south shipping channels. It has a diameter of 1,500 feet.
- The Lummus turning basin (50 feet deep) is 1,500 feet in diameter and is located along the south shipping channel at the transition point between Lummus and Dodge islands.
- The south shipping channel terminates at a 900-foot diameter western turning basin (32 feet deep). These waterways provide access to all of PortMiami's berthing areas, as well as to the Miami River and Atlantic

Intracoastal Waterway. They are part of a channel access system maintained by the port as a nonfederal sponsor of the U.S. Army Corps of Engineers.

Tides and Currents

The normal mean tidal range at the harbor entrance is 2.5 feet; for Biscayne Bay it is about 2 feet. The extreme tidal range is about 4 feet. Easterly winds may raise the water level 1.5 feet at the harbor entrance and from 1 to 1.5 feet in the bay. The tidal currents at the entrance to Biscayne Bay may reach a velocity of 1.5 to 3 knots through the main channel.

Berthing

PortMiami offers 20,710 linear feet of berthing on Dodge and Lummus Islands, with 10,750 linear feet serving cruise vessels and 9,960 linear feet serving cargo ships.

Police Safety

Under the purview of the Miami-Dade Sheriff's Office, PortMiami's Seaport Operations Bureau maintains a full-time staff of sworn law enforcement personnel assigned to the seaport. The bureau provides uniformed police services such as responding to calls for service, traffic control, routine patrol, terminal and facility security, and random police security checkpoints in response to changes in Maritime Security (MARSEC) levels. Additionally, they operate a total of six Metal Shark boats – three, 26-foot and two, 32 foot t vessels – and assist with rescue efforts.

Fire safety

PortMiami has a full fire station that includes an engine ladder and a transport unit. Under the purview of Miami-Dade County Fire Rescue's Marine Services Bureau, operates two 28-foot-long Bertram fire rescue boats. Additionally,

hydrants, handheld extinguishers and hoses are available. Private companies also contribute to the fire protection services on the water ways.

Passenger Operations

PortMiami currently has 10 cruise passenger terminals, with eight on the north side of the port, Terminal J on the south side, and Terminal V on the west side. Cruise terminal square footages (inclusive of space designated for U.S. Customs and Border Protection and offices) and capacities are:

- Terminal AA (490,000 square feet)
- Terminal A (more than 170,000 square feet)
- Terminal B (190,247 square feet)
- Terminal C 183,564 square feet)
- Terminal D (135,000 square feet)
- Terminal E (115,000 square feet)

- Terminal F (144,511 square feet)
- Terminal G (under construction)
- Terminal J (56,120 square feet)
- Terminal V (122,000 square feet)

Parking

Parking is conveniently located with access to all cruise terminals. Facilities include Terminal AA Garage, Terminal A Garage, Terminal B Garage, Garage C, Garage D, Garage G, Garage J, Garage K, and Flat Lot E. Cruise passengers benefit from almost 11,000 parking spaces at PortMiami, which has a parking system that facilitates efficient and accurate payment processing. Designated disabled permit parking spaces are available at each garage. Oversize and recreational spaces are available mid port.

PORT MIAMI BUSINESS DIRECTORY

The organizations listed in the following directory represent the maritime community that powers PortMiami every day.
