How to Read a Department's Budget Narrative

Departmental budget narratives in the Budget and Multi-Year Capital Plan contain important details regarding how Miami-Dade County funds its strategic goals and fiscal priorities. These sections contain a general departmental description, information regarding operating and capital revenues and expenses, strategic planning alignment and performance expectations, a table of organization with position counts, and divisional highlights, among other things. The way all this information is presented helps demonstrate the progress Miami-Dade County is making towards achieving its strategic goals and fiscal priorities. To help the reader better understand how Miami-Dade County is funding priorities, the following pages explain in detail what is contained in these department narratives.

To ensure Miami-Dade County departments are internally aligned to the County Strategic Plan, unit measures are aligned to a separate departmental objective which itself is linked to a Strategic Plan Objective. Departmental objectives help communicate to the reader how a department specifically supports the County Strategic Plan. These Strategic Plan Objectives are listed in Appendix U in Volume 1.

The information below is a summary of the department budget narrative layout. The numbered bullets below correspond to the circled numbers on the sample narrative page that follows.

Board of County Commissioners

The Miami-Dade County Board of County Commissioners (BCC or the Board) is the legislative and governing body of Miami-Dade County. One County Commissioner is elected from each of Miami-Dade County's 13 districts to serve no more than two consecutive four-year terms. Registered voters from the respective districts choose Commissioners in non-partisan elections. Every two years, the Commissioners elect a Chairperson and Vice-Chairperson of the Board. The Chairperson of the Board appoints members to each committee, including the appointment of the Chair and Vice-Chair respectively. District elections are held every four years, with the most recent election of Commissioners from odd-numbered districts held in 2024. The election of Commissioners from even-numbered districts will be held in August 2026.

The BCC reviews and adopts comprehensive development land use plans for the County; licenses and regulates taxis, transportation network entities, jitneys, limousines, and rental cars; sets tolls and policy regarding public transportation systems; regulates utilities; adopts and enforces building codes; establishes zoning controls; and establishes policy relating to public health, safety services and facilities, recreational and cultural facilities, housing and social services programs, and other services. Each year, the BCC sets the property tax millage rates and approves the County's budget, which determines the revenues and expenditures necessary to operate all County services and enacts the County's strategic plan. In addition, the Board, through its agenda coordination function, develops and distributes all legislative items. All meetings are public, and the Board can take no action unless a majority of Commissioners currently serving in office are present.

The BCC performs policy-making functions and advocates for Miami-Dade County citizens at all levels of government.

CONSTITUTIONAL OFFICES

To effectuate the changes precipitated by Amendment 10, approved by Florida voters in 2018, the County has established five independent constitutional offices; amendment 10 mandates that these five county offices must be elected positions and prevents these roles from being changed to appointed positions by local charter amendments or ordinances, thereby ensuring they remain directly accountable to the voters

Property Appraiser

MISSION STATEMENT:

To justly value all properties in Miami-Dade County, and to help all property owners understand and access all the exemptions and other benefits allowed by state law.

THE PROPERTY APPRAISER'S ROLE IN MIAMI-DADE COUNTY:

The elected Property Appraiser, Tomas Regalado, of Miami-Dade County is an independent Constitutional Officer and has the primary responsibility to identify and appraise all real and tangible personal property within the County and certify the annual property tax roll with the Florida Department of Revenue (DOR) in accordance with the Florida Constitution and state law. Additional responsibilities include the maintenance of all associated property records, the administration of all exemptions, and the annual notification to all property owners in Miami-Dade County of the assessed value of their properties; visit <https://www.miamidadepa.gov/pa/home.asp> to learn more.

The Office performs statutory functions related to the assessment of property for the purpose of determining fair market and taxable values. The taxable values are then used by public schools, County, municipalities and other taxing jurisdictions to set millage rates and derive budgeted revenue levels.

To fulfill its responsibilities, the Property Appraiser communicates on a routine basis with Miami-Dade County property owners, the Tax Collector, County agencies, the DOR, and numerous taxing authorities. The Office's responsibilities are established by the Florida Constitution, Florida Statutes, and DOR rules and regulations. The budget for the Property Appraiser is subject to provisions outlined in Section 195.087 of the Florida Statutes, which include review and approval by the DOR.

FY 2025-26 Adopted Budget and Multi-Year Capital Plan

Emergency Management

The Department of Emergency Management (DEM) supports the community's disaster prevention, protection, response, recovery, and mitigation needs through the coordination of information and resources. Additionally, DEM manages the County's Emergency Operations Center (EOC), which develops and coordinates emergency response and recovery plans, and supports key decisions and operations to maximize the use of available resources within Miami-Dade County. Through a "whole communities" approach, DEM collaborates with federal and state agencies, County departments, local municipalities, the private sector, faith-based communities, and not-for-profit organizations to accomplish its mission.

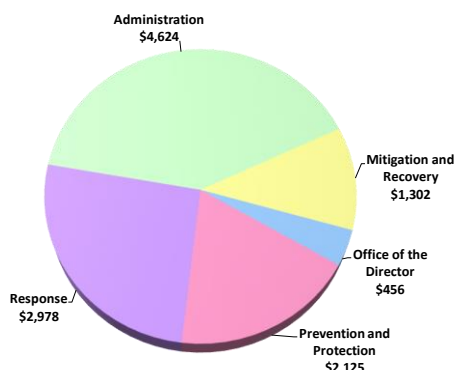

DEM's responsibilities under the Public Safety strategic area include domestic preparedness, emergency evacuation assistance, and coordination of health and medical needs arising from natural, technological, and human-generated disasters. Incidents such as chemical, biological, radiological, nuclear and explosive emergencies, and other events such as cyber-attacks, require sound preparation and preventative measures. Extreme conditions such as hurricanes, tornados, flooding, heat, and cold weather emergencies demonstrate the need for mitigation, resilience, and coordinated response efforts. To mitigate these events, DEM maintains and implements Miami-Dade County's Comprehensive Emergency Management Plan (CEMP), Continuity of Operations plans (COOP), Continuity of Government (COG) plan and the Local Mitigation Strategy (LMS) in compliance with federal, state, and local requirements. DEM also engages with the community to assist in disaster response and recovery by conducting community outreach programs, coordinating disaster volunteers, and managing the Community Emergency Response Team (CERT) and Citizens Corps.

The Department is also charged with information gathering and is responsible for delivering accurate and effective messaging to the citizens of Miami-Dade County. DEM participates in the Regional Domestic Securities Task Force (RDSTF) and the Urban Area Work Group (UAWG) and receives intelligence from Homeland Security, Fusion Centers, and the National Weather Service. Public information is provided through press releases, social media, reverse 911, and communications platforms such as Wireless Emergency Alerts (WEA) and the Integrated Public Alert System (IPAWS). To meet its mission objectives, the Department of Emergency Management requires sound plans, governmental and non-governmental partnerships, community engagement, readiness initiatives, and reliable information sharing.

Fire Rescue

The Miami-Dade Fire Rescue Department (MDFR) protects people, property and the environment by providing proactive, responsive, professional and humanitarian emergency fire rescue services that are essential to public health, safety and well-being. MDFR is one of the ten largest fire rescue departments in the United States, serving residents, businesses and visitors 24 hours per day, 365 days per year. MDFR has 72 fire rescue stations serving unincorporated Miami-Dade County and 29 municipalities. In addition, MDFR provides air rescue service with transport within Miami-Dade County to Federal Aviation Administration (FAA) approved landing pads at various hospital facilities. Additional specialty units are dedicated to Airport and Seaport response, hazardous material emergencies, ocean rescue, maritime response, response to snake bites, urban search and rescue and complex extrications. MDFR provides annual building inspections and plans review and inspection for new construction to ensure compliance with the Fire Code.

MDFR received a Class 1/1X rating from the Insurance Services Office, Inc. (ISO) Public Protection Classification (PPC®) program. This places MDFR in the top 1% of fire agencies in the country; an elite group of fewer than 500 of over 38,000 fire departments in the nation that have achieved a Class 1 rating. MDFR is the first department in the country with a response territory of greater than 1,000 square miles and population over one million to obtain a Class 1 rating. MDFR is accredited by the Commission on Fire Accreditation International (CFAI), which is part of the Center for Public Safety Excellence, Inc. The Department is one of only 326 agencies in the world to achieve International Accreditation Agency status by CFAI and is the largest accredited fire rescue department in the Southeast and the second largest in the nation. Further, MDFR is one of 124 fire agencies in the country that are both Class 1 and CFAI accredited, representing organizations that are strategic-minded, well-organized, properly equipped, staffed, and trained.

As part of the Public Safety strategic area, MDFR provides a vital public service to an extensive list of stakeholders, which include the County's 2.8 million residents, 28 million annual visitors, 29 municipalities and approximately 87,000 businesses.

Judicial Administration

The Judicial Administration function of the Eleventh Circuit (the Circuit) includes the County-funded activities of the Administrative Office of the Courts (AOC), State Attorney, and Public Defender.

As part of the Public Safety strategic area, the various entities of the court system strive to attain justice for all residents of Miami-Dade County through the rule of law as an independent branch of government constitutionally entrusted with the fair and just resolution of disputes. In doing so, the Circuit provides equal access to a fair and effective system of justice for all without excess cost, inconvenience, or delay and with sensitivity to an increasingly diverse community. While preserving the constitutional right to trial by an impartial judge or jury, the Circuit also offers efficient methods of dispute resolution such as mediation. The State Attorney is responsible for prosecuting or defending, on behalf of the State, all suits, applications, or motions in which the State is a party. The Public Defender represents indigent people who have been arrested or who are at risk of losing their life or liberty and cannot afford to hire a private attorney, as well as individuals facing involuntary civil commitment because of mental illness or varied intellectual needs. The AOC, which provides support services to the Judiciary, includes the following areas: case management, courtroom assignments, court reporting, court technology, interpreter operations, human resources, fiscal and procurement management, facilities management, planning and security. Additionally, the AOC has several Problem-Solving Courts that have specialized dockets that seek to address the underlying problems contributing to certain criminal offenses. Pursuant to Revision 7 to Article V of the Florida Constitution, the State is required to fund the following elements of the state court system on behalf of the State Attorney, Public Defender and Judiciary: Judges and Judicial Assistants, Law Clerks and legal research services, Magistrates and Hearing Officers, State Attorneys, Assistant State Attorneys and staff, Public Defenders, Assistant Public Defenders and staff, alternative dispute resolution/mediation, case management, foreign and sign language interpreter services, court reporting, expert witnesses, mental health professionals, court administration, transportation and travel expenses. The law provides that counties pay reasonable and necessary salaries, costs and expenses of the State Court System to meet local requirements and may fund State Attorney and Public Defender efforts toward the prosecution and defense of violations of local ordinances. Pursuant to Florida Statute 29.008, the responsibility rests with the Chief Judge, in conjunction with the State Attorney and the Public Defender, to identify all local requirements within the Circuit. Counties are obligated to fund communications services, existing multi-agency criminal justice information systems and the construction, maintenance, utility, and security costs associated with court facilities.

The entities of the court system interact with the Clerk of Court and Comptroller, other justice agencies, community-based organizations, and the public.

Medical Examiner

The Medical Examiner Department, acting under the authority of Chapter 406 of the Florida Statutes, provides accurate, timely, dignified, compassionate and professional death investigative services for the residents of Miami-Dade County. In addition, the Department provides education, consultation and research for local and national medical, legal, academic and law enforcement communities.

As part of the Public Safety strategic area, the Medical Examiner provides pathology, toxicology, records/transcription, morgue, photography, investigation, and indigent cremation services; investigates and processes approximately 16,000 cases annually, which include cremation request reviews, autopsies and toxicology and pathology consultation cases; and facilitates organ, bone and tissue donor cases. The Medical Examiner also hosts annual seminars on death investigation, forensic imaging, anthropology, and odontology.

The Department serves the public and partners with the Federal Bureau of Investigation (FBI), Department of Homeland Security (DHS), State Attorney, US Attorney, Public Defender, Florida Department of Health, Centers for Disease Control (CDC), local and state police departments, hospitals, National Transportation Safety Board (NTSB) and funeral centers.

The Library serves one of the largest and most diverse populations in the United States. The Library also maintains a technology infrastructure that provides public access to high-speed Wi-Fi and internet for personal devices, public computer workstations and laptop devices, virtual reality, gaming platforms, 3D printers and a variety of software and hardware that ensures the latest technology is available to the public. The Library operates the Main Library, five regional locations, and 44 neighborhood locations, including four YOUmedia Miami locations, two YOUmake Miami locations, two bookmobiles and the Techmobile computer learning center. In addition to availability of in-person library services at 50 physical locations, online services such as home delivery, requesting library materials for pick-up, accessing research and learning databases and downloading/streaming eBooks, eAudiobooks, movies and music are accessible 24 hours per day, seven days per week through the Library's website, mobile app, and the Mobile Device Lending Program's internet-enabled hotspots and Chromebook laptops.

The Department coordinates its many activities and functions with a variety of stakeholders, including schools, municipalities, homeowners' associations, community-based organizations, and neighborhood groups, and in conjunction with other County departments and state and federal agencies to provide a No Wrong Door approach in delivering programs and services to the public. In addition, the department also works closely with the Friends of the Miami-Dade Public Library as its non-profit advocacy and fundraising arm, and the Miami-Dade Public Library Advisory Board.

Parks, Recreation and Open Spaces

The Parks, Recreation and Open Spaces (PROS) Department builds, operates, manages and maintains one of the largest and most diverse park systems in the country consisting of 307 parks and over 13,454 acres of passive and active park lands and natural areas that serve as the front line for recreational and improved health solutions. The Department's five strategic objectives and priority areas include fiscal sustainability, placemaking/design excellence, health and fitness, conservation and stewardship and performance excellence. The Department provides opportunities for health, happiness and prosperity for residents and visitors of Miami-Dade County through the Parks & Open Spaces Master Plan, consisting of a connected system of parks, public spaces, natural and historic resources, greenways, blue-ways and complete streets, guided by principles of access, beauty, stability and multiple benefits. The Department operates as both a countywide park system serving over 2.8 million residents and as a local parks department for the unincorporated area serving approximately 1.185 million residents. The Department acquires, plans, designs, constructs, maintains, programs and operates County parks and recreational facilities; provides summer camps, afterschool and weekend programs for youth; manages 31 competitive youth sports program partners; provides programs for active adults, the elderly and people with disabilities; and provides unique experiences at Zoo Miami and seven Heritage Parks: Crandon, Deering Estate, Fruit and Spice, Greynolds, Haulover, Homestead Bayfront and Matheson Hammock Park. The Department manages over 26,000 acres of environmentally endangered lands and natural and environmental experiences are offered through five nature centers/preserves and Eco-Adventure programs. The Department provides science-based education in agriculture, horticulture, sustainable landscaping, gardening, marine science, family finances, nutrition and health education, and youth development through University of Florida IFAS Cooperative Extension services.

As part of both the Recreation and Culture and Neighborhood and Infrastructure strategic areas, the Department manages revenue generating facilities including five golf courses, one tennis center, six marinas, six campgrounds, Deering Estate, Fruit & Spice Park, Trail Glades Range and Zoo Miami. The Department attracts regional, national and international events, including equestrian shows at the Ronald Reagan Equestrian Center and track and field meets. The Department also provides landscape maintenance, security guard services and street lighting for special assessment districts; provides maintenance to recreational amenities on the Rickenbacker and Venetian Causeways; manages roadway landscape maintenance, roadside safety tractor mowing and lot clearing services; and plants trees and provides landscaping to provide aesthetic enhancements through Neat Streets and the Million Trees Miami initiative.
