

Simplified Fire Permit Application Checklist

Department of Regulatory and Economic Resources
Information & Permitting Support Division

Applicant Information

Name		Date	
Property Address			
Select one of the following:	ELEC 04	FIRE 32	

Florida Statute 553.7932 establishes a simplified permitting process for fire alarm and fire sprinkler system projects, allowing permits to be issued without plan review when criteria are met.

Select the applicable option below.

FIRE ALARM SYSTEM PROJECTS (Category: ELEC 04)

☐	Fire Alarm System Alteration (20 devices or fewer) <i>Modifies an existing system without exceeding 20 initiating and notification devices.</i>
☐	Fire Communicator Installation or Replacement <i>Installation or replacement of a communicator connected to an existing fire alarm control panel.</i>
☐	Fire Alarm Panel Replacement (Same Make & Model) <i>Replacement of an existing fire alarm control panel with an identical unit.</i>

FIRE SPRINKLER SYSTEM PROJECTS (Category: FIRE 32)

☐	Sprinkler Alteration (20 sprinklers or fewer – Same K-Factor) <i>Replacement or Addition of up to 20 sprinklers of identical type and rating, with no change to hazard classification or coverage area.</i>
☐	Equivalent Component Installation or Replacement <i>Installation or replacement of a fire sprinkler system component that meets or exceeds the original performance specifications.</i>
