The following information is provided by

EAR Task Force Member Steven Leidner

(representative of Sierra Club)

1) State mandated agricultural BMP's for Dade's impaired Biscayne Bay watershed monitored and enforced if and until RAP approved and implemented.

2) Expand no parking requirement from current 500 ft. to .25 miles for new construction multifamily dwellings proximate to transportation corridor hubs. Transform these radial zones into walkable/bike able "garden districts " maximizing tree canopy and heat mitigation. All structures LEED compliant.

3) Implement Zero Waste Master Plan with emphasis on " Pay As You Throw."

4) Free or cashless, fast and fully electrified mass transit. Bus stops/hubs mitigated for heat and comfort. Expedite traffic light synchronization County wide.
