Maps, charts, and data provided by CDC, updates daily by 8 pm ET[†]

This site provides an integrated, county view of key data for monitoring the COVID-19 pandemic in the United States. It allows for the exploration of standardized data across the country.* The footnotes describe each data source and the methods used for calculating the metrics. For the most complete and up-to-date data for any particular country or state, visit the relevant health department website. Additional data and features are forthcoming.

*County level data are not available for territories. Territory level data is available under the Cases, Deaths, and Testing tab. Data presented here for District of Columbia may differ from those presented on the Cases, Deaths, and Testing tab due to reporting differences for each tab. For CDC's most up to date data for District of Columbia, select District of Columbia in the dropdown on this tab or see the map below.
