

Information Technology Department

Departments

The ITD BRM team will be contacting department liaisons to review estimated IT Budget data and update services based on consumption growth, new projects/initiatives, and current service level per service category. During the budget process, ITD BRMs will engage the departmental OMB Budget Analysts to ensure adequate approvals take place prior to publishing a new IT Budget Estimate that aligns with departmental budget submissions for FY 2023-24.

Departments should contact their assigned Business Relationship Manager (BRM) to answer any questions. BRM assignments can be found at [Technology Intranet Site](#) or email ITD-BRM@miamidade.gov regarding cost and charges for IT services.

Important Links:

These are useful links accessible on the [Technology Intranet Site](#). FY 2023-24 Rates will be published and available at a later date. We encourage you to visit the site throughout the budget development process for updates on the important message section of the home page.

Please note: It is the responsibility of the user departments/agencies to notify ITD of any operational changes that will impact the need for IT services. This includes, but is not limited to, events such as a reduction and/or additional IT services, index code changes, or transfer of individuals or devices from one department to another. Departments will be responsible for any charges incurred should you fail to notify ITD of any such changes in a timely manner.

IT Funding Model

Funding Model Charges for enterprise IT services for FY 2023-24 are currently under development and will be provided to departments by OMB via addendum to the budget manual. Please budget charges under Account # 5261410000 (INFORMS Tech. Alloc. Costs).
