Vendor Selection Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of their bid submission, the bidder must be prequalified as a member of WASD's Group A: Trenchless Pipe Installation, as defined in S-20419, Trenchless Pool Prequalification Solicitation. Solicitation S-20419 is open and interested parties may submit proposals at any time during the Pool's effective term. However, qualification into the Pool does not occur upon submission. All prequalification submissions to the Trenchless Pool are evaluated during a recurring review cycle per the evaluation schedule as defined in S-20419. For information on S-20419, please contact Paul Adams at paul.adams@miamidade.gov . It is the contractor's sole responsibility to submit prequalification proposals and qualification packages for the Trenchless Pool early enough to be evaluated in the desired cycle and before the bid deadline. WASD is not responsible for delays and/or ineligibility caused by late submissions, incomplete submissions, or a contractor's failure to account for review cycle timing. WASD is under no obligation to modify timelines to accommodate any individual firm and/or upcoming bid deadline for this or any other solicitation. WASD will not extend bids or delay award to accommodate pending qualification reviews. Only contractors approved as a qualified member of the Pool for the Group A on or before a bid submission deadline of this solicitation are eligible to submit a bid for Contract S-20298.

Vendor Selection

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

LICENSES REQUIRED:

At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, The Bidder or the Bidder's Subcontractor shall have as a minimum the following licenses:

- 1) General Contractor, 2) Electrical Contractor, 3) Roofing Engineering Contractor, 4) Mechanical Contractor, 5) Underground Utility and Excavation Contractor
- 6) Roofing Engineering Contractor/ General Engineering Contractor, 7) Pile Foundation Contractor,
- 8) Other categories as applicable by Chapter 489 of the Florida Statutes or Chapter 10 of Miami-Dade County Code.
- 9) Other requirements for comparable projects as described in Project Documents, Special Provisions for Contract No. S-952.

EXPERIENCE:

- A. In addition to submittal requirements stated elsewhere, the successful Bidder shall submit with the bid proof that his/her firm has at least the minimum successful contract experience and qualifications as required below for this CONTRACT being bid. Such proof shall consist of a list of projects, that achieved substantial completion prior to the date of the Invitation to Bid, with the names and telephone numbers of the Owners or representatives that OWNER can contact to confirm the listed experience and the substantial completion date. To qualify for WORK on this CONTRACT, the Bidder or Bidder's Subcontractor shall be experienced in Wastewater Treatment Plant (WWTP) upgrades, and have Large Diameter Pipe, Electrical, Auger Cast Piling, Water or Wastewater Pump Station and I&C (Automation) experience.
- B. Bidder's proposed project manager shall have successfully completed a minimum of three (3) construction projects demonstrating documentation of project management experience with large wastewater treatment upgrade or pump station projects having a total construction value (for each project) greater than \$20 million. These projects shall have achieved substantial completion within the past ten (10) years from the date of the Invitation to Bid.
- C. Bidder must have successfully completed a minimum of three (3) projects that have included procurement and installation of process equipment, construction of pump stations including installation of vertical turbine pumps 500 hp or larger, HVAC equipment, electrical power systems, and installation of instrumentation and controls including connections into an existing SCADA in water or wastewater treatment plants with capacities of 10 MGD or larger. These projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience.
- D. Bidder or Bidder's Specialty Subcontractor must have successfully completed at least two (2) projects that each included the installation of at least 2,000 linear feet of Prestressed Concrete Cylinder Pipe (PCCP) or Ductile Iron Pipe (DIP) 48-inch diameter or larger that have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The experience may be demonstrated by the Bidder or a Specialty Subcontractor for their discipline work. The Bidder shall provide confirmation with documentation of the required project experience.
- E. Bidder or the Bidder's Electrical Subcontractor shall have successfully completed a minimum of three (3) projects demonstrating specialty experience procuring and installing main electrical equipment between 13.2KV and 480V; medium voltage electrical power systems, including medium voltage motors and starters; and low voltage power systems, including low voltage motors and variable frequency drives (VFD). These projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience.

	Accelerate Ordinance No. 14-77 Yes/No	ISD Project No. & Commission Districts & Project Description	Contract Amount & OMB Project No.	ISD Review SBE Goal (Small Business Enterprise) Architectural/ Engineering (A/E), Construction, Goods & Services (G/S)	Proposed Method of Award	Advertisement Date COS Begins	Industry Pre-Submittal Conference (Project Briefing)	First Tier/Step 1 Selection Second Tier/Step 2 Selection Oral Presentation	BCC Committee Meeting BCC Meeting Date	Firms Awarded, Status and Comments * Projects Under the Cone of Silence (COS)
F. The Bidder's Auger Cast Pile (ACP) Specialty Subcontractor shall have (see Specification Section 31 63 13) at least five (5) years of experience and at least five (5) successful installations of similar type, size (diameter), length and quantity to those required for support of the project structures. These installations shall have achieved substantial completion within the past five (5) years prior to the date of the Invitation to Bid. The superintendent proposed for the ACP WORK shall have at least five (5) years of experience and shall be experienced in auger cast piling operations of this class and nature. The Bidder shall provide confirmation with documentation of the required project experience. G. Bidder or Bidder's Instrumentation and Controls (I&C) Specialty Subcontractor shall have successfully completed a minimum of two (2) projects demonstrating experience with instrumentation and controls automation including connections into an existing SCADA. The experience may be demonstrated by the Bidder or a Specialty Subcontractor for their discipline work, these projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience. H. In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid. I. The Bidder's Environmental Consultant shall have successfully completed a minimum of two (2) projects that required the implementation of a Soil and Groundwater Management Plan and Dust Control Plan (SGWMP) following RER requirements. The Environmental Consultant shall indicate that he/she is familiar with WASD'S Clean Fill Policy (EPG-46). The Environmental Consultant shall be a Professional Engineer experienced in the field of geotechnical engineering and licensed in the State of Florida with current technical certifications in Miami Dade County. Bidder shall provide confirmation of Environmental Consultant name and documentation of the required project experience.

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials: <u>LICENSES REQUIRED:</u> At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor. The Prime Contractor must hold the FDOT prequalification for the Minor Bridges work class at the time of the bid response. <u>EXPERIENCE:</u> 1. In addition to the license requirements, the bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of bridges, culverts, bridge demolition, roadway lighting systems, and maintenance of vehicular traffic, supported by references for a minimum two (2) projects completed within the past ten (10) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided. 2. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public rightof-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by: a. Providing a detailed description of at least two (2) projects similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel are currently engaged or have completed within the past ten (10) years. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities. b. For each project listed, the bridge, culvert, and roadway lighting system shall have been completed and accepted by the project owner prior to the bid submittal date. The description must identify for each project: The identified personnel and their assigned role and responsibilities for the listed project; The client's name and address including a contact person and phone number for reference; Description of work; Total dollar value of the contract; Contract duration; Statement or notation of whether Bidder's referenced personnel is/was employed by the prime contractor or subcontractor; and for completed projects, provide letters of certification of final acceptance or similar project closure documentation issued by the client and available Contractor's performance evaluations. 3. The County reserves the right to request additional information and/or contact listed persons pertaining to the bidder's experience. This Project might be considered a multiple trade project. None of the primary trade related work shall be subcontracted. Only ancillary work required to complete this Project may be subcontracted with prior approval from the Department. In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

Vendor Selection

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

LICENSES REQUIRED:

General Contractor, General Engineering, Pipelines Engineering Contractor, Underground Utility / Excavation, Miami-Dade County - Marine Contractor Certificate of Competency

EXPERIENCE:

The following are additional requirements in addition to the license requirements:

- A. Within the bid, the successful Bidder shall submit proof that their firm has at least the minimum successful contract experience required below for this Contract. Such proof shall consist of a list of projects completed, as evidenced by issuance of Final Completion certification, prior to the bid due date, with the names and telephone numbers of the owners or representatives that WASD can contact to confirm the listed experience.
- B. In addition to submittal requirements stated elsewhere; to qualify for work on this Contract, the Bidder shall be experienced in the construction and/or rehabilitation of marine seawalls and the installation of steel sheet piles.
- C. The Bidder must have successfully completed, as evidenced by issuance of Final Completion certification, the construction and/or rehabilitation of a minimum of three (3) marine seawalls within the last ten (10) years.
- D. The Bidder must demonstrate that their firm has full-time personnel with the necessary experience to perform the Project's Scope of Work. The Bidder shall provide a list of no less than three (3) references who can confirm that the Bidder has successfully completed construction projects involving the construction and/or rehabilitation of marine seawalls and installation of steel sheet piles. Each reference shall include the following: contact's name, telephone number, e-mail address, and project location.
- E. In the event a firm is established by executives, supervisors, and other senior field staff (key employees) who would have met these minimum experience requirements with a prior firm, WASD reserves the right to qualify the firm based on the Department's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement if acceptable to the Engineer of Record (EOR). Should such evidence not be satisfactory to the EOR, whose decision shall be final, the bid will be considered non-responsible, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.
- F. The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrate their ability to perform the requested services while meeting project schedules and budgets.

									and Associates, Inc. 2/24/2026 Negotiations concluded with CHA Consulting, Inc. and Kimley-Horn and Associates, Inc.

Summary Minimum Experience and Qualification

1. The Prime Consultant should have engineering experience in the design, permitting and design services during construction of water and sanitary sewer systems.
2. The Prime Consultant should demonstrate their successful experience with design, permitting and engineering services during construction of various types of pipe materials including polyvinyl chloride, high density polyethylene, concrete pressure pipe, and ductile iron.
3. The Prime Consultant shall provide descriptions of at least two (2) successfully designed, constructed and operating upgraded water and gravity sewer pipeline projects in which the Prime Consultant has served as the designer. The two projects should be projects designed for WASD as either Capital Improvement Projects or donation projects. For projects, which the Prime Consultant has served as the design consultant, the Prime Consultant shall provide the name and contact information from WASD that can confirm their role. The descriptions shall include the project name and identifying contract # if applicable, key project staff, a summary of the work performed, the contract amount, the schedule (to include start and completion dates), the specific role of the prime firm, the achievements (e.g., projects delivered on schedule, dollars saved, innovative designs implemented, new technology utilized), and a client reference and contact information.
4. The Subconsultants shall provide a description of at least one (1) project that is relevant to this Scope of Work specific to their proposed responsibilities. The descriptions shall include key project staff, a summary of the work performed, the contract amount, the schedule (to include start and completion dates), and the specific role of the subconsultant firm, the project's achievements, and client reference and contact information.

		Water: #2000000072, Water Reset Program – Small Diameter Water Mains Replacement							Bids Received

Summary Minimum Experience and Qualification

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

A. License Requirements

1. At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:
 - a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified.

or

- b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Section 489.115, Florida Statutes.

Experience

1. In addition to the license requirements in Section 1.01, A above, the Bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/ horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past ten (10) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided.
 - a. Required Sewer Pipeline Experience: The Contractor shall have completed at least three (3) gravity sewer projects 8-inch or greater with a total amount installed of over 4,000 LF within the past ten years. The gravity sewer system shall have been installed, tested and placed into service by the Contractor's personnel.
 - b. Required Water Pipeline Experience: The Contractor shall have completed at least three (3) water main projects 8-inch or larger with a total amount installed over 8,000 LF. The water main distribution system shall have been installed, tested and placed into service by the Contractor's personnel to include services and hydrants.

The Contractor's foreman and key personnel shall meet the experience requirement for water and sewer pipeline installation. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided. Experience of the foreman and other key personnel shall be provided.

2. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's scope of work. This experience shall include work on successfully completed projects performed by the identified personnel whose bulk of work performed in the public right-of-way is similar in detail to the Project's scope of work described in these Solicitation Documents. Demonstrate the experience requirement by providing a detailed description of at least three (3) projects similar in detail to the Project's scope of work described in these Solicitation Documents and in which the Bidder's identified personnel is currently engaged or has completed within the past five (5) years. List and
