## Memorandum

Date: April 21, 2017

To: Honorable Chairman Esteban J. Bovo, Jr.  
And Members, Board of County Commissioners

From: Carlos A. Gimenez  
Mayor 

Subject: Implementation of Online Bidding System for Architectural and Engineering Services Procurements

---

The Internal Services Department is in the final stages of implementing an Online Bidding System for all Architectural & Engineering and Design-Build solicitations. This is the same system that was implemented for goods and services procurements in January 2014 and has proven to be an effective system for the receipt of bids and proposals. This implementation for the Architectural and Engineering module will take place in May 2017.

Online bidding allows vendors to submit proposals via the internet, and allows our purchasing staff to create proposals, advertise solicitations, and receive responses electronically in a secure and timely manner. This is an opportunity for the County to streamline what is an entirely manual and paper-based Architectural and Engineering and Design-Build procurement process.

An open and competitive Request for Proposals process was conducted for a turnkey online bidding system. The selected proposer, BidSync, offered an e-procurement tool that is well-recognized in the industry and has been successfully used by Miami-Dade County and various jurisdictions across the nation. The BidSync tool provides an automated process that allows staff to create solicitation documents using predefined templates, and to receive proposals electronically through a secure and reliable web-enabled infrastructure.

Upon implementation of this tool, Architectural and Engineering and Design-Build proposals for all competitive acquisitions will only be accepted through BidSync. A vendor outreach campaign is being conducted to ensure that all architectural and engineering firms that are registered to conduct business with the County are familiar with the tool before it is implemented. Informational sessions at different locations around the County have been arranged to share the details of this implementation with the vendor community.

If you have any questions or concerns, or would like an informational session to take place in your district, please contact Tara C. Smith, Director, Internal Services Department at 305-375-1135.
