IV. New Business

a. A&E Taskforce Update -ISD/ Strategic Procurement Division

i. Board member Swain provided an update. Board member Swain advised that she has spoken with Pablo Valin (ISD) and Namita Uppal (ISD-DPM) and they are going through the final changes to Implementing Order (I.O.) 3-39.

b. Small Business Enterprise concerns with ongoing contracts

- i. Board member Argudin presented and elaborated on the list of concerns with ongoing contracts:
 - 1. Scope and Negotiation Timely execution of contracts and work orders
 - • Process between advertisement and issuance of the work order can take over 15 months on project specific contracts once work starts, it will be at least another month before work can be invoiced and another month, after for the first payment to be received. This causes a burden on small firms who depend on local work.
 - 2. Multiplier or other methods of compensation
 - • Chairperson Crespi stated that the multiplier of 2.8 is average for a small firm and anything less is a losing proposition. Board

member Swain advised that the multiplier doesn't include other overhead cost like supplies and benefits. Board member Swain mentioned the legislation in relation to the Living wage paid sick and parental leave. Board member Swain would like to provide these benefits to her employees but with these multipliers they are barely breaking even and there is no room for negotiation; a multiplier of 3.1 will allow firms to give these benefits.

Kenneth Robertson (JHS) mentioned that as the previous procurement Director for FDOT, if the overhead is audited the multiplier is pre-approved by the Tallahassee office. After pre-approval, when you start negotiating the contract your multipliers are set and what is left is negotiating profit. Board member Argudin advised that when her firm goes to FDOT they as ask for the W-2 pay rate and once the firm takes those pay rate, during negotiation with the County the pay rate is further reduced. Robertson advised he uses a variety of tool to achieve the best pay rate like DMS calculator to identify what is an appropriate EE fee, use actual pay rates with multipliers. Some on the difficulties they do run into is when they try to use EP contracts usually EE firms that are experienced don't want to take the jobs because the principal is capped at 165 when Jackson Health System's EP is capped at 200.

Chairperson Crespi mentions there is no negotiation with the County and these are long term contracts. Chairperson Crespi requested Mr. Robertson to describe a task sheet breakdown of a project. Mr. Robertson strategy is as follows:

- 1. Evaluate overall construction
- 2. Evaluate goods and services
- 3. Get the number from DMS based on complexity
- 4. Identify the supplemental services
- 5. Level of effort
 Robertson rarely uses classification rates.

3. Prompt payments

- Receiving prompt payments is improving.
- 4. Contract(s) language
 - There are inconsistencies between departments and some of the terms are obsolete.
- 5. Board Member Swain discussed that the SBE goals (underutilization) and SBE monitoring at 50% CD is too late for Architectural and

Engineering contracts, especially site investigation services. It was suggested to be at least at 25 % or less. Lily Vilaboy (SBD) Mentioned that firms can request this information when needed and they have access to it via BMWS.

Ms. Auguste (SBD Section Chief) advised the Board to discuss who they would like to invite to the next board meeting and what questions they want to ask so the representative can come prepared.

- c. Request for future agenda items
 - i. None
- V. Reasonable opportunity for the public to be heard before County boards (Sec. 2-11.39.3)
 - a. Mike Ramos (Water & Sewer) presented a non-agenda item report on their behalf.
 - **b.** Mr. Ramos provided an update on ongoing projects in relation to water and sewer.
- **VI. Adjournment –** Chairperson Crespi motioned to adjourn the meeting. It was seconded by Board Member Swain. Meeting was adjourned at 11:49a.m
