RECOMMENDATION

Areas for Possible Measures: MOT Devices; Concrete; Fence; Landscaping; Pavement Markings and Signage

Areas Recommended for SBE-construction Participation: MOT Devices; Concrete; Landscaping; Pavement Markings and Signage

Contract Measure Recommendation:

- No Measure
- Set-Aside:
 - Level I Level II Level III
- Trade Set-Aside(s)
- Aggregate Set-Aside
- SBE-CONST Goal: 35% Pavement Marking & Signage
- SBE-GS Goal
- CWP: As Applicable.
- DBE Subcontractor Goal

Reason for Recommendation:

This is a multiple trade project; none of the primary trade related work can be subcontracted as per the Miscellaneous Construction Contract (MCC) specifications. Ancillary work includes all categories listed under "Areas for possible measures." All areas to be subcontracted require special licenses and/or certifications. Also, some categories of work are highly specialized and require special, heavy machinery and/or equipment.

Based on the review of the scope of work for the subject RPQ and the analysis of factors contained in Section VI D of Implementing Order 3-22, the Department recommends a 35.01% subcontractor goal.
