Department: Miami-Dade Water and Sewer Department

Contract Title: Two-Year Countywide Contract for Rehabilitation of Sanitary Sewers by the Cured-In-Place Pipe Lining Method for Well Protection Areas

Contract No.: S-962

Estimate Amount: \$7,763,426.00 [\$7,057,660 Construction + \$705,766 Contingency]

Funding Source: EW 670, WASD Revenue Bonds Sold

Small Business Enterprise – Construction: “No Measure” (No availability) Analysis for Recommendation (SEE NEXT PAGE)

Department Head or Authorized Agent

DESCRIPTION OF PROJECT:

The project consists of furnishing all labor, materials and equipment necessary for rehabilitating defects in 8 through 36-inch diameter gravity sanitary sewer pipes and 6-inch diameter service laterals by the cured-in-place pipe lining method under different work orders at different locations anywhere within the limits of Miami-Dade County, Florida, as ordered by WASD during a two year period. It is the intention of the Department to establish a "blanket" type contract with one (1) successful bidder, for a two-year period, to clean and line gravity sanitary sewer pipelines.

This work includes supplementary cleaning of the affected existing gravity sanitary sewers, isolating the reach of sewer to be repaired, inspecting it with closed circuit television (CCTV), then installing a cured-in-place pipe liner and reinspecting the repaired reach with CCTV. Repairs in industrial areas will utilize an epoxy vinyl ester resin system and repairs in non-industrial areas a polyester resin system or an epoxy vinyl ester resin system. The work in the sewer shall be accomplished through the manholes, without disturbing the street surface or adjacent property or any utility, except when performing excavated point repairs of sewers.

The unit prices bid will be used for uniform comparison amongst the bidders, and the bids will be evaluated based upon the lowest total amount bid in the Proposal. The Contract will be awarded for an aggregate amount of up to eight million dollars (\$8,000,000) for a 24-month period. The Contract will terminate upon the depletion of the eight million dollars (\$8,000,000), or the expiration of the 24-month period, whichever occurs first.

The County Mayor or County Mayor’s designee has the option to renew the contract for up to an additional two years, on a yearly basis, with the same unit prices used in the original contract, with an additional total amount of \$8,00,000. Each renewal option will be for a one year period, and \$4,000,000.

QUALIFICATIONS OF BIDDERS:

Bidder shall have a minimum of five (5) years experience performing pipeline installations and/or pipeline rehabilitation by the cured-in-place pipe lining method.

In the event a new firm is established by executives, supervisors and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, the Miami-Dade Water and Sewer Department (WASD) reserves the right to qualify the new firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm.

Bidders must demonstrate that the firm or its key employees, as described above, have experience performing pipeline repairs by means of the Cured-In-Place Pipe lining method within the company's noted history.

Each bidder must submit proof that his/her firm has been regularly and successfully engaged in the installation of the liner product for a minimum of one (1) year, and has successfully performed an aggregate amount of at least 100,000 linear feet of sanitary sewer repairs of 8 through 36 inches in diameter in sub-aqueous conditions. Further, bidders must submit proof that the liner system submitted must have a documented minimum amount of 500,000 linear feet of any pipe diameter of successful wastewater installation in the United States, for the bid to be acceptable.

These requirements shall be based on projects completed prior to the bid submission date. WASD will confirm the listed experience by calling the owners or representatives.

The Contractor must certify that he has a minimum of two (2) installation crews and equipment in order to complete the work in a timely fashion.

The Types of Licenses required are: State of Florida General Contractor, State of Florida Underground Utility/ Excavation Contractor, Miami-Dade County General Contractor, Miami-Dade County General Engineering Contractor, and Miami-Dade County Pipeline Contractor.

COMMUNITY WORKFORCE PROGRAM

CWP PARTICIPATION: CWP is Not Applicable to this Project, as each Work Order will be completed in less than 30 days.

Department Head or Authorized Agent

DESCRIPTION OF PROJECT:

The project consists of furnishing all labor, materials and equipment necessary for rehabilitating defects in 8 through 36-inch diameter gravity sanitary sewer pipes and 6-inch diameter service laterals by the cured-in-place pipe lining method under different work orders at different locations anywhere within the limits of Miami-Dade County, Florida, as ordered by WASD during a two year period. It is the intention of the Department to establish a "blanket" type contract with one (1) successful bidder, for a two-year period, to clean and line gravity sanitary sewer pipelines.

CONSIDERATIONS FOR ANALYSIS:

1. The project predominantly involves trenchless sewer pipe rehabilitation by the cured-in-place pipe lining method.
2. The work in the sewer shall be accomplished through the manholes, without disturbing the street surface or adjacent property or any utility, except when performing excavated point repairs of sewers.
3. The Department has evaluated the project for possible opportunities for participation in the area of SBE – Goods and Services. However, there are no availability for the specialized work to be performed.
