3.4 Description of services to be provided

The awarded bidder shall provide furnished (i.e. including all equipment, hardware, etc. as shown in the drawings) and fully functional kiosks for use in the SMDCAC. The kiosks will be utilized by SMDCAC staff or vendors to sell, store and expedite concessions and by the general public to peruse and purchase concessions either before, after or during performances at the SMDCAC.

The kiosks shall be professionally executed with attention to quality and detail so that they fit into the design of the new SMDCAC and shall be constructed to withstand repeated use and interaction with the general public. The awarded bidder shall fully coordinate the fabrication of each individual kiosk with all specified equipment, supports, hardware, etc. and coordinate the power and ventilation requirements of all components and prepare the kiosks in such a way that they are all furnished and fully functional upon delivery.

SECTION 4
BID SUBMITTAL FORM

The ground floor kiosk and upper floor kiosks shall accommodate point of sale machines and other necessary provisions to allow for financial transactions to take place. The portable counter kiosks shall be constructed as standalone units (i.e. not "manned") to allow an area for patrons to prepare their beverages and/or snacks with goods which are stored on and/or inside the kiosk and to allow for garbage to be collected (in a concealed and clean manner) below the surface. These portable kiosks shall have a removable cover which matches the finish surface of the countertop so that the opening for the garbage receptacle can be concealed and create a clean and solid countertop surface.

The kiosks shall have casters and shall be mobile so that they can be used in multiple locations throughout the 2 building complex of the center. They must be able to plug into floor mounted or wall mounted power and data receptacles. The kiosks shall contain a wire management system; or be fabricated in such a way that all cabling is concealed, neat and does not interfere with the function of the kiosks.

With the exception of the ground floor kiosk (the largest); all other kiosks must be able to fit inside the lobby's elevator. The kiosks shall have the same high quality finish as the main elevator cladding inside the lobby of the SMDCAC.

It is required that the awarded bidder visit the SMDCAC to gain a full understanding of the expected look for the finish of the kiosks and also to fully understand the spatial relationships and any constraints of the existing site. It is envisioned that these kiosks will be set up before performances in specific areas throughout the SMDCAC and this could be inside the buildings or even outside in the promenade depending on the events being held.
