Emergency Project Title:	Emergency Hauling of Biosolids
Description of Emergency:	The immediate need is to have the Class "B" material transported from the Central and South District Wastewater Treatment Plants and delivered to a legally permitted facility. Failure to remove biosolids impacts our solids treatment which will result in permit exceedances.
Explanation for the Declaration of Emergency Purchase:	Regulatory rule changes with Florida Department of Environmental Protection (FDEP) have reduced the land application capacities for Class "B" biosolids in the State. The current vendors on contract do not have the land capacity to take all the Class "B" biosolids produced from our Wastewater Treatment Plants. Class "B" biosolids are stock piling in the two facilities with no additional outlet to transport the material for land application or further treatment. Additionally stockpiling biosolids during hurricane season poses a potential environmental risk. This emergency declaration will add additional haulers with capacity to meet our biosolids processing needs.
