Additionally, pursuant to County Resolution No. [R-62-22](#), the Review Team shall be provided with all reports and findings (collectively "Reports") of the Miami-Dade Office of the Inspector General ("OIG") and/or the Miami-Dade County Commission on Ethics and Public Trust ("COE") regarding any Proposer and their proposed subcontractor(s) under deliberation by the Review Team to be considered in accordance with the evaluation of each applicable criteria identified in the Solicitation. If the Review Team determines that Reports would change the rankings of the Proposer(s) identified in the Reports, then the Review Team shall re-score the Proposer(s) identified in the Report solely based on the impact the information identified in the Report would have on the scoring of the Proposer(s) in accordance with the applicable criteria identified in the Solicitation, re-rank the Proposers, and submit a written justification for the revised rankings to the County Mayor or County Mayor's designee. In any event the County engages in negotiations with a Proposer and/or requests a better offer, the discussions may include price and conditions attendant to price.

- e) Internet transactions must be routed through Miami-Dade County's Internal Payment Gateway (Payment Card and eCheck). Exceptions to using Miami-Dade County's Internal Payment Gateway shall require written justification by Contractor, including a cost/benefit analysis, and require written approval by both the Finance Department Director and Chief Information Officer.
- f) Proposed systems that fall outside of the requirements stated in this document shall be reviewed by the Enterprise Security Office and subjected to a risk assessment to ensure the system offers sufficient protection of cardholder data. Exceptions shall require written justification by the proposed system's provider, the ESO's risk analysis, and require written approval by both the Finance Department Director and Chief Information Officer.

Transactions processed through the Miami-Dade County Internal Payment Gateway are prohibited from accepting/processing PIN numbers for security reasons. Debit card transactions must be processed as credit card transactions. Miami-Dade County provides three (3) basic services that allow Contractor applications to interact with its Payment Gateways:

1. Web-based Credit Card Transaction Service
2. Web-based Automated Clearing House (ACH) (e-Check) Transaction Service.
3. Recurring Payment Service (for monthly or yearly recurring payments). This service will allow merchants to develop recurring credit card payments on behalf of their payers. This is a SOAP Web Service, and Miami-Dade County will provide the service Web Service Definition Language (WSDL) and the necessary documentation. The Recurring Payment Service is PCI-compliant, and all the sensitive credit card data is stored offsite in the County's clearinghouse.

There are two different ways that a merchant customer can handle the Credit Card or ACH (e-Check) transaction processing:

Option #1:

Contractor's application interfaces directly with Miami-Dade County's Payment Gateway via a RESTful web-service. Miami-Dade County will provide the XML schemas to all basic services: web payment processing, void, refund and recurring payments. Miami-Dade County will also provide all the necessary URLs for these services, as well as documentation detailing fields and response codes. All services will respond with the same XML receipt.

This solution will require the client application to fully interact with Miami-Dade County's Payment Gateway, reacting to processing and system errors. Even though this solution requires more development and integration from a vendor, it will offer the greatest flexibility and customization. This option also requires for the vendor application to be hosted on a server inside Metronet, since Miami-Dade County's Payment Gateway is not accessible from the Internet. If the application is outside the Metronet, Miami-Dade County can develop a Payment Module Application (option #2) that will service the vendor's application.

Option #2:

Contractor's application will utilize a Payment Module Web Application developed and maintained by Miami-Dade County. This solution can be a standard web application, a mobile web application, or both. A link will be provided on the vendor application that sends payers to the Payment Module Application. For example, once the payer has selected the items to purchase (from the vendor's application), there would be a "Pay Now" button that will redirect the payer to the Miami-Dade County Payment Module via HTTPs post, carrying all the necessary data to begin the payment process (User ID, Amount, etc.). This requires only minor development effort on the vendor side. The vendor will agree on custom fields to be passed to the Miami-Dade County Payment Module via HTTP protocol over TLS 1.2 or higher (only secure connections are accepted; Secure Sockets Layer protocol is not accepted). In turn, the Miami-Dade County Payment Module will collect the payment information and process the transaction via the Miami-Dade County Internal Payment Gateway. Results will be posted back (post back URL is provided by the client application) to the vendor application. This solution will not require the client application to be hosted in Metronet. The Miami-Dade County Payment Module handles all processing and system errors, simplifying the integration effort on the vendor side.

ARTICLE 48. POURING RIGHTS

The County reserves the right, at its sole and absolute discretion, to enter into future agreements with other Suppliers/Vendors to provide such Suppliers/Vendors the exclusive right to supply the County with Beverages or enter into agreements that provide that certain branded Beverages shall be the only Beverages that will be sold, dispensed, or served at County facilities. Such agreements may take the form of Pouring Rights agreements, sponsorship agreements, marketing partnership agreements or other exclusive rights agreements. The Contractor agrees and acknowledges that because of such future agreements the Contractor may be required to supply only Beverages of a certain brand to the County. Additionally, the Contractor agrees and acknowledges that such agreements may cause the County to terminate this agreement with the Contractor.

ARTICLE 49. SURVIVAL

The Parties acknowledge that any of the obligations in this Agreement will survive the term, termination, and cancellation hereof. Accordingly, the respective obligations of the Contractor and the County under this Agreement, which by nature would continue beyond the termination, cancellation, or expiration thereof, shall survive termination, cancellation or expiration hereof.
