## **2.1 PURPOSE**

The purpose of this solicitation is to establish a contract for the inspection, cleaning, repair, and tracking of turnout gear for Miami-Dade County.

## **2.2 TERM OF CONTRACT**

This contract shall commence on the first calendar day of the month succeeding approval of the contract by the Board of County Commissioners, or designee, unless otherwise stipulated in the Notice of Award Letter which is distributed by the County's Procurement Management Division, and contingent upon the completion and submittal of all required bid documents. The contract shall remain in effect for sixty (60) months and upon completion of the expressed and/or implied warranty periods.

## **2.3 METHOD OF AWARD**

Award will be made to the lowest priced, responsive, responsible bidder who submit an offer on all items identified in the pricing pages, and whose offer represents the lowest price when all items are added in the aggregate. In situations where a bidder wishes to provide the item or service at no cost to the County, enter zero (0) on the appropriate pricing line; do not leave the line blank.

### **Minimum Qualifications for Award.**

- A. Bidder(s) must be an established repair facility for advanced cleaning, inspection, repair, decontamination and tracking of structural firefighting protective ensembles in compliance with National Fire Protection Association (NFPA) Standard 1851. Bidder shall provide a copy of a letter or certificate issued by an independent third party such as; Intertek, Underwriters Laboratories, etc., documenting the local facility is in compliance.
- B. Bidder(s) must be authorized by the County's turnout gear manufacturers (Lion Group, Inc. and Global Manufacturing Co.) to repair, clean and inspect the garment. Bidder(s) shall submit a letter or certificate from the manufacturers documenting stated compliance with requirements. If the County purchases turnout gear manufactured by other than those companies, the successful bidder shall obtain certification for the cleaning and repair of the 'new' manufacturer's gear within thirty days of being notified by the County.
- C. Bidder shall provide a list of no less than three client references who can confirm that the bidder has successfully inspected, cleaned, repaired and serviced turnout gear within the past twelve months. The following information shall be provided: name, telephone number and/or e-mail address, and point of contact.

Bidder shall provide the specified information and documents with their submittal forms and affidavits as proof of compliance with the minimum award requirements. However, the County may, at its sole discretion and in its best interest, allow bidders to complete, supplement or supply the required documents during bid evaluation.

## 2.4 PRICES

The contract prices resultant from this solicitation shall prevail for a one (1) year period from the contract's initial effective date. It is the bidder's responsibility to request any price adjustment 90 days prior to the then current 12-month term. The adjustment request should not be in excess of the relevant pricing index change. The County may consider an adjustment to price upward or downward based on changes in the following pricing index: Consumer Price Index (CPI), all urban consumers, workers in Miami Dade/Ft. Lauderdale Area for other goods and services.

The County reserves the right to negotiate lower pricing based on market research information or other factors that influence price. The County reserves the right to apply any deduction in pricing based on the downward movement of the applicable index.

## 2.5 LOSS OR DESTRUCTION OF COUNTY PROPERTY

Loss or destruction of County property by the Successful Bidder will result in the bidder being charged the remaining value of the equipment as a percentage of the current replacement cost.

**Example:** Gear is lost in the 7<sup>th</sup> year of the 10 year life cycle and the replacement cost is \$2,000. The bidder will be responsible for 30% of the replacement cost or \$600.

### **FORMULA:**

$$\frac{\text{a. \# of years used}}{\text{b. total life cycle years}} = \frac{\text{c. X percentage to be covered by County}}{\text{d. 100}}$$

### **EXAMPLE:**

$$\frac{\text{a. 7 years used}}{\text{b. 10 year life cycle}} = \frac{\text{c. X}}{\text{d. 100}}$$

### **CALCULATION:**

**Step 1:** (a) 7 (# years used) x (d) 100 = 700

**Step 2:** 700 ÷ (b) 10 (total life cycle years) = 70%

This is the percentage covered by the County

**Step 3:** 70% x \$2,000 (cost of the gear) = \$1,400

This is the cost covered by the County to replace the gear

**Step 4:** \$2,000 – \$1,400 = \$600

This is the cost covered by the bidder to replace the gear

For these computations turnout gear has a maximum ten (10) year life cycle.

The bidder shall notify the County of such loss within twenty-four (24) hours of pickup. The bidder will be responsible for returning all remaining portions of the turnout gear to the County for proper disposal as required by NFPA. The County shall have the right to deduct the said

charges from any outstanding amount due, or that may become due to the bidder under this agreement, or to invoice the bidder for such damages if the costs incurred exceed the amount due to the bidder.

## **2.6 PICK-UP/DELIVERY REQUIREMENTS**

The bidder's facility will be open Monday through Friday, from 7:00 a.m. to 5:00 p.m.

Bidders will pick up three (3) days per week approximately 5-8 sets of gear from 3-5 stations per day, per annual schedule. The County will provide a detailed schedule to the bidder indicating which stations they will pick up from on each day. The days for pick-up will be Tuesday, Wednesday, and Thursday. The days for delivery will be Wednesday, Thursday and Friday. The bidder will be responsible for printing a copy of the pick-up list that will include the date, employee name, station location and the scheduled delivery for each fire station serviced during the week. The pick-up list shall be provided to the fire station personnel at each location.

Delivery time for all gear being serviced (cleaning, repairs, inspections, etc.) should be no more than two (2) business days, and three (3) business days for the handling of contaminated gear. All exceptions must be requested to the appropriate County representative.

Occasionally the normal scheduled pick-up by the bidder may be missed by employees who are away from the station; when this situation occurs, the employee will be allowed to drop-off the gear for cleaning/repair. The employee will provide a copy of the gear cleaning authorization voucher to the bidder for proof of notice to proceed. During the normal scheduled notifications, "dropped-off" gear shall be included and differentiated from the routine pickups. A copy of the gear cleaning authorization voucher must be included with the invoice showing prior County approval for any charges associated with the service provided. The bidder is not allowed to make alterations or add patches to the garments unless prior approval has been given by the County.

All delivery timeframes shall be adhered to by the bidder(s); except in such cases where the delivery will be delayed due to acts of nature, strikes, or other causes beyond the control of the bidder. In these cases, the bidder shall notify the County of the delays in advance of the original delivery date so that a revised delivery schedule can be appropriately considered by the County.

Should the bidder(s) to whom the contract(s) is awarded fail to deliver in the time stated above, the County reserves the right to cancel the contract on a default basis.

County employees may be authorized in writing to pick-up items under this contract. The bidder shall require written authorization and county identification prior to releasing any items. The bidder shall maintain a copy of the authorization on file as proof to release items. If the bidder is in doubt about any aspect of the material pick-up, the bidder shall contact the appropriate user department to confirm the authorization.

## **2.8 WARRANTY REQUIREMENTS**

The bidder shall fully warrant all repairs and cleaning furnished hereunder against defect in materials and/or workmanship for a period of ninety (90) days from date of delivery and acceptance by the County. Should any defect in materials or workmanship, excepting ordinary wear and tear, appear during the warranty period, the bidder shall make the repair or replacement at no cost to Miami-Dade County, immediately upon written notice.

## **2.9 DEFICIENCIES IN WORK**

The bidder shall promptly correct all apparent and latent deficiencies and/or defects in work, and/or any work that fails to conform to the contract standards. All corrections shall be made within two business days after such rejected defects, deficiencies, and/or non-conformances are reported to the bidder by the County. The bidder shall bear all costs of correcting such rejected work including the retrieval of such items from the identified station location. If the bidder fails to correct the work within the period specified, the County may at its discretion, notify the bidder in writing that the bidder is subject to contractual default provisions if the corrections are not completed to the satisfaction of the County within two days of receipt of the notice. If the bidder fails to correct the work within the period specified in the notice, the County shall place the bidder in default, obtain the services of another bidder to correct the deficiencies and charge the incumbent bidder for these costs; either through a deduction from the final payment owed to the bidder or through invoicing. If the bidder fails to honor the invoice or credit memo, the County may terminate the contract for default.

## **2.10 BIDDER EMPLOYEES ACCESS TO STATIONS**

The County will provide photo ID's to the awarded bidder(s) drivers to have access to stations and other County locations for pickup. All County photo ID's must be left at the awarded bidder(s) office at the end of each work day. Access to the stations via photo ID will be from Monday thru Friday from 7:00 am to 5:00 pm. In the event of changes to the assigned driver(s), the bidder(s) must return the ID to the County and the replacement driver will be issued a new photo ID. The successful Bidder will be charged five dollars (\$5.00) for the re-issue of lost or stolen ID's. Payment shall be made to: Miami-Dade Fire Rescue Department, Logistics Div., Attn. Star Rodriguez, 6000 SW 87 Ave. Miami, Fl. 33173.checks

## **2.11 CRIMINAL HISTORY BACKGROUND CHECKS**

The awarded bidder will be responsible for performing criminal history background checks for each of their employees that will be gaining access to County facilities. Bidder(s) will certify this information by submitting documentation from the agency conducting background checks to the County. The County retains the right to ban any successful bidder's employee from entering County sites.

## **2.12 PURCHASE OF OTHER SERVICES**

While the County has listed all major services within this solicitation of which are utilized by the County in conjunction with its operations, there may be similar services and items that may be purchased by the County during the term of this contract. Under these circumstances, a County representative will contact the awarded bidder to obtain a price quote for the similar services/items. The County reserves the right to award these similar services/items to the successful bidder, another contract bidder or to acquire the services through a separate solicitation.

### **3.1 SCOPE OF WORK**

Advanced inspection, cleaning, repair, decontamination, barcode tracking database, and on-line reporting services of turnout gear for Miami Dade Fire Rescue Department (MDFR) in compliance with NFPA 1851-2014, or latest edition. Turnout gear includes coat, coat liner, trouser, trouser liner, helmet, hood, gloves and boots.

### **3.2 SPECIFICATIONS**

Bidder's cleaning process must be compliant with the current edition of the NFPA 1851 standard and cleaning specifications and manufacturer's guidelines. The bidder must provide all the chemicals and supplies necessary for the cleaning, repair, inspection, and certification of Global and Lion outer shells, moisture barriers, and thermal liners as to not void the fabric's fire retardant capability. The bidder's facility will also be equipped with the necessary equipment for the cleaning, inspection, and repairing of the gear. The bidder shall be responsible for the separation of the garments (liners from shells) and cleaned according to manufacturer's washing instructions, drying, inspecting, hydro-static testing, and repairs (if necessary) and then re-assembling with its corresponding unit (shell with liner). The barcode on the shell should match the barcode on liner to prevent mismatched garments.

Bidder must be able to process a minimum of 2,500 sets of gear, annually. Gear will be scanned into on-line database using a barcode scanner system. Specialized cleaning may be needed to decontaminate gear exposed to blood borne pathogens, chemicals, and other substances. Bidder's trained staff will notify the Inventory and Supply Bureau supervisory staff when badly damaged gear should be condemned and replaced. This will require the approval of Miami Dade Fire Rescue Department. Garments will be separated, liners from shells, and cleaned according to the manufacturer's washing instructions with approved

Bidders shall not repair or clean gear that has reached the ten (10) year life cycle based on manufacture date established by the County. This gear shall be returned to the County for proper disposal. The County will not pay any charges/fees for gear mistakenly processed in error by the bidder.

#### **A) Advanced Cleaning/Inspections**

Advanced cleaning is a thorough cleaning of gear and gear elements accomplished by washing machine. This gear will be placed in a black bag provided by the bidder.

#### **B) Biohazard Decontamination Cleaning**

Biohazard decontamination cleaning is specialized cleaning that may be needed when gear is exposed to blood borne pathogens, body fluids, hazardous chemicals (including fuel, gasoline, paint and other substances), smoke and by-products of fire. Gear that has been exposed to hazardous materials or is extremely contaminated that cannot be cleaned by the bidder will be placed in red bags provided by the bidder and will not be cleaned. This gear needs to be returned to the County for proper disposal in accordance with Federal, State, and Local regulations.

#### **C) Heavy Soil Cleaning**

Heavily soiled cleaning involves cleaning materials that are imbedded in gear such as tar, oils, grease, grime, black soot, resins, sewer discharge, etc. This gear will be placed in a black bag provided by the bidder.

#### **D) Advanced Inspection**

Advanced inspection includes complete linear inspection that is to be conducted by trained personnel once a year or whenever routine cleaning occurs.

## **E) Repair**

All repairs must be made in accordance with manufacturer's guidelines meeting the latest edition of the NFPA 1851 Standard. Bidder's staff should be trained to repair all components of the ensembles such as shells, liners and moisture barriers. Repairs may include burns, rips, tears, holes, Velcro, zippers, reflective material, leather reinforcement, alterations, hardware such as snaps etc. and any custom work needed.

Bidder must use NFPA compliant repair materials from the original garment manufacturer and all thread must be 100% Nomex® meeting "Major A Seam" requirements.

- 1) Bidders shall notify the County in writing when badly damaged gear is not economical to repair. This gear will be placed in a white bag provided by bidder with a label showing the information shown below stating that the gear cannot be used in fire service and the reason why.
- 2) Gear that is suitable for fire service will be placed in a black bag provided by bidder with a label showing the following information:

Date of Inspection, Cleaning and Repair  
Type of Gear (Turnout Coat Shell/Liner, Turnout Pants Shell/Liner)  
Manufacturer of the gear  
Manufacturer's barcode / serial number  
Date of Manufacture  
Size of gear  
Firefighter Name:  
Firefighter ID Number:  
Station/Location:  
Disposition: BER (Beyond Economic Repair)  
Exceeds MDFR 10-year limit  
Certified for fire service

### **3.3 CONTAINERS/BAGS/LABELS**

The bidder shall be responsible for providing two (2) hard plastic storage containers with lids per station that are at a minimum 24" x 24" x 48" in size to accommodate multiple sets of turn-out gear. The containers are to be delivered to the stations on Mondays, prior to 5:00 pm, and are picked up on Thursday when bidder picks up the last set of bunker gear for that station.

The bidder will also be responsible for providing disposable bags at each station that may require service during any given time on the pick-up schedule. The disposable bags should be 20x4x30, 0.8 mil high density polyethylene PE merchandise bags in white, red and black. The "RED" bags are for bio-hazardous contaminated gear; "BLACK" bags are for gear that requires inspection, cleaning and repair and the "WHITE" bags are for gear that has failed inspection or is marked for training. Plastic bags shall not be reused. The colored bags must be provided for each set of turn-out gear picked-up from the stations for processing as well as for delivery from the bidder.

Additionally, the bidder shall be responsible for providing self-adhesive labels that will be left at each station that may require service during any given time. The labels will be blank with a minimum size of 3"x5" that will be used by the firefighter stating fire fighters name, station number and shift when the gear is identified for servicing.

### **3.4 BIDDER CERTIFICATIONS**

Bidder's staff must be certified by the equipment manufacturer, and trained to repair all components of the ensemble such as shells, liners, moisture barriers, etc. Repairs include but are not limited to bums, rips, Velcro, zippers, OEM reflective material, leather reinforcement, alterations, hardware such as snaps, etc. Cleaning shall be done using manufacturer approved detergents for use with all outer shell, moisture barrier, and thermal liner materials so as to not void the fabric's retardant capability.

Bidder will provide all materials needed for repairs including but not limited to thread, Velcro, shell, liner, moisture barrier, hardware, etc. The exception will be the complete replacement of the moisture barrier when the barrier is deemed outside of warranty.

### **3.5 ALTERATION SERVICES**

Bidder shall be solely responsible for the fittings of existing stock coats and trousers and necessary alterations of trousers and coats for a proper fit. Alterations will allow for re-sizing of coats and trousers to accommodate more common sizes.

### **3.6 MANAGEING INVENTORY**

The bidder will provide a facility, located within Miami Dade County, capable of storing and maintaining all MDFR protective garments currently stored at MDFR Logistics store, including but not limited to turnout gear, boots, helmets, gloves, and hoods. The successful bidder shall retrieve all spare gear at a mutually agreed upon time/date for its inventory and storage. Successful bidder shall insure that all equipment is issued in such a way that all gear is issued and used prior to the end of its approved useful life (ten years).

### **3.7 RECORD KEEPING AND REPORTING**

The County currently has approximately two-thousand (2,000) sets of turnout gear in the field which are barcoded by the manufacturer and showing the month and year of manufacture.

The successful bidder shall establish a web based record keeping system. This system shall have the ability to record the following data fields for each piece of gear the bidder has stored for MDFR and cleaned:

- 1) Firefighter's name (Last, First, Middle Initial)
- 2) Firefighter's Employee ID
- 3) Firefighter's station (current work location) and shift
- 4) Date and condition when issued (MDFR will provide report weekly)
- 5) Type of gear
- 6) Size of gear
- 7) Manufacturer and Model name
- 8) Manufacturer's identification number or serial number
- 9) Month and year of Manufacture
- 10) Date of advanced inspection, cleaning, testing and repair
- 11) Results of testing
- 12) Detailed description of all repairs
- 13) Findings at time of advanced inspection
- 14) Date of gear retirement (out of service)

The bidder shall record the information shown in 1 through 14 above in a format that MDRF can manipulate and generate reports from, access will be via the internet. The inventory system shall allow MDRF to generate ad-hock reports sorted by any one of the fourteen fields. This access should be secure and should only be used and accessible by authorized County personnel. Reports shall be available at no cost to the County. The online reporting should include the garments processed during each scheduled pick-up and the name of the employee the gear is assigned to, as well as garments that are no longer suitable for service. In addition to the information listed above, the bidder shall provide an email notification on the amount of sets picked up from each location and provide the names of the personnel for that gear for accountability purposes. At the completion of the contract, accumulated data shall be provided to MDRF in a media capable of being accessed by the department. Within one week of the contract's completion stored gear shall be either returned to the MDRF Logistics Section or to the new vendor as directed by the County. Lost gear shall be reimbursed as per Section 2, Paragraph 2.5.

### **3.8 EMERGENCY**

The bidder shall be expected to provide a twenty-four (24) hour contact person in the event emergency services are needed after normal business hours. The bidder will be expected to open their facilities within a maximum four (4) hour response time to repair, wash and decontaminate gear. The bidder will provide an on-scene emergency service as required, when required by MDRF. Bidder will be required to report to the emergency's location within two (2) hours of receiving notification from MDRF. Bidder will be expected to provide replacement gear to personnel on scene as needed.

Reference	Bidder Requirements	Requirements Included with Bid
Section 2, Paragraph 2.3A	Bidder shall submit with its bid proposal form a copy of letter or certificate documenting the stated requirement by an independent third party including Intertek, Underwriters Laboratories, etc.	ISP Certification submitted: _____
Section 2, Paragraph 2.3B	Attach certificate/letter that your firm is authorized by Globe Manufacturing Company and Lion Manufacturing.	Globe _____ Lion _____
Section 2, Paragraph 2.3C	Attach three (3) letters of reference.	Letters submitted: Yes _____ No _____
