ITEM DESCRIPTION/SCOPE:

Content Management System (CMS) and Digital Experience Platform (DXP) - allowing organizations to manage content across all digital channels and create digital experiences. It provides a rich set of APIs (Content Management, Content Delivery, Image Delivery, and GraphQL Content Delivery) to manage and deliver content, as well as Content Delivery SDKs for various platforms that help you build powerful applications. Contentstack pioneered the headless CMS category and effortlessly handles large-scale, complex, and mission-critical deployments, while supporting real-world enterprise business processes and team collaboration.
