(D)*Certification.* The WHOLESALER hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance.

- 26. Contingency Fees Prohibited.** Pursuant to Minnesota Statutes § 10A.06, no person may act as or employ a lobbyist for compensation that is dependent upon the result or outcome of any legislation or administrative action.
- 27. Risk of Loss, Damage, and Shipping Terms.** Shipments under this Contract shall be FOB Destination, freight prepaid and allowed, to the MMCAP Member's receiving dock or pharmacy, unless otherwise agreed to by the parties in writing. Title to and risk of loss of the products transfers to the MMCAP Member upon delivery to the MMCAP Member, as set forth above.
- 28. Force Majeure.** Neither party hereto will be considered in default in the performance of its obligations hereunder to the extent that performance of any such obligations is prevented or delayed by acts of God, war, riot or other catastrophes beyond the reasonable control of the party. Force majeure will not apply to the extent that the act or occurrence could have been reasonably foreseen and reasonable action could have been taken to prevent the delay or failure to perform. A party claiming excuse of performance under this provision must provide the other party prompt written notice of the failure to perform, take commercially reasonable efforts to mitigate the damages caused to all parties, and take all necessary steps to bring about performance as soon as practicable.
- 29. Default.**
- 29.1 General.** In the event of default, MMCAP and the MMCAP Member reserve the right to pursue any other remedy available by law. WHOLESALER may be removed from the WHOLESALER's list, suspended or debarred from receiving a Contract for failure to comply with terms and conditions of this Contract.
- 29.2 Failure to Perform.** Upon failure to perform the following services in the time and manner as set forth herein, the following fees shall be paid by WHOLESALER:
- 29.2.1 Bid Roll.** MMCAP will notify Wholesaler within 30 days after manufacturer bid roll of any MMCAP Contract Products not loaded, stocked, and viewable by all MMCAP Members, consistent with process identified within Attachment A. 4.5. B. In the event that an MMCAP Contract Product(s) is not loaded, stocked, and viewable by all MMCAP Members when the new manufacturer contracts are in effect and have been received from the manufacturer(s), WHOLESALER shall pay the following fee to MMCAP: \$2,500/day, until resolved, not to exceed \$25,000 per bid roll cycle.
- 29.2.2 Reports** In the event that any report and/or data provided by the WHOLESALER, pursuant to the terms of this Contract, is not received according to schedule, contains incorrect data, incomplete data, or no data, and is more than a minor defect or causes harm to MMCAP's ability to conduct business or its governmental purpose, Wholesaler will be allowed a 3 business day cure period, or WHOLESALER shall pay the following fee to MMCAP: \$500/day, not to exceed \$5,000 per reporting instance, until resolved.
- 29.2.3 Inventory Management and Management of MMCAP Contract Products.** If an MMCAP Contract Product is not loaded, stocked, and viewable by all MMCAP Members, as required pursuant to this Contract and within the timelines set forth herein, WHOLESALER shall credit to the MMCAP Member submitting the request an amount equal to two and one-half percent (2.5%) of such MMCAP Member's

previous month's net purchases of the generically equivalent item in the same packaging size. WHOLESALER shall credit to the MMCAP Member within thirty (30) calendar days of the MMCAP Member's original request to stock the MMCAP Contract Product. WHOLESALER will be responsible for Inventory Management and Management of MMCAP Contract Products Failure to Perform claims for 90 calendar days from the date the Wholesaler is first unable to supply the Product to an MMCAP Member. This clause shall not apply when the Failure to Perform claim is attributable to a cause outside WHOLESALER's control, or where the alternative product purchased is a WHOLESALER Generic Drug Program product, so long as WHOLESALER is acting in good faith to stock the MMCAP Contract Product.

- 29.2.4 **Delivery Delays.** Deliveries shall be made by the WHOLESALER in accordance with the time schedules specified in Attachment A, or as otherwise agreed upon by the WHOLESALER and MMCAP Member. Where delivery is delayed, WHOLESALER shall credit to the Member a fee of forty five dollars (\$45.00) per delivery not delivered within 90 minutes of the delivery time scheduled, and for each day the delivery is not received, payable as a credit to the Member within fourteen (14) calendar days of the original delivery date. WHOLESALER shall not be responsible for paying the aforementioned fee for delays outside of its control, and where notification of the experienced delivery delay is not provided to the Wholesaler within 30 days of the event.
- 29.2.5 **Invoices.** Where WHOLESALER submits a current and/or subsequent invoice for any fees not related directly to Product cost or not specified in Attachment B, WHOLESALER shall reference the original invoice number or purchase order number. Should the WHOLESALER inappropriately charge a fee not related directly to Product cost or a fee not specified in Attachment B, Wholesaler shall credit the inappropriately charged amount back to the MMCAP Member. There is no annual limitation attached to the recovery of fees inappropriately charged that are not related directly to Product cost or not specified in Attachment B, Wholesaler will provide a monthly report to MMCAP of any miscellaneous fees charged to MMCAP Members which are not related directly to Product cost or not specified in Attachment B.
- 29.2.6 **Application of Fees.** The application of fees herein shall not excuse WHOLESALER's performance obligations as set forth in this agreement, nor shall it waive any rights of MMCAP or MMCAP Members to seek any and all available legal and equitable remedies.
- 29.2.7 **Acknowledgement.** WHOLESALER acknowledges that the fees set forth above are not penalties, but rather seek to make MMCAP and MMCAP Members whole for any failure of performance by the WHOLESALER, as based upon good faith estimates as agreed to by the parties.

30. Severability. If any provision of this Contract, including items incorporated by reference, is found to be illegal, unenforceable, or void, then both MMCAP and the WHOLESALER will be relieved of all obligations arising under such provisions. If the remainder of this Contract is capable of performance, it will not be affected by such declaration or finding, and will be fully performed.

31. Dispute Resolution. WHOLESALER and MMCAP Members will handle dispute resolution for unresolved issues using the following procedure.

- 31.1 **Notification.** Parties shall promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time.
- 31.2 **Documentation.** Both the MMCAP Member and the WHOLESALER will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties. The briefing document must be sent by the WHOLESALER to MMCAP, the MMCAP Member, and the WHOLESALER's MMCAP Primary Account Representative.

- 31.3 **Escalation.** If parties are unable to resolve the issue in a timely manner, as specified above, either the MMCAP Member or WHOLESALER may escalate the resolution of the issue to a higher level of management. Where escalation of the issue proves ineffective, either party may contact MMCAP and/or the WHOLESALER's MMCAP Representative for further resolution. When escalated to MMCAP, a teleconference will be scheduled with MMCAP and the WHOLESALER's MMCAP Primary Account Representative to review the briefing document and develop a proposed resolution and plan of action. The plan and timeline must be agreed to by all parties – MMCAP, the MMCAP Member, and WHOLESALER.
- 31.4 **Performance while Dispute is Pending.** Notwithstanding the existence of a dispute the WHOLESALER must continue without delay to carry out all of their responsibilities under this Contract that are not affected by the dispute. If the WHOLESALER fails to continue without delay to perform its responsibilities under this Contract, in the accomplishment of all undisputed work, any additional costs incurred by MMCAP and/or MMCAP members as a result of such failure to proceed shall be borne by the WHOLESALER.
- 31.5 **Member Rights.** In the event an MMCAP Member cannot resolve a dispute with the WHOLESALER, and the MMCAP Member has worked with MMCAP to resolve the dispute, the MMCAP Member(s) may change its prime Wholesaler even if the rest of the MMCAP Member state does not wish to change its wholesaler.
- 31.6 **No Waiver.** This clause shall in no way limit or waive either party's right to seek available legal or equitable remedies.
32. **Adding New Members.** If new states are added as MMCAP Members and opt to participate in this Contract, the new MMCAP Member state will select a wholesaler to service the MMCAP Members. In the event one or more of said facilities are currently using another MMCAP-contracted wholesaler, said facility will be allowed to choose if it will transition to WHOLESALER.
33. **Required Licenses, Permits, and Registration.** WHOLESALER shall have in place prior to the start of this Contract, and must maintain for the life of this Contract, all current licenses, permits and registrations required by state, local and federal agencies. WHOLESALER must make such documentation available upon request by MMCAP.
34. **DEA License/HIN.** WHOLESALER shall not require an MMCAP Member to have a DEA number in order to obtain products unless making orders for controlled substances. MMCAP Member facilities will have HIN numbers assigned by MMCAP.
35. **Personnel Changes.** WHOLESALER shall notify MMCAP of changes in the Wholesaler's key personnel, in advance and in writing. Any employee of Wholesaler, who, in the opinion of MMCAP, is unacceptable, will be removed from the project upon written notice to the Wholesaler; provided, however, any such removal must be for lawful reasons. In the event that an employee is removed pursuant to a written request from MMCAP's authorized representative, the Wholesaler will have ten (10) working days in which to fill the role with an acceptable employee.
36. **State Terms and Participation.**
- 36.1 WHOLESALER may be required to prepare an MMCAP "Member-requested Participation Agreement" ("MPA"), which is attached and incorporated as Attachment E, to amend this Contract to provide for laws specific to a state or local jurisdiction. If these circumstances exist, WHOLESALER must work with MMCAP and the MMCAP Member to prepare the MPA. An MPA must clearly apply only to the requesting location and will not affect the rights of the other MMCAP Members, nor will it modify, derogate, or otherwise diminish the rights and obligations set forth herein, except in regard to the applicable named MMCAP Member. No verbal or written instructions from MMCAP Members, or any of their staff or officials may be used to

change any provision of this Contract. WHOLESALER will immediately report any such requests to the MMCAP Manager who will issue approval or denial in writing.

36.2 WHOLESALER will comply with all local, state, and federal laws, as applicable to each Member State, in the performance of this Contract. In the performance of this Contract, and to the extent applicable, all Parties will comply with the federal Drug Supply Chain Security Act (DSCSA). MMCAP will not be bound by non-Minnesota state-specific terms contained in an MPA when bringing any action. Nothing contained herein will be deemed a waiver of the State of Minnesota's sovereign immunity.

Attachment A – Scope of Work

4.1 Definitions

Throughout this Contract, the following terms are used as defined.

340B Drug Pricing Program (340B) - The 340B Drug Pricing Program resulted from enactment of Public Law 102-585, the Veterans Health Care Act of 1992, which is codified as Section 340B of the Public Health Service Act. Section 340B limits the cost of covered outpatient drugs to certain federal grantees, federally-qualified health center look-alikes and qualified disproportionate share hospitals (DSH). Several MMCAP Participating Facilities are eligible and participate in the 340B Drug Pricing Program.

Adequate Supply- A supply of Products made available to the MMCAP Participating Facilities that allow conformity with the parameters of the fill rate and historical purchase patterns.

Bulky Products - The MMCAP Office's definition of Bulky Products include food and food products, home healthcare products (durable medical equipment, such as walking aids, bathroom safety products, wheelchairs and accessories, scooters and lift chairs, etc.), non-contract nutritionals, school and office supplies, non-contract large volume parenterals, and non-contract IV Fluids.

Closed Distribution Products (CDP) - Closed Distribution is either required by the manufacturer or by the FDA. Reasons for the Closed Distribution of a product include patient safety, product stability, or the product is new to the market. Most orders for Closed Distribution Products are passed through the Wholesaler for delivery directly by the product supplier.

Confirmation Printback/Order Confirmation - An electronic confirmation report generated from the Wholesaler's ordering system(s), meaning both Cardinal.com and Order Express and sent electronically back to the ordering facility indicating that the requested Products are available, on Manufacturer Backorder, out of stock, or deleted, etc. Also referred to as the Confirmation Printback Report.

Controlled Substance Ordering System (CSOS) - Allows for secure electronic transmission of Schedule I-V controlled substance orders without the supporting paper DEA Form 222.

Drop Shipment(s) - Products ordered by the MMCAP Participating Facilities through the Wholesaler and shipped directly to the MMCAP Participating Facilities from the manufacturer/product supplier. The manufacturer/product supplier notifies and bills the Wholesaler, who then invoices and receives payment from the MMCAP Participating Facility.

EDI - Electronic Data Interchange - Inter-process (computer to computer application) communication of business information in a standardized electronic form.

Manufacturer Backorder(s) (MBO) - An order placed by the Wholesaler to a manufacturer or supplier which is not shipped to the Wholesaler due to industry wide shortages or other supply issues as set forth in Section 4.5 (E.) of Attachment A.

MMCAP Contract Product(s) - Any Product that appears on an MMCAP contract.

MMCAP Contract File Updates – electronic files sent by the MMCAP Office to the Wholesaler which provide batched MMCAP Contract Product and MMCAP contract pricing information. The MMCAP Contract File Updates are usually sent to the Wholesaler on a weekly basis. The first file (titled "Update

[sequential number]”) details the MMCAP contract changes that have occurred since the last weekly communication from the MMCAP Office. The second file (titled “[sequential number] Contract [8-digit date]”) is a listing of the entire MMCAP contract as of the date provided in the title. The third file (titled “[sequential number] Pending [8-digit date]”) is a listing of the MMCAP Contract Products with future effective dates.

MMCAP Member(s) – Any of the, currently, 48 MMCAP member states plus the Cities of Chicago and Los Angeles and any other members added or deleted during the life of the Contract and any extensions. MMCAP Members shall be considered intended third-party beneficiaries of this Contract.

MMCAP Participating Facility - Any facility listed by the MMCAP Office as an active participant of MMCAP program. A current listing of MMCAP Facilities is made available to all MMCAP vendors monthly. MMCAP Participating Facilities shall be considered intended third-party beneficiaries of this Contract.

Both *MMCAP Member(s)* and *MMCAP Participating Facility* may be referenced as “MMCAP Member(s)”, when applicable throughout the Scope of Work.

MMCAP Office – The administrative staff of the MMCAP Program responsible for initiating and administering all MMCAP contracts. The MMCAP Office may be referred to synonymously as MMCAP. Located at:

MMCAP
Minnesota Department of Administration
Materials Management Division
112 Administration Building
50 Sherburne Avenue
St. Paul, MN 55155

MMCAP State Contacts – purchasing and pharmacy professionals are designated by MMCAP Member States to serve as liaisons between the MMCAP Office and the MMCAP Participating Facilities in each State. A list of MMCAP State Contacts is available at:
http://www.mmd.admin.state.mn.us/mmcap/background_current_states.htm.

National Drug Code (NDC) – a unique 11-digit number which is a universal product identifier for human drugs. The NDC identifies the labeler code, product code (strength, dosage form, and formulation), and package code (package size and type). All NDCs reported to the MMCAP Office must be in the 5-4-2 configuration.

Next Day Delivery - Orders placed Sunday through Thursday by MMCAP Participating Facilities by the designated time as proposed by the Wholesaler which will be delivered the next business day. Orders placed on Friday or Saturday must be delivered on the following Monday.

Next Scheduled Delivery Day - is the day agreed upon by the Wholesaler and the MMCAP Participating Facility for delivery of Products. For some MMCAP Participating Facilities, the Next Scheduled Delivery Day may not necessarily denote that the delivery will be made within 24 hours.

Non-Contract Product - Any product that does not appear on an MMCAP contract or the 340B Drug Pricing Program contract.

Pedigree - A record containing information regarding each transaction resulting in a change of ownership of a given medication, from sale by a manufacturer, through acquisition and sale by one or more wholesalers, manufacturers, or pharmacies, until final sale to a pharmacy or other person furnishing, administering, or dispensing the medication.

Product(s) - Synonymously used to denote the merchandise requested by the MMCAP Participating Facilities to be delivered through the Wholesaler.

Stock Outage(s) - An occurrence wherein the Wholesaler cannot make available an Adequate Supply of the MMCAP Participating Facility's requested Products. As opposed to a MBO situation, the Wholesaler will be held responsible for Stock Outages.

Wholesaler - Also referred to as Vendor, Pharmaceutical Prime Vendor, or Prime Vendor, is a business that functions as a purchaser's source of distribution for a wide array of pharmaceutical and related Products as identified by the MMCAP Participating Facility. The Wholesaler will share the raw survey responses for those survey areas that score below 3.5 and will devise an action plan(s) to address deficiencies, presenting status updates at quarterly Executive Business Reviews, or more frequent as appropriate.

4.4 Contract Transition and Implementation

If the MMCAP Member is currently contracting with the Wholesaler for the services, or substantially similar services, as set forth in this Attachment A, Wholesaler will transition each MMCAP Member from the existing contract (and existing contract terms) to this Contract (and its terms) on the 1st day of the month following execution of this Contract and in no event later than 30 days from Contract execution.

If the MMCAP Member is not currently contracting with the Wholesaler for the services or substantially similar services, as set forth in Attachment A, Wholesaler shall implement this contract (and its terms) for the MMCAP Member on the 1st day of the third month following execution of this Contract and in no event later than 90 days from Contract execution.

Transition from an existing contract to this Contract must occur on the 1st day of a month, and no other day.

In completing this transition, Wholesaler shall work with MMCAP Staff and MMCAP Participating Facilities to determine the appropriate steps and schedule, subject to the above, for the transition. Wholesaler acknowledges that the transition may be dependent upon the terms of the existing contracts and subject to the notice provisions contained therein. MMCAP and MMCAP Participating Facilities acknowledge that the transition is dependent on Wholesaler receiving all documentation from the MMCAP Participating Facility required for account set-ups. This plan will detail the phase-in of the Wholesaler's operations at the MMCAP Member with a 100% operating level at the onset of the contract effective date.

Satisfaction of a 100% operating level will include:

- a. Installation and testing of all electronic ordering equipment
- b. Training of employees

Wholesaler will provide an inventory of MMCAP Contract Products sufficient to meet the needs of the MMCAP Participating Facilities from the beginning of the MMCAP contracting period. Historical usage data will be provided by MMCAP six weeks prior to the start of the contract period. Wholesaler must have all MMCAP Contract Products loaded in its ordering system(s) meaning both Cardinal.com and Order Express and have a minimum of thirty (30) calendar days' Product supply available to order prior to the Contract start date.

4.5 Inventory Management

A. MMCAP-Contracted Manufacturers

For the term of this Contract, Wholesaler will have contracts with all MMCAP-contracted manufacturers as required to provide all MMCAP Contract Products and perform the services described in this Contract to MMCAP Participating Facilities. Exceptions must be approved in writing by MMCAP.

B. Bid-Roll

For the term of this Contract, Wholesaler will agree to work with MMCAP during Bid-Roll intervals for both generic and brand MMCAP Contract Products. During each of these intervals, the Wholesaler is required to provide resources to work with MMCAP, supporting weekly meetings for status check-ins, beginning with the receipt of the MMCAP contract files 45 days in advance of the effective date of the specific Bid-Roll interval. The Wholesaler is required to establish and update a confirmation log, which will be utilized for the weekly updates. As the effective date approaches, if daily check-ins should become necessary to meet process goals, the Wholesaler will support any escalated efforts to ensure that preparations are in place to manage the inventory stocking requirements.

The Wholesaler agrees to provide Inventory Reporting, specific to products that are:

- Manufacturer Allocated
- Manufacturer discontinued
- Wholesaler discontinued
- NDC changes
- Backorders
- No contract with manufacturer status
- No Loads
- Stock status by distribution center (DC)

to ensure that Bid-Roll is synchronized for the specific effective date interval of the Contract Product roll.

The Wholesaler agrees to complete an audit of the contract load prior to the effective date of the specific Bid-Roll interval and weekly through the first month that the new contracts are in place.

C. MMCAP Contract Products

The Wholesaler will be required to sufficiently stock MMCAP Contract Products. Wholesaler will be required to stock inventory of MMCAP Contract Product unless there are fewer than three (3) units sold per month per distribution center. If there is volume of three (3) units or more of an equivalent product, Wholesaler will be required to stock inventory of MMCAP Contract Product based on equivalent product sales as requested by MMCAP. MMCAP Contract Products that do not meet the units sold threshold and which are not stocked will be expected to still be viewable within Wholesaler's online ordering system(s) and orderable through Customer Service.

1. Wholesaler will not create unreasonable barriers in order to stock an MMCAP Contract Product.
2. MMCAP must be notified in writing no later than five (5) business days if any of the MMCAP contracted manufacturers' contracts are terminated or expire via a Weekly Contract Changes report found in Section 4.16 D. MMCAP reserves the right to modify the MMCAP-contracted manufacturers list at any time during the Contract term.

3. Wholesaler acknowledges and agrees to carry utilization (demand) history for a minimum of 60 calendar days. If any Product has not been ordered after 60 calendar days, utilization history can be decreased in Wholesaler's inventory management system.
4. Wholesaler will bring in a thirty (30) days' supply of Products for initial account set-up based on usage data from MMCAP. Thereafter, Wholesaler's buying system will acknowledge created demand and purchase inventory to meet said demand. Inventory will be maintained according to Wholesaler's Service Level and inventory parameters. See also Section 4.4, Contract Transition and Implementation.
5. Wholesaler is responsible for providing an inventory forecasting report to MMCAP as requested. This report will monitor and forecast ordering, usage patterns, as well as, identify significant trends, including increases and decreases in purchases. Monthly contract compliance reports to monitor purchases of Non-Contract Products will also be available to MMCAP upon request.
6. Wholesaler may not discontinue stocking an MMCAP Contract Product unless there are fewer than three (3) units sold per month per distribution center. For Products marked as non-stock, Wholesaler must submit a monthly report detailing how equivalent generic purchasing is impacting non-movement.
7. Timeline for new MMCAP Contract Product additions. For newly added MMCAP Contract Products that are currently available, Wholesaler will have the Products loaded, stocked and viewable in its system and ready for delivery in accordance with the goals specified in Table 4.5E: Wholesaler Created Stock Outage.
8. Timeline for MMCAP Contract Products that are not stocked. For MMCAP Contract Products that are not stocked, an MMCAP Participating Facility may request the Wholesaler to add the Product to inventory at the applicable distribution center by contacting customer service or its account representative. Wholesaler will have the Products loaded, stocked and viewable in its system and ready for delivery in accordance with the goals specified in Table 4.5E: Wholesaler Created Stock Outage, unless the MMCAP Contract Product is delayed due to manufacturer unavailability or other factors outside Wholesaler's control. In the event the fulfillment of any of the requests will take longer than what is specified in Table 4.5E: Wholesaler Created Stock Outage, Wholesaler will provide prior written notice of the delay and the reason for the delay to the requesting MMCAP Participating Facility and MMCAP.
9. In the event MMCAP chooses to process Failure to Supply claims on behalf of MMCAP Participating Facilities, the Wholesaler is to receive 30 days' advance written notice. Wholesaler agrees to accept electronic claims from MMCAP, and/or MMCAP Participating Facilities. Electronic claims will identify the specific Contract Products for which alternative products were purchased and the amount of reimbursement claimed on behalf of each MMCAP Participating Facility for the additional cost incurred in purchasing the alternative products. Reimbursement amounts will be calculated by subtracting the MMCAP Product invoice amount from the purchase invoice amount, excluding all other fees. Wholesaler must pay such claims in the form of a credit within 30 days of the receipt of a claim described above. If the Wholesaler does not pay such claim within such thirty (30) day period, MMCAP will have the right to charge, and the Wholesaler agrees to pay, a late fee equal to the statutory maximum, defined in Minn. Stat. § 16D.13, as the allowable percentage per month of the amount of any unpaid claim.
10. Wholesaler's designated contacts for all usage, inventory, and special order questions for MMCAP are Holly Kartscher, holly.kartscher@cardinalhealth.com, 614-757-4622 and Kevin Wells, kevin.wells@cardinalhealth.com, 614-757-7924. MMCAP Participating Facilities can contact their account representatives or customer service.

D. Special Orders

1. All large, one-time orders should be requested through the MMCAP Participating Facility's Wholesaler account representative or customer service.
2. Special requests may be, but are not limited to: a) special one-time orders, b) governmental entities placing large orders at the end of their fiscal year, c) items to be added to usage information to ensure

they are included as routine stock items at the distribution center, d) large quantities of identical lot numbers

3. For large volume orders, no more than ten (10) business days for processing and delivery will be required, subject to supplier availability. Wholesaler will need additional time for special requests requiring the same lot number.
4. Large, one-time orders are not returnable without prior approval of manufacturer or Wholesaler. Wholesaler commits the resources to working with the MMCAP Participating Facility and the manufacturer to find a solution if the product must be returned.
5. Stockpiling Program orders will be facilitated through the Cardinal Health Contract Compliance Contracts & Pricing (CCC&P) staff member, to provide timely review of the specific items to be purchased, dating, and stocking availability for the order to be fulfilled. Appropriate communication throughout the process, from initiation to delivery, will be provided to the MMCAP Participating Facility as well as the MMCAP Stockpiling Program Coordinator.

E. Wholesaler Created Stock Outages

1. Backorders due to Wholesaler created Stock Outages will be fulfilled in accordance with the goals specified in Table 4.5E: Wholesaler Created Stock Outage.
2. Wholesaler will have the manufacturer ship directly to the MMCAP Participating Facility for Next Day Delivery if available by the manufacturer and if the Product is deemed critical by the MMCAP Participating Facility. MMCAP agrees to work with Wholesaler on abusive situations.
3. MMCAP Participating Facilities that have MMCAP Contract Products, deemed critical, drop shipped to them directly from a manufacturer as a result of Wholesaler created Stock Outages will not be charged additional fees.
4. Manufacturer fees or fees to expedite orders for MMCAP Contract Products drop-shipped due to Wholesaler created Stock Outages are not allowed.
5. MMCAP Contract Products that are drop-shipped due to Wholesaler created Stock Outages will have Wholesaler's service fee discount applied.
6. MMCAP Participating Facilities can place Products on backorder by calling Wholesaler's customer service department, otherwise orders for Products on backorder will be cancelled. Placing a Product on backorder enables the MMCAP Participating Facility to receive the Product upon availability without placing a reorder. The option to utilize auto-backorder function is available, but must be approved by the MMCAP Participating Facility. Use of Order Express will allow the MMCAP Participating Facility to select order exceptions from the Order Confirmation, and choose to add the Product(s) on a Backorder List. This Backorder List displays updated availability information and may be edited by the MMCAP Participating Facility. When a backorder Product comes back into stock and is allocated to the order, the MMCAP Participating Facility will receive an alert in Order Express that the Product is available to ship.
7. If Product is transferred from an alternative distribution center in order to resolve a Stock Outage situation due to Wholesaler created Stock Outages no fees will apply.
8. If the Wholesaler fails to make prompt shipment of MMCAP Contract Products due to Wholesaler created Stock Outages, Wholesaler's ordering system(s) view errors, cancellations by Wholesaler, or backorders (excluding manufacturer back-orders), the ordering MMCAP Participating Facility may buy an alternate equivalent (generic) substitute Product from Wholesaler for the period in which the Wholesaler is unable to provide the Product. The Wholesaler will be liable to the MMCAP Participating Facility for any excess cost over the MMCAP Contract Product price and the alternate price of the Non-Contract Product. This will be in effect for 90 calendar days from the date the Wholesaler is first unable to supply the Product to an MMCAP Participating Facility. Credits due to an MMCAP Participating Facility based on excess Product procurement costs caused by a Wholesaler created Stock Outage or cancellation/backorder will be routed from the Wholesaler back to the participating MMCAP Participating Facility in the form of an account credit.

9. When an MMCAP Participating Facility calls in regard to a Product that is temporarily out of stock, customer service will coordinate efforts through the servicing Distribution Center and applicable Inventory Departments to bring the requested Product into stock, as long as the minimum stocking requirement of three (3) units per month is met. It is acknowledged by MMCAP that applicable Pedigree requirements may limit the Wholesaler's ability to provide alternate service for temporarily out of stock and other product shortages.
10. Wholesaler will notify MMCAP at least ten (ten) business days in advance of any changes to the list of possible inventory stocking codes viewable on its online ordering system(s). A complete list of all possible stocking codes and thorough descriptions of each code will be provided. MMCAP and MMCAP Participating Facilities must be informed of any potential changes to demand shift logic and stocking request procedures.

Wholesaler will not be responsible to pay FTS claims for MMCAP Contracted products that are on supplier disruption (i.e., manufacturer backorder, manufacturer allocation, etc.) or products in which the supplier cannot support the additional volume requested. All FTS claims will be subject to the same exclusionary rules as identified in section 4.5, G Service Levels, under MBO Units.</p>		

Failure to Supply (FTS) MMCAP Contracted Products Process:

1. If Wholesaler fails to maintain sufficient inventory of MMCAP Contract Products to meet the anticipated needs of MMCAP Participating Facilities, an MMCAP Participating Facility may purchase an alternate equivalent generic product from Wholesaler for the period in which Wholesaler is unable to provide the Product. Wholesaler will be liable for any excess cost over the MMCAP Contract Price for a period of 90 calendar days from the date the Wholesaler is unable to supply the MMCAP Contract Product to an MMCAP Participating Facility.
2. Wholesaler will use the price of the MMCAP Contract Products and the invoice price of the alternate generic product to determine the amount of reimbursement for failure to supply claims.
3. An MMCAP Participating Facility will submit the following information to Wholesaler for each MMCAP Contract Product that reimbursement is expected:
 - MMCAP Participating Facility Name, Address, City, State, Zip
 - MMCAP Participating Facility DEA or HIN
 - MMCAP Participating Facility point of contact for reimbursement (including telephone number and e-mail address)
 - Product description

- Generic Source price
 - MMCAP Participating Facility's purchase price
 - Alternate NDC
 - Alternate NDC manufacturer
 - Alternate NDC purchase price
 - Alternate NDC quantity purchased
 - Alternate NDC date purchased
 - Amount due
 - Reason (e.g., brief description, proof of failed order)
 - A copy of the invoice showing the purchase of an equivalent generic product from the Wholesaler
4. Wholesaler must pay claims directly to the MMCAP Participating Facility via credit memo within 30 days of receipt of a claim.
 5. Wholesaler will be responsible for payment of Failure to Supply claims for 90 calendar days from the date the Wholesaler is first unable to supply the Product to an MMCAP Participating Facility. Credits due to an MMCAP Participating Facility based on excess product procurement costs caused by the Wholesaler's stocking failure will be routed from the Wholesaler back to the MMCAP Participating Facility in the form of an account credit.
 6. Wholesaler's address for FTS reimbursement:
Electronic filing address: tiffany.kuhel@cardinalhealth.com

Wholesaler will provide training to MMCAP Participating Facilities using Wholesaler's Generic Drug Program to include:

1. Ordering training to all MMCAP Participating Facilities desiring training, to include ordering of non-stocked MMCAP Contract Products to be stocked as inventory in Wholesaler's distribution center and available for prompt delivery.
2. Ranking for both MMCAP and Wholesaler's Generic Drug Program contracts by contract and by price.
3. Filtering and sorting products to find the lowest priced item by purchased size or unit of measure.

F. Manufacturer Backorders

1. Wholesaler's order entry system will provide notification prior to order of all Manufacturer Backorders.
2. Wholesaler will also list all Manufacturer Backorders on its ordering website and the MMCAP Participating Facilities can call customer service.
3. Notifications of Manufacturer Backorders will be provided by Wholesaler's weekly "Service Flash," which is available via Wholesaler's website or push e-mail. Backorder notices will contain an expected date of resolution as well as the reason for the backorder (e.g., raw material shortage), if the information is available from the supplier. When information is not forthcoming from the supplier, the Wholesaler's standard procedure is to make the "date out" two (2) months from the notification, following up with the supplier on an every two week basis to obtain the appropriate updated information as to when products will be available. Wholesaler's "Service Flash" will also list recalled Products, discontinued Products, and Products on allocation.
4. Wholesaler acknowledges and agrees that its policy is to kill or fill all orders at order placement unless the MMCAP Participating Facility is set up to receive backorders.
5. MMCAP Participating Facilities with questions in regard to recalled, allocated, and discontinued Products on backorder should call Wholesaler's customer service.

G. Service Levels

1. Raw and Adjusted Fill Rates will be calculated on a monthly basis for each MMCAP Participating Facility's account(s) (including 340B Drug Pricing Program accounts) serviced by the Wholesaler. Raw and Adjusted Fill Rates will also be calculated for MMCAP as a group as well as by each distribution center servicing MMCAP Participating Facilities.
2. Wholesaler must submit a Raw and Adjusted Fill Rate Report using the calculations defined below (Service Level Definitions) for each MMCAP Participating Facility, distribution center serving MMCAP Participating Facilities, and by MMCAP as a group to MMCAP on a monthly and a quarterly basis. See also Section 4.19 Mandatory Reports, for report requirements.
3. Service Levels will be defined as follows:
 - a. Raw Fill Rate will be calculated by dividing the number of units delivered by the number of units ordered.

$$\text{Raw Fill Rate} = \frac{\text{Number of Units Delivered}}{\text{Number of Units Ordered}}$$

Orders for Products that are not filled as a result of Wholesaler being out of stock of such Products will be considered as a line item for Product ordered in this calculation regardless of the reason for Wholesaler being out of stock.

- b. Adjusted Fill Rate will be calculated by dividing the number of units delivered by the number of units ordered minus the number of Manufacturer Backorder (MBO) units.

$$\text{Adjusted Fill Rate} = \frac{\text{Number of Units Delivered}}{\text{Number of Units Ordered} - \text{MBO Units}}$$

MBO Units will include:

- Orders for Products made but not shipped because of industry wide shortages or other issues beyond the control of Wholesaler as demonstrated by Wholesaler to the reasonable satisfaction of the MMCAP Managing Director, lead pharmacist, and lead financial representative (e.g., Manufacturer Unable to Supply, Manufacturer Allocations, Manufacturer Backorders, Manufacturer Recalls, and Manufacturer Discontinued).
 - Purchases of Products which exceed 150% of the previous months activity
 - Products ordered which are filled and delivered within 24 hours of the original order
 - Partial shipments if 75% or more of the order can be completely filled within 48 hours
 - Unavailable Products repeatedly ordered within 72 hours of the original order
 - Special orders requiring shipment from the manufacturer
 - Non-stock Products that are not under contract with MMCAP
 - Contract rolls/awards where notifications from MMCAP are received with less than 4 weeks' notice prior to transition of addition (e.g., bid year transition). Wholesaler may only include Products in MBO Units for 30 calendar days after notification.
- c. Non-Contract OTC Products will not be included in the Adjusted Fill Rate.
 4. Wholesaler agrees to maintain a monthly Adjusted Fill Rate for pharmaceutical Products of at least 98.5% (calculated as set forth above) for each MMCAP Participating Facility account. Pharmaceutical Products include but are not limited to: MMCAP Contract and Non-Contract prescription drug Products, MMCAP Contract OTC Products, IV solutions, contrast media, nutritionals, and anesthesia gases.
 5. If the monthly Adjusted Fill Rate for pharmaceutical Products (calculated as set forth above) for a MMCAP Participating Facility account falls below 98.5%, Wholesaler will provide the affected MMCAP Participating Facility an action plan for improvement and will work in good faith to resolve the Adjusted Fill Rate issue.
 6. Service level requirements for MMCAP Participating Facilities currently utilizing the Wholesaler will begin 30 calendar days following the effective date of this Contract. The service level for new MMCAP

Participating Facilities added to this Contract after the effective date will begin 30 calendar days from the time Wholesaler receives the MMCAP Participating Facility's first order.

H. Shift Demands

The Wholesaler will perform weekly maintenance in the Wholesaler's procurement system, shifting demands for additions and deletions where applicable. The Wholesaler will use Cardinal Key, (specific for active ingredient, route, dosage form, pack size and strength), rather than NDC to aid in shift demand stocking decisions. Brand to Generic Shift. When a branded pharmaceutical Product patent release approaches, Wholesaler will utilize the following process to ensure MMCAP Contract Products are expedited for the newly awarded generic.

- a. Ten (10) business days prior to patent expiration:
 - Wholesaler will run a sales report capturing three (3) months of purchase history on the branded pharmaceutical Product.
 - Sales history will be provided to MMCAP and a reminder sent that the Wholesaler plans to shift demand from the branded pharmaceutical Product to the awarded generic Product.
 - MMCAP will notify Wholesaler of the awarded generic Product at the same time MMCAP notifies the awarded generic Product manufacturer.
 - Wholesaler will provide MMCAP with a summary of the shift demand that occurred per distribution center.
 - Upon manufacturer launch and/or availability, Wholesaler will have demands shifted and will expedite the new MMCAP generic Contract Product into applicable distribution centers.
 - b. A shift demand will occur for all Product presentations for which there was a brand Product available. For example, if the brand Product was available in 100-count bottles, 500-count bottles and unit dose packaging (UD100ea x 1), Wholesaler will shift demand generically for all three presentations, if available.
 - c. Shift demands will be converted even if bottle or package size varies. For example, if the brand Product was available in 60 count bottles but the generic Product is available in 100 count bottles, demand will be shifted to the 100 count bottles.
 - d. Shift demands will not take place on additional bottle sizes or unit dose packaging that was not previously available unless Wholesaler is directed by MMCAP to do so. MMCAP will notify Wholesaler of expected shift demands through its weekly contract update process.
1. Generic to Generic Shift. Wholesaler will process shift demands for multi-source generic Products added to contract upon notification of an award from MMCAP. Wholesaler has ten (10) business days from the time of MMCAP notification or until the product effective date, whichever is later, to have the new generic Product loaded, viewable, and stocked at each distribution center where there is MMCAP contract and/or non-contract usage for equivalent generic Products. This time line assumes that the manufacturer has the Contract Product ready to ship to the Wholesaler on the effective date specified. Wholesaler will provide MMCAP with a summary of the shift demand that occurred per distribution center.
 2. Additional Services and Activities
 - a. Wholesaler will provide a weekly price change report to MMCAP to assist in monitoring price reductions for multi-source generics. Wholesaler will do shift demands for price decreases upon MMCAP request.
 - b. Weekly maintenance is run in the Wholesaler's procurement system, shifting demands for additions and deletions where applicable.

4.6 Management of MMCAP Contract Products

A. Price Loading and Pricing Accuracy

1. Wholesaler will be responsible for processing the MMCAP Contract File Updates, or the files sent to the Wholesaler by MMCAP which specify the Products and pricing that MMCAP has negotiated with its contracted manufacturers. Wholesaler will load and make viewable in its ordering system(s) all data lines from MMCAP's Contract File Update notifications within five (5) business days from the date of receipt or by the MMCAP Contract File Update effective date, whichever is later. When manufacturer verification is needed in order to load an MMCAP Contract Product and the MMCAP-contracted manufacturer has not responded or provides data that is inconsistent with the MMCAP Contract File Updates, Wholesaler will promptly notify MMCAP in writing no later than two (2) business days (after the five (5) business days allowed for Wholesaler processing).
2. Wholesaler agrees that any notice received from an MMCAP-contracted manufacturer or supplier for a price or Product change on an MMCAP Contract Product will be forwarded to MMCAP in the form of a weekly contract change report (see Section 4.19, Mandatory Reports). Wholesaler agrees to provide credits/rebills at no charge to correct pricing in the event that MMCAP and its contracted manufacturers disagree in regard to price and Product loading.
3. Price change reports will be available to all MMCAP Participating Facilities at any time via Wholesaler's ordering system(s).
4. Provided that Wholesaler has received all requested account set-up information, Wholesaler will have all MMCAP contract and individual contracts loaded prior to the MMCAP Participating Facility's first order. This includes all tiered contracts, if applicable, per receipt of documentation from the supplier.

B. Product Additions/Deletions

1. Wholesaler may not add or remove any MMCAP Contract Products from its database without providing prior written notification to MMCAP. Written notification can consist of the latest weekly Contract Change report which lists all changes made within the past week to the MMCAP contract (see Section 4.19, Mandatory Reports).
2. Wholesaler agrees to maintain an Adequate Supply for a Product that is added to the MMCAP contract due to a change in the NDC number, Product deletion, and replacement of a Product by the manufacturer, and in situations where Wholesaler is notified that MMCAP has determined a need to switch its procurement selections. Immediately upon notification of the change, Wholesaler will generate a usage report for the old item. This report will be used to decrement the old item(s) and increment the new item(s) as needed, to procure Product in a timely manner to satisfy MMCAP Participating Facilities' needs.

C. Convenience and Individual Contracts

1. MMCAP Contract Products priced at Wholesale Acquisition Cost – zero percent (WAC - 0%) will be reported as on-contract purchases.
2. Wholesaler agrees that contract purchases for WAC – 0% will receive Wholesaler's service fee discount, as set forth in Attachment C, Service Fee Discount Matrix.
3. Wholesaler will not charge any delivery fees for MMCAP Contract WAC – 0% Products if they fall within the MMCAP Participating Facility's normal delivery schedule.
4. Upon request of an MMCAP Participating Facility and after prior approval by MMCAP in writing, Wholesaler will supply and distribute Products acquired under contracts individually negotiated with (e.g., pharmaceutical) manufacturers by an MMCAP Participating Facility. Service fee discounts will be applied to purchases made from MMCAP Participating Facility individually negotiated contracts.

D. Product Expiration Dating

1. At a minimum, expiration dating for all MMCAP Contract Products and Non-Contract Products delivered under this Contract must have a minimum shelf life of six (6) months expiration dating remaining upon delivery to the MMCAP Participating Facilities.
2. Shipment of Product with expiration dating of less than six (6) months requires the prior approval of the MMCAP Participating Facility before release and delivery of the short-dated Product.
3. If Wholesaler distributes short dated Product to an MMCAP Participating Facility without prior approval, the Product may be returned to Wholesaler, with the MMCAP Participating Facility being credited for the return, subject to Attachment A, Section 4.12 H, Goods Returned to the Wholesaler.

4.7 Ordering Equipment**A. Ordering System**

1. Wholesaler will provide to each MMCAP Participating Facility an ordering method that allows the facility to quickly and accurately order MMCAP Contract Products, within the technological capabilities of the MMCAP Participating Facility.  - b. Build and place electronic orders
 - c. Review pending orders for correctness and contract compliance
 - d. Provide online allocation of ordered amounts
 - e. Receive Order Confirmation reports

Wholesaler currently supports the following ordering methods: Internet, EDI, phone orders via interactive voice response, direct call to customer service, handheld device ordering, and fax orders. All ordering methods described below require minimal setup and implementation work with the exception of EDI.
 - a. **Telxon** – is a hand held ordering system which allows MMCAP Participating Facilities to order at the SKU level directly from the shelf location.
 - b. **TeleServe** - allows MMCAP Participating Facilities access to Wholesaler's Stock Support Line (866-958-2200) 24 hours a day, 7 (seven) days a week to order Product and check stock status. TeleServe is tied into Wholesaler's pharmaceutical distribution system so users receive instant confirmation that Product is available and will be shipped with the next delivery. The system features interactive voice response.
 - c. **Cardinal.com** - is a pharmacy order and inventory management solution available via the Internet. Cardinal.com features real-time stock status, real-time allocation of Products, instantaneous Order Confirmation, electronic credits and returns, and reporting capabilities.

Cardinal.com will be sunset, once all MMCAP Participating Facilities have been converted and transitioned to Order Express. The Wholesaler's Account Management team will continue working with MMCAP Participating Facilities to convert them from Cardinal.com to Order Express. Transition planning and execution includes account setup, training, and follow up to ensure compliance. Wholesaler's goal is to convert all current and new MMCAP Participating Facilities to Order Express by the end of FY15. Wholesaler will report monthly to MMCAP, the status of the conversions and transition timelines.

- d. **Order Express** – is a web-based order entry and inventory management system that will provide MMCAP Participating Facilities with real-time access to up-to-date product information including product availability, immediate order confirmations, 36 months of purchase history for reporting, and other reporting capabilities.
- e. **EDI Capabilities** - the process for Electronic Purchase Orders begins with the receipt from a customer of an EDI PO (850), followed by the delivery to the customer of an Order

Confirmation (855), an Advanced Shipment Notice (ASN) (856) is created once the order is picked, then an Electronic Invoice (810), which is followed by a Electronic Funds Transfer Remittance Advice (820) from the customer. The Wholesaler is required to support all 810, 894 and 880 EDI protocol documents for electronic invoicing as well as 820 notices for electronic remittances. If an MMCAP Participating Facility chooses to implement an EDI solution, Wholesaler will have a dedicated staff who will work with the customer and the third party vendor to develop the appropriate interface to begin trading files.

- f. **Mobile Solutions** with the MC70 Handheld Scanner- allows customers to order, receive, and inventory Product using a handheld device. The user can send/receive current catalog data, submit orders, transfer orders to Cardinal.com, and retrieve receiving data. The device offers greater flexibility in the management of the receiving process, allowing receiving to take place at any location within the pharmacy. Mobile Solutions utilizes wireless technology. Mobile Solutions will be retired along with Cardinal.com and is to be replaced with Order Express with MC40.
- g. **Mobile Order Express with MC40** - allow a user to build and place an order, perform physical inventory and receive their shipment of orders all on the device with no need to cradle or sync to a computer. The Mobile website seamlessly integrates with the desktop experience on Order Express giving the user easy access to the best of both features. With instant synchronization of data between the desktop and mobile experience, any user can review and modify actions throughout the ordering process. The MC40 scans directly in the Mobile Order Express website obtaining the most recent catalog and pricing which provides the pharmacy with accurate stock and pricing information.

The MC1000 builds an order and take inventory offline. The MC1000 syncs with Order Express to allow easy access to ordering and inventory files. The MC1000 carries a full product catalog of available products and displays product details remotely on the device.

- 1. Wholesaler agrees that all fees charged for software and/or ordering devices will be listed in Attachment B, Discounts and Fees.
- 2. Telxons will be provided upon request and based on need, depending upon availability in the Wholesaler's supply network. As a result of enhanced handheld device technology, Telxons do not interface with Order Express and will therefore be completely phased-out with Cardinal.com
- 3. MMCAP Participating Facilities that have existing hardware provided by Wholesaler previously will have it remain until it no longer functions or is not needed by the facility. Wholesaler's handheld devices require the installation of Microsoft's Active Sync 4.5 which is currently provided by Microsoft as freeware.
- 4. Wholesaler's CSOS requires the installation of Axway's Cyclone Activator which is provided by Wholesaler at no charge. Wholesaler is working to have CSOS technology available to MMCAP Participating Facilities that does not require the use of Java.

C. Installation and Training

- 1. Wholesaler agrees that all provided hardware, software, and ordering devices will be fully functional at time of installation.
- 2. Software updates, system changes, and training will be facilitated through a variety of communication methods. Hiring a physical inventory company is not included in these services. Requests for inventory support need to be made directly with the MMCAP Participating Facility's account representative or customer service. Wholesaler recommends at least fourteen (14) day lead time to reserve extra handheld devices for use in performing inventory; Wholesaler will take reservations for handheld devices up to 60 calendar days prior to the inventory date. MMCAP Participating Facilities may also request a set of shelf labels to be printed using the facilities' purchase history. The labels can be printed in Brand or Generic name order for ease of use. Training on the inventory procedure may be on-site or online.

E. Ordering System(s) Back-up Service, Maintenance and Repair

Wholesaler is required to have sufficient subject matter expertise available to MMCAP Participating Facilities to support the complex intricacies of this program.

Service fee/cost of goods discounts are to be applied to 340B purchases, with 340B purchase volume to be included in the total purchasing volume for the state, as it relates to the service fee/cost of goods discount volume matrix.

Orders should be shipped as ordered (by case or by pallet) to the facility so they can be properly unloaded and stored. Wholesaler will ship palletized and case quantity orders on a weekly or twice monthly basis for all distribution centers.
14. MMCAP agrees to work with Wholesaler on abusive situations involving MMCAP Participating Facilities which request special delivery vehicles or methods for routine deliveries.

B. Drop Shipments

1. All fees associated with Drop Shipments are listed in Attachment B, Discounts and Fees.

Wholesaler will place Drop Shipment requests with manufacturers or suppliers within one (1) business day of receiving the request from the MMCAP Participating Facility.
6. In the event that Wholesaler is unable to fill an MMCAP Participating Facility's order for an MMCAP Contract Product, Wholesaler will have the Product drop shipped directly from the manufacturer. The MMCAP Participating Facility will not be assessed a fee for this shipment.

C. Delivery for Special Products

1. Wholesaler will maintain appropriate temperatures and environmental conditions in accordance with manufacturer requirements for delivery to the MMCAP Participating Facilities. All refrigerated Products will be shipped in returnable coolers with appropriate packaging to maintain the required temperature range. Products requiring refrigeration will be clearly marked as such. Wholesaler will use phase change panels to maintain orders at proper temperatures.
2. All Products will be adequately packaged by Wholesaler. 3. Wholesaler will comply with all DEA requirements for controlled substances.
4. Wholesaler must not distribute MMCAP Contract Products through associated specialty distributors without the prior written approval of MMCAP or without the manufacturer requiring the Wholesaler to do so. Wholesaler has a relationship with Cardinal Health 108, LLC d/b/a Specialty Pharmaceutical Distribution (SPD). SPD is a wholly owned subsidiary of Cardinal Health, Inc. MMCAP acknowledges that certain MMCAP-contracted suppliers have limited distribution networks and that Cardinal SPD will be distributing these manufacturers' products for MMCAP Participating Facilities. Wholesaler is required to apply service fee/cost of goods discounts to any MMCAP Contract Products distributed by Cardinal SPD, and ensure that MMCAP is paid the distributor administration fee on same said products distributed by Cardinal SPD. Wholesaler is also required to ensure that sales distributed by Cardinal SPD are included in the Sales Data Report, as specified in Section 4.19 Mandatory Reporting.
5. In the event a manufacturer charges Cardinal SPD for shipping due to an expedited request by an MMCAP Participating Facility, Wholesaler will line item invoice the MMCAP Participating Facility for the same shipping cost charged by the manufacturer. Backup documentation will be available upon request for any shipping fees that are charged to the MMCAP Participating Facility for products supplied by Cardinal SPD.

D. Delivery of Bulky Items.

Bulky items are those products that may be exceptionally cumbersome to deliver. Examples of these products may include cases of nutritional products, IV fluids, etc. In the event that the MMCAP Participating Facility approves the Wholesaler's request to have bulky items drop shipped, the product manufacturer and drop-ship notification is to be annotated on the MMCAP Participating Facility's order confirmation.

Service fee/cost of goods discounts are required to be applied to orders for bulky items for which MMCAP has a contract.

E. Emergency Order, Placement and Delivery

Wholesaler's procedure for placement of emergency orders during non-business hours will be made available to each MMCAP Participating Facility upon startup of service. Each MMCAP Participating Facility will be provided twelve (12) emergency orders annually free of charge. Any additional emergency orders beyond the twelve per year that are free will be assessed a fee as detailed in Attachment B, Discounts and Fees. An emergency order is defined as one necessary for immediate and specific patient care which falls outside the normal order and delivery parameters. Using air and ground options, Wholesaler will exhaust all resources in delivering emergency Product in the most timely and efficient methods. Air services may be used at the discretion of the Wholesaler based on the severity of the emergency situation. Wholesaler will make a good faith effort to make emergency deliveries within four (4) hours following receipt of the order. OTC Products are not considered necessary for immediate

and specific patient care and therefore do not qualify for free emergency orders. Service fee discounts will be applied to emergency orders as set forth in Attachment B, Discounts and Fees.

4.10 Pedigree

In the passage of the Drug Quality and Security Act (H.R. 3204) on November 27, 2013, Title II of the Act, establishes a national system for tracing pharmaceutical products through the supply chain and sets national licensing standards for wholesale distributors. This legislation preempts the current state pedigree and serialization laws, however, as the Drug Quality and Security Act transitions, the Federal pedigree requirements within the Prescription Drug Marketing Act (PDMA) are to remain in effect for the immediate future.

The Wholesaler is required to comply with all aspects of Drug Quality and Security Act as it transitions, and until January 1, 2015, to continue to comply with PDMA. During the interim period, from DSCSA being passed, 11/27/13, until 1/1/15, the current federal minimum standards for the wholesale distribution of prescription drugs apply, meaning PDMA remains in effect and can be enforced. Cardinal Health is an Authorized Distributor of Record for all prescription drugs distributed and is therefore not required to pass pedigree under PDMA.

If any new transitions of the Drug Quality and Security Act which require change(s) to the current pharmaceutical distribution procedure(s), a minimum of 30 calendar days' notice of the change(s) will be provided so MMCAP Participating Facilities can prepare. Wholesaler agrees to provide next day service for those Products requiring a Pedigree.

As the Drug Quality and Security Act, Title II is a requirement upon wholesalers as a national licensing standard, Wholesaler will not charge any fees throughout the term of this Contract and any extensions to MMCAP or MMCAP Participating Facilities related to complying with this Act.

As part of the quarterly executive business review with MMCAP, the Wholesaler will be required to provide updates on the Drug Quality and Security Act, Title II transition and how the Wholesaler is integrating compliance aspects into its work deliverables to MMCAP Participating Facilities and MMCAP.

4.11 Contract Compliance

A. On-Contract Purchasing

Wholesaler agrees to encourage MMCAP Participating Facilities to purchase MMCAP Contract Products. 2. Wholesaler agrees to provide each MMCAP Participating Facility and MMCAP either with entelligenceSM, a web-based reporting tool on Cardinal.com or Standard and Advanced Reporting on Order Express. The entelligenceSM decision support tool rolls up purchase data from each of the points of purchasing within an organization and provides comprehensive reporting to evaluate

purchasing (e.g., super-user). Report Writer is an ad hoc reporting tool that enables MMCAP Participating Facilities to create, preview, save, copy, and print report requests. Report Writer will also be made available to MMCAP's Members and MMCAP. Advanced Reporting on Order Express, largely replaces the entelligenceSM reporting tool, with enhanced capabilities. 9. All additional fees (e.g., service fees, shipping charges, emergency orders, etc.) charged by Wholesaler will be in line item detail separated from the product's cost and will be tied back to an original invoice number. - Wholesaler's credit memo will contain:
 - Original purchase order
 - Original Wholesaler invoice number
 - Original invoice date
 - Itemized listing of the product(s) affected
 - Any rebill associated with the credit
 - Reason(s) for the credit (e.g., manufacturer credit, merchandise return, etc.)

1. In the event of a pricing error (e.g., late pricing load, etc.) that is solely attributable to the Wholesaler, Wholesaler agrees to no longer process credit/rebills after the greater of 90 calendar days or the maximum allowed by the supplier. Wholesaler agrees to actively pursue any available remedies with suppliers on behalf of MMCAP Participating Facilities' interests and agrees to seek exceptions to supplier imposed limitations if necessary. This clause will in no way be deemed a limitation on the Parties as it relates to the future auditing and/or correction of invoices.
2. When Wholesaler, an MMCAP Participating Facility, MMCAP, or an MMCAP contracted service vendor, like an invoice auditing service provider, discovers an error in pricing for an MMCAP Contract Product that affects one MMCAP Participating Facility, Wholesaler will issue credits/rebills to ALL MMCAP Participating Facilities for the time period from the date the error began to the date it is corrected.
3. Price Audits and Corrections: Throughout the terms of this Contract, Wholesaler will conduct contract pricing audits matching pricing information provided by MMCAP against contract pricing provided by Manufacturers. If Wholesaler discovers discrepancies, the Wholesaler will notify manufacturer and MMCAP of the discrepancy in order to reach resolution. Upon resolution, Wholesaler will correct the errors, will create a sales history report, and enter credit(s)/rebill(s) for each MMCAP Participating Facility connected to the contracts within five (5) business days. Wholesaler is expected to continue to provide the process, which was the outcome of the collaboration between the Wholesaler and MMCAP, to deliver comprehensive and efficient means to provide continuous price audit data.
4. MMCAP and the MMCAP Participating Facilities acknowledge that if a pricing discrepancy is the fault of the applicable manufacturer, such manufacturer may limit recovery arising from such pricing discrepancy and Wholesaler will not have any responsibility for such discrepancy or any such limitation.

Notifications are to be sent to: mmcap.contracts@state.mn.us.

F. Invoice Disputes

Subject to state law, the MMCAP Participating Facility will notify Wholesaler of any known dispute with an invoice within 30 calendar days of receipt of the invoice.

The MMCAP Participating Facility will pay all portions of a disputed invoice, unless prohibited by state law, subject to resolution of that dispute. If upon resolution, the disputed invoice was found to be in error, Wholesaler will credit the original amount of the invoice and rebill the MMCAP Participating Facility.

Where complete payment of a disputed invoice is prohibited by an MMCAP Member State's applicable law(s), the Wholesaler will comply with requirements of that state's law(s) related to disputed invoices. In addition, Wholesaler agrees that any outstanding amount on a disputed invoice will not be held against the MMCAP Participating Facility when calculating the weighted average payment date as applicable to service fee discounts. For any disputed invoice, the Wholesaler agrees to code the invoice as disputed to ensure the service fee calculation for the MMCAP Participating Facility is not impaired.

Wholesaler will make a good faith effort to resolve known disputes related to contract pricing within 30 calendar days of notice of the dispute. This clause will in no way be deemed a limitation on the Parties as it relates to the future auditing and/or correction of invoices.

Where a disputed invoice is determined not to have been in error, the MMCAP Participating Facility will not be liable for interest and penalties related to the disputed amount.

G. 810 EDI Invoices and Auditing

Wholesaler must provide 810 EDI invoices to MMCAP, MMCAP Participating Facilities, and any other entity designated by MMCAP. Wholesaler is required to work with MMCAP's contracted invoice auditing vendor. Wholesaler will research product pricing that appears to have a discrepancy and will confirm that pricing and information with the manufacturer. Wholesaler will review and make a reasonable effort to resolve errors within ten (10) business days of notification from MMCAP-contracted invoice auditing vendor. Wholesaler will not charge MMCAP or the MMCAP Participating Facility for use of an invoice auditing service or for invoice dispute resolution. Wholesaler will issue credits/rebills within three (3) days of manufacturer verification.

H. Goods Returned to the Wholesaler

Goods returned to Wholesaler will be managed in accordance with Attachment D, Wholesaler's Returned Goods Policy.

If any Product distributed by the Wholesaler under this Contract is recalled or removed by the manufacturer or the Wholesaler itself, or if a recall is suggested or mandated by a regulatory or official Agency, Wholesaler will send notice to each ship-to location for which Wholesaler has a sales history within the affected recall timeframe. Recall notices will be sent with the MMCAP Participating Facility's next delivery or via mail if the MMCAP Participating Facility does not have a delivery the day the recall notice is released.

Depending on the class of the recall, Wholesaler will, after initiating a recall, send to any MMCAP Participating Facility that did not provide Wholesaler verification they received the recall notice, a second notice three weeks and/or six weeks after recall initiation.

Wholesaler will send recall notices to inactive MMCAP Participating Facilities that have ordered the recalled Product up to 12 months after the last purchase.

4.13 Purchase Orders and Payment

A. Purchase Orders

As a condition for purchasing under this Contract, purchasers must be MMCAP Participating Facilities in good standing with MMCAP. Then, MMCAP Participating Facilities may purchase goods and services by submitting Purchase Orders. MMCAP Participating Facilities may use their own forms for Purchase Orders. To the extent that the terms of any form differ from the terms of this Contract, the terms of this Contract supersede such conflicting or contrary terms.

B. Payments by MMCAP Participating Facility

Each MMCAP Participating Facility will be responsible for payment of goods and services provided to them by the Wholesaler. MMCAP does not have any liability for an unpaid invoice of any MMCAP Participating Facility. The Wholesaler is required to accept purchase orders and invoice the MMCAP Participating Facility for all products shipped and services provided. Payment modalities that the Wholesaler is minimally required to facilitate are checks and Automated Clearing House/Electronic Funds Transfer (ACH/EFT) transactions. At time of new account setup, the MMCAP Participating Facility will initiate ACH/EFT process with its bank.

Service fee discounts and payment term definitions are listed on Attachment C, Service Fee Discount Matrix.

C. Verification of Authorized Purchasers

Upon request of MMCAP, Wholesaler must verify that it provides goods and services under this Contract only to MMCAP Participating Facilities.

D. Funds available and authorized/non-appropriation

Wholesaler will not be compensated for goods delivered or services performed under a Purchase Order by any entity other than the MMCAP Participating Facility that issued the Purchase Order. By submitting a Purchase Order the MMCAP Participating Facility represents it has sufficient funds currently available and authorized for expenditure to finance the costs of the Purchase Order.

E. Termination of Individual Purchase Orders

MMCAP Participating Facilities may terminate individual Purchase Orders, in whole or in part, immediately upon notice to Wholesaler, or at such later date as the MMCAP Participating Facility may establish in such notice, upon the occurrence of any of the following events:

- a. The MMCAP Participating Facility fails to receive funding, or appropriations, limitations or other expenditure authority at levels sufficient to pay for the goods to be purchased under the Purchase Order;
- b. Federal or State laws, regulations or guidelines are modified or interpreted in such a way that either the purchase of goods under the Purchase Order is prohibited or the MMCAP Participating Facility is prohibited from paying for such goods from the planned funding source; or
- c. Wholesaler commits any material breach of this Contract or a Purchase Order.

Upon receipt of written notice of termination, Wholesaler will stop performance under the Purchase Order as directed by the MMCAP Participating Facility.

Termination of a standing Purchase Order does not extinguish or prejudice the MMCAP Participating Facility's right to enforce such Purchase Order with respect to Wholesaler's breach of any warranty or any defect in or default of Wholesaler's performance under such Purchase Order that has not been cured,

including any right of the MMCAP Participating Facility to indemnification by Wholesaler or enforcement of a warranty. If a standing Purchase Order is terminated, the MMCAP Participating Facility must pay Wholesaler in accordance with the terms of this Contract for goods delivered and accepted by the MMCAP Participating Facility.

F. Jurisdiction and Venue

Upon completion of the Dispute Resolution process outlined in Article 31 of this Contract, and solely with the prior written consent of MMCAP and the State of Minnesota Attorney General's Office, the MMCAP Member may bring a claim, action, suit or proceeding against Wholesaler. The MMCAP Member's request to MMCAP to bring the claim, action, suit, or proceeding must state the initiating party's desired jurisdiction, venue and governing law.

Upon completion of the Dispute Resolution process outlined in Article 31 of this Contract, the Wholesaler may bring a claim, action, suit or proceeding against MMCAP Member, in Wholesaler's sole discretion.

G. Late Payment

This clause will not apply to an MMCAP Participating Facility when prohibited by that MMCAP Participating Facility's applicable state law.

If any MMCAP Participating Facility fails to comply with the agreed upon payment terms, Wholesaler will have the right to change the Service Fee Discount to that which the MMCAP Participating Facility is entitled to prospectively, to reflect that MMCAP Participating Facility's actual payment practices. An MMCAP Participating Facility will be deemed to have failed to comply with the payment terms if it does not make timely payment for a period lasting two cycles or, with respect to MMCAP Participating Facilities selecting the 30 Day Pay or 45 Day Pay, for a period of sixty (60) calendar days.

Wholesaler will use commercially reasonable efforts to work with the MMCAP Participating Facility in the event payments are not timely made. Wholesaler may, at its election, either reduce payment terms to a shorter number of days or place an MMCAP Participating Facility on C.O.D status under the following circumstances: (i) if Wholesaler has not received payment of outstanding invoices in full as set forth above, or (ii) there is a material adverse change in the financial condition of the MMCAP Participating Facility. In either instance, the situation shall be immediately elevated to an executive team from both the MMCAP Participating Facility and Wholesaler in an effort to rectify the situation and restore the MMCAP Participating Facility's then current payment terms. In the event of such elevation, if the executives are unable to reach a mutually acceptable resolution within a period of twenty (20) calendar days and any undisputed amounts remain unpaid for more than ten (10) calendar days thereafter, Wholesaler reserves the right to refuse orders from the MMCAP Participating Facility.

Notwithstanding anything to the contrary that may be contained herein, Wholesaler shall have, and it hereby reserves, all the rights and remedies otherwise available to it under the Uniform Commercial Code, as in effect from time to time.

4.14 Administrative Fee

In consideration for services provided by MMCAP, the Wholesaler will pay an administrative fee on all purchases (less any credits and returns) made through Wholesaler and the Wholesaler's Specialty Products Distribution division, as specified in Attachment B. Administrative fees will not be paid on 340B, PHS, or ADAP sales or prime vendor DSH sales. The administrative fee must be paid as soon as is reasonable after the end of each month, but no later than 30 calendar days after the end of the month. The Wholesaler will not pay MMCAP Member state specific administrative or procurement fees that are not considered "pass through". "Pass Through" fees are included in state specific terms and conditions requiring the Wholesaler to increase Service Fees, and then passing them through in the form of a check to the designated State entity.

MMCAP reserves the right to collect interest on payments 30 calendar days past due at a rate of 18% annually, consistent with Minn. Stat. § 16A.124.

Wholesaler will submit monthly administrative fee data for all sales made through Wholesaler and the Wholesaler's Specialty Products Distribution division. All required administrative fee data files must be sent to: Mn.MMCAP@state.mn.us at the end of each month, but no later than 30 days after the end of the month. Failure to comply with this provision may constitute breach of this Contract.

4.15 MMCAP Service Contracts

A. Contract Price Auditing

The Wholesaler is required to have the ability to provide 810 EDI invoices to MMCAP, MMCAP Participating Facilities, and any other entity designated by MMCAP. It is expected that the Wholesaler will work with MMCAP's contracted invoice auditing vendor and that the Wholesaler will research product pricing that appears to have a discrepancy and will confirm that pricing and information with the manufacturer, making a reasonable effort to resolve errors within ten (10) business days of the notification from MMCAP-contracted invoice auditing vendor. The Wholesaler will then be expected to issue credits/rebills within three (3) days of manufacturer verification.

The Wholesaler will not charge any fees, to either MMCAP or the MMCAP Participating Facilities, for the transmissions made to MMCAP's contracted invoice auditing vendor.

B. Reverse Distribution Processor

Wholesaler must have an agreement throughout this contract period with the MMCAP-contracted returned goods processor(s) to allow all MMCAP Participating Facilities to fully participate in the services offered by the MMCAP Returned Goods Contract. The Returned Goods Processor(s) is subject to change at any time. The Wholesaler will not withhold or delay application of a credit from a returned goods processor to the MMCAP Participating Facility's account for any reason. Wholesaler will not withhold credit owed to MMCAP Participating Facilities when the credit is from a manufacturer that is in arrears with the Wholesaler. All fees associated with reverse distribution, including returns from alternate processors that are not the awarded reverse distribution processing vendor for the MMCAP Returned Goods Program, are listed on Attachment B, Discounts and Fees.

C. Repackaging Services

Wholesaler is required to have an agreement throughout the term of the Contract period with the MMCAP-contracted repackaging vendor(s) to allow all MMCAP Participating Facilities to fully participate in the services offered by the MMCAP Repackaging Services Contract. It is expected that the Wholesaler will have contracts with all MMCAP contracted repackaging vendor(s), and to note the Repackaging Services vendor(s) is subject to change at any time.

Process Steps:

- a. The MMCAP Participating Facility notifies the Wholesaler that they would like to utilize an MMCAP repackaging services contract.
- b. Once the Wholesaler is notified, the Wholesaler begins the set-up work with the identified repackaging vendor.
- c. The repackaging vendor will then work directly with the MMCAP Participating Facility to qualify their needs. Paperwork will be sent to the MMCAP Participating Facility and a list of the drugs that

- that are being requested to have repackaged should be provided (NDCs, quantities, repackaging format, etc.)
- d. Once the MMCAP Participating Facility has been qualified by the repackaging vendor and all documentation is completed, the MMCAP Participating Facility will then request a new ship-to/bill-to account be setup by the Wholesaler.
 - e. The NDCs that are intended to be repackaged should be shared with the Wholesaler to ensure stocking adjustments have been made at the distribution center that would be servicing the repackaging vendor's facility on behalf of the MMCAP Participating Facility.
 - f. The Wholesaler would set up the new account to have all of the MMCAP Participating Facility's standard contracts and pricing applied.
 - g. The MMCAP Participating Facility will make the determination if invoicing for the repackaging services is to be through the Wholesaler or direct billed by the repackaging vendor.
 - h. MMCAP Participating Facility places their first order through the new repackaging account once fully setup and order-ready.
 - i. Repackaging vendor receives MMCAP Participating Facility's order the next day from the Wholesaler and processes the repackaging order according to the MMCAP Participating Facility requirements.
 - j. The repackaging vendor then ships the product directly to the MMCAP Participating Facility via UPS/FedEx.
 - k. Invoicing is generated based on the determination made by the MMCAP Participating Facility.

While the Wholesaler can require a repackaging vendor to pay a fee to the Wholesaler for services rendered, Wholesaler is not allowed to charge an additional fee to the MMCAP Participating Facility for utilizing this service. However if the MMCAP Participating Facility has exceeded the free delivery quota for the period of time applicable, the Wholesaler can charge a delivery fee in keeping with the delivery fee associated with exceeding the free delivery quota for the specified period of time.

The set-up of the repackaging account should not impair any account limitations or incur any initial account set-up fees to the MMCAP Participating Facility.

D. Influenza Vaccine/Medical Supplies.

Both influenza vaccine distribution and medical supplies distribution are independent, separate service offerings. It is required that reasonable efforts will be made by Wholesaler to direct MMCAP Participating Facilities to MMCAP for guidance on these service offerings. Unless Wholesaler is also awarded one or both of these other service offerings through a separate contract award processes, it is required that Wholesaler will not solicit MMCAP Participating Facilities for influenza vaccine distribution and medical supplies distribution service offerings.

4.16 Other Value-Added Services

A. Wholesaler's Generic Drug Program

Many MMCAP Members have state procurement mandates requiring the purchase of the lowest cost product. Adherence to the requirement to stock MMCAP Contract Products is in place to support the procurement mandates of MMCAP Members.

In addition to MMCAP Contract Products to support the procurement mandates of MMCAP Members MMCAP expects the Wholesaler to provide a fluid warehousing approach whereby the Wholesaler will be permitted to load its best-priced tier Generic Drug Program, offered side-by-side, in the stocking of like products. This fluid approach would allow the MMCAP Participating Facilities to choose a product from the Wholesaler's generic drug program if the product was at a lower price than the MMCAP Contract

Product. The choice would be based on price, not on the Wholesaler's generic drug product being the only product stocked.

The fluid warehousing approach requires strict adherence the following conditions:

- a. The applicable MMCAP State Contract has not opted out of the Wholesaler's Generic Drug Program.
- b. Wholesaler is not allowed to use MMCAP's contract pricing to calculate its Generic Drug Program Pricing.
- c. For consistency in communicating program savings, if Wholesaler receives requests for program savings, a demonstration of program savings, or cost avoidance regarding Wholesaler's generic drug program, Wholesaler is required to direct all inquiries to MMCAP.
- d. For consistency in communications in promoting Wholesaler's generic drug program, Wholesaler agrees to work with MMCAP on material content and potential co-branding.
- e. Wholesaler's Generic Drug Program products may be ranked before MMCAP Contract Products only if an MMCAP Participating Facility has set its ordering system to rank by price and the price is lower than the MMCAP Contract Product. If an MMCAP Participating Facility ranks by contract, then the MMCAP Contract Product must appear first.
- f. Wholesaler is required to clearly label any products on its Generic Drug Program as such in its ordering system.
- g. Wholesaler is required to identify Wholesaler's Generic Drug Program products as such when Wholesaler reports sales data to MMCAP.
- h. Wholesaler will be required to pay a monthly administrative fee of 3% to MMCAP on all sales of Wholesaler's Generic Drug Program products sold to MMCAP Participating Facilities, in addition to any distributor administrative fee payments.
- i. Service fee discounts extended to MMCAP Participating Facilities will be applied to all Generic Drug Program sales.
- j. A complete list of products and pricing under the Generic Drug Program will be available for viewing in Wholesaler's ordering systems by MMCAP and MMCAP Participating Facilities.
- k. Products in Wholesaler's Generic Drug Program available to MMCAP Participating Facilities will be generic pharmaceuticals (including vitamins and over the counter products) and will not contain medical supplies or health and beauty products, unless approved by MMCAP.
- l. Wholesaler will notify all MMCAP Participating Facilities participating in the Generic Source program and MMCAP of switches in products covered under the Generic Source program.
- m. Wholesaler is required to only institute automatic substitution upon specific request of an MMCAP Participating Facility and upon written notification by the Wholesaler to MMCAP.
- n. If the same NDC is the same price on both an MMCAP contract and on Wholesaler's Generic Drug Program, the sale will be applied to MMCAP.
- o. Wholesaler agrees to minimum stocking levels (three units/month) at each distribution center for all MMCAP Contract Products, dependent upon MMCAP Participating Facility demand.
- p. Wholesaler is required to send MMCAP's contracted invoice auditing vendor a weekly pricing file that will include all the data necessary for the invoice auditing vendor to be able to audit the pricing invoiced to MMCAP Participating Facilities.
- q. Wholesaler's ordering system will have capability to accept an MMCAP Participating Facility's zero order. MMCAP Participating Facilities will need to call Customer Service to request Wholesaler stock an MMCAP Contract Product.

In order to audit compliance and non-competitiveness with the requirements above, Wholesaler must provide a report on a monthly basis to MMCAP that details each product that is currently available on the Wholesaler's Generic Drug Program and the product price so that MMCAP can validate that the Wholesaler's Generic Drug Program is not competing with MMCAP Contract Products. The minimum data fields required are listed below:

Minimum data fields required
NDC (11-digit format)
Wholesaler product identification number
SKU or Manufacturer's part number
Product description (generic name)
Packaging
Supplier name (Manufacturer)
Quantity Purchased
Total Sales
Wholesaler's Generic Drug Program Price per Unit

Wholesaler will not use MMCAP pricing or manufacturer contract terms in the Wholesaler's generic pricing program for any other use beyond managing the MMCAP Contract for MMCAP Participating Facilities, nor will MMCAP use the Wholesaler's pricing for the same purposes. Wholesaler and MMCAP will maintain appropriate policies, procedures, and information technology and infrastructure to ensure that only those employees of the Wholesaler and MMCAP that have a need to know for performance under this Contract have access to product lists, discounts, prices, and any other information that would qualify as competitive information in connection with the contracts, subject to Minn. Stat. Ch. 13.

B. MMCAP Participating Facility Negotiated Contracts

There will likely be instances where MMCAP Participating Facilities may enter into contracts individually negotiated by MMCAP Participating Facilities. In those instances, the Wholesaler is required to agree that the ordering, delivery, payment, and reporting terms of the overlying contract with MMCAP will apply to contracts individually negotiated by MMCAP Participating Facilities, including any associated service fees.

C. Pharmacy Interfaces

Wholesaler's pharmacy interfaces with software/dispensing systems will be developed and implemented at no cost to the MMCAP Participating Facility. Training and technical support related to pharmacy interfaces will be provided at no cost.

D. Business Development

MMCAP Members benefit when opportunities to increase purchase volumes are optimized, as well as creating business wins for MMCAP vendor partners. To strengthen current relationships and develop new ones, MMCAP deploys Field Services staff to provide front-line support to current MMCAP State Contracts and MMCAP Participating Facilities and to engage state eligible entities by explaining to them the benefits available to them through leveraging the MMCAP membership contracts to their purchasing benefit. The Wholesaler will support business development opportunities, utilizing joint engagement strategies with MMCAP Field Services, to increase the use of the MMCAP contracts. Should said efforts place the Wholesaler in a position where the Wholesaler would be in breach of contract with another business partner, the Wholesaler can exempt themselves from a business development opportunity.

E. Supplemental/Additional Services

The Wholesaler must make supplemental/additional services and products that are available to its general customers, not specifically mentioned within the resulting contract with MMCAP, available to all MMCAP Participating Facilities upon request and agreement by MMCAP and the MMCAP Participating Facilities. Wholesaler shall not solicit MMCAP Participating Facilities to participate in Wholesaler's supplemental/additional services and products programs, where such programs are already provided by MMCAP to MMCAP Participating Facilities. Prior to providing these supplemental/additional services, the Wholesaler must provide full disclosure of the services or product fees and costs to MMCAP and receive approval from MMCAP before these services and products are provided to any MMCAP Participating Facilities.

Supplemental/additional services and products offered by Wholesaler, if approved by MMCAP, will be managed through an amendment to the Contract.

4.17 Business Interruption Plan

Wholesaler must have in-place during the term of this Contract, an emergency preparedness and business continuity plan. Upon request, Wholesaler will work with the MMCAP Participating Facility to develop a pre-selected list of Products that would be needed in the event of a national or regional emergency and shipped upon availability. The Wholesaler's emergency preparedness and business continuity plan is to include specificity on how the Wholesaler will ensure that MMCAP Participating Facilities would continue to receive medications during a regional/national disaster or other unforeseen malfunction in pharmaceutical distribution. Wholesaler's detailed Disaster Recovery Plan is available upon request from MMCAP or MMCAP Participating Facilities.

As part of the Business Continuity Plan, Wholesaler will provide:

1. Up to three backup locations for each distribution center
2. Emergency customer support and centralized command and control centers
3. Procedures for contacting employees
4. Strong relationships with suppliers to maintain fuel supply in the event of a shortage
5. Working relationships with government agencies and industry trade associations

4.18 Shareback Credits

Wholesaler will manage, at no additional cost or fee withheld to MMCAP or MMCAP Participating Facilities, the MMCAP annual shareback credit according to the schedule below:

1. MMCAP will provide Wholesaler a list of MMCAP Participating Facilities receiving a credit, the credit amount for each facility, and a check for the total amount of all credits to be provided.
2. Wholesaler is required to apply the credit to all listed MMCAP Participating Facilities within fifteen (15) business days of the receipt of the funds and the list of facilities receiving credit has been received from MMCAP.
3. Within 30 business days of the receipt of the funds and the list of facilities receiving credit, Wholesaler is required to provide to MMCAP an Excel Spreadsheet detailing the credit memo information. This Excel listing must include the following fields: distribution center, account number, facility name, facility address, facility city, facility state, DEA, HIN, date of credit memo, credit memo number, and credit memo amount. In addition to supplying the credit memo detail to MMCAP, the Wholesaler will also provide a listing of all accounts that are inactive that cannot have a credit memo issued.
4. Within 60 days of the date credits were applied and the inactive accounts are communicated as stated in process step #3, MMCAP must provide W-9 documents to the Wholesaler for any facilities found on the "Inactive Account" listing provide that expect to receive their credits in the form of a

check. All other outstanding credits will be refunded to MMCAP in the form of a check at the end of the 60 day waiting period.

5. The Wholesaler will work with MMCAP to identify all MMCAP Participating Facilities in an effort to issue all credits before refunding dollars back to MMCAP. Prior to any funds returned to MMCAP, written approval must be received from MMCAP.
6. Within 15 business days of written approval for funds to be returned, Wholesaler is required to issue a refund to MMCAP of the remaining dollars for which it was unable to issue credit.
7. Upon initiating the refund to MMCAP, Wholesaler will provide a copy of the original Shareback Credit spreadsheet detailing the credit information (received from MMCAP), the reason for non-application of funds, and the dollar amount of the funds being returned to MMCAP.

Should MMCAP change its process for the Shareback Credit to a more frequent interval (semi-annual, quarterly), any time during the term of this Contract, the Wholesaler will continue to manage this process as a service inclusion, with no additional cost or fee withhold to MMCAP or MMCAP Participating Facilities.

4.19 Mandatory Reports

Wholesaler will provide the reports listed herein for all MMCAP Participating Facilities regardless of a primary GPO affiliation other than MMCAP. Reports will not include pricing or other contract details for GPO purchases not associated with MMCAP. Wholesaler agrees that any similar reports provided to other GPOs for shared MMCAP Participating Facilities will not include MMCAP pricing or contract details.

Wholesaler is required to comply with specified formats, timing, and provision of all the reports listed in this Section. Reporting is a wholesaler work product requirement, for which the Wholesaler will provide, without additional cost to either MMCAP or MMCAP Participating Facilities.

*The value of such advanced reporting programs (\$99 per month for six (6) dashboards; \$30 per month for individual dashboards) constitutes a "discount or other reduction in price," as such terms are defined under the Medicare/Medicaid Anti-Kickback Statute (42 U.S.C. § 1320a-7b(b)(3)(A) and the "safe harbor" regulations regarding discounts or other reductions in price set forth in 42 C.F.R. § 1001.952(h)), on the products purchased by MMCAP Members under the terms of this Contract. MMCAP Members may have an obligation to accurately report, under any state or federal program which provides cost or charge based reimbursement for the products or services covered by this Contract, or as otherwise requested or required by any governmental agency, the net cost actually paid by MMCAP Members. In lieu of accepting this free service, MMCAP Members may elect to pay for such advanced reporting programs, at the rates set forth above. Wholesaler will adjust the Service Fee Discount by 0.40% for those MMCAP Members that notify MMCAP of their decision to opt-out of allowing the Wholesaler to attach the Wholesaler's Generic Source program.

For example, an MMCAP Member notifying MMCAP of an opt-out decision to the attachment of the Wholesaler's Generic Source program, having an average pay date of 7 Day Net Pay and a state monthly purchase volume of \$2 Million to \$5 Million, the Service Fee Discount for this MMCAP Member would decrease from -5.27% to -4.87%.

Each MMCAP Member may select one of the payment term options indicated above by indicating its selection to Wholesaler. At any time during the term of this Contract, an MMCAP Member may change its manner of paying the Wholesaler upon thirty (30) days' prior written notice to Wholesaler.

Wholesaler will accept Electronic Funds Transfer (EFT) for payment, but does not offer any additional discounts for paying by EFT.

Wholesaler will apply service fee discounts to all emergency deliveries.

Wholesaler will apply service fee discounts to all MMCAP Contract Products. Service fee discounts will be applied to MMCAP Contract Products that also meet the definition of Bulky Products. Service fee discounts will be applied to Non- Contract Products, (including Wholesaler's Generic Drug Program Products), with the exception of Non-Contract Products that also meet the definition of Bulky Products. Service fee discounts will not be applied to Non-Contract Bulky Products.

Service fee discounts will be applied to MMCAP Contract Drop Shipments. Service fee discounts will be applied to Non-Contract Products that must be drop shipped due to a Vendor-created Stock Outage (excluding cases where the manufacturer is unable to supply the MMCAP Contract Product). For example if an MMCAP Member's applicable Service Fee Discount is -2.11%, such Member's Service Fee Discount applicable to its purchases of Sovaldi® will be -2.11%, not -2.60% (Olysio® will be -2.10%). Wholesaler reserves the right to negotiate with MMCAP adjustments to Service Fee Discounts applied to brand pharmaceutical products launched after October 1, 2014. If Wholesaler and MMCAP are unable to come to an agreement on the applicable Service Fee Discount for any brand pharmaceutical product launched after October 1, 2014, Wholesaler will sell any such product that is an MMCAP Contract Product at the MMCAP Contract Price (i.e., no Service Fee Discount to be applied), or for any such product that is a Non-Contract Product, at a price equal to no more than WAC (i.e., no Service Fee Discount to be applied).

Service fee discounts are based on the previous quarter's payment performance and sales volume for each MMCAP Member. Wholesaler will be allowed to change MMCAP Members' service fee discounts four times annually within 30 calendar days after the close of each fiscal quarter (e.g., service fee discounts for January through March must be changed by April 30). If Wholesaler does not make changes to the service fee discounts within 30 calendar days, Wholesaler will be required to make the changes that positively impact MMCAP Members and backdate those changes to the first day of the quarter, but will not be allowed to make changes to those accounts that are negatively impacted until the next fiscal quarter.

Wholesaler will provide MMCAP a draft of the proposed service fee discount changes for all MMCAP Members ten (10) business days prior to the date the changes will take effect. If MMCAP identifies any errors in the proposed service fee discounts, Wholesaler will resolve any concerns, by reviewing, modifying, and resending a draft of the proposed changes such that the required deadline is met.

Cardinal Health Pharmaceutical Distribution Returned Goods Policy

Products in "merchantable condition" (as defined below) and originally purchased from Cardinal Health may generally be returned to the customer's servicing Cardinal Health distribution center in accordance with, and subject to, the terms and conditions of this policy.

Return Made Within:

1 – 60 Days from Invoice Date

Normal Credit Amount:

100% of original invoice amount paid by customer. This policy covers all order shortages, filling errors and damage if reported within three (3) business days and such products are returned within ten (10) business days of the date of the applicable invoice. Recalled products must be returned in accordance with applicable recall terms.

61 – 180 Days

85% of original invoice amount paid by customer. Provided, however, if applicable Cardinal Health mark-up is greater than 0%, credit will be based on customer's contract cost or Cardinal Health's then-current base cost, as applicable.

181 – 365 Days

70% of original invoice amount paid by customer. Provided, however, if applicable Cardinal Health mark-up is greater than 0%, credit will be based on customer's contract cost or Cardinal Health's then-current base cost, as applicable.

Returns made greater than 365 days from the invoice date will not be accepted. No credit will be issued, and the product will be returned to customer.

Recalls

100% of return value (prorated for partial return) or, if known, applicable manufacturer credit.

"Merchantable condition" will be determined by Cardinal Health based upon its ability to return the product to its inventory for resale in the normal course of its business, without special preparation, testing, handling, or expense and will **exclude** the following:

- a) Any product purchased from any supplier other than Cardinal Health;
- b) Any product which has been used or opened; is a partial dispensing unit or unit of sale; is without all original packaging, labeling, inserts, or operating manuals; or that is stickered, marked, damaged, defaced, or otherwise cannot readily be resold by Cardinal Health for any reason.
- c) Short-dated (less than seven (7) months expiration dating)
- d) Any product that is outdated, seasonal, purchased on a "special order" basis, non-stocked or discontinued, drop-shipped, deals, pre-packs, frozen, products with low stability (e.g., unusually sensitive to temperature/handling situations), products considered to be toxic waste, and products not returnable by law proposed at the time of return and products remaining in opened containers.
- e) Any product not intended for return to a wholesaler in accordance with the return policies of the applicable manufacturer.
- f) Any product listed by any state or federal regulatory agency as a high-risk pedigree item that is returned without a valid invoice number that cannot otherwise be verified by Cardinal Health.

Unmerchutable Products

Any product not eligible for return in accordance with this policy (i.e., the product is not in "merchutable condition" as set forth above) will require return directly to the manufacturer. If any such products are returned to Cardinal Health, they will be returned to customer and no credit will be issued. Stickered products will be handled as follows: Cardinal Health will remove the sticker, retain the product and credit the customer (as applicable pursuant to this policy). If the product is damaged during the removal of the sticker, no credit will be issued to customer and the product will be returned to customer.

Notwithstanding the foregoing, in any case where Cardinal Health accepts the return of such products and agrees to return such products to the applicable manufacturer on behalf of customer (provided the manufacturer allows the return of such products), any credit issued to customer will be determined by Cardinal Health.

Required Return Documentation

Prior to returning any product to Cardinal Health, customer must execute and deliver to Cardinal Health a **Cardinal Health Returned Goods Authorization Ongoing Assurance** verifying that all returned products have been kept under proper conditions for storage, handling, and shipping. A fully completed and signed **Merchandise Return Authorization Form** (the "MRA Form") must accompany all products to be returned. **Note:** An MRA Form cannot be fully completed without a valid invoice number. The request for an MRA Form will be rejected if a valid invoice number is not provided.

Controlled Substances

Credit for the return of controlled substances requires a separate MRA Form and such returns must comply with all applicable laws, rules and regulations in addition to the terms and conditions of this policy.

Refrigerated, Chemotherapy and Hazardous Products

Refrigerated, chemotherapy and hazardous products must be returned in packaging that complies with applicable regulatory requirements. All such products that are not returned in packaging that complies with applicable regulatory requirements will be considered damaged and unsaleable. This product will be destroyed and no credit will be issued to customer.

Shorts and Damaged Products

Claims of order shortages (e.g., products invoiced but not received), filling errors and damage must be reported within three (3) business days from the applicable invoice date, or no credit will be issued. Returns of damaged products or products shipped in error must be received by the Cardinal Health servicing distribution center within ten (10) business days from the applicable invoice date, or no credit will be issued. Controlled substance shortage claims must be reported immediately per DEA requirements. In all instances, credit will not be issued until verification of the claim by Cardinal Health.

No deductions may be taken by customer until a valid credit memo is issued by Cardinal Health.

Shipping of Return Products

Products to be returned must be placed in a proper shipping container and signed for by the driver when picked up.

Signed MRA Forms shall be included in totes with the returned products. Only one (1) MRA Form shall be included in each tote.

- a) If the MRA Form is not signed, no credit will be issued, and the products will be returned to the customer.

- b) If the MRA Form is not inside the tote with the returned products, Cardinal Health will attempt to identify the customer that returned the products. The tote will then be returned to the customer with a request for a completed MRA Form(s).
- c) No credit will be issued for products returned but not listed on the accompanying MRA Form. Such products will be returned to the customer.

All MRA Forms will be reviewed by Cardinal Health for compliance with this policy. The acceptability and valuation of any return is at the sole discretion of Cardinal Health.

Products must be returned to the customer's servicing Cardinal Health distribution center within thirty (30) days from the date of customer's request for an MRA Form, or no credit will be issued. In addition to the requirements set forth in this policy, Customer shall comply with all return procedures required by the Cardinal Health servicing distribution center.

Other Restrictions

Excessive returns may result in higher restocking fees as deemed necessary by Cardinal Health. In such an instance, Cardinal Health shall provide customer and MMCAP with at least (30) days written notice prior to implementing a higher restocking fee.

This policy is subject to change without prior notice by Cardinal Health. This policy is further subject to modification as may be deemed necessary or appropriate by Cardinal Health to comply with applicable federal and/or state regulations, FDA guidelines, state law, and other restrictions applicable to returned products. Cardinal Health will use commercially reasonable efforts to notify MMCAP of any change to this policy within ten (10) business days of said change.

Importance: High

Martha,

The MPA for Miami Dade County has been signed and notarized as required. However there was some additional language changes that were made:

Change 1 (Page 1):

Regarding the reference to Cardinal Health 110, Cardinal proposed the following:

"Miami Dade County within the State of Florida desires to access the MMCAP agreement (MMS15001) for wholesaler services with Wholesaler (specifically, Cardinal Health 110, LLC), which is incorporated into this MPA by reference."

Change 2 (Page 2):

The language had read:

"All orders shall be placed directly by the ordering entity with the Wholesaler and shall be paid by the ordering entity less the 2% UAP."

It now reads as highlighted in yellow:

B. Joint Purchase

Only those entities that have been approved by the County for participation in the County's Joint Purchase and Entity Revenue Sharing Agreement are eligible to utilize or receive County Contract/Agreement pricing and terms and conditions. The County will provide to the approved entities a UAP Participation Validation Number. The Wholesaler must obtain the participation number from the entity prior to filling any order placed pursuant to this Section. Wholesaler participation in this joint purchase portion of the UAP, however, is voluntary.

The County shall have no liability to the Wholesaler for the cost of any purchase made by an ordering entity under the UAP and shall not be deemed to be a party thereto. All orders shall be placed directly by the ordering entity with the Wholesaler and subject to the service fee discount matrix as specified in Section 3 Pricing.

Per our earlier discussion, should Miami Dade County want this MPA to be incorporated into the MMCAP agreement, the next signatures are yours. MMCAP will sign last to finish the execution.

Debra

Lisa,

Here is the edit that I made to that 2% language:

B. Joint Purchase

Only those entities that have been approved by the County for participation in the County's Joint Purchase and Entity Revenue Sharing Agreement are eligible to utilize or receive County Contract/Agreement pricing and terms and conditions. The County will provide to the approved entities a UAP Participation Validation Number. The Wholesaler must obtain the participation number from the entity prior to filling any order placed pursuant to this Section. Wholesaler participation in this joint purchase portion of the UAP, however, is voluntary.

The County shall have no liability to the Wholesaler for the cost of any purchase made by an ordering entity under the UAP and shall not be deemed to be a party thereto. All orders shall be placed directly by the ordering entity with the Wholesaler and subject to the service fee discount matrix as specified in Section 3 Pricing.

and I made your second change in the attached document. If this takes care of it for you, let's get this signed so that it can be presented to Miami-Dade County for their signature. Thanks!

Debra

Hi Debra,

Legal reviewed the proposed changes and had the following comments:

- We still think that language about the 2% makes it look like the customer can deduct 2% from the invoices they pay us (even with the heading changed on the matrix). Could you remove or modify the language under Joint Purchase to be more clear?
- Regarding the reference to Cardinal Health 110, it is still unclear. We propose the following:

"Miami Dade County within the State of Florida desires to access the MMCAP agreement (MMS15001) for wholesaler services with Wholesaler (specifically, Cardinal Health 110, LLC), which is incorporated into this MPA by reference."

Let me know.....thanks!

Hi Debra,

We reviewed the MPA and it looks fine overall. We did have a few suggestions/questions:

- Defined terms should be used in the Scope paragraph – “Miami Dade County within the State of Florida desires to access MMCAP’s contract with Wholesaler (MMS15001), which is incorporated into this MPA by reference.” I have the contract number referenced, but I think Miami –Dade was trying to specifically identify which Cardinal entity they do business with which is Cardinal Health 110. Is this modification okay?

Scope: Miami Dade County within the State of Florida desires to access the MMCAP agreement (MMS15001) for wholesaler services with Wholesaler Cardinal Health 110, (Cardinal) which is incorporated into this MPA by reference.

- Under Additional Terms, first paragraph, the reference to “Cardinal” should be “Wholesaler.” FIXED

Additional Terms:

The following terms and conditions apply solely to the performance of Wholesaler and Miami Dade County and solely for facilities designated as applicable by Miami Dade County. These terms will be enforced by Miami Dade County.

- Can you please elaborate what the end of the second paragraph under Join Purchase means – “All orders shall be placed directly by the ordering entity with the Wholesaler and shall be paid by the ordering entity less the 2% UAP.” The COGs grid should take into account the UAP.

I think this is to re-affirm that the ordering entity has an upcharge responsibility. We could put more specificity in the chart by identifying that the 2% UAP and ¼% audit fee are reflected in the service fee matrix, so that there is no confusion for the user.

Thanks!

Jim and Lisa,

I know that when you are sent these type of documents for signature by Dorothy Johnson, our Contracts Administrator, she is very formal in sending them to you, so please forgive my informality in sending you these documents for signature.

Since this MPA has been long in coming, Heather Pickett suggested I just send it to you for signature, for Dorothy is out of the office until Thursday, and then we'll route it to Miami Dade County for their signature, and then MMCAP will sign it along with the signatory for the State of Minnesota. The other reason for sending it to Cardinal first is that Miami Dade County requires the signature be attested to by the Corporate Secretary/Notary and to affix the Corporate Seal. We suggested this requirement be removed, since the last time all they sent was a letter directly for Cardinal to sign, which was signed by Anita Anderson on December 21, 2009, they did not have this requirement, but we failed to on this front to remove this requirement. We consider all the other MPA provision concessions made by Miami Dade County to be our win on this.

Please note that it was confirmed by the State of Florida that the MyFloridaMarketPlace fee of 1% is not applicable to purchases may be facilities in Miami-Dade, which is a significant boon for those facilities, particularly since Miami Dade County collects 2.25% for two county imposed fees they have in place.

If you can get this signed, and notarized, including corporate seal by tomorrow, you can send it back to me and I'll send it on its way to Miami Dade for their signature.

Thanks for the assist.

Regards,

Debra

Notwithstanding the foregoing, the Miami-Dade County Board of County Commissioners may authorize the inclusion of the fee assessment of one quarter (1/4) of one percent in any exempted contract at the time of award.

2. COUNTY USER ACCESS PROGRAM (UAP)

Pursuant to Section 2-8.10 of the Miami-Dade County Code, this Agreement is subject to a user access fee under the County User Access Program (UAP) in the amount of two percent (2%). All sales resulting from this Agreement, or any subsequent Agreement and the utilization of the County Agreement price and the terms and conditions identified herein, are subject to the two percent (2%) UAP. This fee applies to all Agreement usage whether by County Departments or by any other governmental, quasi-governmental or not-for-profit entity.
