- **Spotlight Feature:**

- **Recent Departmental Feedback –**

- "INFORMS has provided the foundation to consolidate all business processes into one platform. It also automates accrual-based accounting for Miami-Dade County by using the various modules, which used to be a manual process in Miami-Dade County's Financial Accounting and Management Information System." Miami-Dade Police Department – Nicholas Santos
- "The system produces excellent reports, is very user friendly, and provides users the capability to modify existing Direct Journal Deposits before final submittal." Finance Code Enforcement – Alli Paula
- "You and your team have been very patient and helpful to us. We understand some issues are from our end (user input) and there have been a few on the INFORMS side (kinks in the system) but regardless we work as a team always with your help and cooperation to get the job done. We appreciate you All." – Andrew Warburton (Seaport)

Thank you,
INFORMS Team
