

INFORMS Business Intelligence (BI) is live TODAY! Miami-Dade County's new reporting tool is finally here.

**What is INFORMS BI?**

- A multi-purpose interactive dashboard and reporting tool that utilizes Oracle Business Intelligence Application (OBIA)
- INFORMS BI provides standardized reporting with Dashboards and Reports based on the business areas within INFORMS
- This tool simplifies data analytics and reporting

This is the first launch of INFORMS BI. The reporting tool will grow to include additional features and business areas. Please continue to look for communications about future expansions.

**Who has access to INFORMS BI?**

- The first launch of INFORMS BI is accessible to a subset of department users
- As additional features become available additional department users will gain access

**How do I learn more about INFORMS BI?**

- Visit INFORMS Training to view your reference materials (e.g., UPKs, Training Guide)

Thank you,  
INFORMS team
