

Dear INFORMS Users,

We are excited to share that additional INFORMS Business Intelligence (BI) reports and dashboards features are now available for the Financials and Supply Chain Management (FSCM)! We encourage you to access the system and give it a try.

This is the second wave of INFORMS BI Dashboards/Reports. **What is included?**

- **Budgetary Control** – *This subject area will contain reports looking at Budget consumption.*
- **Receivables** – *This subject area will contain reports looking at Accounts Receivable and Billing information.*
- **Procurement** – *This subject area will contain reports looking at Purchase Order information.*

Kindly note the reporting tool will grow to include additional features and business areas. Please continue to look for communications about future expansions which will include more dashboards, reports, and ad-hoc reporting capabilities by early 2023.

Who has access to INFORMS BI?

- The second wave of INFORMS BI is accessible to a subset of department users.
- As we evolve our BI analytic information, additional users will be provisioned, and enhanced capabilities will be communicated.
-

How do I learn more about INFORMS BI?

- Visit [INFORMS Training](#) to view your reference materials (e.g., UPKs, Training Guide)

Thank you,
INFORMS team
