CHAPTER 1

1. INTRODUCTION AND PURPOSE

The Miami-Dade County Department of Transportation and Public Works (DTPW) is pleased to submit this Transit Development Plan (TDP) Annual Progress Report (APR) to the Florida Department of Transportation (FDOT District VI). The timely submission of the TDP ensures that DTPW remains eligible for the State Transit Block Grant Program, which sustains operations funding for the year to come.

The State of Florida Public Transit Block Grant Program was enacted by the Florida Legislature to provide a stable source of state funding for public transportation. The Block Grant Program requires public transit service providers to develop and adopt a TDP. A TDP major update is required every five years and TDP annual progress reports are required in the interim years. TDP updates must be submitted to FDOT by September 1st of each year.

This TDP Annual Progress Report has been prepared in accordance with Florida Administrative Code (FAC) Rule 14-73.001. Transit Development Plans are required for grant program recipients pursuant to Section 341.052, F.S. A TDP shall be the provider's planning, development, and operational guidance document, based on a ten-year planning horizon and covering the year for which funding is sought, and the nine subsequent years.

This TDP, titled MDT10Ahead 2020 Annual Progress Report, presents both funded and unfunded transit needs to create a framework for transit improvements that can be implemented within a 10-year planning horizon. DTPW's last Major Update was prepared in 2019 and was adopted by the Board of County Commissioners and approved by the FDOT, pursuant to resolution R-1375-19.

1.1. Related Plans

The TDP informs and is informed by other Land Use and Transportation Plans in Miami-Dade County. MDT10Ahead identifies the county's long-term transit infrastructure needs, which are used in the development of the Miami-Dade Transportation Planning Organization (TPO) Long Range Transportation Plan (LRTP). The TDP also identifies and presents short-term improvements for implementation through the TPO's Five-Year Transportation Improvement Program (TIP), FDOT's Work Program process, the Citizens' Independent Transportation Trust (CITT) Five-Year Implementation Plan, and Miami-Dade County's FY 2020 Adopted Budget and Multi-Year Capital Plan. These planning documents are listed in this section by planning horizon, longest to shortest.

1.1.1. 2045 Long Range Transportation Plan

Regularly updating the Miami-Dade County Long Range Transportation Plan (LRTP) is a primary activity in Miami-Dade County's transportation planning process, with federal and state requirements for an update of the Transportation Plan every five years. Federal law requires that the LRTP address a minimum of a 20-year planning horizon from the date of the TPO adoption.

The 2045 LRTP was approved by the TPO Governing Board on September 26th, 2019, and includes four planning periods with their own implementation years. Projects identified as plan period I are scheduled for implementation between 2020 and 2025; plan period II between 2026 and 2030; plan period III between 2031 and 2035; and plan period IV between 2036 and 2045. The plan also lists partially funded and unfunded projects as well as projects funded by the private sector, developers and set aside funds.

1.1.2. Transit Development Plan - MDTIOAhead

MDT10Ahead presents both funded and unfunded transit needs in order to create a framework for transit improvements that can be implemented within a 10-year planning horizon. As previously mentioned, DTPW is a recipient of the State of Florida Public Transit Block Grant Program and is required to develop a TDP on an annual basis with major updates required every five years.

The 2019 Major Update, MDT10Ahead, was adopted by the Board of County Commissioners (BCC) on December 17th, 2019.

1.1.3. Florida Department of Transportation Five Year Work Program

The Work Program is the tentative list of projects that will be funded and carried out in District 6 (including Miami-Dade and Monroe counties) during the next five years. Developed annually, it is FDOT's budget for work in Miami-Dade and Monroe counties. Projects are identified and schedules are developed based on priorities and allocated funds.

In each cycle, a new fifth year is added, and the first year drops off as projects are completed. A new project only begins to move forward after it is funded and then placed in the Work Program's fifth year. Each phase of a project generally takes two years to complete. Therefore, some projects could take up to 10 years or more from initiation to completion and would cycle through the Work Program several times. The current Five Year Work Program covers state FY 2020 through FY 2024 (July 1st, 2019 through June 30th, 2024).

1.1.4. State Transportation Improvement Program

The State Transportation Improvement Program (STIP) is a federally mandated document which includes a list of projects planned with federal participation in the next four fiscal years. The report is based upon the same projects that are listed in the first four years of FDOT's Adopted Five Year Work Program. The STIP is approved annually by Federal Highway Administration (FHWA) at the beginning of each federal fiscal year.

Projects shown in both the Work Program and the STIP are all drawn from the same Work Program Administration (WPA) database. Work Program reports and STIP reports contain the same projects programmed in the WPA database, with different formatting. For a project to be listed in the approved STIP, it must first be included in the WPA database and programmed in the first four years of the Adopted Five Year Work Program. The project must either be included in the Tentative Work Program during the annual Tentative Work Program development cycle, or it must be amended into the Work Program and STIP after it has been adopted on July 1st of each state fiscal year. The current STIP covers state FY 2020-23 (July 1st, 2019 through June 30th, 2023).

1.1.5. Transportation Improvement Program

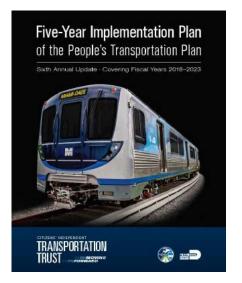

The TIP contains the transportation improvement projects planned for the next five years. All projects receiving federal funds must be included in this plan. Other major projects which are part of the area's program of improvements, but do not receive federal funds, are included in the TIP as part of the planning process.

The current 2020 TIP covers federal FY 2020 through FY 2024 (October 1st, 2019 - September 30th, 2024) and was approved by the TPO Governing Board on June 21st 2019. Categories of improvements include Highway, Transit, Aviation, Seaport, and Non-Motorized improvements. All projects and priorities listed in the adopted TIP are consistent with those in the adopted 2040 LRTP. The 2021 TIP will be consistent with the 2045 LRTP.

1.1.6. Citizens' Independent Transportation Trust Five-Year Implementation Plan

The Citizens' Independent Transportation Trust (CITT) 5-Year Implementation Plan documents the current implementation status of surtax-funded People's Transportation Plan (PTP) projects as well as their progress versus the baseline provided in the previous year's initial plan. This includes references to projects from the County's 2019-2020 Proposed Capital Budget. Annual updates to the CITT Implementation Plan document will continue to monitor and report on the implementation of the projects, their adherence to budget and schedule, and any changes to the Plan including project additions, deletions or deferrals. The current Five Year Implementation Plan covers federal FY 2020 through FY 2025 (October 1st, 2020 - September 30th, 2025).

1.1.7. Adopted Budget and Multi-Year Capital Plan

Miami-Dade County has a responsibility to appropriately plan for and strategically manage the funding of public services desired by the community. The annual budget and multi-year capital plan are essentially a plan of activities consistent with the County's Strategic Plan and the resources required to achieve those goals. The County's adopted budget is a powerful financial management tool that helps:

- Prioritize programs and service levels
- Prepare for operational challenges in advance
- Provide appropriate funding to each department
- Create accountability and ensure transparency of the planned use of public funds
- Establish a sound fiscal framework for proper day to day monitoring

Each department's operating and capital budgets are evaluated on an annual basis as one cohesive plan. The County's budget and multi-year capital plan spans six fiscal years and is adopted on an annual basis by the Board of County Commissioners, and conveys the services to be delivered to the community as well as the resources required to provide those services.

The current Adopted Budget and Multi-Year Capital Plan covers FY 2020 (October 1st, 2019 through September 30th, 2020).

2. OVERVIEW OF EXISTING DTPW SERVICES

DTPW operates the 18th largest transit system in the United States¹. With a total service area of approximately 306 square miles that encompasses 34 municipalities and includes service into adjacent Broward and Monroe Counties, DTPW provides an assortment of transit services to meet the mobility needs of its 2.7 million residents and 24.2 million annual visitors².

DTPW operates an integrated multi-modal transit system comprised of four modes: motor bus (Metrobus), heavy rail (Metrorail), automated people mover (APM - Metromover), and demand-response service (Special Transportation Services or STS). Overall, DTPW vehicles traveled over 62 million miles providing more than 82 million unlinked passenger trips in 2019; 61.4% of those trips were made on Metrobus, 23.2% on Metrorail, 10% on Metromover, and the remainder on STS, Express Buses, and Vanpools.

The department is led by Department Director Alice Bravo. Table 2-1 lists the operating characteristics of DTPW transit services. The DTPW Departmental Table of Organization is available in Appendix 1.

DTPW is one of the largest departments in Miami-Dade County government and is responsible for planning and providing public transit services to the entire county. The department consists of over 3,500 employees working in all aspects of transit operations and administration.

Department of Transportation and Public Works - Transit Mission Statement:

Plan for, operate, and maintain a clean, safe, reliable, and convenient transportation system that effectively enhances mobility in Miami-Dade County.

American Public Transportation Association 2019 Public Transportation Fact Book, based on unlinked passenger trips and passenger miles traveled

- 1 Source: National Transit Database, Annual Database 2018
- 2 Source: National Transit Database, Department of Transportation and Public Works, 3rd submission, March 2020 6 Metrobus routes (L, S, 3, 11, 27) operate 24 hours per day. One route, 38/Busway MAX, operates 24 hours per day on weekdays only. Two other routes, 246/Night Owl and 500/Midnight Owl, provide hourly bus service approximately between 12:00 am 5:06 AM.
- 4 In addition to the 32 designated bus stops for the two routes, buses pick up passengers anywhere along the routes when hailed.
- 5 Five-minute combined headway (Orange Line and Green Line) during the peak AM and PM travel times from Dadeland South Station to the Earlington Heights Station. The Green Line Metrorail Service operates at 10-minute headways during the peak AM and PM travel times between the Palmetto Station and the Dadeland South Station. Orange line operates at 10-minute peak headways between the Miami International Airport and Dadeland South stations. During weekends and off-peak periods, combined headway is 15 minutes. Single line segments operate with 30-minute headways.
- 6 Includes all modes. Park and Ride Revenue: \$2,114,128; Auxiliary Revenue: \$5,347,627; Other Agency Revenue: \$12,966,090.
- 7 Express Bus fare for routes operating within the County is \$2.25; Routes that travel to other counties (301 Dade-Monroe Express, 302 Card Sound Express, and four 95 Dade-Broward Express routes) remain at the express trip fare of \$2.65. Circulator/Shuttle bus fare is \$0.25.

2.1. Metrobus

Metrobus is DTPW's fixed-route bus service. Metrobus operates seven days a week, 24 hours per day. A total of 73 routes comprise DTPW's regular bus service structure as served by a total fleet of 761 buses, supplemented by 25 contracted routes operating with 64 buses. DTPW's family of Metrobus services include local, circulator, limited-stop and express routes. Figure 2-1 presents the Metrobus system route map, while Figure 2-2 illustrates the DTPW Metrobus service area coverage. A detailed service schedule for current DTPW operated Metrobus routes is presented in Appendix A.2.

Table 2-2: Metrobus Service Characteristics

| Service Type | Routes | Route Miles |
|--------------|--------|-------------|
| Circulator | 11 | 101 |
| Local | 66 | 1,648 |
| Limited Stop | 7 | 186 |
| Express | 14 | 682 |
| Total | 98 | 2,617 |

Source: Miami-Dade County GIS and Dec. 2019 Ridership Technical Report

2.1.1. Local Service

Local bus service collects and distributes high-turnover ridership along arterials radiating to and from dense activity centers. This service type is characterized by frequent stops, short and moderate passenger trips, and comparatively low average bus speeds over the course of a route.

2.1.2. Circulator Service

Circulator or shuttle bus service operates short route connections between activity centers, or as a feeder to provide a connection with another transit service. For DTPW, these local community routes include a shuttle connecting to the Hialeah Market Tri-Rail station in Miami-Dade County.

2.1.3. Limited-Stop Service

Limited-stop service skips some stops and only serves designated high ridership bus stops along a route. With fewer stops, limited-stop routes have significantly increased operating speeds when compared to local service. MAX routes serve stops at major transfer points or approximately every one-half mile (in the Miami Central Business District (CBD)) to one mile (in suburban areas) along a route. Route 277, the NW 7th Avenue MAX, is an example of a limited-stop bus service, which operates during the morning and evening rush hours.

2.1.4. Express Bus Service

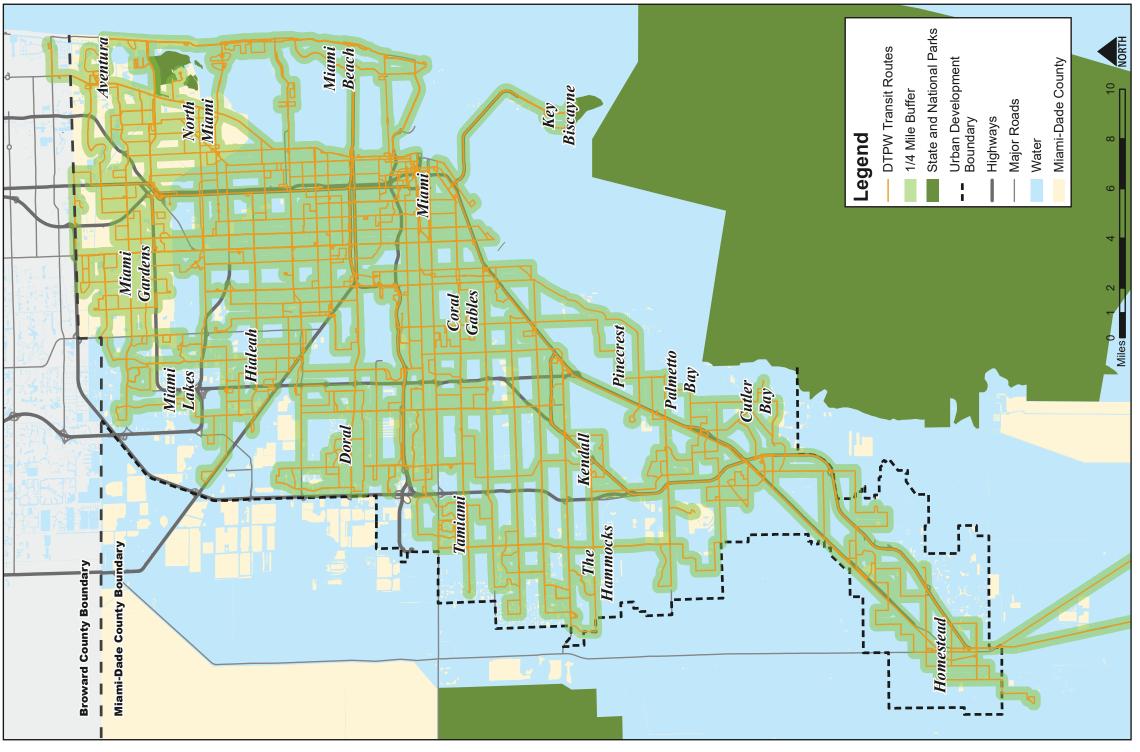

Express Bus service is similar to limited-stop service which has fewer stops and operates at a higher speed than local bus service. Express routes connect outlying areas, with direct service to designated activity centers such as the Miami CBD. These routes usually operate along a freeway or major arterial road to increase the operating speed. The 95 Dade-Broward Express Route that operates within the I-95 express lanes is an existing express service operated by DTPW. Metrobus Route 175 is an express bus route which began service in 2019. It provides service from the new Park & Ride Lot at I-75 and Miami Gardens Drive (near Florida's Turnpike) to Palmetto Metrorail Station via I-75 and SR-826.

2.1.5. South Dade Transitway

A resolution was passed in June of 2016 re-branding what was formerly known as the "South Miami-Dade Busway" to the "South Dade Transitway." The Transitway is a 19.8-mile two-lane, at-grade corridor exclusively for DTPW bus service which runs parallel to U.S. 1 from SW 344th Street in South Miami-Dade to the Dadeland South Metrorail Station. Full size (40-foot) and articulated (60-foot) buses serve 30 stations (including Dadeland North) and six park-and-ride lots along the Transitway. Buses also operate within adjacent neighborhoods and enter the exclusive lanes at major intersections.

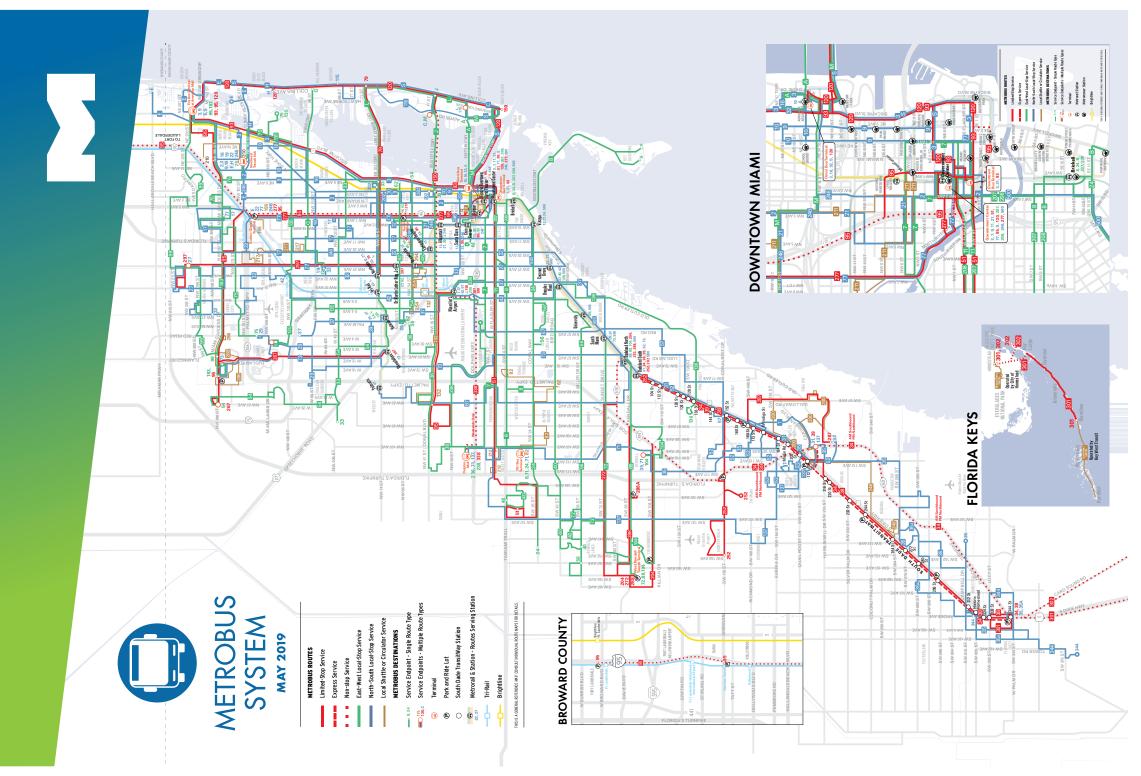

The transitway has many travel-time saving features such as exclusive travel lanes, fewer stops, and preferential signal phasing at intersections. To maximize the efficacy of these feature, most of the routes operating on the Transitway provide limited-stop service, express service, or have sections that offer limited stop or express service, including routes 31, 34, 38, 52, 252, and 287.

2.2. Metrorail

Metrorail provides passenger service to 23 stations on a 25.1-mile heavy rail electrified line. The system operates on an elevated guideway with transfer points to Tri-Rail commuter rail service, the DTPW Metromover system, and the South Miami-Dade Transitway. DTPW maintains a total fleet of 172 Metrorail vehicles. Daily passenger service starts at approximately 5:00 A.M. from the terminal stations.

The last southbound trains depart the Palmetto and Airport Stations at:

- Palmetto Station, Green Line departs at 11:54 P.M. and arrives at Dadeland South at 12:41A.M.
- Airport Station, Orange Line departs at 12:23 A.M. and arrives at Dadeland South at 12:56 A.M.

The last northbound trains depart Dadeland South Station at:

- Dadeland South, Orange Line departs at 11:45 P.M. and arrives at the Airport Station at 12:18 A.M.
- Dadeland South, Green Line departs at 12:00 A.M. and arrives at the Palmetto Station 12:48 A.M.

Station to Dadeland South Station and the Orange Line from the Miami Intermodal Center (MIC) at Miami International Airport (MIA) to Dadeland South Station.

The Orange Line provides direct service between the MIC and Dadeland South Station every 15 minutes during peak hours. The Green Line operates at 15-minute headways during the morning and afternoon peak travel times between the Palmetto Station and Dadeland South Station.

Both lines provide premium transit service with a combined headway of 7.5 to 8 minutes during the peak morning and afternoon travel times from Dadeland South Station to the Earlington Heights Station. Weekend and holiday Green Line and Orange Line service operates with headways of 30 minutes and combine to provide a 15 minute headway from Earlington Heights to Dadeland South Station. DTPW provides a Metrorail Downtown Express Service from Dadeland North to Brickell Station in the morning peak periods and from Brickell to Dadeland North in the afternoon peak periods.

Figure 2-3 illustrates the DTPW Metromover system map as of December 2019.

Figure 2-3: Metrorail System Map

2.3. Metromover

The Metromover is an elevated system that serves 21 stations and is comprised of three loops:

- Downtown Miami Central Business District (Inner/Downtown Loop);
- Adrienne Arsht Center and Perez Arts Museum to the north (Outer/Omni Loop) and,
- Brickell area to the south (Outer/Brickell Loop).

DTPW maintains a fleet of 29 Metromover vehicles and operates with a maximum of two cars per train. Metromover operates free of charge and stops at 21 wheelchair-accessible stations from the School Board area to Brickell, serving major destinations throughout Downtown Miami.

Metromover's Inner/Downtown, Outer/Omni and Brickell loops operate seven days a week and runs from 5:00 A.M. to 12:00 A.M. During the morning and afternoon peak periods, service frequency is every 90 seconds in the central business district and every three minutes during weekends and holidays.

On the Omni and Brickell Loops, service frequency is five minutes during peak periods and six minutes during weekends and holidays.

Figure 2-4 illustrates the DTPW Metromover system map as of December 2019.

Figure 2-4: Metromover System Map

2.4. Special Transportation Services

As mandated by the Americans with Disabilities Act of 1990 (ADA), DTPW operates a demand-response service known as STS, a shared-ride, door-to-door transportation service for certified individuals with disabilities who are unable to utilize the accessible fixed-route transit system.

Service is provided by sedans, vans and lift-equipped vehicles, seven days a week, 24 hours per day. Presently, there are 389 vehicles available for paratransit service transportation. Currently, these vehicles are privately contracted through Transportation America (TA).

As of December 2019, a total of 31,477 eligible clients are enrolled in the STS program including both ambulatory and non-ambulatory clients.

2.5. Services Provided by Private Contractors

DTPW currently contracts out 23 fixed route bus services, which are operated by America's Transportation (AT) and Limousines of South Florida (LSF), and serves approximately 860 bus stops and 100 directional route miles in Miami-Dade County. AT operates one express bus routes that provides service to Mile Marker 50 in the City of Marathon in Monroe County (Routes 301) and another express bus route that provides service from Florida City City Hall to Key Largo/Ocean Reef Club via Card Sound Road (Route 302). LSF operates 23 bus routes that serve approximately 860 bus stops and 100 directional route miles in Miami-Dade County. The private sector also provides several transit support services, such as:

- Security at Metrorail/Metromover stations, as well as other DTPW facilities;
- Maintenance-type service, such as tires, janitorial, elevators/escalators, etc.;
- Marketing and other similar contracts;
- Planning and technical support;
- Maintenance of bus benches/shelters at no cost to the County; and,
- Bus/rail advertising services

Transit Development Plan FY 2021 - 2030

2.6. Miami-Dade Transit Passenger Fare Structure

DTPW's automated passenger fare collection system for Metrorail and Metrobus is known as the EASY Card. Cash fare payments are still accepted on Metrobus; however, Metrobus passengers are encouraged to purchase the DTPW EASY Card to take advantage of discounted transfer fees. Metrorail passengers are now required to purchase and load the contactless DTPW EASY Card. These cards are purchased at a fee of \$2.00 and loaded with appropriate fare amounts for passage. Additionally, transit customers can use the GO App or Contactless payment, Table 2-3 presents the current fare structure.

Table 2-3: DTPW Fare Structure Summary (December 2019)

| | Regular Fare | Discount Fare ¹ |
|--|----------------|----------------------------|
| Metrobus | \$2.25 | \$1.10 |
| Inter-County Express Bus | \$2.65 | \$1.10 - \$1.30 |
| Intra County Express Bus Reg Fare | \$2.25 | \$1.30 |
| Shuttle Bus ² | 25¢ | 10¢ |
| Metrorail | \$2.25 | \$1.10 |
| Metrorail daily parking fee | \$4.50 | Not Applicable |
| Metrorail monthly parking permit ³ | \$11.25 | Not Applicable |
| Metromover | Free | Free |
| Special Transportation Service (STS) | \$3.50 | Not applicable |
| Bus-to-Bus Transfer ⁴ | Free | Free |
| Bus-to-Express Bus Transfer | 95¢ | 45¢ |
| Bus-to-Rail Transfer | 60¢ | 30¢ |
| Rail-to-Bus Transfer | 60¢ | 30¢ |
| Shuttle Bus-to-Bus or Rail Transfer | \$2.00 | \$1.00 |
| Shuttle Bus-to-Express Bus Transfer | \$2.40 | \$1.20 |
| 1-Month Pass | \$112.50 | \$56.25 |
| 1-Month Pass + Monthly Metrorail Parking Permit | \$123.75 | \$67.50 |
| 1-Month Pass - Group Discount 4-99 passes | \$101.25 | Not applicable |
| Regional Monthly Pass | \$145 | \$72.50 |
| 1-Month Pass - Group Discount 100 or more passes | \$95.65 | Not applicable |
| 7-Day Pass | \$29.25 | \$14.60 |
| 1-Day Pass | \$5.65 | \$2.80 |
| College/Adult Education Center Monthly Pass | \$56.25 | Not applicable |
| Golden Passport or Patriot Passport | Free | Free |
| EASY Card (cost of media) | \$2.00 | Not applicable |
| EASY Ticket (cost of media) | Free | Not applicable |
| Transit Mobility | Free | Free |
| Commuter Reduced | Not Applicable | Half-fare |

¹ Discount fare is available for Medicare recipients, most people with disabilities, and students in grades K-12 when using an EASY Card for discount fare rides, which replaces all previous discount IDs and permits. Preschool children can ride Metrobus and Metrorail free at all times with an accompanying adult. Parents or guardians of pre-schoolers are encouraged to present proof of age to bus operators and rail personnel to access the system. EASY Cards are not issued to pre-schoolers.

² DTPW operates six shuttle routes: 132/Doral-Tri-Rail Shuttle, 200/Cutler Bay Local, 211/Overtown Circulator, 212/Sweetwater Circulator, 254/Brownsville Circulator, and 286/North Pointe Circulator. There is no fare for route 132 (Doral-Tri-Rail Shuttle).

³ Only available with the purchase of a monthly pass.

⁴ Transfers are free for passengers traveling in one direction (not for round trips) using an EASY Card or EASY Ticket only within three hours of initial access of system. Passengers paying with cash must pay the full fare each time they board a bus.

2.6.1. Farebox Recovery Ratio

The farebox recovery ratio of a passenger transportation system is the fraction of operating expenses which are covered by the fares paid by passengers. It is calculated by dividing the system's total fare revenue by its total operating expenses. Most transit systems are not fully self-supporting, so advertising revenue, government subsidies, and other sources of funding are usually required to cover total operating costs.

Table 2-4 illustrates DTPW's farebox recovery ratio as reported to the NTD for each mode. Note that DTPW's Metromover is a free fare service and therefore collects no farebox revenue.

Table 2-4: DTPW Farebox Recovery

| Mode | FY 2017 | FY 2018 | FY 2019 |
|-----------|---------|---------|---------|
| Metrobus | 19.1% | 17% | 17.7% |
| Metrorail | 15.9% | 15.2% | 16.7% |
| STS | 11.7% | 10.6% | 10.4% |
| ALL | 16.8% | 15.2% | 15.9% |

Source: National Transit Database, Department of Transportation and Public Works, 3rd submission, March 2020

2.6.2. EASY Card Sales Outlets

EASY Card Sales Outlets are conveniently located throughout Miami-Dade County for transit customers to obtain or load cash value and/or passes onto the EASY Card or EASY Ticket. The DTPW EASY Card Services Division is responsible for training new vendors and managing all EASY Card Sales Outlets, providing DTPW with an average of \$5.9 million in revenue a year. Currently there are over 94 sales vendors throughout Miami-Dade County.

2.7. Transit Mobility (Transportation Disadvantaged) Program

Section 427, Florida Statues and Rule 41-2 FAC, establishes and mandates the creation of the Commission for the Transportation Disadvantaged in the State of Florida. A Community Transportation Coordinator (CTC) in each county is appointed by the Commission for the Transportation Disadvantaged and is responsible for the coordination and provision of cost-efficient transportation services and the elimination of duplication through a coordinated system. In Miami-Dade County, the County government is the local coordinator. DTPW is charged with the responsibility of creating programs, applying for the grants and coordinating transportation services for the disadvantaged.

Programs such as the Section 5310, Golden Passport, Patriot Passport, and Lifeline Services are also included in the Coordinated Transportation System.

The Transportation Disadvantaged (TD) Program, through a state funded grant, provides EASY Tickets and EASY Cards to transportation disadvantaged (homeless, children and families at risk, vocational training, and rehabilitation) Miami-Dade County residents. The EASY Ticket program provides tickets to qualifying social service agencies to distribute to their clients for use on the Miami-Dade County transit system. Currently there are 65 agencies enrolled in the program. The Transit Mobility EASY Card Program provides annual EASY Cards to individuals who are TD eligible. Currently, there are 5,891 TD Mobility EASY Card Customers.

2.7.1. Section 5310 Program

DTPW actively participates in the Federal Transit Administration (FTA) Section 5310 program by participating in the grant review, evaluation and award process. DTPW, in its role as the CTC, is responsible for the program coordination with local non-profit agencies serving elderly and disabled residents in Miami-Dade County.

2.7.2. Corporate Discount Program

DTPW's Corporate Discount Program (CDP) allows participants to save on commuting costs through group discounts and pre-tax savings by purchasing public transportation through a tax deduction from their employer under Internal Revenue Service (IRS) Code 132(f). It allows employees to pay for their public transit rides using pre-tax dollars, up to \$270 month (\$3,240/year) in 2019. The CDP provides monthly transit passes on Corporate EASY Cards, good for a month of unlimited rides on Metrobus and Metrorail, at a 10 percent (10%) discount for groups of 4-99 participants, and a 15 percent (15%) discount for groups of 100+ participants. Participants who ride Metrorail can save even more by purchasing their \$11.25 monthly Metrorail parking permit with pre-tax dollars. In 2019, the CDP generated approximately \$8.7 million in revenue. Currently the number of companies enrolled is 211.

2.7.3. College / Vocation School Discount Program

College, university, vocational/technical, and adult education school students can purchase a one-month pass on an Orange EASY Ticket for \$56.25, half the cost of a full price monthly pass. This program is offered to full-time students using DTPW's public transportation system to get to school. As of December 2019, over 216 schools are participating in the program generating approximately \$8.75 million in annual sales.

2.7.4. K-12 Discount Program

Miami-Dade County students in grades K-12 can ride Metrobus and Metrorail at 50 percent (50%) off the regular fare. Pre-schoolers ride free. First time eligible students may obtain a specially encoded EASY Card at no cost by applying online at www.miamidade.gov/transit/fare-k12 for public school students or at https://k12.miamidade.gov/K12EasyCardRegistration/private for private school students. Discounted cards can also be obtained by visiting the Transit Service Center Kiosk located on the second floor of the Stephen P. Clark Center, at 111 NW 1st Street, or Pass Sales Office located at Overtown Transit Village, 701 NW 1 Court, Suite 121. This program is open to any student attending public or private schools in Miami-Dade County. In 2019, there were 3,945 newly registered K-12 customer accounts.

2.7.5. Golden Passport Office

The Golden Passport EASY Card provides free transportation to senior citizens 65 years and over or Social Security beneficiaries who are permanent Miami-Dade County residents. A Patriot Passport provides free transportation to disabled veterans who are permanent Miami-Dade County residents. Currently, there are 214,045 certified Golden Passport/Patriot Passport customer accounts; this includes 192,906 Golden Passport customers over 65 years of age, 19,171 Golden Passport customers under 65 years of age, and 1,968 Patriot Passport customers.

2.8. Customer Information / Convenience

2.8.1. GO Miami-Dade Transit App (iPhone and Android)

DTPW has deployed real-time iPhone and Android applications for Metrorail/Metrobus/ Metromover arrival/departure, route and schedule information. These mobile applications provide DTPW passengers with everything that is currently present on the DTPW mobile web site as well as additional smartphone-specific features in the form of an app to include:

- Rider alerts
- Vehicle Trackers
- Service updates
- Metrobus schedules, routes, and stop look-up
- Metrorail and Metromover Station information
- Fare information
- Contact numbers
- Feedback zone
- Where Am I?
- · Live Mapping
- STS (with access to the STS Connect online service for its clients)
- Nearby (which shows all stops/stations and real-time vehicles around you with the ability to scroll around the County)
- Integration with other apps such as EASY Pay, Pay by Phone, and MDT Transit Watch mobile application for submitting safety concerns in real-time

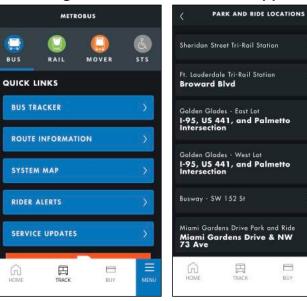

Using the all-new GO Miami-Dade Transit smartphone application, riders can plan a trip, track a ride, purchase mobile passes, report an incident, and earn points to redeem for rewards with the GO Rewards loyalty program. The app provides users with detailed route information, like schedules and system maps. Also available is a Tri-Rail one-way pass for riders traveling across the County.

2.8.2. Electronic Transit Rider Alert System / Train Tracker / Mover Tracker / Bus Tracker

DTPW continues to implement customer convenience enhancements to their Rider Alert system that notifies passengers about transit service delays. Registered users receive electronic alerts on detours, route changes, and updates for Metrobus as well as service interruptions for Metrorail, Metromover, Metrobus, and Special Transportation Services. The Rider Alert system also provides the operational status of Metrorail or Metromover station elevators and escalators. Customers must sign-up to receive these electronic alerts to their cellular phones, email addresses, and smart phones. There are currently 2,766 customers who are signed up to receive these electronic alerts. Train Tracker service allows users to see, via the web and on mobile devices, the estimated time of arrival of the next Metrorail train.

DTPW has a real-time Metromover Tracker System, "Mover Tracker" using the web-based technology and is available via computer, smartphone, and tablet. These software applications also provide other useful transit information such as service alerts, rail and mover station information, and elevator/escalator status. Similar systems are active for Metrorail and Buses (Train Tracker and Bus Tracker).

Figure 2-5: GO Miami-Dade App

2.9. Maintenance and Storage Facilities

DTPW currently operates three maintenance bus garages to serve a fleet of 762 buses. The DTPW garages are located in various areas throughout the County to provide efficient maintenance and storage services at the following locations:

- Central Facility: 3311 NW 31st Street, Miami, Florida 33142; serving 26 bus routes
- Coral Way Facility: 2775 SW 74th Avenue, Miami, Florida 33155; serving 24 bus routes
- Northeast Facility: 360 NE 185th Street, Miami, Florida 33179; serving 23 bus routes

The Metrorail fleet of 130 rail cars is maintained and stored at William E. Lehman Center: 6601 NW 72nd Avenue, Miami, Florida 33166.

The Metromover fleet of 29 cars is supported by the maintenance facility located at 100 SW 1st Avenue in Downtown Miami.

2.10. Pedestrian Overpasses

To facilitate a safe passenger connection, DTPW maintains pedestrian overpasses throughout its transit system. A listing of the location of these pedestrian overpasses is provided below:

- Douglas Road Metrorail Station Pedestrian Overpass
- Vizcaya Metrorail Station Pedestrian Overpass
- Hialeah Metrorail Station Overpass
- Snapper Creek Expressway and U.S.1 M-Path Overpass
- University Metrorail Station Pedestrian Overpass

2.11. Park-and-Ride Facilities

DTPW currently has over 12,500 available parking spaces, including 33 park-and-ride facilities which serve one or more Metrobus routes. Twenty of those locations are located at Metrorail stops. There are approximately 3,628 parking spaces available at bus-only parking facilities, and approximately 8,916 parking spaces available at metrorail parking facilities. The locations of these available spaces is shown in Table 2-5

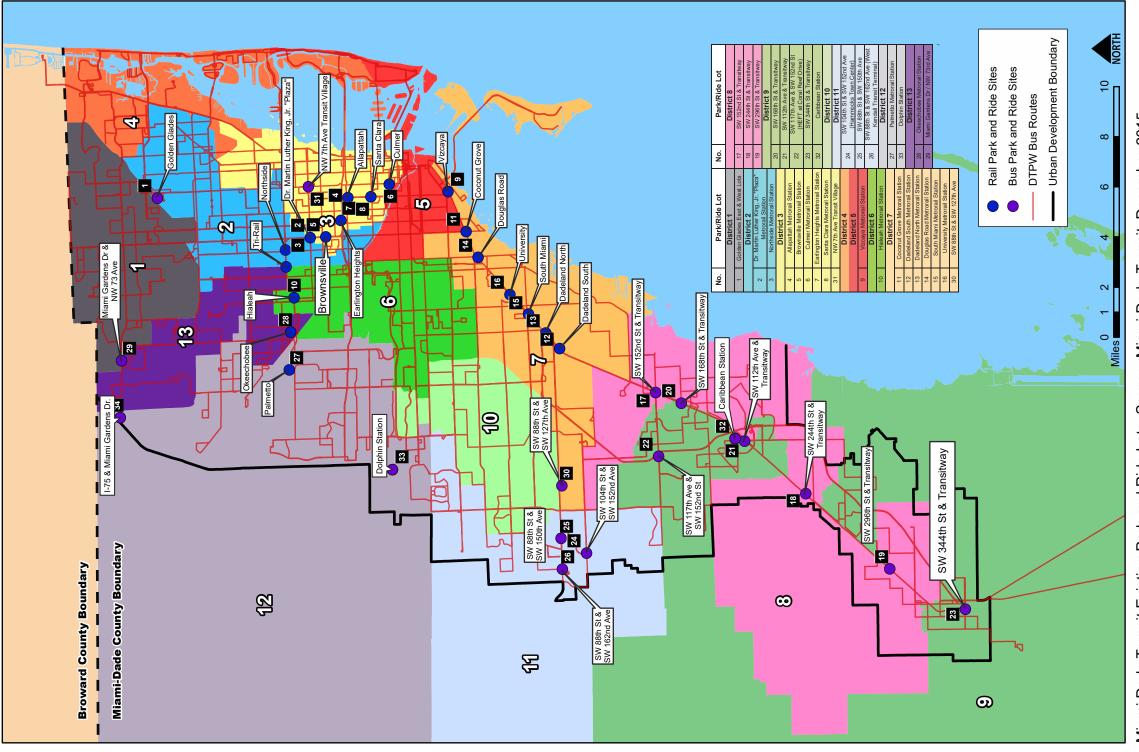

Parking usage is highest on the southern portion of the Metrorail line and to the north at the Metrobus Golden Glades park-and-ride facility. Figure 2-7 identifies the location of existing park-and-ride facilities that serve the DTPW system.

Table 2-5: Park-and-Ride Parking Space Counts

Figure 2-7: Existing DTPW Park-and-Ride Facilities

Miami Dade Transit Existing Park and Ride Lots. Source: Miami Dade Transit, December 2015

Figure 2-8: Municipal Transit Services in Miami-Dade County

2.12. Municipal Transit Services

DTPW continues to coordinate with local municipalities to avoid duplication of transit services and allow for efficient transit operations that complement one another. Currently, there are 34 municipalities eligible to receive surtax funding with 33 participating in the program (Indian Creek is not participating). Of these 33 municipalities participating in the program, 27 have local transit circulators that supplement DTPW bus routes. Figure 2-8 presents a map of local municipal circulators. The 28 municipalities below operate a circulator, partner with another municipality or partner with DTPW.

- City of Aventura
- Village of Bal Harbour
- Town of Bay Harbor Islands
- City of Coral Gables
- Town of Cutler Bay (Interlocal Agreement (ILA) with DTPW)
- · City of Doral
- · City of Hialeah
- City of Hialeah Gardens (ILA with the City of Hialeah)
- · City of Homestead
- City of Miami
- City of Miami Beach (ILA with DTPW)
- City of Miami Gardens
- Town of Miami Lakes*
- · Town of Medley

- Miami Shores Village
- City of Miami Springs
- · City of North Bay Village
- City of North Miami
- City of North Miami Beach
- City of Opa-locka
- Village of Palmetto Bay
- Village of Pinecrest
- City of Sunny Isles Beach
- Town of Surfside
- City of South Miami
- City of Sweetwater
- Village of Virginia Gardens (ILA with the City of Miami Springs)
- City of West Miami

The collective ridership on these circulators exceeded 14 million passenger trips in FY 18-19. The annual ridership of the three largest circulator systems – (1) City of Miami, (2) City of Miami Beach and (3) City of Coral Gables, - collectively totaled 11,570,710 in FY 18 and grew 1.2 percent since FY 17. It should be noted that many of the municipalities operating circulator systems exceed the 20 percent minimum surtax transit expenditure requirement. Appendix A.3 provides a listing of each municipality, respective service operator and website.

^{*}Miami Lakes Moover fixed-route service replaced with on-demand ride-sharing service as of April 1, 2019.

2.13. Transit Oriented Development (TOD)

In an effort to increase transit ridership, generate revenue, and create attractive and dynamic station areas, DTPW has partnered with the private sector to implement the following transit oriented development as:

2.13.1. Dadeland South Metrorail Station

Projects: Datran Center I & II (Phases 1 & 3)

- 2 Class A office buildings, 476,412 rentable sq. ft.
- 35,000 sq. ft. retail space
- 3,500 parking spaces, 1,100 = dedicated transit patron usage

Miami Marriott Dadeland Hotel and Conference Center (Phase 2)

302 luxury hotel rooms

Dadeland Centre I (Phase 4A)

- 18 story Class A office building (8 floors offices, 9 floors parking)
- 152,014 sq. ft.

Dadeland Centre II (Phase 4B)

- 15 story Class A office building (8 floors office, 6 floors parking)
- 119,516 sq. ft.; ground floor retail

Location: S. Dixie Highway/U.S. 1 between Dadeland Boulevard and the Palmetto Expressway Overpass, Unincorporated Miami-Dade County

In Operation: Phases 1, 2 & 3 since 1984, Phase 4A since 2005 & Phase 4B since 2008

Term: Lease commenced July 1982; initial term to Dec. 2038; automatic 44-year renewal to Dec. 2082; automatic 50-year renewal to 2132.

2.13.2. Dr. Martin Luther King, Jr. Plaza Metrorail Station

Project: Dr. Martin Luther King, Jr. Plaza Office Building

- 5-story, 172,000 sq. ft. office building including 13,500 sq. ft. of ground floor retail
- Demolition of portion of parking structure and renovation of 631-space entire garage
- Covered walkway linking building with station

Location: NW 62nd Street at NW 27th Avenue

Development Area: 7.9 acres

Status: 2001 groundbreaking; 2004 office building opened and garage re-opened

2.13.3. Allapattah Metrorail Station

Project: Allapattah Garden Apartments

- Affordable rental housing complex with surface parking
- 8 garden-style, 3-story buildings totaling 135,100 sq. ft.
- 128 two and three bedroom units
- Clubhouse, tenant amenities, resident programs and services, day care center

Location: NW 36th Street at NW 12th Avenue, City of Miami

Development Area: 4.7 acres

Status: Groundbreaking October 2002. Completed spring 2004.

2.13.4. Santa Clara Metrorail Station

Project: Santa Clara Apartments

- Phase I: 9-story, 208-unit affordable rental apartment building, 157 surface parking and 51 Phase II garage parking spaces
- Phase II: 17-story, 204-unit affordable rental apartment building; 319 parking spaces on 5 levels with 207 spaces for Phase II tenants, 51 spaces for Phase I tenants and 61 ground floor spaces dedicated for Metrorail patrons

Location: NW corner, NW 20th Street at NW 12th Avenue, City of Miami

Development Area: 3.3 acres

Status: Phase I Certificate of Occupation (CO) 2004 - Phase II CO 2006

2.13.5. Wilkie D. Ferguson Metromover Station

Projects: Overtown Transit Village (OTV) North (Phase 1)

- 17-story, 309,900 sq. ft. office building
- Separate 9-story, 590-space parking garage
- 4,000 sq. ft. ground floor retail

Overtown Transit Village South (Phase II)

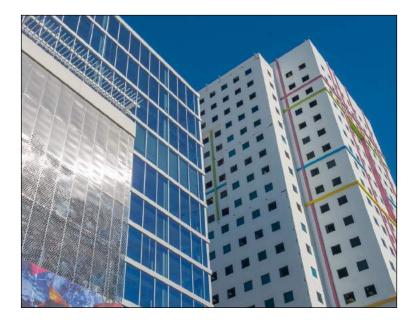

- 21-story, 300,000 sq. ft. office building including garage
- 7,152 sq. ft. ground floor lobby
- Integrated 6-story, 334-space parking garage

Location: NW 1st Court between NW 6th and 8th Streets, City of Miami

Development Area: 2.1 acres

Status: OTV I: Groundbreaking May 2004, construction began May 2004, completed June 2006. First occupancy March 2007

OTV II: Construction began winter 2007, completion early to mid 2010

2.13.6. Brownsville Metrorail Station

Project: Brownsville Transit Village

- Mixed-income, five phase TOD with mid- to high-rise affordable dwelling units
- Phase I, II, III, and IV consist of 401 housing units (96 family, 305 elderly)
- Each phase of the development has achieved basic Leadership in Energy & Environmental Design (LEED) certification, focusing on reducing energy and resource consumption through high-efficiency plumbing fixtures, highefficiency lighting, solar power, etc.
- Phase V will be a 65-unit affordable rental community

Location: 5200 NW 27th Ave

Development Area: 5.8 acres

Status: Phase I and II groundbreaking took place in June 2010. Phase III and IV groundbreaking took place in November 2010. The Development Impact Review Committee (DIC) zoning application for Phase V was filed in January 2020.

2.13.7. Eighth Street Metromover Station

Project: Brickell City Center

- Mixed-use project to span up to five blocks when completed
- The project has achieved Leadership in Energy & Environmental Design Gold certification
- The hotel and residential towers, and some office space opened in 2016

Location: 701 S Miami Ave

Development Area: 9 acres

Status: Phase I broke ground in 2012, and was completed in 2014. Construction for Phase II began in 2017.

2.13.8. Northside Metrorail Station

Project: Northside Transit Village

- Four phase TOD with 438 affordable housing units (219 elderly, 219 family)
- 20,000 sq. ft. ground floor retail
- Multi-level parking garage with 250 dedicated Metrorail parking spaces

Location: Southeast corner of NW 32nd Avenue and NW 79th Street

Development Area: 5.8 acres

Status: Phase I completed in 2015, with 100 apartments, a parking garage and ground floor retail. Phase 2 broke ground in Q1 of 2018 and completed the construction of 120 affordable apartments for seniors. Phase 3 constructed an additional 129 affordable housing units for seniors and will be completed in early 2020. Construction of Phase 4, 119 affordable housing units and additional retail space, is scheduled for completion in Q4 2020.

2.13.9. NW 7th Avenue Transit Village

Project: NW 7th Avenue Transit Village

- Mixed-use, two phase TOD including a multi-level parking garage and transit hub
- Phase I consists of 76 affordable housing units
- Phase II will consist of 100 affordable housing units, a community theater space, and a metro transit hub

Location: Corner of NW 7th Ave and 62nd St

Development Area: 2.5 acres

Status: Phase I was completed in the Fall of 2015. Phase II was completed in 2017.

2.13.10. Metrorail Stations between Brickell and Dadeland South

Project: The Underline

- Once completed, The Underline will serve 107,000 residents within a 10-minute walk, will provide access to public transportation to one University and 24 schools, two hospitals, three urgent care facilities, four major malls and over 10,000 businesses.
- A nine-phase effort to transform the underutilized land below the Metrorail into a 10-mile linear park, urban trail, and living art destination.
- Separated pedestrian and bicycle paths.
- Improvements to over 30 intersections.
- Recreational features will include butterfly gardens, playgrounds, exercise equipment, basketball and volleyball courts, soccer fields, picnic areas, dog parks and more.

Location: Following the path of the Metrorail from the Miami River to Dadeland South Station Development

Development Area: 120 acres

Status: Phase 1 (Brickell Backyard) from the Miami River to SW 13th Street broke ground on November 1, 2018. Scheduled for completion in June 2020. Phase 2, from SW 13th Street to SW 19th Avenue is fully funded, and is now in pre-design planning. Phase 5 will be built by private developers near the Douglas Road Station. All other phases are currently unfunded.

2.13.11. Dadeland North Metrorail Station

Project: Motion at Dadeland

- 25 story residential tower
- 294 market rate apartments
- 411 space parking garage
- 7,500 sq. ft. of ground floor retail

Location: SW 84th Street between SW 70th Avenue and U.S. 1

Development Area: 0.87 acres

Status: Completed Spring 2019

2.13.12. Bird Road

Project: Senator Villas

- Consists of 23 affordable housing units for the elderly
- Improvements to the sidewalks, bus shelters, and art features in public spaces along Bird Road

Location: 8915 SW 40th Street

Development Area: 0.66 acres

Status: Project broke ground in Aug 2017 and was completed in completed in 2019.

2.13.13. Douglas Road Metrorail Station

Project: Link at Douglas

- Five tower mixed-use development
- 1,421 apartments (12.5% workforce housing)
- 251,873 sq. ft. of office space
- 25,000 sq. ft. of retail
- 750 parking spaces

Location: The area bounded by SW 37th Avenue on the east and SW 38th Avenue on the west, between U.S. 1 and Peacock Avenue.

Development Area: 5.57 acres

Status: Under Construction. Phase 1 broke ground in Q1 2019, with three additional phases planned. Phase 1A began in Q3 2019.

2.13.14. Coconut Grove Metrorail Station

Project: Grove Central

- 250 apartments
- 180 key hotel
- 190,000 sq. ft. of combined office and retail space
- Large Parking Garage
- \$5 million for station upgrades and improvements
- First Urban Microgrid in Florida
- Geothermal AC system

Location: Parcel bounded by Douglas Road on the east and SW 29th Avenue on the west, between U.S. 1 and SW 27th Terrace.

Development Area: 5.18 acres

Status: Pre-Construction Phase: Utility/Right of Way (ROW) began in 2019 and is currently being completed. Construction expected to be complete in late 2021.

2.13.15. Adrienne Arsht Center Metromover Station

Project: Omni Bus Terminal

- Hotel To be built around and above existing Omni Bus Terminal and Metromover Station.
- \$22 million in upgrades to existing transit infrastructure, including new state of the art bus terminal
- 300 room hotel
- Residential service apartments
- 5,000 sq. ft. of retail space

Location: Southeast corner of Biscayne and NE 15th Street

Development Area: 0.987 acres

Status: Broke ground Q1 2019, currently on hold

2.13.16. Freedom Tower Metromover Station

Project: Luma at Miami Worldcenter

- 44 stories
- 434-unit apartment tower
- As a part of the development, the developer will reconstruct the Metromover station for integration with the rest of the development
- Station improvements will include a new elevator, renovated stairs, new turnstiles, lighting, and landscaping.

Location: NE 2nd avenue and NE 7th street

Development Area: 1.65 acres

Status: Miami Worldcenter currently under construction. Station improvements scheduled to begin in the 2^{nd} Quarter of 2020.

2.13.17. South Miami-Dade Transitway

Project: Caribbean Village

- Mixed use TOD with a minimum 170 affordable housing units for seniors
- 12,500 sq. ft. of retail/commercial space150 space surface parking for transit riders

Location: 19755 SW 110th Court

Development Area: 3.23 acres

Status: : Completed in December 2019, opening February 2020

2.13.18. Tenth Street Promenade Metromover Station

Project: 1010 Brickell

- The Tenth Street/Promenade Metromover station will be integrated into the project via new walkways and ramps, improved lighting, installation of new hardscaping, signage, handrails, and bicycle racks.
- Other improvements include reconfiguration of the north station entry, relocation of automatic passenger counters, painting of ground floor and concrete structures, restoration of elevator cab and door, and installation of new light emitting diode (LED) lighting and fan inside the station's elevator.

Location: 1011 SE 1st Ave

Status: Scheduled for completion in first guarter of 2020

2.14. Regional Transit Service Connections

2.14.1. Broward County Transit (BCT)

The Broward County Office of Transportation operates BCT, a fixed route bus service, which connects with DTPW service. BCT operates 44 routes during weekdays, 31 routes on Saturday and 29 routes on Sundays, with varying service schedules spanning from before 4:35 AM to after midnight on weekdays. A regular one-way fare is \$2.00 while a reduced one-way fare is \$1.00, and an all-day pass is \$5.00. The express bus one-way fare is \$2.65 while the reduced one-way fare is \$1.30. DTPW passengers transferring to BCT will provide the BCT bus operator with the Inter-County Ticket and pay \$0.50. Passengers transferring from BCT to DTPW will provide the DTPW bus operator with the BCT Transfer and pay \$0.60 for a full-fare transfer,

\$0.30 for a discounted-fare transfer, \$0.95 for an express-bus transfer or \$0.45 for a discounted fare transfer. BCT and DTPW have partnered to provide regional bus service between Broward and Miami-Dade Counties. Currently, DTPW buses travel into Hallandale Beach (southern Broward), and BCT buses travel into Aventura, North Miami, Miami Gardens, and the Golden Glades interchange. Bus service from both agencies operates within the I-95 express lanes, connecting northern and central Broward communities with Downtown Miami. BCT operates the 595 Express which connects western Broward communities to the Civic Center and Downtown Miami.

2.14.2. South Florida Regional Transportation Authority (SFRTA)

The SFRTA operates Tri-Rail, a commuter rail service that operates along 72 miles of the South Florida Rail Corridor (SFRC) which spans Palm Beach County, Broward County, and Miami-Dade County. Tri-Rail primarily runs through the eastern urbanized areas of the three counties between the Mangonia Park station in Palm Beach County and the Miami Airport station in Miami-Dade County. Tri-Rail serves 18 passenger stations and averages more than 15,000 boardings per weekday.

Weekday service spans from 4:00 A.M. to 11:35 P.M., with operations of 20 minute to 30 minute headways in each direction during the Peak periods, Off-peak headways are 60 minutes in each direction. Weekend service spans from 5:17 A.M. to 11:45 P.M. with 60 minute headways. Tri-Rail operates a zonal fare system and is

comprised of six equidistant zones. Fares are determined by the sum of zones traveled; the regular base fare for one-way travel is \$2.50, discounted one-way is \$1.25, regular round-trip is \$5.00 and discounted round-trip is \$2.50. On weekends and holidays, daily passes are issued for \$5.00 and discounted is \$2.50. The cost for the Tri-Rail monthly pass is \$110 (\$55.00 discounted for children, seniors, and persons with disabilities). The cost for the Tri-Rail regional monthly pass (Tri-Rail and MDT) is \$155.00 (\$77.50 discounted for children, seniors, and persons with disabilities). Tri-Rail passengers transferring to the DTPW system at a Tri-Rail transfer point are required to pay as presented in the following table:

FARE TYPE TO METRORAIL TO METROBUS TO EXPRESS BUS \$1.20 Full/60¢ Discount 60¢ Full/30¢ Discount EASY Card with Cash Value# 95¢ Full / 45¢ Discount Regional Monthly Pass Free Free Free \$1.20 Full/60¢ Discount 60¢ Full/30¢ Discount 95¢ Full/45¢ Discount All other passes# Paper Ticket Metrorail Fare Metrobus Fare Express Bus Fare

Table 2-6: Tri-Rail to DTPW Transfer Prices

2.14.3. Brightline

Brightline is a private rail service connecting Downtown Miami, Downtown Fort Lauderdale, and Downtown West Palm Beach with approximately 30-45 minutes travel time between each station. Service started in 2018 with prices changing over time according to market tolerance. Service has been temporarily suspended due to the Covid-19 pandemic. Future growth plans include an additional station on the SMART Plan Northeast Corridor in Aventura, Florida, and an expansion to Orlando, Florida.

2.15. National Connections

2.15.1. Greyhound Intercity Passenger Bus Service

Greyhound operates one station and two additional stops in Miami. The Miami Greyhound Bus Station is located East of MIA Airport, at 3801 NW 21st Street #171, and also operates buses out of the nearby MIC.

An additional Greyhound stop is located at the Mobil Gas Station, 650 Opa-Locka Blvd. Greyhound offers bus service from Miami to all major US cities and more than 1,800 minor cities and towns across the country. Ticket prices currently range from \$11.00 for a trip from Miami to Hollywood, up to \$207 for a trip to Seattle, WA.

2.15.2. Amtrak Intercity Passenger Rail Service

The Miami Amtrak station is located at 8303 NW 37th Avenue with an extension running to the MIC. Miami is the southern terminus for the Silver Service / Palmetto Line, which connects Miami to New York Penn Station by way of Philadelphia, Baltimore, Washington DC, Raleigh, Charleston, Jacksonville, Orlando, Fort Lauderdale, and many smaller cities in between. Major connections to East-West running lines are available in Washington DC and beyond. Coach seats are currently available from Miami for prices starting at \$45 for a trip to Winter Haven Florida, up to \$162 to reach the other end of the Palmetto Line at New York Penn Station. Sleeper rooms are currently available for prices starting at \$210 for a trip to Winter Haven, up to \$479 for a trip to New York.

2.15.3. Megabus

Megabus operates in over 100 cities across the Unites States and Canada. In Miami, Megabus departs from the MIC at 3801 NW 21st Street, like many other transit providers. Miami currently is the southernmost Megabus stop in the United States. The service is advertised as a low-cost transportation alternative, with one-way tickets to Tampa available for \$5 and to Atlanta for \$10. The only out-of-state destination available by a direct trip via Megabus is Atlanta; however, transfers from the Atlanta station can reach as far as New York City.

2.16. Conclusion

DTPW operates a multi-modal system that provides regional connectivity to 2.7 million residents and 24.2 million visitors through 98 Metrobus routes, two Metrorail lines, three Metromover loops, and 33 Park-and-Ride lots while coordinating with 33 municipalities which provide their own local transit service. This complex system is connected through a state-of-the-art transit app that brings convenience into the hands of riders. Transit fares are structured to help provide equitable access to all users. DTPW's TOD projects have yielded more than 4,990 residential units with 1,921 of those considered affordable housing. Interconnectivity with regional and national service providers help extend the reach of DTPW's services.

3. CIVIC ENGAGEMENT

Public outreach is a key component of the MDT10Ahead TDP APR. For this year's report, various approaches were taken to obtain input from Miami-Dade residents. The FDOT approved Public Involvement Plan (PIP) outlines various coordination efforts for DTPW to provide opportunities for public participation and facilitate consensus building for this visioning document.

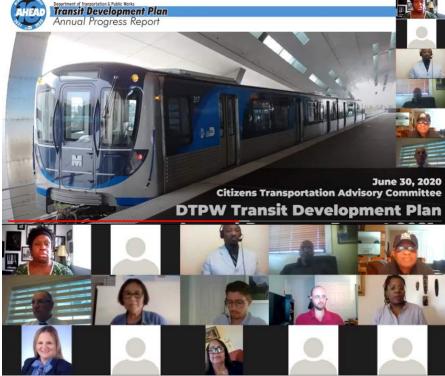

During a typical APR cycle, DTPW actively engages the public by participating at local events, conducting interactive presentations, and performing outreach activities throughout the DTPW transit service area and within communities across Miami-Dade County.

However this year, due to the SARS-CoV-2 (Covid-19) pandemic and social distancing restrictions, DTPW was unable to safely conduct the typical inperson outreach activities. To ensure this TDP still includes meaningful public input, the agency expanded outreach efforts to include a combination of social media and digital advertising.

This chapter provides a detailed description of the public outreach activities undertaken during the development of this TDP. While DTPW receives continuous feedback from its patrons, the deadline for consideration in this TDP Annual Update was July 31st, 2020. Feedback obtained after this date will be incorporated into the following year's TDP.

Transit Development Plan Annual Progress Report

Figure 3-1: Teleconference TDP Presentation to the TPO CTAC

3.1. Civic Engagement Goals and Objectives

Civic engagement is an integral component of the TDP development process. The branded name and logo for the plan, MDT10Ahead, was developed to assist stakeholders and the public in recognizing materials and allowing for more efficient communication between the team, the public, and stakeholders. The goals for the MDT10Ahead TDP are presented below and are intended to help ensure that transportation planning decisions are made in consideration of public needs and concerns.

- Goal 1: Early and Consistent Involvement: Involve general public (transit and non-transit users) and other stakeholders early and regularly in the development of the plan.
- Goal 2: Opportunity for Participation: Provide all DTPW riders, citizens, and stakeholders with the opportunity to participate throughout the development of the plan, including those in traditionally under-represented populations, such as persons with disabilities, older adults, or those who have Limited English Proficiency (LEP).
- Goal 3: Information and Communication: Provide all citizens and interested stakeholder agency groups with clear, timely, and accurate information relating to projects as they progress.
- Goal 4: Apply Range of Techniques: Use a broad-spectrum of techniques to gather input from a diverse population within the project areas.

3.2. Stakeholder Coordination

DTPW actively engages transportation stakeholders throughout the development of the TDP. These stakeholders share input, recommendations, and technical guidance on transportation related issues within the TDP. The stakeholders include the Miami-Dade TPO and CITT, as well as citizens from across the County.

3.2.1. CareerSource South Florida (Regional Workforce Board)

CareerSource South Florida serves Miami-Dade County to provide youth, employment, and business enterprise development services. CareerSource South Florida was provided a digital copy of the Draft MDT10Ahead TDP Annual Update for their review and comment.

Additional coordination efforts with the CareerSource South Florida are ongoing through the Welfare-to-Work Program, which includes the provision of transit service to areas not served by DTPW. Through this program, DTPW receives input on specific transit needs for consideration of adjustment and/or implementation of transit services in response to these needs.

3.2.2. Citizens Transportation Advisory Committee (CTAC)

DTPW presented to the CTAC on June 30th, 2020. The CTAC ensures that transportation projects in all stages of the planning process adhere to established visions, goals, objectives, and collective needs of the community. This group is comprised of Miami-Dade County residents appointed by the TPO Governing Board members. The CTAC was an integral part of the TDP APR process this year as they gave valuable feedback on multiple topics, including ways to safely engage the senior population for their input during the SARS-CoV-2 pandemic.

3.2.3. SFRTA Planning Technical Advisory Committee (PTAC)

DTPW presented to the South Florida Regional Transportation Authority (SFRTA) PTAC on August 12, 2020. The PTAC provides planning and technical support to the SFRTA and serves as technical review committee for the SFRTA Transit Development Plan. This group is comprised of one member each from the three county transit agencies: Miami-Dade DTPW, Broward County Transit, and Palm Tran; the Broward Metropolitan Planning Organization (MPO), Palm Beach Transportation Planning Agency (TPA) and the Miami-Dade TPO; the two Regional Planning Councils, South Florida RPC and Treasure Coast RPC;, the two FDOT Districts (District 4 and 6), and SFRTA, for a total of 11 members.

3.2.4. Electronic Communication

DTPW promoted TDP public engagement activities and encouraged input through its electronic communication outlets. Notices were posted on the DTPW, TPO, FDOT and CITT websites. DTPW posted information on its Facebook page (www.facebook.com/GoMiamiDade), through its Twitter account (www.twitter.com/GoMiamiDade), and on its Instagram account (www.instagram.com/gomiamidade). Email blasts were also sent out to various distribution lists to solicit public comments. DTPW also used its mobile app to reach passengers. DTPW established a TDP specific email address (MDT10Ahead@miamidade.gov) where individuals submit comments.

DTPW used the Community Information and Outreach Center's (CIAO) electronic (www.miamidade.gov or 311@miamidade.gov) and telephone (311, 305-468-5900, 888-311-DADE (3233), or TTD/TTY 305-468-5402) portals to gather information. If a commenter indicated that the comment was related to the TDP, the information was forwarded by CIAO staff to DTPW staff. Individuals can also call DTPW's customer service line (305-891-3131 or TTD/TTY 305-499-8971) to provide comments.

3.3. Survey

DTPW administered a survey between May 15, and July 31, 2020 to collect information on demographics, travel behavior, service needs and priorities of current transit riders and the non-riding public. The survey was made available digitally on the DTPW website, and paper copies were also available upon request. A full copy of the survey instrument is available in Appendix A-4.

3.3.1. **Survey Instrument**

The survey instrument was developed through an in-depth discussion between project stakeholders. The survey questions cover two key areas. The first concentrates on understanding how riders access and utilized the transit system in their pre-Covid travels, and changes needed to ensure future public health and safety on the transit system. The second focus area asks respondents to prioritize improvements to the system by ranking different amenities from "Very Important" to "Not Important." The electronic survey consisted of 24 questions, and the mail-in-paper-based survey contained 14 questions. The survey was made available in English, Spanish and Creole.

Figure 3-2: TDP Paper Survey

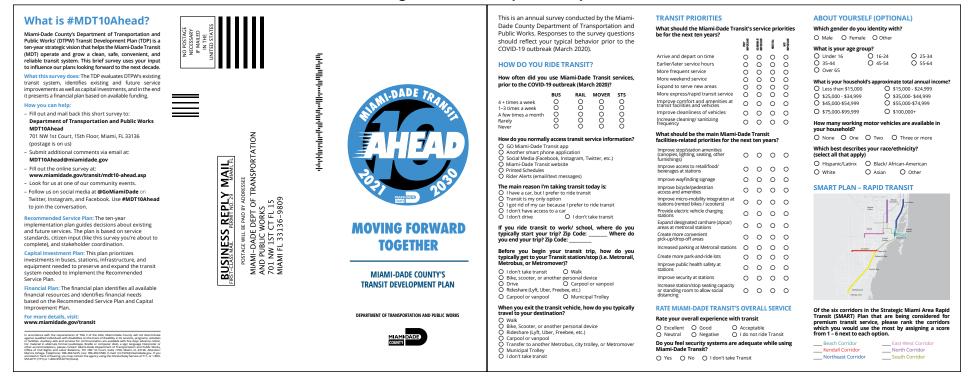

Figure 3-3: Samples of TDP Digital Advertisements

WHAT SERVICES SHOULD THE MIAMI-DADE TRANSIT PRIORITIZE IN THE NEXT TEN YEARS

Take the Transit Development Plan Survey Now

3.3.2. Survey Advertising

Due to the social distancing requirement of the Covid-19 pandemic, the survey for this TDP was primarily conducted digitally. Instead of administering the survey at transit stations as has been done in previous years, the survey was advertised digitally through social media and internet banner ads targeted to Miami-Dade County residents. A print advertisement inviting the public to participate in the survey was published in the Miami New Times newspaper. The ad ran for four weeks and included a link to the online survey, as well as multiple ways to contact DTPW and request a physical copy of the survey. The paper-based survey instrument was mailed to identified stakeholders in May 2020. The electronic survey was made available on the TDP website (www.miamidade.gov/mdt10ahead) and was promoted through partner agencies, social media, digital advertising, and newsletters.

3.3.3. Social Media

DTPW advertised the survey on its social media accounts (Facebook and Twitter) as part of the effort to solicit feedback from both the riding and non-riding public. Several DTPW transportation partners including the CITT, The Underline, Miami Riders Alliance, and Age Friendly Miami also posted the survey on their social media handles. These posts generated several comments and conversations about riding experiences, suggested improvements, and complaints.

Some of the overarching themes include expansion of Metrorail services into southern Miami-Dade County, prioritizing Metrorail over Metrobus services, providing more frequent and reliable service, providing better connections, improving on-time performance, and maintaining cleanliness of transit vehicles and facilities.

Other comments centered on providing sheltered bus stops, improving security on the transit system, providing accurate real time information, and fixing or replacing broken elevators at transit stations.

While some riders expressed satisfaction and appreciation for the existing transit services, others expressed dissatisfaction and skepticism about planned future improvements. The major complaints centered on driver behavior and unsanitary conditions on transit vehicles and facilities.

3.4. Civic Engagement Outcomes

DTPW continues its coordinated county-wide efforts to educate and provide early and ongoing public involvement opportunities to the residents of Miami-Dade County, DTPW maintains an outreach program for engaging the public and other stakeholders through various activities and meeting forums. These include the DTPW website and social media outlets, mobile phone applications, posters, bus signs, and television screens. DTPW also reaches a wide variety of patrons through the Special Transportation Services (STS) Golden Passport Program.

In order to promote participation in the TDP development process, DTPW actively engaged the public at various public events. A listing of these events and distribution sites, as well as other outreach events attended by DTPW staff can be found in Appendix A-4. The data collected from the surveys are analyzed and presented in Section 3.5, with detailed data found in Appendix A-4.

Digital Advertising Outcomes 3.4.1.

The digital surveys were advertised on Google Ads and Miami New Times. By the end of the survey period on July 31, 2020, the survey had been advertised 3,697,927 times to Miami-Dade County residents through Google banner ads which received 21,713 clicks - a 0.6 percent click through rate, which is more than double the typical rate for Google banner ads. The 21,713 clicks resulted in 550 completed surveys (2.5 percent). Of the 550 digital survey responses received, 530 were completed in English, 17 in Spanish, and 3 in Creole.

3.5. Survey Results

A survey administered by DTPW was conducted from May to July 2020 to collect information on demographics, travel behavior, and service needs of current transit riders and the non-riding public. The method used for surveying the public was an electronic and mail-in paper-based survey instrument totaling 24 or 15 questions in length, respectively. Spanish and Creole versions of the survey were also available. A copy of the survey instruments is provided in Appendix A-4.

Passenger travel characteristics and behaviors were identified by questions including:

- Current reason for riding transit
- · Current method for reaching and leaving transit
- Travel time to nearest/preferred transit station
- Frequency of transit usage
- Payment type used
- If transfers are made
- Method of accessing transit information
- Trip origination and destination information

Transit priorities/preferences were identified by questions includina:

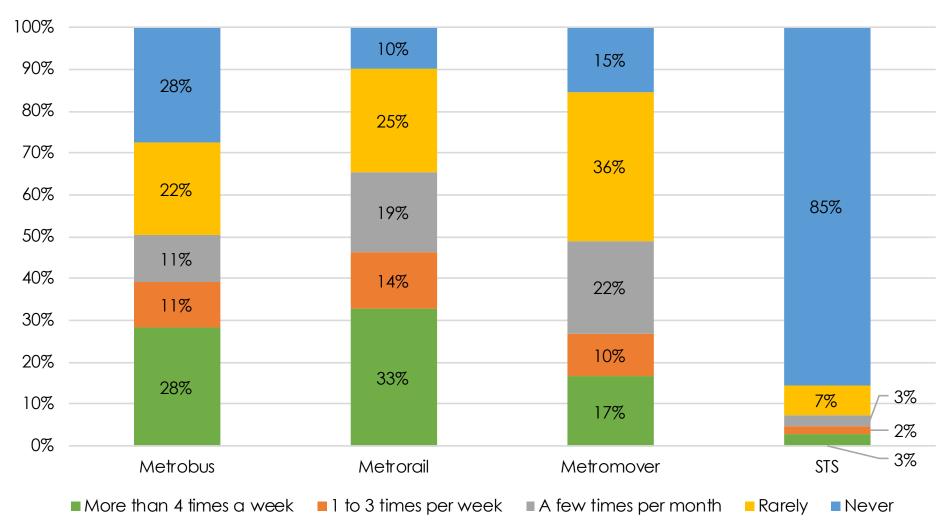

- Ranking 10-year priorities with respect to services, and transit facilities
- Identifying reasons that would encourage increased ridership
- Willingness to pay more for improved services
- Identifying a top corridor for premium transit service
- Ranking top transit destinations
- Support for a proposed increase in the local sales tax to support transit
- Recommendations for service area improvements
- Satisfaction with overall DTPW transit services

Socio-demographic information was identified by auestions includina:

- Household vehicle availability
- Age
- Gender
- Race/ethnic origin
- Household income

Figure 3-4 examines which transit mode respondents use most on a regular basis. Approximately 33 percent of the respondents use Metrorail more than four times per week. Meanwhile, approximately 28 percent use the Metrobus and 17 percent use the Metromover more than four times per week. Just about 3 percent of respondents were occasional Special Transportation Services (STS) users.

Figure 3-4: Question 1: How Often Do You Use Miami-Dade Transit Services?

When asked about service priorities for the next 10 years, respondents indicated on-time performance was the most important service priority, followed by expanding service to new areas and more frequent service. Figure 3-5 shows the distribution of these responses.

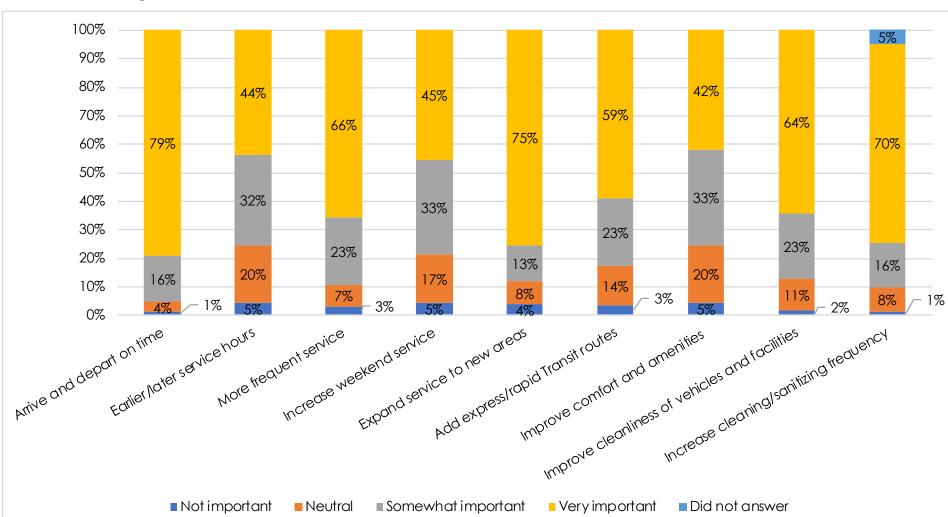

Figure 3-5: Question 10: What Services Should Miami-Dade Transit Prioritize Over the Next 10 Years?

When asked about facility-related priorities for the next 10 years, respondents indicated improving public health and safety was the most important facility priority, followed improved security and increasing seating capacity and standing room to allow for social distancing. Figure 3-6 shows the total breakdown of all service priorities.

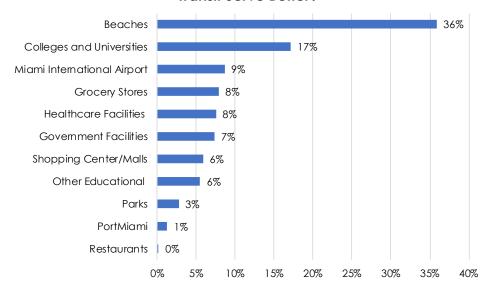

100% 90% 80% 70% 30% 60% 31% 27% 31% 26% 50% 33% 33% 31% 40% 30% 31% 30% 30% 23% 23% 23% 20% 10% 11% mcrease parking at Metroralistations 0% Provide electric vehicle charging stations More convenient pick-up Idrop off areas marease seating I standing capacity Improve micro-mobility integration improve tikelped access improve public health and safeth improve access to retail tood mprove wayfinding signage Improve stop amerities improve bive portingly torage Add bike repairstations ■ Not important Neutral ■ Somewhat important Very important Did not answer

Figure 3-6: Question 11: What should Miami-Dade Transit's facilities-related priorities be for the next ten years?

Figure 3-7 provides insight into what types of destinations respondents would like to travel to. The number one response was to provide service to Beaches followed by Colleges and Universities and the Miami International Airport. Please refer to Appendix A-7 for complete survey results.

Figure 3-7: Question 18: Which of the Following Destinations Could Miami-Dade **Transit Serve Better?**

3.6. Conclusion

This chapter of the TDP provided an overview of the outreach techniques used for this Covid-impacted APR, and documented the public feedback obtained. The public feedback is used to inform the TDP project development process, and decisions at DTPW overall. In a typical year, DTPW will jointly focus outreach efforts on digital and in-person efforts. However, due to this year's Covid-19 pandemic, face-to-face outreach was not used. With a focus on digital outreach, feedback was obtained via social media posts and survey responses.

Generally, feedback was consistent with past year's responses. DTPW is taking numerous actions to address the issues raised by survey takers. On-time arrivals and departures ranked as the most important priority. DTPW has been working to complete the Better Bus Project which seeks to streamline and reconfigure bus routes and headways. The conclusions of that study are expected to be adopted in 2020. The Better Bus Project is discussed in Chapter 5, Section 5.4.1. Moreover, DTPW has a stated on-time performance goal for each mode it operates, which is identified in Goal 1.2, on Page 4.3. Several routes were identified for modifications that will improve service frequency. These can be found in Chapter 6, Table 6-4: Transit Operations Projects. Survey respondents also cited cleaning and sanitation as a high priority for service, reflecting the impacts of Covid-19. Similarly, for stations and facilities, public health and safety were rated as the top priority, followed by improved security. Another highly ranked priority was for larger facilities, perhaps out of concern or adhering to social distancing guidelines. Examples of DTPWs reaction to the pandemic include distribution of masks to employees, boarding and alighting vehicles through different entrances, partitioning drivers from passengers, increased cleaning schedules, and more. A more detailed description of the response to the pandemic will be documented in the next edition of the TDP.

Finally, survey respondents expressed a desire for service to new areas. The most prioritized service areas were the beaches, followed by colleges and universities. Both of these destinations are currently the focus of attention by DTPW, which is actively planning improved services to these destinations through the SMART Plan. More information about these efforts to connect to Miami Beach and FIU's main campus can be found in Chapter 6, section 6.1: SMART Plan, including the Beach Corridor, East-West Corridor, and several BERT routes.

CHAPTER 4

4. 2019 PERFORMANCE ASSESSMENT

The Identification of goals and objectives for a transit agency establishes the framework within which the agency will pursue its TDP-inspired vision over time. In the 2019 TDP Major Update, DTPW developed specific goals and objectives with associated target values consistent with the Agency's Mission and Vision. The goals and objectives provide a benchmark for the assessment of various projects and initiatives that are proposed, planned, and implemented throughout the DTPW transit system. This chapter of the annual update analyzes DTPW's progress during 2019 towards achieving the goals set forth in the 2019 TDP Major Update.

The framework for the performance assessment is based on the following definitions:

- Goal A long-term end toward which programs or activities are ultimately directed
- Objective A specific, measurable, intermediate end that is achievable and allows measurement of progress toward a goal
- Target A defined performance indicator for a specific measurement of progress toward an objective

Each target in this chapter is assigned one of three statuses, based upon DTPW's accomplishments in during 2019:

- ✓ Yes The target has been met
- In Progress Significant progress has been made towards meeting this target
- X No The target is unmet

Information regarding ongoing progress and project completion dates is included in the narrative sections following each goal table.

4.1. Goal 1 - Improve Transit System Convenience and Reliability

| Goal 1: Improve Transit System Convenience and Reliability | | | | | |
|--|---|---------------------------------|--|-----------------|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | |
| 1.1 - Increase miles of transit infrastructure | Infrastructure miles of fixed guideway, exclusive ROW or express lanes in Miami-Dade County | Increase Currently: 35.1 miles | I-75/SR-826 Express Lanes - 12.7 miles SR-836 Bus-on-Shoulder - 8.5 miles Total 56.3 Miles | √ Yes | |

4.1.1. Express Lanes and Exclusive Right of Way

4.1.1.1. I-75/SR-826 Express Lanes

This project consists of the implementation of tolled express lanes along SR-826 from SR-968/W Flagler Street to NW 154th Street and along I-75 from SR-826/Palmetto Expressway to NW 170th Street in Miami-Dade County. Overall improvements include one to two tolled express lane in each direction from W Flagler Street to north of NW 154th Street, and one tolled express lane in each direction along I-75 from the Palmetto Expressway to NW 170th Street, a new flyover connecting the SR-826/Palmetto Expressway and I-75 express lanes, installation of noise barrier walls at specific locations along I-75 and new lighting along the I-75 express lanes. Construction was completed in September 2019. The completed express lanes are shown in figure 4-1.

Figure 4-1: SR-826 Express Lanes

4.1.1.2. NW Miami-Dade Express (Route 175, Bus Express Rapid Transit (BERT) Network Route C)

DTPW launched the NW Miami-Dade Express (Route 175) in November 2019. This is the first of the nine BERT Network routes to enter service. This route runs on designated express lanes on I-75 and SR-826 from the new Park-and-Ride facility located at I-75 and Miami Gardens Drive (near Florida's Turnpike) to the Palmetto Metrorail station. The route operates during weekdays, with buses running every 15 minutes during peak service hours.

4.1.1.3. SR-836 Express Bus

To facilitate the SR-836 Express bus, 8.5 miles of bus-on-shoulder lanes have been added to the Dolphin Expressway in 2019. The SR-836 Express Bus route will provide premium express transit service from the proposed Dolphin Station (NW 12th Street and the Homestead Extension of Florida's Turnpike (HEFT)) to Downtown Miami via SR-836. Service headways will be 10 minutes during the AM/PM peak-hour. Route C will commence service on the inside shoulder of the expressway by mid-2020.

| Goal 1: Improve Transit System Convenience and Reliability | | | | | | |
|--|---|---------------------------|---------------------------------|----------------|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | |
| | Percentage of missed pullouts | 0% (Yearly Improvement) * | Current: 0.29% (Previously: 1%) | ✓ Yes | | |
| | | Metrorail: ≥ 39,000 miles | 27,029 miles | X No | | |
| | Mean distance between service failures | Metrobus: ≥ 4,000 miles | 4,850 miles | ✓ Yes | | |
| 1.2 - Improve | | Metromover: ≥ 6,000 miles | 4,450 miles | X No | | |
| service availability | CAD/AVL installed and functioning on all transit service vehicles | 100% | 100% | ✓ Yes | | |
| | On-Time Performance | Metrorail: ≥95% | 94.60% | X No | | |
| | | Metrobus; ≥78% | 70.40% | X No ** | | |
| | | STS: ≥ 90% | 88.80% | X No | | |
| | | Metrorail: ≤ 1.5 | 5.05 | X No | | |
| 1.3 - Improve customer satisfaction with DTPW service | Number of customer complaints per | Metrobus: ≤ 1.5 | 15.46 | X No | | |
| | 100,000 boardings (per mode) | Metromover: ≤ 0.5 | 0.95 | X No | | |
| | | STS: ≤ 0.5 | 0.18 | ✓ Yes | | |

^{*} While DTPW aspires to deliver zero missed pullouts, this represents an ideal condition which likely can not be achieved. Success is measured by achieving yearly improvement.

^{**} Changes to Metrobus Schedules needed in order to improve on-time performance are pending the outcome of the Better Bus Project. The Planning & Scheduling Division continues to evaluate historical running time data and update schedules accordingly. Schedules will continue to be revised and additional available buses will continue to be assigned to routes as necessary. It is likely that not all routes with on-time performance deficiencies will be addressed within the course of one line-up due to fiscal and equipment constraints. DTPW's fleet replacement program has resulted in improvements in on-time performance.

| Goal 1: Improve Transit System Convenience and Reliability | | | | | | |
|--|---|--|---|-------------|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | |
| 1.4 - Provide | Real time ETA signage at multimodal stations and high ridership stops | Completed by November 2019 Work currently under way | | In Progress | | |
| | Real time information available for 3rd party app developers, including General Transit Feed Specification (GTFS) and GTFS RealTime (GTFS RT) | Publish and maintain GTFS and GTFS RT feeds | Data feeds available at: https://www.miamidade. gov/global/transportation/open-data-feeds.page | ✓ Yes | | |
| information | | Metrorail: 100% | 100% | ✓ Yes | | |
| | Percent of transit service vehicles with wi-fi capability | Metrobus: 100% | 100% | | | |
| | , | Metromover: 100% | | 103 | | |
| | Enhance real time info on DTPW application | By FY 2020 | Introduced GO Miami-Dade App | ✓ Yes | | |
| | | Metrorail: 65,000 | 62,141 (Previously: 65,857) | X No | | |
| | Average weekday boardings per mode | Metrobus: 151,000 | 160,396 (Previously: 151,231) | ✓ Yes | | |
| | | Metromover: 27,000 | 29,081 (Previously: 28,646) | √ Yes | | |
| 1.5 - Align transit service | | Metrorail: 360,670 | 359,148 (Previously: 339,929) | X No | | |
| coverage with | | Metrobus: 2,466,000 | 1,875,711 (Previously: 2,099,041) | X No | | |
| passenger demand | Revenue Hours of Transit Service | Metromover: 110,057 | 113,317 (Previously: 113,317) | ✓ Yes | | |
| | | STS: 1,105,000 | 1,169,768 (Previously: 1,148,425) | ✓ Yes | | |
| | Committed bus service adjustments / improvements | 80% consistency with adjustments planned in previous TDP | 100% | ✓ Yes | | |

4.1.2. Real-Time ETA signage at Multimodal Stations and High Ridership Stops

DTPW has two projects currently under way which will deliver real-time ETA signage in 2020. These systems monitor data from Computer Aided Dispatch / Automatic Vehicle Location (CAD/AVL) devices to announce the next arrival time on electronic displays. Installation of new multi-color electronic signage in all Metrorail Stations and nine Metromover Stations is under way to provide information on train arrivals, and departures. The LED signs will be installed in conjunction with a new public address system project that will synchronize with the visual messages that will be displayed over the LED signage. The synchronization will provide improved ADA accommodation.

4.2. Goal 2 - Improve Customer Service

| Goal 2: Improve Customer Service | | | | | |
|---|---|--|---|-----------------|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | |
| 2.1 - Prepare and release an annual transit satisfaction survey | Completion of survey | Survey completed annually | 2019 TDP Survey | √ Yes | |
| 2.2 - Conduct regular on-board passenger surveys | Completion and frequency of survey | Survey conducted at least every 5 years Currently: Last completed in April 2013 | Miami-Dade TPO survey planned for 2020 | X No | |
| 2.3 - Conduct | Number of outreach activities per year | ≥6 | 56 | ✓ Yes | |
| dedicated transit outreach programming | Promotion of annual survey via social media | Monitor number of social media endorsements related to the annual | Facebook: 77 likes, 29 Comments and 15 Shares | ✓ | |
| | Tremener et armearser et va secial media | survey | Twitter: 96 likes, 11 conversions and 89 retweets | Yes | |
| 2.4 - Increase regional coordination | Coordination meetings with BCT, PalmTran and Tri-Rail | ≥ 90% attendance at regional sFRTA PTAC: 1 meeting transportation service meetings SEFTC RTTAC: None | | X No | |
| | Tri-County Fare System Implementation/ Cross Promotion | Seamless transit fare system in operation by 2020 | None | X No | |

^{* 107} total social media posts were published between February 2019 to July 2019. These included 94 tweets (53 in English, 18 in Spanish and 23 in Creole) and 13 Facebook posts (7 in English, 3 in Spanish and 3 in Creole)

4.2.1. Seamless Transit Fare System

The four transit agencies in the region have halted the seamless transit fare system initiative temporarily, due to the rapid evolution of fare collection technologies. Concerns were raised that the originally proposed smart card system would quickly become obsolete. In addition, two transit agencies (PalmTran and BCT) are not currently integrated. The transit agencies have agreed to continue working towards an integrated fare system.

4.3. Goal 3 - Maximize Operational Safety and Security

| Goal 3: Maximize Operational Safety and Security | | | | | | | |
|--|--|---------------------------|--|----------------|--|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | | |
| 3.1 - Reduce transit | Bus accident rate per 100,000 miles | ≤ 3.778 per 100,000 miles | 2.31 per 100,000 miles | ✓ Yes | | | |
| vehicle accidents | Preventable bus accident rate per 100,000 miles | ≤ 1.50 per 100,000 miles | 1.84 per 100,000 miles | X No | | | |
| | Number of transit facilities with camera surveillance | ≥ 54 facilities | Metrorail: 22 Stations Metromover: 21 Stations Metrobus: 1 Station | X No | | | |
| | Number of transit vehicles with camera surveillance | ≥ 1,025 transit vehicles | 29 Metromovers 754 Buses 484 Metrorail Trains | ✓ Yes | | | |
| 3.2 - Make transit vehicles and facilities secure environments for customers | Number of security post inspections | ≥ 800 per month | 997 Per Month | ✓ Yes | | | |
| | Number of system-wide NTD Reportable Part One (1) Crimes (Serious) per 100,000 riders (monthly moving average) | ≤ 0.3 per 100,000 riders | 0.22 per 100,000 riders | ✓ Yes | | | |
| | Number of system-wide NTD Reportable Part Two (2) Crimes (Petty) per 100,000 riders (monthly moving average) | ≤ 1.62 per 100,000 riders | 0.22 per 100,000 riders | ✓ Yes | | | |

4.3.1. System-wide Safety and Security Upgrades

DTPW's commitment to the safety and security of the transit system, patrons, and employees is of the highest priority. To advance the safety and security of the system, DTPW has programmed funding to purchase security equipment to upgrade and install closed circuit camera television (CCTV) systems and respective software components, and to continue the replacement of fire detection and reporting systems. In an effort to further complement its existing security infrastructure, DTPW continues to aggressively add state-of-the art technology to both reduce crime and to aid law enforcement in proactively securing and safeguarding the transit system. FDOT Rule 14-15.017(2.2.1) prevents DTPW from disclosing these improvements/installations in greater detail.

DTPW will continue to enhance existing security equipment with the addition of 4K technology to the Metrorail and Metromover CCTV systems. The second phase of the CCTV project is slated to be complete by July 2021. Metromover will also have a new fire detection and reporting system installed in all Metromover stations and at the Stephen P. Clark Metromover Control Center. This new fire detection and reporting system is slated to be completed by January 2023.

4.4. Goal 4 - Enhance Integration of Transit Services to Support the Economy

| Goal 4 - Enhance Integration of Transit Services to Support the Economy | | | | | | |
|--|--|----------|---|----------|--|--|
| Objective | 2019 Accomplishments | Status | | | | |
| 4.1 - Increase density of TOD at DTPW Metrorail, Transitway and park-and-ride stations through Public Private Partnerships (P3) | Committed square feet of commercial space in P3 TODs | Increase | 3.56 million (Previously: 2.08 million) | ✓ Yes | | |
| | Number of committed residential units in P3 TODs | Increase | 4,990 (Previously: 3,933) | ✓ Yes | | |

4.4.1. Transit Oriented Development Projects

4.4.1.1. Motion at Dadeland - Dadeland North Metrorail Station

DTPW partnered with the Adler Group and 13th Floor Investments to construct Motion at Dadeland, a 0.87-acre mixed-use development which opened on April 11, 2019. This TOD is a 25-story building that features 294 market rate rentals (studios and 1/2/3 bedroom), a parking garage with 411 spaces and approximately 7,500 SF of retail space in a multi-family community. The project cost was \$86 million.

4.4.1.2. Luma at Miami Worldcenter - Freedom Tower Metrorail Station

DTPW partnered with Zom Living and The Moinian Group to construct Luma at Miami Worldcenter, a 1.65-acres 43-story TOD which commenced construction in April 2019. In August 2019, the foundation pour was completed, and the vertical phase of construction began in September. This TOD is a 43-story building that features 434 apartments. As a part of the development, the developer will reconstruct the Freedom Tower Metromover station integrating it into the rest of the development.

4.4.1.3. Link at Douglas - Douglas Road Metrorail Station

Table 4-1: Existing Transit Oriented Developments

| | Comm | ercial | Residential | | | |
|----------------------|-------------|-------------|----------------|-----------------------|-------------------|-----------|
| TOD | Office (SF) | Retail (SF) | Market Rate | Affordable Housing | Senior Housing | Workforce |
| Dadeland South | 747,942 | 44,921 | | | | |
| Dadeland North | | 384,908 | 462 | | | |
| South Miami | 194,050 | 14,000 | 102 | | | |
| Douglas Road | 430,000 | 76,000 | 1,375 | | | |
| Coconut Grove | | 170,000 | 302 | | | |
| Government Center | 630,000 | 21,000 | | | | |
| Overtown | 610,000 | 4,000 | 240 | | | 360 |
| Santa Clara | | | | 412 | | |
| Allapattah | | | | 128 | | |
| Brownsville | | 6,400 | | 566 | | |
| MLK | 172,000 | 13,500 | | | | |
| Northside | | 20,000 | | 219 | 228 | |
| NW 7th Avenue | | | | 176 | | |
| Quail Roost (SW 186) | | 10,000 | | 250 | | |
| Caribbean | | 12,500 | | 170 | | |
| Total | 2,783,992 | 777,229 | 2,481 | 1,921 | 228 | 360 |
| Grand Total | 3,561,221 | | 4,990 | | | |

DTPW partnered with Adler Group and 13th Floor Investments to construct Link at Douglas, five-tower mixed-use development which broke ground in April 2019. This project, which will be built in phases over the next five years on seven acres of land, will have 1,421 residential units including a workforce housing component (12%), 25,000 SF of retail space, a 251,873 SF office building and a public plaza that will connect with The Underline. The development is located in the area bounded by SW 37th Avenue on the east and SW 38th Avenue on the west, between US-1 and Peacock Avenue. As part of the partnership with DTPW, the Adler Group and 13th Floor Investments will contribute more than \$17 million in improvements to the Douglas Road Metrorail station and approximately \$1 million toward the development of The Underline. Overall, Link at Douglas is expected to generate approximately \$500 million in new revenue for Miami-Dade County.

4.4.1.4. Caribbean Village - South Miami-Dade Transitway

DTPW partnered with Pinnacle and the South Miami Heights Community Development Corporation to construct Caribbean Village, a 3.2-acre affordable mixed-use transit-oriented community for seniors. The community is located at 19755 SW 110th Court on the north side of Caribbean Boulevard between SW 110th Court and SW 200th Drive. The development is a seven-story residential building with 123 residential units, a surface parking lot and a transit park-and-ride facility located on site. The project was completed in December 2019 and is expected to open in February 2020.

4.4.1.5. Northside Transit Village - Freedom Tower Metrorail Station

Construction of Phase II of the Northside Transit Village was completed in 2019. This is a four-phased project and includes two family and two senior developments consisting of approximately 438 total units ranging from one bedroom to four-bedroom units and approximately 20,000 square feet of retail/commercial space and a multi-level parking garage with 250 dedicated Metrorail parking spaces. Phase I was completed in 2015, with 100 apartments, a parking garage and ground floor retail. Phase II consists of 119 affordable housing units for seniors and additional retail space. Northside Transit Village is located on the southeast corner of NW 32nd Avenue and NW 79th Street. The total estimated development cost is \$88.1 million.

4.4.1.6. Omni Bus Terminal - Adrienne Arsht Center Metromover Station

DTPW has partnered with Resorts World Miami LLC to build a 0.99 acre mixed-use transit-oriented development, which broke ground in 2019. This revenue-generating development will include a 300-key hotel, residential service apartments, and ground floor retail. This will promote maximum use of the transit system and provides functional and aesthetic integration of the Metromover station and bus terminal into the overall project. The developer will invest \$16.4 million to perform the following upgrades: additional bus bays, enclosed air-conditioned waiting areas, upgraded operator restrooms and lounges, platform tile replacement, improved station lighting, replacement of existing escalator and elevator, and renovation of the pedestrian bridge spanning NE 15th Street. Construction is expected to be completed by Fall 2021.

| Goal 4 - Enhance Integration of Transit Services to Support the Economy | | | | | | | |
|---|---|---------------------------------------|----------------------|-------------|--|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | | |
| 4.2 - Provide transit access to major attractors in Miami-Dade County | | Healthcare: 50 miles | 64 Miles | ✓ Yes | | | |
| | Miles of service within 1/4 mile of attractors | Tourist/Special Attractors: 300 miles | 141 Miles | X No | | | |
| | | Education: 100 miles | 93 Miles | X No | | | |
| | | Employment Areas: 40 miles | 230 Miles | ✓ Yes | | | |
| | | Retail Centers: 90 miles | 90 Miles | ✓ Yes | | | |
| 4.3 - Improve access to universities and colleges | Catchment area of routes which connect to major universities and colleges | 220.69 square miles | 236.18 | ✓ Yes | | | |

4.5. Goal 5 - Provide Transit Services that Reduce the Impact on the Environment

| Goal 5: Provide Transit Services that Reduce the Impact on the Environment | | | | | | |
|--|---|---|--|----------------|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | |
| 5.1 - Increase percentage of fleet that uses alternative fuels | Percent of fleet that uses alternative fuels | Increase | 63% (Previously: 59%) | ✓ Yes | | |
| 5.2 - Incorporate solar panels on DTPW facilities | Complete a study to assess potential of installing solar panels on DTPW-owned facilities | Complete assessment by 2024 | DTPW has recently taken over the Dolphin Park and Ride which is equipped with a Solar Power system. DTPW is in the process of incorporating Net-Metering to be able to monitor through the County-Wide Energy Cap system. DTPW will review the data available at the end of 2020 to determine the feasibility of incorporating solar installations at other DTPW facilities. | In Progress | | |
| | Partner with utilities and solar advocacy groups to install solar panels at DTPW facilities | Coordinate to investigate possible programs by 2020 | None | X No | | |

4.5.1. Alternative Fuels

In 2018, DTPW began to replace 300 of the 773-vehicle bus fleet with new 40-foot Compressed Natural Gas (CNG) vehicles. In early November 2019, DTPW accepted the last of these new CNG buses into revenue service.

In October 2019, the Miami-Dade County Commission unanimously approved the purchase of 33 electric-powered, zero emission buses and charging systems. These will be the first electric buses in Miami-Dade County's fleet and contributes to the ongoing fleet modernization.

DTPW has an option to purchase up to an additional 42 alternative fuel buses. These new vehicles are slated to be in service by January 2022. DTPW will also purchase 65 articulated 60-foot Battery-Electric zero emission buses, and has an option to purchase up to an additional 35 articulated 60-foot Battery-Electric zero emission buses. These new vehicles are slated to be in service by the end of December 2021.

4.5.2. Solar Panels on DTPW Facilities

A solar feasibility study for Miami-Dade County, released in October 2018, evaluated the feasibility of on-site solar energy generation and use at County properties. With technical assistance from the U.S. Department of Energy's National Renewable Energy Laboratory (NREL), the initial screening revealed 238 County facilities had suitable roof areas for photo-voltaic (PV) panels. Potential installation of PV panels at the facilities were determined to have a total solar PV capacity of 61,725 kW and an annual solar energy production of 87,855,519 (87.8 million) kWh. Solar PV technology has been integrated into many facilities throughout the County, including parks, school crosswalks and over 900 bus shelters.

4.6. Goal 6 - Maximize Use of Funding Sources

| Goal 6: Maximize Use of All Funding Sources | | | | | | |
|---|----------------------------------|-----------------------------------|---|----------------|--|--|
| Objective | Objective Measure | | 2019 Accomplishments | Status | | |
| 6.1 - Achieve a sustainable transit financial plan that maximizes existing funding and pursues innovative and new funding sources | Status of transit financial plan | Apply for state and federal grant | DTPW applied for 21 state and federal grants in 2019. DTPW was awarded \$22,319,413 in state funding from FDOT and \$148,174,975 in FTA agreements. | ✓ Yes | | |
| 6.2 - Reduction in operations unit cost per revenue mile | Change in cost per revenue mile | Reduce by 2024 | -1.96% (\$10.98 in 2019 vs. \$11.20 in 2018) | ✓ Yes | | |
| | Change in cost per revenue hour | Reduce by 2024 | +4.5% (\$156.06 in 2019 vs. \$149.31 in 2018) | X No | | |

4.6.1. Innovative and New Funding Sources

In 2019, DTPW submitted proposals for 20 state and federal grants. Two proposals were submitted to the FY 2019 BUILD Transportation Grants Program. This is a federal program for planning and capital investments in surface transportation infrastructure. Grants are to be awarded on a competitive basis for projects that will have a significant local or regional impact. The two proposals requested \$12.625M (25%) for the refurbishments and enhancements to the existing Dadeland South Metrorail Station and \$22,360,552 (22.62%) for the remaining unfunded transportation costs in order to complete the Underline. On November 11, 2019, DTPW was awarded funding for the Underline project.

| Goal 6: Maximize Use of All Funding Sources | | | | | |
|---|---|---|--|----------------|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | |
| 6.3 - Identify alternative project delivery methods | Alternate Delivery projects: Public-Private Partnerships, Transportation Infrastructure Finance and Innovation Act (TIFIA), State | Completion of two projects delivered through alternative methods by 2024 | Golden Glades Multimodal Transportation Facility - Design-Build project. The project commenced in 2018 and is scheduled to be completed in 2021. | > | |
| | Infrastructure Bank Loans, Design Build, Operate and Maintain, and Design Build Finance Operate and Maintain | | Ludlam Trail Corridor Phase 1 under construction, scheduled to be completed in Summer 2020. | In Progress | |
| 6.4 - Increase | Farebox Recovery Ratio | Increase | FY18: 15.2% FY 19: 15.9% | ✓ Yes | |
| passenger fare revenue | Conduct a fare policy analysis and evaluate alternate fare models (distance/zone models) | Conduct study | None | X No | |

4.6.2. Design-Build Projects

4.6.2.1. Golden Glades Multimodal Transportation Facility (GGMTF)

The GGMTF project is located in northern Miami-Dade County on two FDOT-owned Park-and-Ride lots adjacent to the cities of Miami Gardens, North Miami Beach, North Miami and the Golden Glades Community. The GGMTF, a design-build project, will consolidate the existing bus transit services at the two Golden Glades Park-and-Ride lots into a single facility adjacent to the Tri-Rail Station. This project will transform the park-and-ride into a state -of-the-art transit terminal with a multi-bay bus facility upgraded walkways, platforms, bicycle/pedestrian amenities as well as other improvements related to transit operations, including internal roads, drainage, lighting systems, fencing, wayfinding, and traffic control signage. The GGMTF will feature a multi-story parking garage, kiss-and-ride, and plenty of surface parking lots for all types of motorists, including scooters and motorcycles. Other amenities will

include bicycle parking and lockers. The complex will also feature a transit hub, future governmental use development building, a break lounge for bus drivers, and future governmental use intercity bus terminal. Construction began in August 2018 and is anticipated to end in May 2021.

4.6.2.2. Ludlam Trail Corridor

The Ludlam Trail is progressing through a P3 that will transform a 6.2-mile length of the former Florida East Coast railroad corridor from the Blue Lagoon to SR-878 into a bicycle and pedestrian friendly urban park and public space, complemented by trail-oriented development aimed at activating the corridor at strategic locations. The Ludlam Trail will connect over 35,000 people within a half-mile radius to five schools, four parks, and two transit hubs, along with residential and commercial areas. Once fully operational, the Ludlam Trail will form an integral part of the 225-mile planned Miami Loop, a network of planned trails that also includes The Underline, Miami River Greenway and the Perimeter Trail.

Miami-Dade County will construct 80% of the trail segment while the developers will also design and build a half-mile-long segment of the trail and maintain it at no cost to taxpayers. In 2018, the Miami-Dade Commission approved the \$25 million purchase of 80% of the rail corridor and further secured about \$27 million of the \$94 million construction cost. Phase I is under construction and is scheduled to be completed in 2020.

4.7. Goal 7 - Expand Transit Services

| Goal 7: Expand | Goal 7: Expand Transit Services | | | | | | |
|--|---------------------------------|---|---|-------------|--|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | | |
| | Beach Corridor | | PD&E study concluded, recommending elevated automated rail transit for the trunk line, automated people mover for the Midtown/Design District portion, and Bus/Trolley in dedicated lanes on Miami Beach. Adoption of LPA expected in January 2020. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. | In Progress | | | |
| , | East-West Corridor | | PD&E study nearing completion, and a recommended alternative is expected to go to the TPO board in 2020. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. | In Progress | | | |
| 7.1 - Implement the Strategic | Kendall Corridor | Progress toward three milestones: 1. Locally Preferred Alternative (LPA); | Curbside Bus Rapid Transit (BRT) was identified as the recommended alternative for the Kendall corridor in 2019. Endorsement of the recommended alternative is expected in Fall 2020. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. | In Progress | | | |
| Miami Area Rapid Tranist (SMART) Plan Rapid Transit Network | North Corridor | 2. Inclusion of the SMART Plan projects in the TDP and other planning documents; 3. Implementation of the projects upon funding availability | Elevated Heavy Rail selected as the LPA by the TPO Governing Board in October 2019. DTPW is conducting an additional analysis on the various transit technologies for the North corridor, and results are expected to be presented to the TPO in March 2020. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. | ✓ Yes | | | |
| | Northeast Corridor | | FDOT District 4 is managing the PD&E study which is nearing completion and will deliver a report in 2020. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. | In Progress | | | |
| | South Corridor | | 1. The TPO Governing Board selected BRT as the LPA in August 2018. 2. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. 3. FTA Small Starts Grant application was submitted in August 2019 for \$100 Million. Grant agreement expected in Spring 2020. Issued Request for Proposals (RFP) for design build services in June 2019. | ✓ Yes | | | |

| Objective | Measure | Target | 2019 Accomplishments | Status |
|---|--|--|--|-------------|
| 7.2 - Implement the SMART Plan BERT Network | Flagler Corridor | Progress toward three milestones: | Regiler Corridor PD&E study is refining recommended alternatives, expecting TPO endorsement in 2020. Included in TDP Implementation Plan, the TPO TIP, and the 2045 LRTP. | |
| | South Miami- Dade Express | | BERT Network PD&E study received Notice to Proceed (NTP) March 2019. Park-and-Rides Included in TDP Implementation Plan and the 2045 LRTP. | |
| | Northwest Miami- Dade Express | | BERT Network PD&E study received NTP March 2019. Included in TDP Implementation Plan and the 2045 LRTP. I-75 & Miami Gardens Dr. Park-and-Ride Lot opened Spring 2019. Service initiated November 2019. | |
| | Southwest Miami- Dade Express | | BERT Network PD&E study received NTP March 2019. Included in TDP Implementation Plan and the 2045 LRTP. Park-and-Ride included in TDP Implementation Plan and the 2045 LRTP. | |
| | Florida's Turnpike Express (North) | | BERT Network PD&E study received NTP March 2019. On March 21, 2019 the TPO passed Resolution # 26-19 to amend the SMART plan to extend the limits of Florida's Turnpike Express (North), to connect to the North corridor. Included in TDP Implementation Plan and the 2045 LRTP. Park-and-Rides Included in TDP Implementation Plan and the 2045 LRTP. | |
| | Florida's Turnpike Express (South) | | BERT Network PD&E study received NTP March 2019. Included in TDP Implementation Plan and the 2045 LRTP. | |
| | Beach Express North | | BERT Network PD&E study received NTP March 2019. Included in TDP Implementation Plan and the 2045 LRTP. | |
| | Beach Express Central | | BERT Network PD&E study received NTP March 2019. Included in the 2045 LRTP. | |
| | Beach Express South | | BERT Network PD&E study received NTP March 2019. Included in the 2045 LRTP. | In Progress |
| 7.3 - Increase service frequency on high demand bus routes | Number of route improvements or adjustments to top 10 routes | Increased frequency on 10% of top 10 routes from previous year | 2018 top 10 Routes by ridership: 119, 11, 112, 77, 38, 27, 120, 3, 9, 8 No route frequency increases in 2019 | |

4.7.1. Bus Express Rapid Transit Service

The BERT network is an integral element of the SMART Plan. In 2019, two projects were initiated in the northwest part of the county - the implementation of a new BERT service, and the extension of an existing route. Additionally, several new park-and-rides have opened, are under construction, or are being proposed to support these new routes. All of the projects listed below are shown in Figure 5-1: The SMART Plan.

4.7.1.1. I-75 NW Miami-Dade Express

On November 18, 2019, the first BERT Network corridor opened to riders, the I-75 NW Miami-Dade Express. The route runs from the Miami Gardens Drive Park-and-Ride to the Palmetto Metrorail Station along the I-75 and SR-826 Express Lanes. It provides a rapid transit option not only for residents in northern Miami-Dade County, but also for Broward County residents wanting to travel to points south such as downtown Miami.

4.7.1.2. Florida's Turnpike Express (North) BERT corridor

In 2019 the Miami-Dade TPO coordinated the extension of the corridor limits to better serve residents and increase ridership. The Miami-Dade TPO Governing Board amended the SMART Plan to include this extension that provides a continuous connection from the recently opened Miami Gardens Drive Park and Ride just west of I-75 to NW 27th Avenue (northern termini of the North Corridor).

4.7.1.3. Miami Gardens Drive Park and Ride

Supporting these two BERT corridors, the Miami Gardens Drive Park and Ride is a new, key northwest transportation hub. This facility is equipped with 300 short-term parking spaces, including accommodations for motorcycles and bicycles. It also includes five bus bays, a continuous canopy, and LED lighting.

4.7.1.4. Beach Express North - I-195 Bus on Shoulder

Service for the Beach Express North is scheduled for 2023. To support this service FDOT's infrastructure improvement along the Julia Tuttle Causeway/I-195 includes increasing the width of the inside paved shoulders and reducing the widths of the center and inside travel lanes and reconstructing the inside shoulder to allow Bus On Shoulder (BOS) operations. FDOT anticipates that the construction of the inside shoulder will begin in July 2022. The BOS operation will allow DTPW buses to use the Julia Tuttle Causeway shoulder to bypass traffic during peak period congestion. Upon completion of the infrastructure improvement and fulfillment of all related study requirements, all DTPW bus routes will be able to use the BOS operation. Additionally, DTPW is coordinating with the Cities of Miami, Miami Beach, FDOT and FHWA to implement interim service of this route in 2021. The interim service will use the outside shoulder along I-195. FDOT is conducting milling and resurfacing work along the outside shoulder for the interim service. These infrastructure improvements are anticipated for construction in Mid 2021. Additionally, DTPW is finalizing planning work and community outreach in order to implement the interim service.

4.8. Goal 8 - Enhance Integration and Connectivity of Transit Systems Across Modes

| Goal 8: Enhance Integration and Connectivity of Transit Systems Across Modes | | | | | | | | |
|--|--|--|---|-----------------|--|--|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | | | |
| 8.1 - Improve local, first/ last mile connectivity and convenience | Incorporate recommendations from the TPO Study First Mile - Last Mile Options with High Trip Generator Employers | Develop action plan to incorporate recommendations by 2024 | 1) New exclusive bus lanes on SR-836 and SR-874/878. 2) Level boarding incorporated into design for South Dade transitway corridor. 3) Installation of Transit Signal Priority (TSP) capabilities under way county-wide. 4) Seven Smart Plan Demonstration Projects initiated | √ Yes | | | | |

4.8.1. Transit Signal Priority

Transit Signal Priority (TSP) is an advanced signalization system that provides Metrobus vehicles equipped with real-time tracking technology priority passage through intersections to improve their on-time service.

To date, DTPW has installed 284 smart signals along ten county corridors as part of a larger five-year, \$11 million Traffic Signal System Modernization Project to improve mobility along the County's ten busiest corridors. Before-and-after studies are showing travel time savings for drivers on these corridors. DTPW is working on an additional \$160 million project to upgrade the rest of the County's traffic signal system which has approximately 3,000 signalized intersections. Improvements will include smart signals and TSP.

The 10 County corridors where smart signals have been installed are:

- NW 36th Street from NW 71st Avenue and NW 84th Avenue.
- Miami Gardens Drive (NW 183rd Street) from Bobolink Drive to NW 87th Avenue.
- NW 163rd Street from NE 19th Avenue to NW 2nd Avenue.
- Indian Creek Drive from 63rd Street to 88th Street.
- Biscayne Boulevard from NE 11th Street to NE 82nd Street.
- West Flagler Street from 43rd Avenue to Milam Dairy Road.

- LeJeune Road from Anastasia Avenue to Minorca Avenue.
- SW 27th Avenue from Bayshore Drive to SW 16th Street.
- SW 88th Street (Kendall Dr.) from SW 112th Avenue to SW 172nd Avenue.
 U.S. 1 from SW 16th Avenue and SW 98th Street.
- U.S. 1 from SW 104th Street and SW 344th street (including the South Dade TransitWay between Florida City and the Dadeland South Metrorail station).

4.8.2. Waze Carpool

In September 2019, DTPW partnered with Waze Carpool to provide free carpool rides to and from anywhere in Miami-Dade County by using the Waze Carpool app. Waze Carpool is an innovative way for commuters to share the road and the costs. It connects drivers and riders with similar destinations by pairing them on the most optimal routes. Users can choose a rider, or a driver based on personal profile and customize their carpool based on selected filters for time and date, gender, and preferred routes. Free rides were offered during the week of September 23-27. Subsequent rides will cost \$2 from anywhere within the County.

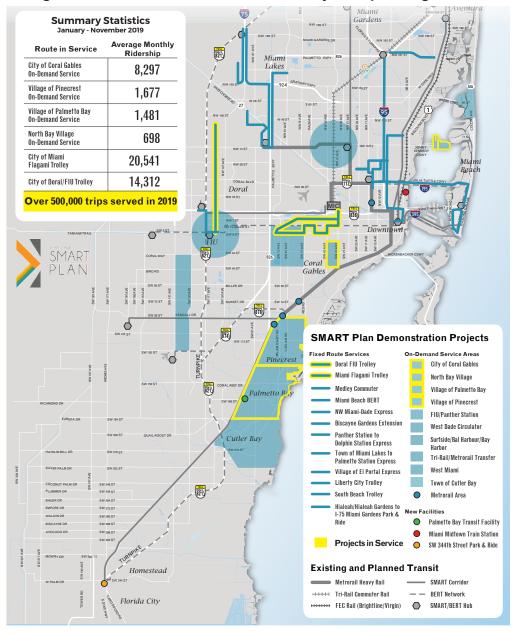

4.8.3. SMART Plan Demonstration Projects

The last quarter of 2019 brought forward a major collaboration between the Miami-Dade TPO, several municipalities, and County agencies to fund FY 2019 SMART Demonstration Projects. All FY 2019 applications were accepted and funded totaling over \$17 million in local, state, and federal funds.

Five SMART Plan Demonstration Program projects opened in 2019, as well as the addition of one new BERT route, and a new park and ride facility in the northwest area of Miami-Dade County.

- Coral Gables Flex Service focuses on first and last mile connectivity. The service includes electric vehicles providing on-demand service from the Douglas Metrorail Station to the Coral Gables service area.
- **Pinecrest Transit way Circulator** electric vehicles providing on-demand service focusing on first and last mile connectivity to and from the South Dade Transitway.
- Miami Gardens Drive Park and Ride this new park-and-ride facility services commuters by providing them with the NW Miami-Dade Express Bus service to the Palmetto Metrorail Station.
- Palmetto Bay On-Demand Service this service provides first and last mile connectivity using on-demand electric vehicle service to and from the South Dade Transitway.
- Palmetto Bay Transit Facility this new facility opened to alleviate overflow parking occurring at other locations along the South Dade Transitway accommodating more users.
- North Bay Village SMART Feeder Route on-demand service of electric vehicles focuses on first and last mile connectivity to various SMART Plan stops along Biscayne Boulevard.
- NW Miami-Dade Express & Station The NW Miami-Dade Express Bus Service limits were extended to connect the Miami Gardens Drive Park and Ride to the Palmetto Metrorail Station.

Figure 4-2: SMART Plan Demonstration Projects operating in 2019

| Goal 8: Enhance Integ | Goal 8: Enhance Integration and Connectivity of Transit Systems Across Modes | | | | | | |
|--|--|--|--|-------------|--|--|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | | | |
| 8.2 - Improve Regional Connectivity | Number of routes connecting to regional transit (MIC, Miami Central, Tri-Rail, Amtrak, and Greyhound services) | Increase Currently: 25 Routes (7, 22, 32, 37, 42, 57, 77, 95, 10, 110, 112, 132, 135, 146, 150, 155, 195, 196, 211, 238, 277, 297, 338, Metrorail, Metromover) | 28 Routes (7, 22, 32, 36, 37, 42, 57, 77, 10, 95 Express Broward Express, 95 Express Civic Center, 95 Express Sheridan Street, 105, 110, 112, 132, 135, 150, 155, 195, 196, 211, 238, 242 Night Owl, 277, 297, 338, 836 Express, Metrorail, Metromover) | ✓ Yes | | | |
| | Implement bike share at all Metrorail and Metromover stations | 100% of stations by 2024 | 50% | In Progress | | | |
| 8.3 - Improve service accessibility for non- motorized modes and | Integrate bike share payments into EASY network | Complete by 2024 | Currently under development with third party (Cubic, Inc) | ✓ Yes | | | |
| users | Increase bicycle/ electric scooter parking at all Metrorail and Metromover stations | 237 installed by 2024 | 95 Bike Lids have been installed at 11 Stations | ✓ Yes | | | |

4.8.4. Bike Share Program

Ride On was recently selected by Miami-Dade County to be the exclusive provider of bicycle sharing services at all its transit facilities, including Metrorail and Metromover. The initial 2018 phase featured more than 2,000 e-bikes at 120 stations. Ride On utilizes a proprietary integrated software that connects e-bikes with the Ride On website, the user's smartphone app and the recharging stations.

4.8.5. Bicycle Parking at Metrorail Stations

DTPW ordered and received 237 bicycle locker replacements for all Metrorail stations in January 2019. By the end of December 2019, 95 of the 237 bike lids had been installed at 11 Metrorail stations. The remaining 142 lids are projected to be installed in other Metrorail Stations and Park and Rides in 2020. Table 4-2 provide a list of Metrorail stations where new lids have been installed.

Figure 4-3: Bike lids at Okeechobee station

Table 4-2: Bike Lid Installations

| Facility | Bike Lids Installed |
|----------------------------|------------------------|
| Dadeland South Station | 6 |
| South Miami Station | 16 |
| Vizcaya Station | 18 |
| Douglas Station | 6 |
| Tri-Rail Station | 2 |
| Hialeah Station | 10 |
| Okeechobee Station | 5 |
| Earlington Heights Station | 4 |
| University Station | 6 |
| Culmer Station | 12 |
| I-75 Park and Ride | 10 |

| Objective | Measure | Target | 2019 Accomplishments | Status |
|---|--|------------------------------------|--|------------|
| 8.4 - Reduce reliance on park-and-ride facilities by providing additional access options to DTPW transit facilities | Establish partnerships first/last mile service providers | 5 partnerships established by 2024 | Published RFP for On-Demand service to/from Metrorail stations | |
| | | | Partnered with WAZE for a six month carpool program | |
| | | | Partnered with Uber and Visa to pilot a free open payment on-demand service at Dadeland South for one week | In Progres |
| | | | Partnered with Ford to study community feedback to improve first/last mile transit | |

4.9. GOAL 9 - Ensure Equity in Transit Services

| Goal 9: Ensure Equity in Transit Services | | | | | | |
|---|--|---|--|----------------|--|--|
| Objective | Measure Target 2019 Accomplishments | | | | | |
| | Increase route miles serving areas with a high density of persons with a disability | Increase by 2024 Currently: 399 miles | 411 miles | ✓ Yes | | |
| 9.1 - Reduce dependence on STS by improving service for transit dependent population | Increase percentage of DTPW stops that are ADA accessible | Increase by 2024 Currently: 1,025, 48.6% | Contract for an additional 360 stops to be awarded on May 1, 2020. Completion scheduled May 2023 | In Progress | | |
| | Implement travel training program to teach passengers with disabilities how to use fixed route service | Implement training program by 2024 | None | X No | | |

4.10. GOAL 10 - Maintain Existing Transit System in a State of Good Repair

| Goal 10: Maintain Existing Transit System in a State of Good Repair | | | | | |
|--|--|--------------|----------------------|-----------------|--|
| Objective | Measure | Target | 2019 Accomplishments | Status | |
| 10.1 - Increase capital expenditure on Infrastructure Renewal Program (IRP) | 10% of deferred maintenance of funded IRP projects | 10% achieved | 19% | √ Yes | |
| | Average Metrobus fleet age | ≤ 7.5 years | 5.4 years | ✓ Yes | |
| 10.2 - Reduce Average Fleet Age | Average Metrorail fleet age | ≤ 12 years | 10.0 years | ✓ Yes | |
| | Average Metromover fleet age | ≤ 15 years | 9.7 years | ✓ Yes | |

^{*}DTPW Metrobus and Metrorail replacement programs have contributed to reducing average fleet age with the replacement of aging fleet based on the FTA's bus retirement criteria (500,000 miles/12 years) with new fleet.

4.10.1. Metrorail New Vehicle Replacement

In March 2008, The Miami-Dade BCC and the CITT approved the \$380 million procurement of 136 new replacement rail vehicles. The new vehicles, which are assembled at the Hitachi Manufacturing Facility in Medley, feature the latest technological advances which will significantly improve passenger comfort, efficient maintenance and operations. The first vehicles were put into revenue service in November 2017, with the final vehicles planned for delivery in 2020. Fifty train cars (25 married pairs) entered service in 2019, increasing the total number of train cars in revenue service to 96 (48 married pairs).

4.10.2. Metrobus New Vehicle Replacement

Since October 2016, DTPW has engaged in an effort to reduce the average metrobus fleet age by acquiring 2019 buses. In 2019, 24 CNG powered buses were purchased, advancing DTPW towards a cleaner fleet.

4.11. Consistency Analysis

A listing of DTPW's committed bus service improvements and adjustments planned for 2019 was included in the previous years TDP. A consistency analysis of these commitments is being performed for this TDP to assess and measure DTPW's adherence to implementation plans presented in the 2019 Major Update.

The results of the consistency analysis for improvements implemented between January and December 2019 is presented in Table 4-4. Each of the service changes are identified according to whether it was a programmed commitment of the FY 2020–2029 TDP Major Update as indicated with a check mark (\checkmark) or an additional change not included in the TDP Annual Update as marked by an asterisk (*). Any committed changes which were not made are marked with an X.

Between June and November of 2019, DTPW made a total of 24 bus and rail service improvements and adjustments. Among these adjustments were 7 improvements that were not part of the TDP Annual Update. The 2020 TDP Major Update anticipated 17 bus service improvements and adjustments. Of these, all 17 were implemented as expected in 2019, resulting in a 100% level of consistency.

Table 4-3: Consistency Analysis

| Route | Service Change | Type: A (Adjustment) I (Improvement) R (Reduction) | Start Date | 2019 TDP Consistency |
|-------|--|--|------------|-------------------------|
| 34 | Add trip northbound from 344 th St Park-and-Ride at 6:40 A.M. to address over-crowding | I | 11/2019 | ✓ |
| 175 | BERT Route from I-75/Miami Gardens Drive Park-and-Ride to Palmetto Station using express lanes. 15 minute frequency from 5:30 A.M 9:30 A.M. and 3:30 P.M 7:30 P.M. weekdays. | | 11/2019 | ✓ |
| 32 | Adjust weekday running times. | A | 06/2019 | ✓ |
| 36 | Adjust Saturday running times. | A | 06/2019 | ✓ |
| 36 | Adjust Sunday running times. | A | 06/2019 | ✓ |
| 37 | Adjust Saturday running times. | A | 06/2019 | ✓ |
| 42 | Adjust weekday running times. | A | 06/2019 | ✓ |
| 57 | Adjust weekday running times. | A | 06/2019 | ✓ |
| 57 | Reroute by airport villas. | A | 06/2019 | ✓ |
| 95 | Move 8:58 A.M. SB trip to 9:03 A.M. to make better connection with BCT transfers. | Α | 06/2019 | ✓ |
| 288 | Move WB stop from SW 132 nd Ave to 127 th Ave | A | 06/2019 | ✓ |

| Route | Service Change | Type: A (Adjustment) I (Improvement) R (Reduction) | Start Date | 2019 TDP Consistency |
|---------|---|--|------------|-------------------------|
| 110/J | Adjust overlapping running times on Saturday and Sunday with route 36 changes. | A | 06/2019 | ✓ |
| 112/L | Relocate layover to 17 th St/Washington permanently and modify time points and running time. | А | 06/2019 | ✓ |
| 120 | Add SB stop at 43 rd St and Indian Creek Dr to improve connections with WB service along 41 st St. And stops near east side of Aventura mall. | А | 06/2019 | ✓ |
| 183 | Move layover to NW 73 rd Ave/Miami Gardens Drive P&R from NW 67 th Ave. | А | 06/2019 | ✓ |
| 295/296 | Add stop NB and SB at Allapattah station (NW 12 th Ave/33 rd St) | А | 06/2019 | ✓ |
| 19 | Reduce weekday PM frequency from 24 to 30 min and add time to recovery. | R | 06/2019 | ✓ |
| 38 | Add up to 10 min recovery at DLS weekdays | I | 11/2019 | * |
| 38 | Shift 5 min recovery to DLS on weekends. | A | 06/2019 | * |
| 27 | Update deadhead time | А | 11/2019 | * |
| 9 | Shift 3 min recovery to CBD (from 2 to 5 min) 7 days a week. | А | 06/2019 | * |
| 12 | Shift trips to address short recovery on Saturdays for problem run (1812). | А | 06/2019 | * |
| 10 | Shift trips to accommodate route 9 recovery downtown 7 days a week. | А | 06/2019 | * |
| 75 | Shift weekday trips in the PM to increase PM recovery. | А | 06/2019 | * |

4.12. Conclusion

Out of 84 targets established in the 2019 TDP Major Update, in 2020 DTPW met 43 (51%), failed to meet 23 (27%), and has work currently under way to complete 18 more (21%). Additionally, in 2019 DTPW successfully implemented all service adjustments committed to in the previous TDP, and made seven additional adjustments to improve Metrobus performance and better meet the needs of the Miami-Dade County transit customer.

5. 2020 TRANSIT IMPLEMENTATION PLAN

DTPW has committed to implement many transit improvement projects in Fiscal Year 2019-2020 (October 1, 2019 - September 30, 2020). This chapter contains detailed descriptions of the individual projects and transit initiatives DTPW has committed to during this period. These items include the purchase of new vehicles, the advancement and implementation of SMART Plan corridors, new express bus routes, new transit supportive facilities, improvements to existing service, and infrastructure renewal projects - all intended to maintain, improve, and further expand DTPW services.

For each project, the activity planned for 2020 is highlighted in bold.

5.1. Committed Capital Improvement Plan

Annually, DTPW prepares the Adopted Budget and Multi-Year Capital Plan that lists specific projects related to the expansion and improvement of DTPW's existing services. DTPW has \$705,506,000 allocated for capital projects in the current fiscal year (FY 19-20). Table 5-1 presents the adopted capital budget for the current fiscal year.

Table 5-1: DTPW FY 2019-2020 Adopted Capital Budget (\$000s)

| Project | Category/Funding | FY 19-20 |
|---|---|-----------|
| Beach Express South (SMART Plan) | Operations - Unfunded | \$238 |
| Bus And Bus Facilities | State of Good Repair - Funded | \$1,159 |
| Bus Enhancements | State of Good Repair - Funded | \$10,177 |
| Bus Related Projects | State of Good Repair - Funded | \$210,214 |
| Bus Tracker And Automatic Vehicle Locating System Upgrade | State of Good Repair - Funded | \$131 |
| Dadeland South Intermodal Station (SMART Plan) | Capital - Funded | \$17,500 |
| Emergency Backup Generators | State of Good Repair - Funded | \$1,000 |
| Fare Collection Equipment Projects | Capital - Funded | \$862 |
| Federal Funded Projects | State of Good Repair - Funded | \$102,058 |
| Golden Glades Bike And Pedestrian Connector - Sunshine Station | Capital - Funded | \$13,237 |
| Heavy Equipment Replacement | State of Good Repair - Funded | \$3,000 |
| Infrastructure Renewal Plan | State of Good Repair - Funded | \$12,500 |
| Lehman Yard - Perimeter Security Fence | State of Good Repair - Funded | \$4,358 |
| Lehman Yard | State of Good Repair - Funded | \$4,296 |
| Metromover - Improvement Projects | State of Good Repair - Funded | \$43,875 |
| Metrorail - Stations And Systems Improvements | State of Good Repair - Funded | \$26,963 |
| Metrorail - Track And Guideway Projects | State of Good Repair - Funded | \$26,000 |
| Metrorail - Vehicle Replacement | State of Good Repair - Funded | \$80,711 |
| Metrorail And Metromover Projects | State of Good Repair - Funded | \$4,532 |
| Palmetto Intermodal Terminal (SMART Plan) | Capital - Funded Operations - Funded | \$6,195 |
| Park And Ride - Transit Projects (SMART Plan) | Capital - Funded | \$7,830 |
| Park And Ride - Transitway At Sw 168th Street (SMART Plan) | Capital - Funded | \$203 |
| South Dade Transit Way Corridor (SMART Plan) | Capital - Funded | \$95,260 |
| Strategic Miami Area Rapid Transit Plan Phase 1 (SMART Plan) | Capital | \$9,212 |
| The Underline | Capital - Funded | \$15,452 |
| Transit - Signage And Communication Projects | State of Good Repair - Funded | \$8,543 |
| Grand Total | | \$705,506 |

5.2. New Vehicles

5.2.1. Metrorail New Vehicle Replacement

In March 2008, the Miami-Dade BCC and the CITT approved the \$380 million procurement of 136 new replacement rail vehicles. The new vehicles, which are being manufactured at the Hitachi Manufacturing Facility in Medley, feature the latest technological advances which will significantly improve passenger comfort, efficient maintenance, and operations. The first vehicles were put into revenue service in November 2017, with the final vehicles planned for delivery in 2020. As of December 29, 2019, 96 train cars (48 married pairs) have entered revenue service.

5.2.2. New Bus Vehicle Replacement

DTPW continues to implement its bus replacement program. Since October 2016, DTPW has acquired 234 vehicles as shown in Table 5-2. These buses make up part of DTPW's efforts to reduce the average fleet age. Additionally, some of the new vehicles represent an expansion of the fleet to provide new service, including the SMART and BERT routes. In 2020, DTPW expects to add 86 40' CNG buses. Details regarding the future bus replacement plan can be found in Appendix 6.

The procurement of alternative fuel buses for replacements and enhancements not only improves transit but also promotes the county's long-term initiative towards a state of good repair, economic competitiveness, livability, sustainability, safety, job creation, and economic stimulus. After evaluating various alternative fuels, DTPW decided to migrate the bus fleet to clean-burning CNG or battery-electric powered vehicles.

Table 5-2: Bus Purchases

| Year | Bus Type | # of Vehicles |
|------|---------------------|------------------|
| 2015 | NABI 15100 Diesel | 15 |
| 2016 | NEWFL 16500 Hybrid | 11 |
| 2016 | NEWFL 17500 Hybrid | 10 |
| 2017 | Gillig 16100 Diesel | 5 |
| 2018 | NEWFL 18100 CNG | 169 |
| 2019 | NEWFL 19100 CNG | 24 |
| | Total | 234 |

5.3. The SMART Plan

In April 2016, the Miami-Dade TPO Governing Board adopted the SMART Plan, a comprehensive program which identifies six corridors proposed for advancement towards a more complete rapid transit system. The SMART Plan also contains a network of corridors throughout the county for the implementation of BERT service. Since then, implementation of the SMART Plan has become a top priority of DTPW.

In October 2017, the TPO passed resolution #47-17 advancing the North and South Corridors into Priority I in the LRTP and TIP. In 2019, The TPO passed resolution #26-19, extending the limits of the Florida's Turnpike Express (FTE) North BERT Route to connect to the North (27th Avenue) Corridor.

This section highlights the progress that DTPW intends to make towards completing the SMART Plan in FY 19-20.

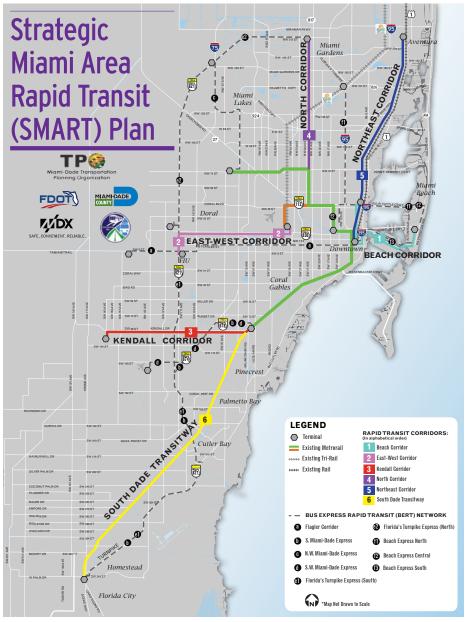

5.3.1. Beach Corridor

The Beach Corridor is a 9.7-mile long corridor connecting the Miami Design District through Downtown Miami along MacArthur Causeway to the Miami Beach Convention Center. This corridor is composed of a trunk line connecting the City of Miami and the City of Miami Beach, with one extension to the Midtown/Design District in the City of Miami, and one extension to the Miami Beach Convention Center.

The Beach Corridor PD&E study is funded by multiple agencies including the County, FDOT, City of Miami, and City of Miami Beach. In January 2020, the TPO, following the PD&E recommendation, selected elevated Automated Guideway Transit (AGT) for the trunk line, an extension of Metromover for the Midtown/Design District segment, and dedicated-lane motorbus service on Washington Avenue.

The County received an unsolicited proposal from a consortium of firms in May 2019 to design, build, finance, operate and maintain a monorail system between the mainland (downtown Miami) and Miami Beach along the MacArthur Causeway. In July 2019, the County released a solicitation for the same project purpose as the unsolicited proposal for a rapid transit system for the Beach Corridor. The County issued an RFP for a Rapid Mass Transit Solution for the Beach Corridor Trunk Line in September 2019. The County received the proposals in March 2020 and is directed by the BCC to evaluate the submission and negotiate with the proposer.

Figure 5-1: The SMART Plan

5.3.2. East-West Corridor

The East-West Corridor project will run approximately 11 miles from the MIC at MIA west along the SR-836/Dolphin Expressway, to the Turnpike in the vicinity of Florida International University (FIU). The East-West Corridor PD&E study team received Notice to Proceed (NTP) on April 13, 2017. Through the technical analysis and public input process, four viable build alternatives were identified as Bus Rapid Transit (BRT), Heavy Rail Transit (HRT), Commuter Rail Transit (CRT) and a hybrid combination of BRT and CRT. The project team is expected to present the recommended alternative to the TPO Governing Board in 2020 for selection of an LPA. The project team anticipates coordination with the FTA on the National Environmental Policy Act (NEPA) Class of Action immediately after the selection of the LPA.

5.3.2.1. Dolphin Station

Adjacent to the intersection of the HEFT and SR-836, Dolphin Station was identified as a strategic location for a transit center with a park-and-ride facility that will provide approximately 850 parking spaces. A groundbreaking ceremony was held in January 2017. Construction has been completed and **transit service began in March of 2020.** A rendering of the completed Dolphin Station is show in Figure 5-3.

5.3.2.2. SR-836 Express Bus Service

This project will provide premium express transit service using the inside bus-only shoulders of SR-836, which is planned of substantial completion in March 2020. This project will feature three routes:

- The A-Line route will provide premium express transit service from the proposed Tamiami Station (park-and-ride/transit terminal facility located at SW 8th Street and SW 147th Avenue) to Downtown Miami via SW 8th Street, SW 137th Avenue and SR-836. Service headways are planned to be 10 minutes during the AM/PM peak hours and 30 minutes during off-peak hours. The planned long-term improvements for this route is anticipated to be completed by 2021.
- The B-Line route will provide premium express transit service from the proposed Panther Station at Florida International University's Modesto A. Maidique Campus (MMC) to the MIC via SW 8th Street, SR-821/HEFT and SR-836. This route is planned to operate all day with 20-minute headways. The planned long-term improvements for this route is anticipated to be completed by 2022.
- The C-Line route started service in March 2020. It provides premium express transit service from Dolphin Station to Downtown Miami via SR-836. Service headways are anticipated to be 10 minutes during the AM/PM peak hours and 30 minutes during off-peak hours.

Figure 5-2: Rendering of Completed Dolphin Station

Figure 5-3: SR-836 Route Alignments

5.3.2.3. East-West Corridor Transit-Oriented Development Project

In June 2016, DTPW submitted a grant application to conduct a TOD study for the East-West Corridor, which was awarded by the FTA in the amount of \$1.2 million (\$960,000 FTA and \$240,000 PTP) under the TOD Planning Pilot program. The Master TOD Plan for East-West Corridor study received NTP in November 2018. **The study is anticipated to conduct two public design charettes in 2020 following the LPA selection for the rapid transit corridor.** The study is expected to be completed in Spring 2021 with a final TOD master plan for the corridor.

5.3.3. Kendall Corridor

The Kendall Corridor project is 10 miles from the Dadeland North Metrorail Station west along SR-94/Kendall Drive/SW 88th Street to approximately SW 162nd Avenue. This project provides multimodal solutions for severe traffic congestion along Kendall Drive, one of the most congested east-west arterial roadways in Miami-Dade County. A PD&E Study to evaluate proposed transportation solutions for Kendall Drive was launched in 2016. **The project team is anticipated to present the LPA in fall 2020.**

5.3.4. North Corridor

The North Corridor project is approximately 10 miles long, running from the Dr. Martin Luther King Jr. Metrorail Station northward along NW 27th Avenue to NW 215th Street. The PD&E study for the North Corridor began in 2016. In December 2018, the TPO Governing Board selected an Elevated Fixed Guideway transit system as the LPA for the North Corridor, based on the recommendation of the PD&E team. In October 2019 the TPO Governing Board selected Heavy Rail Transit as the preferred transit technology, with a directive for the TPO Executive Director to coordinate with FDOT and County staff to further refine the analysis for the various technological modes to include localized financial, operations and maintenance data and to report the revised analysis to the TPO Governing Board at its March 2020 meeting. In addition, County staff was directed by the BCC to issue an RFP in June 2020 to design, build, operate and maintain an elevated fixed guideway transit system for the North Corridor.

5.3.5. Northeast Corridor

The Northeast Corridor is a regional connection that links Miami-Dade County with neighbors to the north via the Florida East Coast (FEC) railway. It extends approximately 14 miles through the historic core of the County and links Aventura, North Miami, North Miami Beach, and Miami Shores with the County's Central Business District located in Downtown Miami. FDOT District 4 is managing the PD&E study and is currently finalizing plans. Service to the MiamiCentral Station is anticipated in late 2020 or early 2021. A Mid-town station has been identified by the SFRTA. Regional passenger rail service to the Aventura Station can be considered as the first phase of the service. Brightline has committed to providing the Aventura Station by 2022.

5.3.6. South Dade Transitway Corridor

The South Corridor runs approximately 20 miles from the Dadeland South Metrorail Station along the existing Transitway to the SW 344th Street Park-and-Ride/Transit Terminal Facility. DTPW initiated a PD&E Study to evaluate premium transit solutions in this corridor in April 2017. The TPO selected the LPA on August 30, 2018 as BRT. The project team has started coordination with the FTA on submitting a Small Starts Grant application for the South Corridor BRT project. The estimated total project capital cost is \$300 million. Miami Dade County and FDOT have both committed \$100 million each to fund design and construction. The project team submitted a Small Starts Package to the FTA requesting the remaining \$100 million via FTA Capital Investment Grant Program funding in August 2019 and is expecting a grant agreement with FTA in Summer 2020. In the meantime, the County issued a request for design build services for the South Corridor Rapid Transit Project in June 2019. **The contract for design-build services was awarded by the Board of County Commissioners on September 3, 2020.**

5.3.7. BERT Routes

In 2016, FDOT D6 began a PD&E study to examine implementation of BRT service and infrastructure improvements along SR-968/Flagler Street from SR-821/HEFT to SR-5/U.S.-1/Biscayne Blvd. The primary study objective is to evaluate the implementation of a cost-effective, high-ridership BRT system within the SR-968/Flagler Street Corridor that is to be part of an overall interconnected premium transit network. The FDOT project team is currently identifying and refining recommended alternatives. **The study is anticipated for completion in 2021.**

DTPW is also the lead agency on the NEPA study for the BERT network Route B through F3:

- South Miami-Dade Express (Route B)
- Northwest Miami-Dade Express (Route C)
- Southwest Miami-Dade Express (Route D)
- Florida's Turnpike Express South (Route E1)

- Florida's Turnpike Express North (Route E2)
- Beach Express North (Route F1)
- Beach Express Central (Route F2)
- Beach Express South (Route F3)

The BERT network PD&E study received an NTP in March 2019. Through 2019 and 2020 DTPW staff continues to assess the infrastructure needs such as new transit terminals, improvement to or expansion of existing terminals, and new direct roadway/ramp connections, etc. Coordination is required between DTPW and other transportation agencies such as FDOT, FTE and Miami-Dade Expressway Authority (MDX) to ensure transit access to roadways are supported.

5.4. Other New Facilities

Page 5.6

5.4.1. The Underline Phase I - Brickell Backyard Project

The future 10-mile Underline Corridor, running below the Metrorail from the Miami River to Dadeland South Metrorail Station, will create a linear mobility corridor that will enhance connectivity, increase mobility, and improve pedestrian and biking safety for residents and visitors. In 2015, Friends of The Underline, selected a design consultant to develop the Vision and Master Plan for this project. Currently the project is structured in nine phases for development as funding becomes available. The Underline Phase I is known as the Brickell Backyard and extends from the Miami River to SW 13th Street, approximately ½ mile long. The off-road dedicated bicycle path is located along the west side of the Metrorail structure from the Miami River to SW 8th Street and between the Metrorail Station and SW 13th Street. **Project construction began in December 2018 with a targeted end date of June 2020.**

Figure 5-4: Rendering of Completed Underline Phase 1

5.4.2. South Dade Bus Maintenance Facility

With the implementation of the SMART plan, the County inventoried the availability of garages located within the south Miami-Dade area of the County for bus maintenance facilities and determined that the closest maintenance facility to South Miami-Dade area is the Coral Way facility; which has reached its capacity and is approximately 30-miles away from the southern county line of Miami-Dade. This new maintenance facility will improve Transit's operational efficiency by decreasing the tum around time for placing buses back in revenue service. The first phase of the project is anticipated to be completed in Spring 2022.

5.5. Committed Bus Service Adjustments

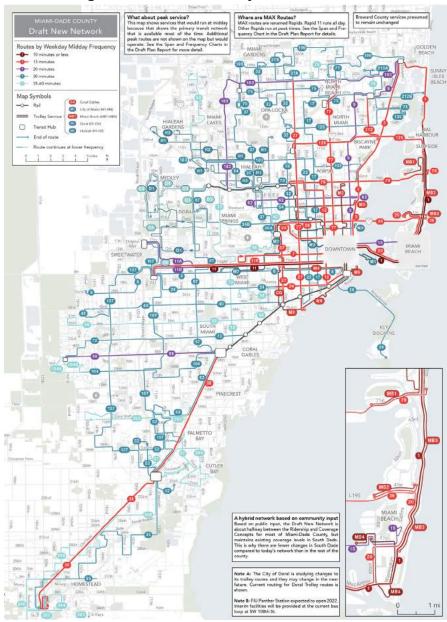

In an effort to continually match service capacity with ridership demand, DTPW routinely revises the existing bus route network to better meet the evolving transportation needs of Miami-Dade County. These revisions seek to improve the operational efficiency of the overall transit system. In a typical year, these adjustments are planned and committed to in the TDP – however for 2020, these adjustments have been deferred until the conclusion of the Better Bus Project.

5.5.1. The Better Bus Project

This project is a partnership between Miami-Dade County and Transit Alliance Miami, a local non-profit organization that advocates for "walkable streets, bikeable neighborhoods, and better public transit". The purpose of the Better Bus Project is to redesign the county DTPW bus system, and three municipal trolley systems (City of Miami, Miami Beach and Coral Gables). The project explored two different approaches: one focusing on maximizing ridership, and another focused on maximizing the coverage of the transit system. A cost-neutral hybrid of these two approaches was presented to the BCC Transportation and Finance Committee in November 2019. The draft network has now been completed and public feedback is being gathered to finalize the plan in 2020. The plan can be seen in Figure 5-5.

Planning the new network involved over 100 outreach events, workshops and presentations including community meetings, portable transit outreach and more – this outreach resulted in the Transit Alliance reaching over 2,600 people in person, obtaining over 4,400 survey responses, and over 1,000 text conversations with riders.

Figure 5-5: Better Bus Project Draft Network

5.6. Committed Infrastructure Renewal Program (IRP) Projects

Table 5-3 presents committed IRP projects for FY 2019-2020. These commitments are based on a process by DTPW which identifies, evaluates, prioritizes, and programs capital improvement projects that are necessary in order to maintain the existing transit system in a state of good repair. Many of these projects are multi-year efforts which will not reach completion during FY 19-20. DTPW has a fixed allocation of \$12.5 million dollars for IRP projects every year, and the current total multi-year cost of all IRP projects is approximately \$64.5 million.

Table 5-3: FY 2019 - 2020 IRP Projects (\$000s)

| IRP Project Number | IRP Project Name | Scope | Total IRP Funding |
|--------------------------|---|--|-------------------------|
| CIP126 | Emergency Exit at William Lehman Center | Widening of current exit to facilitate in and out emergency vehicle traffic at Palmetto Yard. | \$640 |
| CIP171 | Metrorail and Metromover UPS Rooms HVAC Installation | Install new HVAC systems to provide cooling capacity for all UPS rooms on Metrorail and Metromover. | \$1,682 |
| CIP172 | Metromover Fire Panel Upgrade | Install new fire panels, sensors and control equipment at the Central Control Facility to monitor fire alarms from all Metromover stations. The new system will allow for Metromover Rail Traffic to monitor the status of all new fire, smoke and heat detectors. The new system will enhance the safety of Metromover patrons. | \$3,307 |
| CIP174 | Bus Passenger Shelter Project | Bus Passenger Shelters (design, fabrication and installation of approx. 2,265 shelters throughout unincorporated Miami-Dade County). | \$4,890 |
| CIP184 | Mainline Video Upgrade Phase 2 | Enhancement of security video cameras throughout Rail, Mover, Bus and Revenue Island (new and replacements). | \$866 |
| CIP192 | Hybrid Electric Bus Battery Replacement | Battery Management replacement system in order to keep Hybrid buses in service. | \$4,390 |
| IRP012 | Garage Fire Suppression | Replace and upgrade the fire suppression system at four parking garages built with the original Metrorail system: Okeechobee, Dadeland North, Dadeland South and Earlington Heights. | \$579 |
| IRP095 | Metromover Public Address System Replacement | Replace existing Public Address System at all Metromover Stations. The Scope of Work includes the replacement and upgrade of all electronic components in the paging chain. The distribution wiring will also be upgraded. | \$2,492 |
| IRP096 | Rail Public Address System Replacement | Replace existing Public Address System at all Metrorail Stations. The Scope of Work includes the replacement and upgrade of all electronic components in the paging chain. The distribution wiring will also be upgraded. | \$2,592 |

Table 5-3 (Continued): FY 2019 - 2020 IRP Projects (\$000s)

| IRP Project Number | IRP Project Name | Scope | Total IRP Funding |
|--------------------------|---|--|-------------------------|
| IRP172 | Metrorail and Metromover Electronic Real-time Signage | Install LED multi-color electronic signage in all Metrorail Stations and nine (9) Metromover Stations to provide information of Train Arrivals, Train Destinations, and next Train Arrivals. The LED signs will be done in conjunction with a new Public Address System project that will synchronize with the visual messages that will be displayed over the LED signage. Message categories will include station messages, train arrival information and emergency messages. The synchronization will provide improved ADA accommodation. | \$386 |
| IRP214 | Traction Power Crane Truck | Purchase crane truck for Traction Power to be used to perform work related to man-hole covers, high voltage cable pull, and cable spool lifts. | \$100 |
| IRP215 | Metrorail Bathrooms | Repair and renovate public restrooms at the 30-year-old Metrorail stations. | \$1,865 |
| IRP221 | Traction Power Three Reel Trailer | Purchase high voltage trailer cable pull, necessary for the replacement of the 30- year old Traction Power cables. | \$50 |
| IRP224 | William Lehman Facility (WLF) - Vehicle Maintenance Bathroom | Contracted services for the renovation of the WLF (6601 NW 72nd Avenue, Miami, Florida 33166), Vehicle Maintenance Bathroom to ensure proper sanitation for employees working in the Vehicle Maintenance shop. | \$450 |
| IRP233 | Replacement of Diamond Frogs at Culmer Crossover | Replacement of Diamond Frogs at the Culmer Metrorail Station. | \$900 |
| IRP234 | Railcar Cleaner Platform Replacement Project | Upgrade the existing Cleaning Platform located at the William Lehman Center. The existing wooden platform is in need of constant repair. | \$2,000 |
| IRP236 | Purchase of 2 HY-Rail Crew cab Trucks | Purchase support vehicles for the Track and Guideway maintenance division. | \$190 |
| IRP255 | Replacement of Tactiles and Barriers at Metromover Stations | Provide detectable warning safety edge tiles and between-car barrier (BCB) system in compliance with the DOT ADA regulations. Each station features two 80 LF Platform Structures and require tiles and BCB on both sides of the platform. The scope includes labor, materials, tools, appliances, equipment and other means of construction for performing and completing the work. | \$440 |
| IRP260 | Fueling Terminal Modernization | Upgrade fueling terminal to IP Base. | \$250 |

Table 5-3 (Continued): FY 2019 - 2020 IRP Projects (\$000s)

| IRP Project Number | IRP Project Name | Scope | Total IRP Funding |
|--------------------------|---|---|-------------------------|
| IRP263 | Automated Fare Collection Cloud Migration | Implement enhancement and regional expansions to the Automated Fare Collection System (AFCS) based on the existing Contract 8481-2/22-1. The contract includes an option to purchase additional equipment and service for expansions and modifications. | \$3,000 |
| IRP265 | Traffic Signal Prioritization Expansion to Congestion Mgmt. Plan / Real-Time Connected Vehicles | Recapitalization of the MetroBus on-board equipment that provides passengers with free Internet access and connectivity for business traffic such as Fare Collection, CCTV, and CAD/AVL data. This project replaces field equipment that has been in continuous operation in MetroBus vehicles for the last seven years and expands the deployment of the entire fleet. | \$800 |
| IRP267 | Purchase Rail Wheel Press Machine | Purchase of a new Railcar Wheel Press Machine needed to support the (136) rail cars the department is procuring to replace the existing railcar fleet. | \$1,000 |
| IRP270 | Metromover Vehicles HVAC Compliance Overhaul & Mover Building A/C Replacement | Mover vehicle air conditioning HVAC system and Mover Building A/C replacement in order to comply with EPA requirement as the use of Freon 22 will be banned by EPA by the year 2020. | \$1,345 |
| IRP271 | Electric Forklift for Materials Management (5 ea.) and Rail Div. (2 ea.) | Replacement of old forklifts to be used for the daily logistical operational functions (shipping, receiving, loading, unloading, delivering parts for Bus, Rail, Mover and Material Management. operations). | \$219 |
| IRP283 | Dadeland North Garage Fire Suppression System | Replace and upgrade fire suppression system due to the current break down of the sprinkler heads at the Metrorail Dadeland North parking garage. | \$3,779 |
| IRP296 | Metrorail HVAC Overhaul 40 Railcars | Overhaul of the air conditioning (HVAC) system on 40 rail vehicles in order to maintain system functionality, reliability and customer comfort. | \$3,500 |
| OSP202 | Hydraulic Mobil Bus Lifts | Purchase of approximately 55 individual hydraulic mobile column lifts for bus maintenance. | \$389 |
| OSP209 | Data Closets Uninterruptible Power Supply (UPS) Replacement | Replace Data Closets Uninterruptible Power Supply (UPS). | \$323 |
| IRP199 | Mainline Video System Upgrade | Installation of IP-HD cameras with analytics throughout the Mainline Track System & Rail Stations, mover stations first level and at all revenue islands and Treasury Office & vault. for security reasons. | \$286 |
| IRP021 | Metromover Traction Power Cable Replacement | Replacement of the damaged traction power cables and wiring on the Metromover system. | \$325 |

Table 5-3 (Continued): FY 2019 - 2020 IRP Projects (\$000s)

| IRP Project Number | IRP Project Name | Scope | Total IRP Funding |
|---|--|--|-------------------------|
| IRP107 | Hydraulic Mobil Column Bus Lifts (Additional) Provide 24 sets of four hydraulic column lifts with 70' required communication cables and 60' por cords for DTPW Bus Maintenance. | | \$1,118 |
| IRP171 | Upgrade Chiller Units at Lehman Center | Replace two existing Trane water cooler 110 ton, R-113 chiller units, 3 chilled water pumps and all related controls, piping, valves, wiring etc. at the William Lehman Center Facility. | \$650 |
| IRP242 | Rail Programmable Logic Controller Replacement | To replace all ethernet switches at all Metrorail & Metromover stations and at Metromover Maintenance Bldg & at Lehman Center Bldg | \$1,560 |
| IRP299 | Traction Power Switchgear Replacement for Rail (Phase 3 Upgrade) | Upgrade to Traction Power Substations. | \$5,000 |
| IRP306 | Renovate Lehman Center 2nd Floor (Administration) | New office partitions , desks, chairs upgrade phone system etc. | \$750 |
| IRP300 | Mover Vehicle Mid Life Overhaul | Involves replacement or overhaul of vehicle subsystems, equipment and components for the reliable operation of the Mover fleet | \$3,214 |
| IRP109 | Emergency Back up Generators | Installation of electrical generators and transfer switches at Central Bus, NE and Coral Way. | \$440 |
| OSP234 | Rail EAMS Work Order Module | Infor EAMS software tool to implement Work Order module that will be integrated with the existing warehouse module. | \$700 |
| IRP276 | Metrorail Platform Cabling Replacement | Replacement, disposal and re-installation of the infrastructure and cabling necessary to support the Emergency Transfer Switch, Emergency Telephone, End Gate Intrusion Alarm and Blue Light at 17 Metrorail Stations. | \$2,805 |
| IRP315 Metromover Concrete Removal & Safety Netting Installation | | Removal of the existing bottom outside corner of the concrete running pads along the Metromover System's Brickell and Omni Loops at all locations deemed necessary. Work will also include the installation of additional safety netting between existing girders to supplement existing safety netting system | \$5,250 |
| Total | | | \$64,522 |

CHAPTER 6

6. TEN YEAR IMPLEMENTATION PLAN

This section identifies DTPW's ten-year program of projects. Through these projects, DTPW enacts a strategy to improve the existing transit system, implement new metrobus routes, advance premium transit corridors identified throughout Miami-Dade County, and discontinue unproductive routes. DTPW will continue to focus on providing a clean and attractive system for passengers, improving on-time performance, and utilizing the best available technology to provide customers with a fast and efficient transit experience. The chapter is organized as follows:

First, the principal initiative to improve transit in Miami-Dade County is the SMART Plan. The SMART Plan includes six proposed rapid transit corridors whose details are included in Table 6-1, and nine BERT Network routes which are listed in Table 6-2. Both the rapid transit corridors and BERT Network are shown on Figure 6-1, while Figure 6-2 shows the more extensive express bus vision for Miami-Dade County. The SMART Demonstration Program supports the SMART Plan corridors by providing first/last mile transit service to the corridors, as shown on Figure 6-3. The six SMART plan rapid transit corridors are described with their implementation schedule in Table 6-3.

Next, DTPW's ten-year implementation plans are organized into three categories – Operations, Capital, and State of Good Repair. Operations and Capital projects are divided into separate lists for funded, partially funded, and unfunded projects.

Transit Operations projects are listed in Table 6-4 and illustrated on Figure 6-4. Funded Capital projects are listed in Table 6-5 and illustrated on Figure 6-5. Partially Funded Capital projects are listed in Table 6-6 and illustrated on Figure 6-6. Unfunded Capital projects are listed in Table 6-7 and on Figure 6-7. State of Good Repair projects, including those which are part of the IRP, are listed in Table 6-8.

6.1. SMART Plan

In the long term, DTPW, SMART Plan partners, and stakeholders are working to change the approach to mobility by creating a system that offers multiple transportation options throughout the county. There are limited opportunities to widen and/or build new roads. Therefore, the need to extend mass-transit represents the balanced approach necessary to address roadway congestion and connect communities to educational and employment centers. This balanced approach is needed to ensure the community continues to grow and thrive far into the future. The goal is to make Miami-Dade County a car-optional community by ensuring that mass-transit options are available everywhere in the County and region.

Table 6-1 presents a list of SMART Plan Rapid Transit Corridors, and Figure 6-1 illustrates the location of the Rapid Transit Corridors, as well as the BERT Network corridors. The six rapid transit corridors which are included in the SMART Plan are described below.

6.1.1. Rapid Transit Corridors

6.1.1.1. Beach Corridor

The Beach Corridor is a proposed 9.7 mile route which traverses Biscayne Bay to link Downtown Miami to Miami Beach. The Beach Corridor area is an epicenter for population and economic growth and a major employment center and tourist destination in the region. As a result, the roadways between Miami and Miami Beach are typically heavily congested. This high bus transit ridership corridor has been identified as a candidate for consideration for premium transit over the past two decades as part of a strategy to address east-west directional travel demands. DTPW initiated a PD&E study to evaluate premium transit solutions in this corridor in May 2017. The TPO will select an LPA in 2020.

6.1.1.2. East-West Corridor

This project will run approximately 11 miles from Miami International Airport west along the SR-836/Dolphin Expressway to the Turnpike, ending in the vicinity of FIU. It provides multimodal options that mitigate the severe traffic congestion along SR-836 which is the only east-west expressway in central Miami-Dade County. This project will serve major activity centers including FIU, Miami International Airport, the MIC, Dolphin Mall, and major employment areas like the City of Doral and the Blue Lagoon area. DTPW initiated a PD&E study to evaluate premium transit solutions in this corridor in April 2017. The project is expected to present the recommended alternative to the Miami-Dade TPO Governing Board in 2020 for selection of an LPA.

6.1.1.3. Kendall Corridor

The Kendall Corridor spans 10 miles along Kendall Drive (SW 88th St) from the Dadeland North Metrorail Station to approximately SW 167th Ave. This project provides multimodal solutions for severe congestion along Kendall Drive, one of the most congested east-west roadways in Miami-Dade County. The project facilitates the highest demand movement of passengers to and from West Kendall to Downtown Miami.

In 2016, FDOT District Six initiated a PD&E Study to evaluate proposed transportation solutions for Kendall Drive. A project kick-off meeting was held in late 2016. The TPO is expected to select the LPA in June 2021.

6.1.1.4. North Corridor

The North Corridor runs along NW 27th Ave for approximately 10 miles from the Dr. Martin Luther King Jr. Metrorail Station to the Broward county line at NW 215th St. It will connect the cities of Miami, Opa-locka, and Miami Gardens with major activity centers, including the Miami-Dade College North Campus, North Dade Health Center, St. Thomas University, Florida Memorial College, Miami Jobs Corps Center, Hard Rock Stadium, and Calder Race Course. A new multimodal transit terminal and park-and-ride facility at the northern end of the project will be constructed to provide a connection to Metrobus and BCT routes. The long-term vision includes TOD at the new NW 215th St transit terminal.

In 2016, FDOT District Six initiated a PD&E Study to evaluate proposed transportation solutions for SR-9 / SR-817 / NW 27th Ave. In December 2018, the TPO Governing Board selected an Elevated Fixed Guideway transit system as the LPA for the North Corridor, based on the recommendation of the PD&E team. In October 2019, the TPO Governing Board selected Elevated Heavy Rail Transit as the preferred transit technology. Efforts are now underway to refine the corridor analysis to account for localized financial, operations, and maintenance data. In addition, the BCC directed county staff to issue an RFP in 2020 to design, build, operate and maintain an elevated fixed guideway transit system for the North Corridor. Final decision by the TPO Governing Board is anticipated to take place in fall 2021.

6.1.1.5. Northeast Corridor

The Northeast Corridor generally runs along U.S. Route 1 between Downtown Miami and the Miami-Dade/Broward County line near Aventura Mall. It is one of the busiest transit corridors in the region. It extends approximately 13.5 miles through the historic core of the County developed along the FEC railroad and links Aventura, North Miami, North Miami Beach, and Miami Shores with the County's Central Business District located in Downtown Miami. FDOT District 4 is managing the PD&E study and is currently on hold, pending access agreement for Tri-Rail service which awaits completion of Positive Train Control (PTC) improvements along the FEC tracks by Brightline.

6.1.1.6. South Dade Transitway Corridor

This corridor stretches approximately 20 miles from the Dadeland South Metrorail Station along the existing Transitway to the SW 344th St Park-and-

Chapter 6 - Ten-Year Implementation Plan

Ride/Transit Terminal Facility. This corridor will connect the Miami-Dade County Rapid Transit system to Florida City, City of Homestead, Town of Cutler Bay, Village of Palmetto Bay, and Village of Pinecrest, which represent the fastest population growth in Miami-Dade County. This rapid transit project facilitates the highest demand of passengers traveling to and from southern Miami-Dade to Downtown Miami.

DTPW initiated a PD&E Study to evaluate premium transit solutions in this corridor in April 2017. The TPO selected the LPA on August 30, 2018 as BRT. Once completed, BRT will provide rail-like travel time, iconic stations, level boarding through all doors, and pre-paid fares for speedy access. BRT will also provide enhanced safety features and other upgrades along dedicated lanes with multi-layered service lines on the Transitway.

The estimated total project capital costs is \$300M. Miami-Dade County and FDOT each pledged \$100M towards implementation. Additionally, the project team submitted a \$100 Million Small Starts grant application package to the FTA in August 2019. In September 2020, both the FTA and FDOT grant agreements were fully executed. BRT is scheduled to begin operation by 2022.

6.1.2. Bus Express Rapid Transit (BERT) Network

Most urban and interregional corridors in Miami-Dade County are already congested. Congestion is expected to worsen even with completion of planned transportation improvement projects. The pace of growth far exceeds the ability to add capacity in order to reduce congested conditions. Significant expansion is required in rail and transit systems to deliver viable options for moving people within Miami-Dade County and the Southeast Florida Region.

As part of the SMART Plan, DTPW and FDOT District Six staff began the planning activities for implementation of the BERT network in 2016. FDOT is taking the lead on the PD&E study for Route a, the Flagler Corridor, which is scheduled for completion by mid-2020. Based on the results of the study, project schedule will be planned. DTPW is taking the lead on the NEPA study and infrastructure needs for the rest of the BERT network. To implement the BERT network, necessary infrastructure projects include new transit terminals, improvement to or expansion of existing terminals, new direct roadway/ramp connections, and more. Coordination is also required between DTPW and other transportation agencies such as FDOT, MDX or its successor agency, and FTE to ensure transit access to roadways are supported.

Among the BERT routes, some are further advanced than others. Route c, the I-75 NW Miami-Dade Express, began service on November 18, 2019; Route b is anticipated to begin service in 2021; Routes d, e1, f1, f2, and f3 are anticipated to begin service in 2023; Route e2 is expected to begin service in 2027.

For BERT routes f1 and f2, a project to add bus-on-shoulder service to the Julia Tuttle Causeway is in progress, with planning completed in January of 2020. The project improvement includes increasing the width of the inside paved shoulders and reducing the widths of the center and inside travel lanes and reconstructing the inside shoulder to allow Bus On Shoulder operations. This project is anticipated to begin construction in July of 2022.

Table 6-4 lists additional information on the BERT network. Figure 6-2 illustrates the location of the BERT Network routes, and figure 6-3 shows DTPW's Express Bus System Vision with supportive transit terminals.

6.1.2.1. Flagler Corridor

In 2016, FDOT District Six, began a PD&E study to examine implementation of BRT service and infrastructure improvements along SR-968/Flagler St from SR-821/HEFT to SR-5/US-1/Biscayne Blvd. The primary study objective is to evaluate the implementation of a cost-effective, high-ridership BRT system within the Flagler St Corridor that is to be part of an overall interconnected premium transit network. Flagler St was presented to TPO Board in July, 2019. The board requested that the FDOT study team conduct a workshop to review the recommended alternatives. Once this workshop takes place, the TPO board will rehear the item and select a recommended alternative.

Table 6-1: Miami-Dade County's Strategic Miami Area Rapid Transit (SMART) Plan

| Corridor Name | Limits | Corridor Length (miles) | Lead Agency | PD&E Phase Cost | Design and Construction Phase Cost | Status |
|---|---|-------------------------------|-----------------|---------------------------|--|--|
| Beach Corridor | Miami Beach Convention Center to Midtown Miami (at or near NE 41 st St and NE 2 nd Ave. | 9.7 | DTPW | \$10.0M | \$920M (Light Rail) | TPO Resolution #40-16 authorized the development of the PD&E (Study began March 2017) PD&E Funding Sources: FDOT-6 (\$5.0M); CITT (\$3.75M); Miami-Dade County (\$417,000); City of Miami (\$417,000); City of Miami Beach (\$417,000) Anticipated PD&E completion date: 2020 |
| East-West Corridor | Miami Intermodal Center (MIC) to Florida International University (FIU) | 11 | DTPW | DTPW \$9.0M | \$2,274M (Metrorail) | TPO Resolution #34-16 authorized the development of the PD&E (Study began March 2017) PD&E Funding Source: 100% CITT Anticipated PD&E completion date: 2020 |
| Kendall | SW 167 th Ave to | | | FDOT \$6.1M | \$320M | TPO Resolution #01-15 authorized the development of the PD&E (Study began June 2016) |
| Corridor | Dadeland Area Metrorail Stations | 10 | FDOT-6 | DTPW (PTP) \$1,143,000 | (BRT) | PD&E Funding Sources: 100% State Anticipated PD&E completion date: June 2021 |
| | | | | FDOT \$6.0M | | TPO Resolution #01-15 authorized the development of the PD&E (Study began June 2016) |
| North Corridor (NW 27th Ave.) | Miami Intermodal Center (MIC) to NW 215 th St | 12 | FDOT-6 | DTPW (PTP) \$2.286M | \$1,944M (Elevated Fixed Guideway Rapid Transit) | PD&E Funding Source: 100% State TPO Resolution #52-18 selected elevated fixed guideway transit as the LPA in Dec. 2018 TPO Resolution #55-19 selected Elevated Heavy Rail as the preferred transit technology in Oct. 2019 Anticipated PD&E Completion date: Fall 2021 |
| Northeast | Downtown Miami | | | FDOT \$5.7M | | PD&E is being conducted by FDOT-4 |
| Corridor (Tri-Rail Coastal Link / FEC Corridor) | to City of Aventura (Miami-Dade segment) | 13.5 | FDOT-4; DTPW | DTPW (PTP) \$1,143,000 | \$479M | Long-term Project: FDOT-4 is lead agency; Short-term Project: DTPW is lead agency Passenger Rail Service project is under construction (Brightline - private sector) DTPW is improving transit services along Biscayne Boulevard |
| South Dade Transitway Corridor | Florida City to Dadeland South Metrorail Station | 20 | DTPW | DTPW \$7.0M | \$308M (BRT) | TPO Resolution #35-16 authorized the development of the PD&E (Study began March 2017) PD&E Funding Source: 100% CITT TPO Resolution #31-18 selected modified enhanced BRT as the LPA in August 2018 TPO Resolution #32-18 authorized the programming of local funds to facilitate the implementation of premium transit infrastructure Submitted \$100M Small Starts application to FTA in August 2019 BRT scheduled to begin operation by 2022 |

Note: \$3M of PTP funds have been committed as TPO consultant support for SMART Plan PD&E activities (Project S3001590)

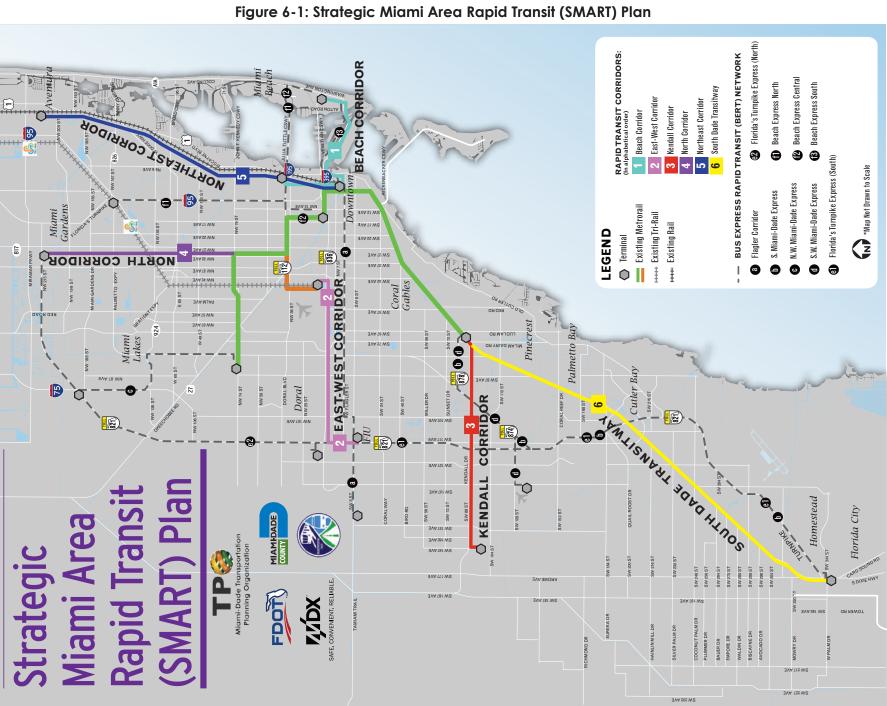

Table 6-2: SMART Plan - Bus Express Rapid Transit (BERT) Network

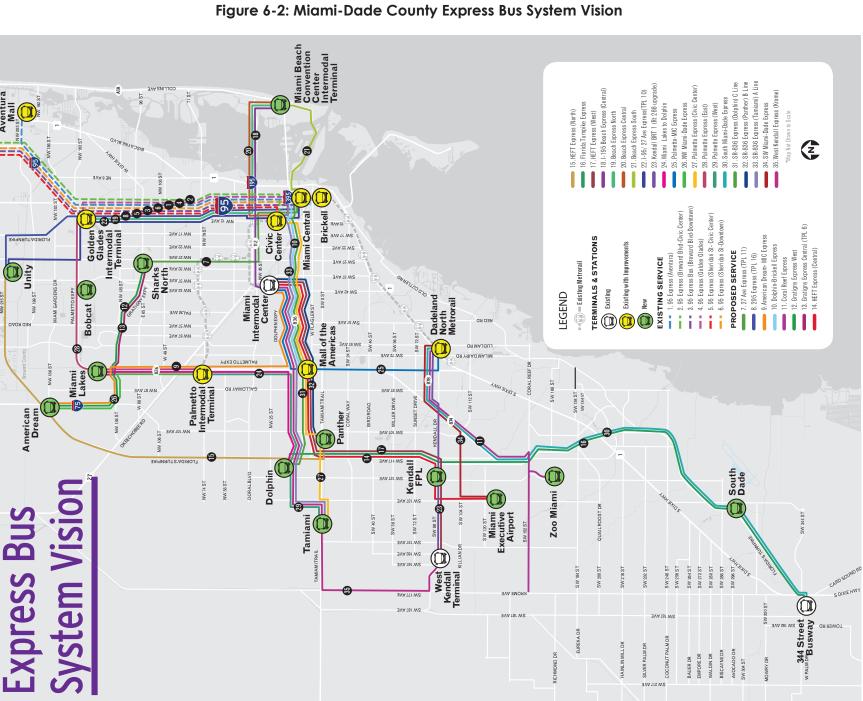

| BERT | Project | | | Project | Cost (\$0 | 00s) | Total |
|--------------------|---|---|--|-------------------|--|-----------------|---------------|
| Network Route # | Project Name | Destinations Project Description | | Length (Miles) | Capital Cost | O&M (Annual) | # of Buses |
| а | Flagler Corridor | Tamiami Station/SW 147 th Ave to Downtown Miami; Dolphin Station to Downtown Miami; Panther Station to Downtown Miami | In 2016, FDOT initiated a PD&E study to examine implementation of BRT service and infrastructure improvements along SR-968/Flagler St from SR-821/HEFT to SR-5/US-1/Biscayne Blvd. The primary study objective is to evaluate the implementation of a cost-effective, high-ridership BRT system within the SR-968/Flagler St Corridor that is to be part of an overall interconnected premium transit network. The FDOT project team is currently identifying and refining recommended alternatives. The study is scheduled for completion by mid 2020. | b | S Miami- Dade Express | SW 344 th St Transitway Station/Dadeland North Metrorail Station | Route will provide express bus service from the SW 344th St Park-and-Ride along the Transitway to the Dadeland North Metrorail Station. Headways will be 10 minutes during peak hours and 30 minutes between 9:30 A.M3:00 P.M. Project will also include park-and-ride lots located SW 152nd St and Turnpike, SW 211th St and Turnpike, and SW 288th St and Turnpike, plus needed roadway updates. | 25.3 | \$14,040 | \$5,294 | 17 |
| С | NW Miami- Dade Express | American Dream Mall Station / I-75/Miami Gardens Dr Station / Palmetto Metrorail Station | Route will provide express bus service from the American Dream Mall Station to the I-75/Miami Gardens Dr Station to the Palmetto Metrorail Station. Headways will be 10 minutes during peak hours. | 9.5 | \$3,240 | \$967 | 4 |
| d | SW Miami- Dade Express | Miami Executive Airport/ Dadeland North Metrorail Station | Route will provide express bus service from the Miami Executive Airport to the Dadeland North Metrorail Station. Headways will be 10 minutes during peak hours. Project will also include a parkand-ride lot located at Miami Executive Airport, plus needed roadway updates. | 9 | \$4,320 | \$1,223 | 5 |
| el | Florida's Turnpike Express (South) | 344 th St Transitway Station/ Panther Station/Dolphin Station | Route will provide express bus service from the SW 344th St Park-and-Ride/Transit Terminal Facility along the Turnpike to Panther and Dolphin Stations. Headways will be 10 minutes during peak hours and 30 minutes during off-peak hours. Project will also include park-and-ride lots located at SW 152 nd St and Turnpike, SW 211 th St and Turnpike, and SW 288 th St and Turnpike, plus needed roadway updates. | 30.5 | \$11,880 | \$4,538 | 14 |
| e2 | Florida's Turnpike Express (North) | FIU Panther Station/Dolphin Station/Miami Gardens Station/American Dream Mall Station/Unity Station | Route will provide express bus service from the FIU Panther Station to the Dolphin Station, I-75/Miami Gardens Dr Station and the American Dream Mall Station. Headways will be 15 minutes during peak hours and 30 minutes during off-peak hours. Final stop at Unity Station. | 25.6 | \$5,400 | \$2,039 | 6 |
| fl | Beach Express North | Golden Glades Multimodal Transportation Facility/ Earlington Heights Metrorail Station/Mt Sinai Transit Terminal/Miami Beach Convention Center | Route will provide express bus service from Golden Glades Multimodal Transportation Facility to the Earlington Heights Metrorail Station, the future Mt Sinai Transit Terminal, and the Miami Beach Convention Center. Headways will be 10 minutes during peak hours and 20 minutes during offpeak hours. Saturday and Sunday service will also provide headways of 20 minutes. Service span will be from 5:00 A.M. to 12:00 A.M. Project will also include a park-and-ride lot located at Mt. Sinai, plus needed roadway updates. | 20 | \$17,260 | \$7,664 | 18 |
| f2 | Beach Express Central | Civic Center Metrorail Station/Miami Beach Convention Center | Route will provide express bus service from Civic Center Metrorail Station to the Miami Beach Convention Center. Headways will be 15 minutes during peak hours and 30 minutes during offpeak hours. Service span will be from 5:30 A.M. to 12:00 A.M. Project will also include a park-and-ride lot located at Mt. Sinai, plus needed roadway updates. | 8 | \$5,400 | \$2,074 | 6 |
| f3 | Beach Express South | Miami Central Station/ Miami Beach Convention Center | Route will provide express bus service from Miami Central Station to the Miami Beach Convention Center. Service will run all day seven days a week with 15 minute headways. Saturday and Sunday service will provide headways of 20 minutes. Service span will be from 5:00 A.M. to 12:00 AM. | 6.7 | \$6,480 | \$3,387 | 6 |

Note: \$2M of PTP funds have been committed for a planning study which addresses the entire BERT Network (Project \$3001340) (Excludes Flagler Corridor as it is an FDOT project)

^{*} O&M number reflects enhancements only, and does not include funds to run the route, as the schedule is still in development.

Department of Transportation & Public Works

Transit Development Plan

6.2. SMART Demonstration Program

The Miami-Dade TPO in partnership with FDOT, Miami-Dade County, SFRTA, and local municipalities, have coordinated to identify and implement a program of demonstration projects that advance elements of the SMART Plan, including the BERT Network. These projects must have a duration of three years or less. If deemed successful, sponsoring agencies are committed to continue funding the projects.

Phase I of the program was adopted by the TPO board in June of 2018, and is included in the Adopted Work Program for fiscal years 2020-2024. Phase II was adopted in October 2019, and is included in the Tentative Work Program for fiscal years 2021-2025. These projects are listed in Table 6-3, and their locations are illustrated in Figure 6-3.

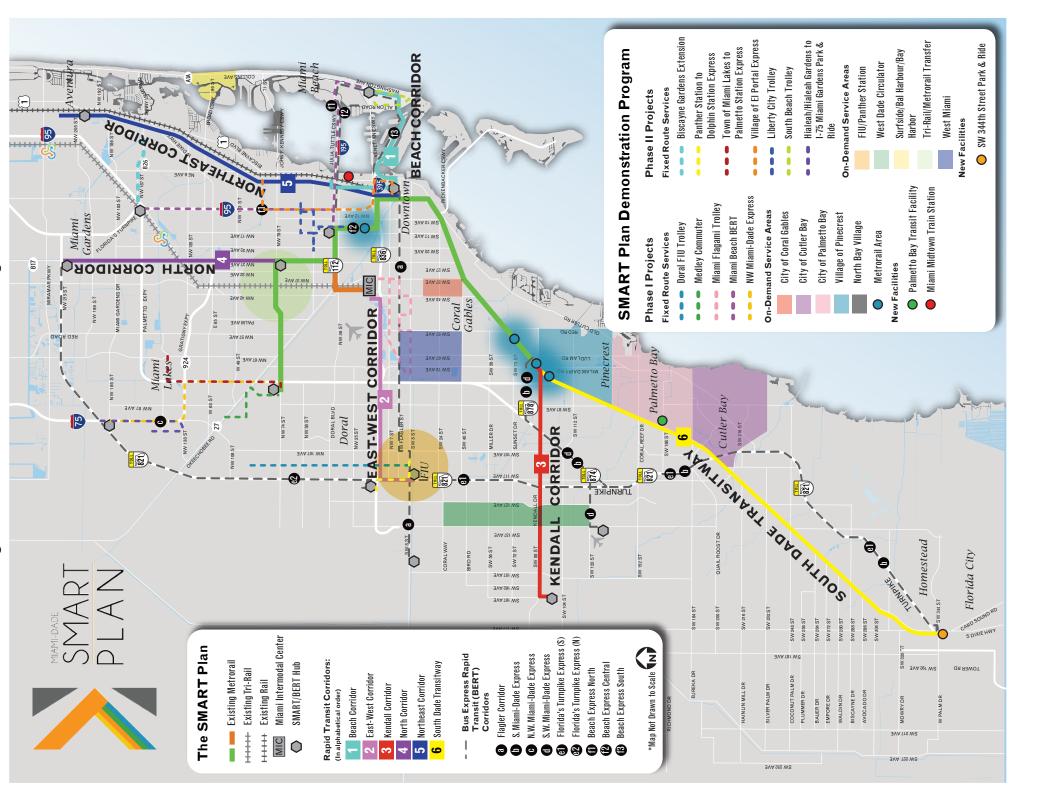

Table 6-3: SMART Demonstration Program

| Phase I Projects - In Service | | | | | | |
|-------------------------------|---|--------------|--|--|--|--|
| Sponsor | Project | Date | | | | |
| City of Miami | Flagami Trolley Service | July 2018 | | | | |
| City of Doral | Doral FIU Trolley Service | Sept. 2018 | | | | |
| City of Coral Gables | On-Demand Flex Service | January 2019 | | | | |
| Village of Pinecrest | On-Demand Response Service | January 2019 | | | | |
| North Bay Village | SMART Feeder Route | July 2019 | | | | |
| Village of Palmetto Bay | On-Demand Transit Service | July 2019 | | | | |
| Village of Palmetto Bay | Transit Facility | July 2019 | | | | |
| Ph | ase I Projects - Scheduled | | | | | |
| Town of Medley | Central Commuter Route | Winter 2020 | | | | |
| Town of Cutler Bay | On-Demand Service | Fall 2020 | | | | |

6.3. Other Transit Operations Projects

Table 6-4 presents a list of funded and unfunded transit operations projects that will be implemented within the MDT10Ahead planning horizon over the next ten years.

Table 6-4: Transit Operations Projects FY 2021 - 2030

| | | | | Cost - 201 | 9 (\$000s) | 2045 LRTP Plan | |
|------------|---|---|---|---------------------------------------|-------------------------|--------------------------------|--------------------------------------|
| Map ID# | Project Name | Location | Project Description | Capital Cost | Annual O&M Estimates | Period and TPO Project Numbers | Other Project Numbers |
| | | | FUNDED | | | | |
| 1 | SR-836 Express Bus A Line Express | Tamiami Station (SW 8 th St at SW 147 th Ave.) to Downtown Miami Government Center | Premium express transit service along SR-836 from Tamiami Station (SW 8th St at SW 147th Ave) to the Downtown Miami Intermodal Terminal (NW 1th St at NW 1th Ave) via SW 8th St, SW 137th Ave and SR-836. Headways will be 10 minutes during the AM/PM peak-hour. Service hours (peak period only) are weekdays 6:00 A.M. to 9:00 A.M. and 3:00 P.M. to 7:00 P.M. DTPW is coordinating with MDX to potentially operate this service. | \$43,680 | \$3,628 | TA4389701 TA4310773 TA21 | P6730101 \$3001044 |
| 2 | SR-836 Express Bus B Line Express | Panther Station (FIU at SW 109 th Ave and SW 8 th St) to the MIC | Premium express transit service between Panther Station at FIU's MMC and the MIC, via SW 8 th St, the HEFT and SR-836. This route will operate all day with 20 minute headways. Service hours are 6:00 A.M. to 10:00 P.M. on weekdays. DTPW is coordinating with MDX to potentially operate this service. | Total cost included as part of Line A | \$2,253 | TA4389701 TA4310773 TA21 | P6730101 \$3002065 FM 446684-1 |
| 3 | SR-836 Express Bus C Line Express | Dolphin Station (NW 12 th St at NW 122 nd Ave)to Downtown Miami Government Center | This route would provide premium express transit service along SR-836 from the proposed park-and-ride/transit center Dolphin Station (NW 12 th St and HEFT) to the proposed Downtown Miami Intermodal Terminal (NW 1 st St and NW 1 st Ave). This route will operate during peak periods only. Service headways will be 10 minutes during the A.M./P.M. peak-hour. | Total cost included as part of Line A | \$3,057 | TA4389701 TA4310773 TA21 | P6730101 |
| 4 | 27 th Ave Express | 27th Ave from Unity Station (NW 215th St) to the MIC | Implement Express Bus service in express lanes during A.M. and P.M. peak period . | \$2,286 | \$3,240 | Unfunded | \$3001043 |
| | | | Funded Transit Operations Projects FY 2021 - FY 2030 TOTAL COST (\$000s) | \$45,966 | \$12,178 | | |
| | | | UNFUNDED | | | | |
| 5 | Kendall BRT | From West Kendall Transit Terminal (Kendall Drive and SW 162 nd Ave) to Dadeland North Metrorail Station | Implement Express Bus Service. | \$64,350 | \$1,510 | Funded | N/A |
| 30 | Beach Express North (BERT) | GGMTF/ Earlington Heights Metrorail Station/Mt Sinai Transit Terminal/Miami Beach Convention Center | Express bus service from GGMTF to the Earlington Heights Metrorail Station, the future Mt Sinai Transit Terminal, and the Miami Beach Convention Center. Headways will be 10 minutes during A.M./P.M. peak/30 minutes during off-peak. Saturday service headways will be 20 minutes during peak/30 minutes in off-peak; Sunday service headways will be 40 minutes during peak hour/60 minutes in off-peak hours. A service span from 5:00 A.M. to 12:00 A.M. Service will include 10 new articulated buses. Project is now partially funded for three years. | \$17,260 | \$7,664 | Plan Period I #1 | N/A |
| 31 | Beach Express Central (BERT) | Civic Center Metrorail Station/Miami Beach Convention Center | Express bus service from Civic Center Metrorall Station to the Miami Beach Convention Center. Headways - 10 minutes during peak hours/20 minutes during off-peak. Service span will be from 5:30 A.M. to 12:00 A.M. Service will include eight new articulated buses. | \$5,400 | \$2,074 | Plan Period I #2 | N/A |
| 6 | Beach Express South (BERT) | Miami Central Station/Miami Beach Convention Center | Express bus service from Miami Central Station to the Miami Beach Convention Center. All day service with 10 minute headways. Service Span will be from 5:00 A.M. to 2:00 A.M. Service will operate with 12 articulated buses. | \$6,480 | \$3,387 | Plan Period I #3 | N/A |
| 7 | SW Miami-Dade Express (BERT) | Miami Executive Airport/Dadeland North Metrorail Station | Express bus service from the Miami Executive Airport to the Dadeland North Metrorail Station. Ten minute headways during peak hours. | \$4,320 | \$1,223 | Plan Period I #19 | N/A |
| 8 | Florida's Turnpike Express (North) (BERT) | FIU Panther Station to I-75/Miami Gardens Station | Express bus service from the FIU Panther Station to Dolphin Station, the I-75/Miami Gardens Dr Station and the American Dream Mall Station. 15 minute headways during peak hours/30 minutes during off-peak hours - will include four new articulated buses. | \$5,400 | \$2,039 | Plan Period I #5 | N/A |
| 9 | Florida's Turnpike Express (South) (BERT) | 344 th St Transitway Park-and-Ride facility to Dolphin Station | Express bus service from the SW 344th St Park-and-Ride/Transit Terminal Facility along the HEFT to Panther and Dolphin Stations. 10 minute headways during peak hour/30 minutes during off-peak hours - will operate with 10 new articulated buses. | \$11,880 | \$4,538 | Plan Period I #6 | N/A |

6.4. Funded Capital Projects

Table 6-5 presents a list of funded capital and infrastructure improvement projects which will be implemented within the MDT10Ahead planning horizon over the next ten years.

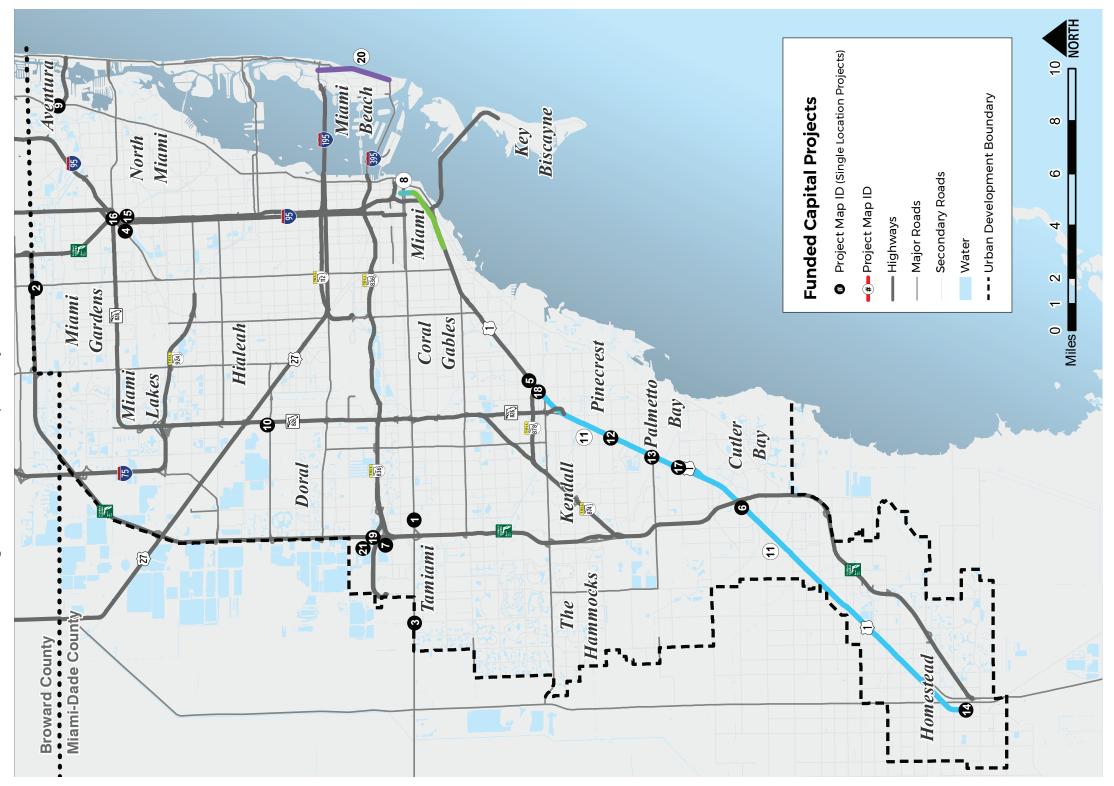

Table 6-5: Funded Capital Projects FY 2021 - 2030

| | | | | Cost - 2019 | Cost - 2019 (\$000s) | | |
|------------|--|---|--|--|----------------------|---|-------------------------------------|
| Map ID# | Project Name | Location | Project Description | Capital Cost | Annual O&M | Priority and TPO Project Numbers | Other Project Numbers |
| 1 | Panther Station | FIU Modesto A. Maidique Campus (MMC) | FIU constructed a parking garage along SW 8 th St with ground floor space reserved for a future transit center. This new facility will provide eight bus bays to accommodate the relocation of the existing DTPW routes from the current bus terminal located near SW 107 th Ave and SW 17 th St | Cost included in SR-836 Express Bus Line A | TBD | Not in LRTP TA000102 | P6730101 \$3002065 |
| 2 | Unity Station (TOD) | NW 215 th St and NW 27 th Ave | Up to 350 parking spaces are proposed for this 14-acre facility which would serve as the northern terminus of a proposed rapid transit service on NW 27th Ave. This park-and-ride facility also provides strategic TOD opportunities. | \$5,049 | \$40 | Plan Period I #20 TA19 | FM 428011-5 |
| 3 | Tamiami Station | SW 8 th St and SW 147 th Ave | Convert an eight acre vacant parcel of land at SW 8th St and SW 147th Ave into a park-and-ride facility for the SR-836 Express routes with up to 493 parking spaces. | \$15,175 | \$200 | Not in LRTP TA000101 TA4310771/72 | P6730101 \$3001044 |
| 4 | Golden Glades Multimodal Transportation Facility (GGMTF) | Golden Glades Interchange | GGMTF is a new transit center that will consolidate existing bus transit services at Golden Glades into a single facility adjacent to the Tri-Rail Station. The center will include a multi-story parking garage, a new multi-bay bus terminal facility, upgraded sidewalks, walkways, platforms, bus bays and all improvements related to transit operations, including internal roads, drainage, lighting systems, fencing, internal directional and traffic control signage. Other amenities will include bicycle parking and lockers. The complex will also feature a transit hub, retail space, and a break lounge for bus drivers. The total project cost, funded by FDOT is approximately \$56.3 million. | \$9,880 | \$860 | Plan Period II #23 DT2516846 | P200000984 \$3002115 |
| 5 | Dadeland North Metrorail - Elevators | 8300 S Dixie Hwy | DTPW is adding two elevators to the existing parking facility at Dadeland North - both elevators will be located at the north end of the structure. DTPW is currently in the consultant selection process for design services. The estimated project completion date is May 2021. | \$7,866 | \$0 | Not in LRTP | P2000000104 \$3001034 |
| 6 | Transitway at SW 200 th St Station (200 th St Station) Park-and-Ride | Transitway and SW 200 th St | Developer to build: Phase 1: 116 surface parking spaces; Phase 2: 150-space parking garage. | \$6,235 | TBD | Private and Developer projects | P671610 \$3001027 |
| 7 | NW 12 th St Roadway Improvements (Bus-Only) Project for Dolphin Station | Along NW 12 th St between 122 nd Ave and 114 th Ave | This project includes widening and resurfacing along NW 12th St to add bus-only lanes from NW 122nd Ave to NW 114th Ave. These new bus-only lanes will allow buses to bypass traffic congestion along this segment of NW 12th St and will thereby reduce travel time for buses traveling between the Dolphin Station Park-and-Ride/Transit Terminal and Dolphin Mall. This roadway project is an integral component of the Dolphin Station Park-and-Ride/Transit Terminal Facility. | \$10,745 | TBD | Not in LRTP | P671610 \$3001030 |
| 8 | The Underline Phase I - Brickell Backyard Project | Miami River to SW 13 th St | The future 10-mile Underline Corridor, running below the Metrorail from the Miami River to Dadeland South Metrorail Station, will create a linear mobility corridor that will enhance connectivity, increase mobility, and improve pedestrian and biking safety for residents and visitors. In 2015, Friends of The Underline, selected a design consultant to develop the Vision and Master Plan for this project. Currently the project is structured in nine phases for development as funding becomes available. The Underline Phase I is known as the Brickell Backyard and extends from the Miami River to SW 13 th St, approximately a ½ mile long. The off-road dedicated bicycle path is located along the west side of the Metrorail structure from the Miami River to SW 8 th St and between the Metrorail Station and SW 13 th St This phase is currently under construction. Construction started on November 1, 2019 and completion is expected on June 2020. | \$16,524 | TBD | Not in LRTP as single project NW00055 TA000103 | P2000000133 \$3000175 |
| 9 | Aventura Terminal | Biscayne Boulevard at 197th St | Construct Park-and-Ride facility with 100 surface parking spaces. | \$76,700 | TBD | Plan Period II #21 MDT216 | CIP 224 |
| 10 | Palmetto Intermodal Terminal (Smart Terminal) | SR-826/Palmetto Expressway at NW 74 th St | This project includes the purchase of a semi-vacant 11.8 acre parcel of land located immediately south of the Palmetto Metrorail Station for the purpose of constructing the Palmetto Intermodal Terminal. The project also includes the design and construction of a 1,000 space parking garage including long-term and short-term parking, kiss-and-ride, pool-and-ride, and a minimum of a 12-bus bay terminal. | \$20,570 | \$850 | Unfunded TA24 | P2000000680 \$3002129 |
| 11 | South Dade Transitway | South Dade Transitway from SW 344 th St Park-and-Ride to Dadeland South Metrorail Station | Implement Gold Standard BRT along the Transitway. | \$303,460 | \$36,000 | Plan Period I #10 TAMDT286 | P671610 \$3002043 |
| 12 | Transitway at SW 112 th Ave Park-and-Ride (Phase 2) | Transitway and SW 112 th Ave | Currently 450 parking spaces are available at this location. This project will upgrade existing facility to provide passenger amenities, bus terminals and additional parking spaces. | \$9,563 | \$40 | Plan Period I #13 new105 | P671610 \$3001029 |
| 13 | Transitway at SW 152 nd St Park-and-Ride | Transitway and SW 152 nd St | Expand Existing park-and-ride, construct new parking garage with 500 parking spaces and four bus bays. | \$10,530 | \$450 | Plan Period II #27 MDT186 TA201920 | P671610 \$3001339 FM 439681-1 |
| 14 | Transitway at SW 344 th St Park-and-Ride | Transitway and SW 344 th St (SMART Terminal) | DTPW has identified a need to expand the existing end-of-the-line transit terminal/park-and-ride facility at SW 344th St in order to meet future demand for parking along the South Miami-Dade Transitway. This project will increase the number of parking spaces by 96 to a total of 344. The necessary right-of-way acquisition for this project is funded, but the design and construction costs are being developed. | \$11,320 | \$250 | Plan Period II #32 new101 | P671610 \$75317 |

Table 6-5 (Continued): Funded Capital Projects FY 2021 - 2030

| | | | | Cost - 2019 | ? (\$000s) | 2045 LRTP | |
|------------|---|--|--|--------------|---------------|--|------------------------------------|
| Map ID# | Project Name | Location | Project Description | Capital Cost | Annual O&M | Priority and TPO Project Numbers | Other Project Numbers |
| 15 | Golden Glades Multimodal Transportation Facility - IT Components | Golden Glades Interchange (SMART/BERT Terminal) | Construction/implementation of technological components for the Golden Glades Multimodal Transportation Facility, to include, but not limited to, wi-fi, security access control systems, CCTV, real-time signage, ticket vending machines, emergency phones/call boxes, electric vehicle charging stations, advanced parking management systems, and electrical/physical infrastructure components. | \$9,893 | \$1,500 | Plan Period II #23 new120 TA201923 | New |
| 16 | Sunshine State Industrial Park Kiss-and-Ride Connector / Transit Terminal Facility (BERT) | NW 159 th Dr (adjacent to the Golden Glades Multimodal Transit Facility) (SMART/BERT Terminal) | DTPW, in coordination with the city of Miami Gardens and FDOT, proposed construction of a kiss-and-ride / transit terminal facility on the west side of the South Florida Rail Corridor (SFRC) just north of the Golden Glades Tri-Rail Station, with a connection via a fully covered and illuminated pedestrian/bicycle overpass. Metrobus as well as City of Miami Gardens trolleys would serve facility. Right-of-way acquisition is required. | \$17,580 | \$60 | Plan Period I #87 | P200000984 \$3002114 |
| 17 | Transitway at SW 168 th St (Richmond Dr) Park-and- Ride | South Dade Transitway at SW 168 th St (Richmond Dr) | Upgrade the existing park-and-ride facility in two phases. Phase 1 includes adding approximately 90 additional surface parking spaces. Phase 2 includes a modernized 450-space parking garage with enhanced amenities. | \$9,000 | \$40.0 | Plan Period I #15 MDT187 TA201920 | P671610 \$3002157 |
| 18 | Dadeland South Park- and-Ride Expansion | Dadeland South Metrorail Station | Expand existing 1,254 space overcapacity park-and-ride facility. Construct a new 1,000 space parking garage with ground-floor retail and office space. | \$50,512 | \$60 | Plan Period I #33 MDT189 | P2000001203 \$3002252 |
| 19 | Dolphin Station Transit Terminal | NW 12 th St at HEFT | This project includes construction of a park-and-ride lot at the existing Dolphin Station. | \$13,429 | TBD | Not in LRTP | P671610 \$3001026 |
| 20 | Beach Express South - Transit-Only Lanes | Along Washington Ave on Miami Beach from 5 th Ave to Dade Blvd (Beach Express South) | Design and construction of transit-only lanes. Project includes exclusive bus lanes, signing, new thermoplastic markings, colored asphalt passenger shelter bulb outs, minor drainage improvements and updated traffic controls. | \$9,600 | TBD | Not in LRTP | P2000001205 \$3002256 |
| 21 | Direct Ramps to Dolphin Station Intermodal Terminal from SR-836 | SR-836 and Dolphin Station Transit Terminal Facility | Construct direct access ramps to connect SR-836 to Dolphin Station Transit Terminal. | \$46,170 | TBD | Unfunded | XA83634 |
| N/A | South Dade Transitway | Transitway Service Improvements Project | Procurement of transit vehicles for the South Dade Transitway. | \$19,252 | TBD | Not in LRTP TA201924 TA4404501 | None |
| N/A | East West Corridor Transit Oriented Development (TOD) Project | Generally along \$R-836 between the MIC and FIU | The East-West Corridor is one of six premium transit corridors included in the SMART Plan as endorsed by the Miami-Dade TPO Governing Board. DIPW will conduct a comprehensive planning effort that will inform transit and land use planning in the East-West Corridor, a 12-mile corridor linking the Miami Intermodal Center with Florida International University and the western communities of Miami-Dade County. In June 2016, DTPW submitted a grant application to FTA under the TOD Planning Pilot Program. In October 2016, FTA awarded \$960,000 to DTPW for this project. | \$1,200 | TBD | Not in LRTP | P672670 S3001347 |
| N/A | Automated Fare Collection System | Countywide | Procurement of state-of-the-art fare collection equipment that meets overall and property specific requirements for security, functionality, and fare media interoperability. | \$67,648 | TBD | Not in LRTP | P6730051 \$68742 CIP058 |
| N/A | Metrorail Refurbishment | Dadeland South Metrorail Station, Government Center, Civic Center and Earlington Heights. | To enhance Metrorail stations in order to elevate the quality of the service by providing the customer with comfort and convenience. | \$76,420 | TBD | Not in LRTP | P2000000104 \$3000139 CIP134 |
| N/A | Parking Counters at Metrorail Parking Garages | Metrorail Station Parking Garages | Installation of a parking space counting system at 7 Metrorail stations to include Dadeland North, Dadeland South, Earlington Heights, South Miami and Okeechobee, Dr. Martin Luther King Jr., Santa Clara. | \$600 | TBD | Not in LRTP TA000107 | P200000104 \$3001007 |
| N/A | Bus Tracker and Automatic Vehicle Locating System Update (CAD/AVL) | 111 NW 1st St, Miami, Florida/ Countywide Network Update | Continue network upgrade to infrastructure to support real-time Bus Tracking System and replace existing CAD / AVL System. | \$18,646 | TBD | Not in LRTP | P673800 \$75991 |
| | | | Funded Capital Projects FY 2021 - FY 2030 TOTAL COST (\$000s) | \$852,811 | \$40,350 | | |

Figure 6-5: Funded Capital Projects FY 2021 - 2030

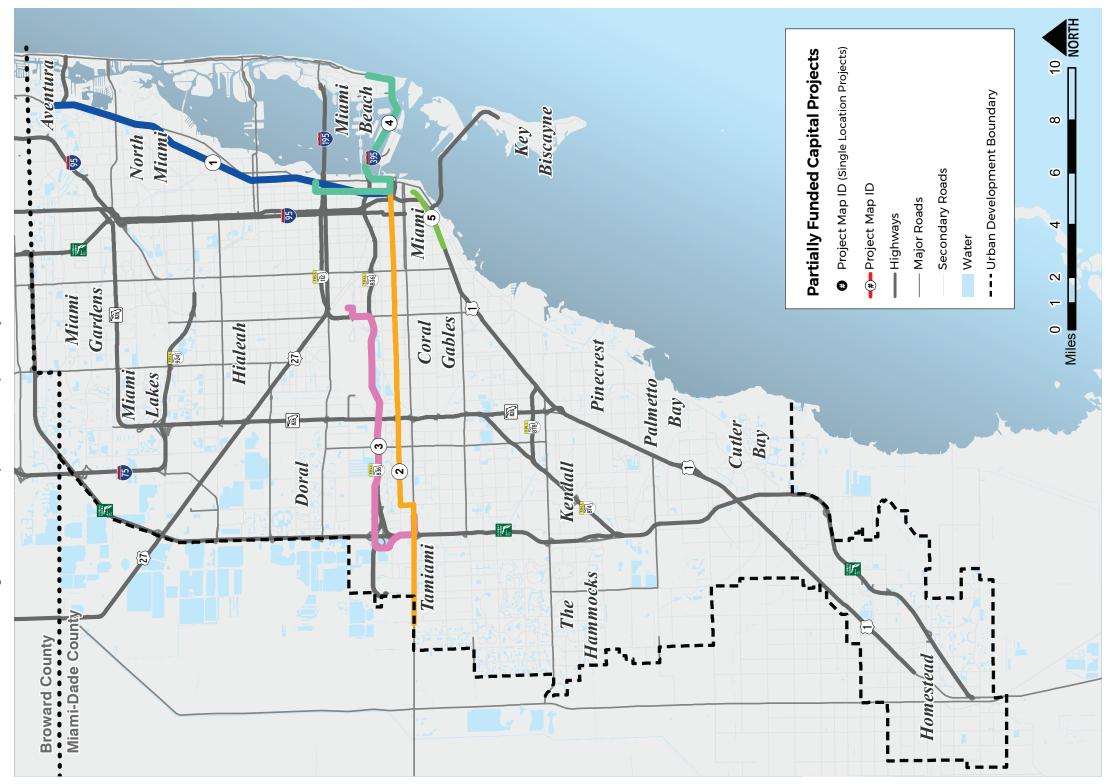

6.5. Partially Funded Capital Projects

Table 6-6 presents a list of partially funded capital and infrastructure improvement projects which will be implemented within the MDT10Ahead planning horizon over the next ten years.

Table 6-6: Partially Funded Capital Projects FY 2021 - 2030

| ID# | Project Name | Location | Project Description | Total Capital Cost | Funded Capital Cost | Annual O&M | Period and TIP Project Numbers | Numbers |
| 1 | Northeast Corridor | MiamiCentral Station to Aventura Station | Commuter Rail connecting MiamiCentral Station to Aventura Station (Miami-Dade County portion of project led by FDOT District 4). | \$368,550 | \$1,143 | \$17,550 | Illustrative Partially Funded | P672670 \$3002318 |
| 2 | Flagler Corridor BERT †† (Flagler Corridor BRT) | Along Flagler from Tamiami Station to Downtown Intermodal Terminal | Implement Bus Rapid Transit Service. | \$62,140 | \$1,143 | \$35,000 | Illustrative Partially Funded (O&M) and Partially Funded #42 TA 14 | P672670 \$3002329 FM 437782-1 |
| 3 | East-West Corridor | Florida International University (FIU) MMC campus to the Micami Intermodal Center (MIC) along the SR-836/Dolphin Expressway | This project will provide multimodal solutions for severe traffic congestion along SR-836, the only east-west expressway in central Miami-Dade County. This project will also serve major activity centers including FIU, Miami International Airport, the Miami Intermodal Center (MIC), Downtown Miami, and PortMiami, while transporting riders to and from major employment areas (Doral, Health District, Central Business District, Brickell, etc.). The East-West Corridor is being studied as part of the Strategic Miami Area Rapid Transit, or SMART Plan. | \$2,145,000 | \$9,000 | \$2,383 | Partially Funded #41 TAMDT285 | P672670 \$3001040 |
| 4 | Beach Corridor (f.k.a. Baylink) Premium Transit | Midtown Miami to Miami Beach Convention Center | Rapid Transit connecting Midtown/Miami CBD to Miami Beach Convention Center area (Light rail). | \$897,000 | \$10,000 | \$31,750 | Partially Funded #40 TAMDT287 | P672670 S77696 |
| 5 | The Underline Phase II - Hammock Trail | SW 13 th St to SW 19 th Ave | The future 10-mile Underline Corridor, running below the Metrorail from the Miami River to Dadeland South Station, will create a linear mobility corridor that will enhance connectivity, increase mobility, and improve pedestrian and biking safety for residents and visitors. Phase 2 is approximately 2.14 miles long and extends from SW 13th St to SW 19th Ave. The Design/Build Criteria Package was finalized in July of 2018. The documents were submitted to FDOT for review and we are working through the comments and environmental documentation for compliance with the NEPA Type 1 CE. The Design/Build Criteria package was finalized in July 2018 and the project is currently in procurement for the selection of the Design/Build Firm. | \$18,326 | \$2,400 | TBD | TAMDT291 MDT291 | P2000000133 \$3001571 |
| | | | Partially Funded Capital Projects FY 2021 - FY 2030 TOTAL COST (\$000s) | \$3,491,016 | \$23,686 | \$86,683 | | |

|------------|---|---|---|---|---------------|---------------------------------|--------------------------|
| Map ID# | Project Name Location | | Project Description | | Annual O&M | and TPO Project Numbers | Other Project Numbers |
| 1 | South Dade Park-and-Ride/Terminal at SW 152 nd St (Coral Reef Dr) and SR-821 (HEFT) - SMART Terminal | SW 152 nd St(Coral Reef Drive) / HEFT | Expand the existing 2 bay / 200 space park-and-ride facility. Construct new parking garage with 500 parking spaces and four bus bays. | \$14,621 | \$44 | Plan Period II #27 MDT176 | None |
| 2 | Transitway at SW 104th St Park-and-Ride | Transitway and SW 104th St | Lease park-and-ride facility with 100 parking spaces. | \$0.05 | \$50 | Plan Period I #12 MDT114 | None |
| 3 | Direct Ramps to Dolphin Station Transit Terminal Facility | SR-821 (HEFT) Express Lanes to Dolphin Station Transit Terminal Facility | Construct direct access ramps to connect the SR-821 (HEFT) Express Lanes to Dolphin Station Transit Terminal. | \$49,500 | N/A | Unfunded XA83634 | None |
| 4 | NE 151 nd St and U.S. 1 (Biscayne Boulevard) Park-and-Ride / Transit Terminal | NE 151 st St and Biscayne Blvd | Construct park-and-ride (100 spaces) and transit terminal (four bus bays) in anticipation of premium transit service on Biscayne corridor. | N/A | \$10 | Unfunded Not in InteracTIP | None |
| 5 | Underline Phases III - IX | From SW 19 th Ave to Dadeland Boulevard | In addition to Phase 2, DTPW is working with FDOT on the review of the advertisement for the procurement of a company to develop the trail alignment, the design of remaining 24 intersections, all surveys, documents associated with NEPA Type 1 CE, provide standards as developed for Phase 1 and Phase 2 and provide design direction on specific landscaping and amenities associated with each of the segments. The scope will include cost estimates. Once finalized, the document will allow FDOT to assist in the improvements of intersections because the path alignment will be created. It will allow for funding allocation in more detail based on specific scope and will allow DTPW to quickly procure the rest of the segments as soon as the funding becomes available. | \$110,270 | \$15,400 | Plan Period I #55 DT4441 981 | CIP 235 |
| 6 | South Dade Park-and-Ride | HEFT and SW 288 th St | Purchase land for the construction of a Park-and-Ride facility. | \$33,981 | \$40 | Plan Period II #31 new113 | None |
| 7 | Miami Gardens – MIC Express | Miami Gardens Station (Miami Gardens Mall) to MIC | Express bus service from Miami Gardens Station to MIC - will include four new articulated buses. | \$2,155 | \$2,800 | Unfunded | None |
| 8 | American Dream Mall Transit Terminal | East of HEFT and west of I-75 between NW 170th St and the intersection of I-75 and HEFT | Construct Transit Center with 10 bus bays, 2 layover bus bays, passenger waiting areas, bus operator comfort station, ticket vending and other transit amenities. The construction and operating and maintenance costs are privately funded. | N/A | \$0 | Private and Developer projects | None |
| 9 | Sunshine State Industrial Park Kiss-and- Ride Connector / Transit Terminal Facility (BERT) | NW 159 th Dr (adjacent to the Golden Glades Multimodal Transit Facility) (SMART/BERT Terminal) | DTPW, in coordination with the city of Miami Gardens and FDOT, proposed construction of a kiss-and-ride / transit terminal facility on the west side of the South Florida Rail Corridor (SFRC) just north of the Golden Glades Tri-Rail Station, with a connection via a fully covered and illuminated pedestrian/bicycle overpass. Metrobus as well as City of Miami Gardens trolleys would serve facility. Right-of-way acquisition is required. | \$18,039 | \$60 | Private and Developer projects | None |
| 10 | Downtown Intermodal Terminal (SMART/BERT Terminal) | 112 NW 3 rd St | Construct new Terminal with approximately 27 bus bays, customer service and passenger waiting areas w/seating, TVMs, video displays, restrooms, security office, support areas (driver comfort area), janitor/supply closet, supervisor booth, 8 parking spaces for transit staff, bicycle parking/station, kiss-and-ride area. Also includes a conversion of NW 1st 5t to bus drop-off area with 7 saw tooth bus bays, taxi/jitney areas, landscaping, lighting, and unified directional signage. | TBD | TBD | Unfunded | None |
| 11 | Zoo Miami Station | Zoo Miami Park at SW 152 nd St | Lease 100 parking spaces. | N/A | \$50 | Unfunded | None |
| 12 | West Kendall Transit Terminal Improvements | SW 88 th St and SW 162 nd Ave | Improve bus hub, add Kiss-and-Ride and expand parking facility to 500 structured parking spaces. | \$13,984 | \$44 | Unfunded | None |
| 13 | Metromover Brickell Loop Extension | From Financial District Metromover Station | Extension of Metromover service in the Brickell area. | \$274,968 | TBD | Unfunded | None |
| 14 | Metromover Omni Loop Extension | From School Board Station | Extension of Metromover service in the Omni area. | \$466,963 | TBD | Unfunded | None |
| 15 | Senator Villas Park-and-Ride | SW 40 th St between SW 89 th Ave and SW 89 th Ct | Construct a 23-unit affordable senior housing apartment building with an on-site enhanced bus stop and privately funded Park-and-Ride Improve access to and convenience of transit. Provide park-and-ride capacity for existing and new customers. Help reduce traffic congestion and support economic vitality. Support new SMART Plan, BART, and proposed express bus service. | \$226 | TBD | Unfunded | None |
| 16 | Miami Lakes Terminal | SR-826 (Palmetto Expressway) at NW 154 th St | Construct new park-and-ride facility with eight bus bays to support new express bus service connection. This project is being funded and built by the Town of Miami Lakes. | To be paid by the Town of Miami Lakes | TBD | Unfunded | None |

| 18 | Miami Beach City Hall / Convention Center Intermodal Terminal | Miami Beach Convention Center at 17th St & Washington Ave | Construct a transit terminal facility with two bus bays for Local, Express, Max and Future BERT Routes. City of Miami Beach is to pay the estimated project cost of \$3.9 million. | \$4,155 | N/A | Unfunded | None |
| 19 | Transitway Park-and-Ride at SW 264 th St (Bauer Dr) (SW 264 th St Station) | South Dade Transitway at SW 264 th St | Construct Park-and-Ride facility with 100 surface parking spaces. | \$3,591 | \$30 | Plan Period I #16 new103 | None |
| N/A | Signage Rebranding of Metrorail Stations and Garages | Metrorail Stations and Garages | Implement modernized and improved signage rebranding at 23 Metrorall stations and 5 Metrorall Garages. Update wayfinding system information to address the needs of locals and visitors using a variety of transportation modes. | \$10,260 | TBD | Not in LRTP | None |
| 20 | Tamiami Trail Flyover | SW 8 th St and SW 137 th Ave | Improvements include construction of a reversible flyover bridge at the intersection of SW 8th St and SW 137th Ave, including wide shoulders for exclusive bus-on-shoulder operations, which will provide direct uninterrupted connection to the proposed express transfer service along SR-836/Dolphin Expwy from west Miami Dade County Tamimi Station to Downtown Miami via SW 137th Ave/SR-836 Extension. The reversible flyover would serve the eastbound to northbound movement during the AM peak period, and southbound to westbound movement during the PM peak period. | \$45,220 | TBD | Not in LRTP | None |
| 21 | Transitway Lot (SW 244 th St) | Transitway and SW 244 th St (SMART Terminal) | Increase the number of leased parking spaces from 96 spaces to 111 spaces. | \$2,565 | 0 | Plan Period II #30 new104 | None |
| 22 | Transitway Lot (SW 296 th St) | Transitway and SW 296 th St (SMART Terminal) | Improve Existing park-and-ride facility with a 400 space parking garage. | \$24,316 | 360 | Plan Period I #17 new102 | None |
| 23 | Southland Mall | SW 205 th St and South Dixie Highway (SMART Terminal) | Lease 100 parking spaces and construct four bay terminal. | \$3,355 | 80 | Plan Period II #18 new112 | None |
| 24 | Expand Overcapacity Park-and-Ride Facility at Dadeland North | Dadeland North Metrorail Station (SMART Terminal) | Construct a new 1,000-space parking garage with ground-floor retail and office space. Provide additional service and layover bays. | \$53,096 | \$85 | Plan Period II #28 MDT188 | None |
| N/A | Drop-off / Pick-up at Transitway Stations | All Transitway stops between SW 344 th St and Dadeland South Metrorail Station | Drop-off/Pick-up at all (30) Transitway Stations. | \$7,695 | \$750 | Plan Period I #3 MDT226 | None |
| N/A | U.S1 (Transitway) | South Dade Transitway from SW 344 th St Park-and-Ride to Dadeland South Metrorail Station | Bus only grade separations at all intersections including and south of 98 St with at-grade stations. | \$323,190 | \$260 | Plan Period I on Project screened via ETDM #14311 | None |
| 25 | Mt. Sinai Multimodal Terminal | Southwest corner of Alton Rd and I-195 | Construction Transit Terminal with six bus bays. | \$5,643 | \$10 | Plan Period I #7 new127 | None |
| 26 | South Dade Transitway Park-and-Ride at SW 136 th St (Howard Dr) (136 th St Station) | Transitway and SW 136 th St (Howard Dr) | Lease 100 parking spaces. | N/A | \$40 | Plan Period I #14 MDT112 | None |
| 27 | SR-874 Ramp Connector Park-and-Ride | SR-874 and SW 128 th St | Ramp connector. | \$111,810 | TBD | Plan Period I #5 (MDX) XA87410 | None |
| 28 | Midtown Station | Biscayne Blvd and NE 39th St | Construct Park-and-Ride facility with 100 surface parking spaces. | \$1,539 | \$0 | Plan Period II #24 new121 | None |
| 29 | North Miami Station | Biscayne Blvd and NE 125 th St | Construct Park-and-Ride facility with 100 surface parking spaces. | \$1,539 | \$0 | Plan Period II #26 new123 | None |
| 30 | Transitway Park-and-Ride at Marlin Road | South Dade Transitway at Marlin Road | Construct Park-and-Ride facility with 100 surface parking spaces. | | \$30 | Plan Period I #11 new107 | None |
| 31 | North Miami Beach Station | Biscayne Blvd and NE 163 rd St | Construct Park-and-Ride facility with 100 surface parking spaces. | \$1,539 | \$0 | Plan Period II #25 new122 | None |
| | | | Unfunded Capital Projects FY 2021 - FY 2030 TOTAL COST (\$000s) | \$1,587,196 | \$20,143 | | |

6.7. State of Good Repair Projects

Table 6-8 presents a list of State of Good Repair projects, including the IRP which is funded at a level of \$12.5 million per year. All other projects are fully funded.

Table 6-8: State of Good Repair Projects FY 2021 - 2030

| Project Name | Project Description | Capital Cost - 2019 (\$000s) | Project Number | | | |
|--|--|------------------------------|----------------|--|--|--|
| IRP Project List | | | | | | |
| IRP - Automated Fare Collection System (AFCS) Cloud Migration | Implement enhancement and regional expansions to the Automated Fare Collection System (AFCS) based on the existing Contract 8481-2 22-1. The contract includes an option to purchase additional equipment and service for expansions and modifications. | \$3,000 | MDT: IRP263 | | | |
| IRP - Garage Fire Suppression | Replace and upgrade the fire suppression system at four parking garages built with the original Metrorail system: Okeechobee, Dadeland North, Dadeland South and Earlington Heights. | \$579 | MDT: IRP012 | | | |
| IRP - Dadeland North Garage Fire Suppression System | Replace and upgrade fire suppression system due to the current break down of the sprinkler heads at the Metrorail Dadeland North parking garage. | \$3,779 | MDT: IRP283 | | | |
| IRP - Bus Passenger Shelter Project | Bus Passenger Shelters (design, fabrication and installation of approx. 2,265 shelters throughout unincorporated Miami-Dade County). | \$4,890 | MDT: CIP174 | | | |
| IRP - Electric Forklift for Materials Management (5 ea.) and Rail Div. (2 ea.) | Replacement of old forklifts to be used for the daily logistical operational functions (shipping, receiving, loading, unloading, delivering parts for Bus, Rail, Mover and Material Management operations). | \$219 | MDT: IRP271 | | | |
| IRP - Emergency Exit at William Lehman Center | Widening of current exit to facilitate in and out emergency vehicle traffic at Palmetto Yard. | \$640 | MDT: CIP126 | | | |
| IRP - Fueling Terminal Modernization | Upgrade fueling terminal to IP Base. | \$250 | MDT: IRP260 | | | |
| IRP - Hybrid Electric Bus Battery Replacement | Battery Management replacement system in order to keep Hybrid buses in service. | \$4,390 | MDT: CIP192 | | | |
| IRP - Hydraulic Mobil Bus Lifts | Purchase of approximately 55 individual hydraulic mobile column lifts for the bus maintenance. | \$389 | MDT: OSP202 | | | |
| IRP - Mainline Video Upgrade Phase 2 | Enhancement of security video cameras throughout Rail, Mover, Bus and Revenue Island (new and replacements). | \$866 | MDT: CIP184 | | | |
| IRP - Metromover Vehicles HVAC Compliance Overhaul & Mover Building A C Replacement | Mover vehicle air condition HVAC system and Mover Building A C replacement in order to comply with EPA requirement as the use of Freon 22 will be banned by EPA by the year 2020. | \$1,345 | MDT: IRP270 | | | |
| IRP - Metrorail Bathrooms | Repair and renovate public restrooms at the 30-year-old Metrorail stations. | \$1,865 | MDT: IRP215 | | | |
| IRP - Metrorail and Metromover Electronic Real Time Signage | Install LED multi-color electronic signage in all Metrorail Stations and nine Metromover Stations to provide information of Train Arrivals, Train destinations, and next Train Arrivals. The LED signs will be done in conjunction with a new Public Address System project that will synchronize with the visual messages that will be displayed over the LED signage. Message categories will include station messages, train arrival information and emergency messages. The synchronization will provide improved ADA accommodation. | \$386 | MDT: IRP172 | | | |
| IRP - Metrorail HVAC Overhaul 40 Railcars | Metrorail air conditioning (HVAC) system overhaul of 40 rail vehicles in order to maintain system functionality, reliability and customer comfort. | \$3,500 | MDT: IRP296 | | | |
| IRP - Data Closets Uninterruptible Power Supply (UPS) Replacement | Replace Data Closets Uninterruptible Power Supply (UPS). | \$323 | MDT: OSP209 | | | |
| IRP - Metromover Public Address System Replacement | Replace existing Public Address System at all Metromover Stations. The Scope of Work includes the replacement and upgrade of all electronic components in the Paging chain. The distribution wiring will also be upgraded. | \$2,492 | MDT: IRP095 | | | |
| IRP - Purchase of 2 HY-Rail Crew cab Trucks | Purchase support vehicles for the Track and Guideway maintenance division. | \$190 | MDT: IRP236 | | | |
| IRP - Purchase Rail Wheel Press Machine | Purchase of a new Railcar Wheel Press Machine needed to support the 136 rail cars the department is procuring to replace the existing railcar fleet. | \$1,000 | MDT: IRP267 | | | |
| IRP - Railcar Cleaner Platform Replacement Project | Upgrade the existing Cleaning Platform located at the William Lehman Center. The existing wooden platform is in need of constant repair. | \$2,000 | MDT: IRP234 | | | |
| IRP - Rail Public Address System Replacement | Replace existing Public Address System at all Metrorail Stations. The Scope of Work includes the replacement and upgrade of all electronic components in the Paging chain. The distribution wiring will also be upgraded. | \$2,592 | MDT: IRP096 | | | |
| IRP - Replacement of Tactiles & Barriers at Metromover Stations | Provide detectable warning safety edge tiles and between-car barrier (BCB) system in compliance with the DOT ADA regulations. Each station features two 80 LF Platform Structures and require tiles and BCB on both sides of the platform. The scope includes labor, materials, tools, appliances, equipment and other means of construction for performing and completing the work. | \$440 | MDT: IRP255 | | | |
| IRP - Traction Power Crane Truck | Purchase crane truck for Traction Power to be used to perform work related to man-hole covers, high voltage cable pull, and cable spool lifts. | \$100 | MDT: IRP214 | | | |
| IRP - Traffic Signal Prioritization Expansion to Congestion Mgmt. Plan Real-Time Connected Vehicles - | Recapitalization of the Metrobus on-board equipment that provides passengers with free Internet access and connectivity for business traffic such as Fare Collection, CCTV, and CAD AVL data. This project replaces field equipment that has been in continuous operation in Metrobus vehicles for the last 7 years and expands the deployment of the entire fleet. | \$800 | MDT: IRP265 | | | |
| IRP - Traction Power Three Reel Trailer | Purchase high voltage trailer cable pull and is necessary for the replacement of the 30- year old Traction Power cables. | \$50 | MDT: IRP221 | | | |

Table 6-8 (Continued): State of Good Repair Projects FY 2021 - 2030

| Project Name | Project Description | Capital Cost - 2019 (\$000s) | Project Number |
|--|--|------------------------------|---|
| IRP - Metrorail and Metromover UPS Rooms HVAC Installation | Install new HVAC systems to provide cooling capacity for all UPS rooms on Metrorail and Metromover. | \$1,682 | MDT: CIP171 |
| IRP - Metromover Fire Panel Upgrade | Install new fire panels, sensors and control equipment at the Central Control Facility to monitor fire alarms from all Metromover stations. The new system will allow for Metromover Rail Traffic to monitor the status of all new fire, smoke and heat detectors. The new system will enhance the safety of Metromover patrons. | \$3,307 | MDT: CIP172 |
| IRP - Replacement of Diamond Frogs at Culmer Crossover | Replacement of Diamond Frogs at the Culmer Metrorail Station. | \$900 | MDT: IRP233 |
| IRP - William Lehman Facility (WLF) - Vehicle Maintenance Bathroom | Contracted services for the renovation of the WLF (6601 NW 72nd ave., Miami, Florida 33166), Vehicle Maintenance Bathroom to ensure proper sanitation for employees working in the Vehicle Maintenance shop. | \$450 | MDT: IRP224 |
| IRP - Mainline Video System Upgrade | Installation of IP-HD cameras with analytics throughout the Mainline Track System & Rail Stations, mover stations first level and at all revenue islands and Treasury Office & vault for security reasons. | \$286 | MDT: IRP199 |
| IRP - Metromover Traction Power Cable Replacement | Replacement of the damaged traction power cables and wiring on the Metromover system. | \$325 | MDT: IRP021 |
| IRP - Hydraulic Mobil Column Bus Lifts (Additional) | Provide 24 sets of four hydraulic column lifts with 70' required communication cables and 60' power cords for DTPW Bus Maintenance. | \$1,118 | MDT: IRP107 |
| IRP - Upgrade Chiller Units at Lehman Center | Replace two existing Trane water cooler 110 ton, R-113 chiller units, 3 chilled water pumps and all related controls, piping, valves, wiring etc at the William Lehman Center Facility. | \$650 | MDT IRP171 |
| IRP - Rail Programmable Logic Controller Replacement | To replace all ethernet switches at all Metrorail & Metromover stations and at Metromover Maintenance Bldg & at Lehman Center Bldg. | \$1,560 | MDT: IRP242 |
| IRP - Traction Power Switchgear Replacement for Rail (Phase 3 Upgrade) | Upgrade to Traction Power Substations. | \$5,000 | MDT: IRP299 |
| IRP - Renovate Lehman Center 2nd Floor (Administration) | New office partitions, desks, chairs upgrade phone system etc. | \$750 | MDT: IRP306 |
| IRP - Mover Vehicle Mid Life Overhaul | Involves replacement or overhaul of vehicle subsystems, equipment and components for the reliable operation of the Mover fleet. | \$3,214 | MDT: IRP300 |
| IRP - Emergency Back up Generators | Installation of electrical generators and transfer switches at Central Bus, NE and Coral Way. | \$440 | MDT: IRP109 |
| IRP - Rail EAMS Work Order Module | Info EAMS software tool to implement Work Order module that will be integrated with the existing warehouse module. | \$700 | MDT: OSP234 |
| IRP - Metrorail Platform Cabling Replacement | Replacement, disposal and reinstallation of the infrastructure and cabling necessary to support the Emergency Transfer Switch, Emergency Telephone, End Gate Intrusion Alarm and Blue Light at 17 Metrorail Stations. | \$2,805 | MDT: IRP276 |
| IRP - Metromover Concrete Removal & Safety Netting Installation | Removal of the existing bottom outside corner of the concrete running pads along the Metromover System's Brickell and Omni Loops at all locations deemed necessary. Work will also include the installation of additional safety netting between existing girders to supplement existing safety netting system. | \$5,250 | MDT: IRP315 |
| | Other Infrastructure Projects | | |
| Bus Facilities Projects | Provide federal allocation designated for bus and bus facility projects to include the bus garages, plumbing, roofing, fire suppression. | \$21,472 | P671560 |
| Underfloor Rail Wheel Truing Machine | Purchase a new Tandem, Underfloor, Railcar Wheel Truing Machine, to support the new railcar procurement of up to 136 rail vehicles. These vehicles will replace the existing 136 railcar fleet. The railcars will be heavy rail married pairs, weighing approximately 83,000 lbs vehicle, using 28 inch wheels and equipped with disc brakes. | \$20,269 | P2000000993 \$3001017 |
| Escalators Replacement and Elevators Refurbishment | The escalators and elevators in the 21 Metrorail stations in the Department of Transportation and Public Works (DTPW) system require upgrade and or replacement of this equipment over time, the DTPW has requested the services of a consultant to develop a design criteria package for use in future design-build procurements for the design, procurement and installation of this equipment and to develop cost estimates and schedules based on the budget | \$13,760 | P673910 \$3001039 IRP 144 TAMDT290 |
| AC Unit Substations (Replace All Major Power Components) | Replace existing equipment in the AC unit substations that have been in service since Metrorail first commissioned. | \$15,000 | P2000000185 \$3001051 |
| 10-15 Year Track Equipment Replacement | Replace rail services heavy track equipment. Track Equipment Operators perform oil changes and minor maintenance; no overhauls can be performed. Rail bound equipment cannot be rented and has a 10-15 year life. Major equipment, Kershaw work train, Tamper, KGT Hi-rail, Welders, and light plants have already passed the useful life by over five years. | | P6710900 \$3001018 |
| Metrorail Switch Machine Improvement | Replace switch machines and cables at the William Lehman Yard and Mainline Area | \$12,320 | P2000000104 \$3001424 |
| Track and Guideway Rehabilitation Subset | There are several components of this subset, each described further below. All work is performed by in-house staff. In Progress: Coverboard Replacement, Seal Gland Rehabilitation Completed: Mainline Mitter Joint Replacement, Palmetto Yard Road Crossing and Mainline Replacement, Metrorail Piers Coating, Acoustical Barrier Replacement, Rail Fastener Replacement | \$610 | P6710900 \$3000913 CIP 168 |

Table 6-8 (Continued): State of Good Repair Projects FY 2021 - 2030

| Project Name | Project Description | Capital Cost - 2019 (\$000s) | Project Number |
|--|--|---------------------------------|----------------------------------|
| Rail Vehicle Replacement | Procurement of new rail vehicles. The original project scope was to refurbish rehab the existing fleet and was later changed via resolution to replace all vehicles. | \$384,777 | P6733001 \$68750 CIP 134 |
| Metrorail and Metromover Train Control Replacement Project | Replace the existing Metrorail and Metromover relay based train control equipment with vital processor controllers or their equivalent. Project includes software and hardware modifications at Central Control to accommodate the new train control systems. | | P2000000993 \$3001343 |
| Metrorail Train Wayside Communication Equipment Installation at Rail | TWC Equipment Installation at 21 Metrorail Stations, except MIC and Earlington Heights stations, to interface with the station signs and PA to display the train route information at the platform. | \$8,762 | P2000000434 \$3001037 |
| Rail Vehicle Replacement | Rail vehicle replacement of 136 car fleet | \$385,813 | TA0000022 P6733001 S68750 |
| Bus Replacement | Bus vehicle replacement with CNG and electric vehicles. This project includes bus garage conversions and purchase of charging stations. | \$445,780 | P673800 CIP183 TA7 |
| Compressed Natural Gas Buses | Purchase of CNG buses | \$185,850 | P673800 \$3001647 CIP202 |
| Green Line Rail Component Replacement | The majority of Metrorail track infrastructure is near or exceeded its life cycle. This will replace 40 miles of track along with running rail and fasteners. | \$80,000 | P6710900 \$3001384 CIP 148 |
| Perimeter Security Fencing at William Lehman | Construction of a decorative, high security perimeter fence and gates | \$4,967 | P2000000993 \$3002125 |
| Parking Garage Overhaul, Metrorail Stations | Overhaul 6 parking garages from the original 1984 Metrorail construction: Okeechobee, Earlington Heights, Santa Clara, South Miami, Dadeland North, and Dadeland South. A general overhaul at the MLK rail station parking garage. Scope of work includes: metal doors, lighting, parking stops, irrigation, drainage, sump pumps, and plumbing. | \$16,000 | P671560 \$3000793 |
| Metromover Wayside Overhaul | This project includes the overhaul and repair of all major wayside components. | \$132,964 | P673910 \$3001385 |
| Disaster Recovery Control Center | Upgrade of the Metrorail Control Center Facility (MCCF), which is currently co-located with Yard Tower Control at the Lehman Yard Facility. Project includes the installation of new workstations, consoles, HVAC, lighting, telephones, a security station, fire alarm detection, facilities monitoring, Traction Power and Train Control status displays, etc. | \$9,855 | P200000993 \$3001342 |
| Metrorail Escalators and Elevators Refurbishment | Refurbish and replace elevators and escalators at Metrorail stations. This project includes assessments, design, materials, procurement and construction. | \$68,166 | P200000104 \$3001035 |
| Tri-Rail Station Power Sub-station | Purchase new Traction Power Sub Station (TPSS), including all substation equipmnet to be located at the Metrorail Tri=-Rail Station with related site and off-site work. | \$12,000 | P2000000104 \$3001382 |
| Coverboard Replacement | Replace the coverboard. | \$15,613 | P6710900 \$3000918 |
| Acoustical Barrier Replacement | Replace the concrete and metal acoustical barrier along Metrorail's guideway system. | \$48,742 | P6710900 \$3001335 |
| Metrorail Maintenance Vehicle Lifts | Replace Metrorail lifting equipment at the Lehman Center. | \$5,400 | P675410 \$77620 |
| Government Center Fire Systems | Replace the fire system at the Government Center. | \$3,932 | P200000104 \$3001005 |
| Private Branch Exchange Telephone System Upgrade to VOIP | Upgrade telephone system to VOIP. | \$4,042 | P200000434 \$3001023 |
| Fiber Optic Repair and Capacity Augmentation | Metrorail fiber optic repair and capacity augmentation. | \$7,500 | P200000434 \$3001036 |

Table 6-8 (Continued): State of Good Repair Projects FY 2021 - 2030

| Project Name | Project Description | Capital Cost - 2019 (\$000s) | Project Number |
|--|--|---------------------------------|--------------------------------|
| Metrorail and Metromover Electronic Real Time Signage | Metrorail and Metromover Electronic Real Time Signage | \$6,876 | P2000000434 \$3001025 |
| Security Projects | Transportation security projects | \$4,534 | P2000000185 \$3001056 |
| Mainline Video Upgrade | Mainline video upgrade Phase 2 | | P2000000326 \$3001904 |
| Replacement Buses | Purchase of replacement buses | \$115,123 | P6760101 \$3000910 |
| CNG Buses | Purchase of FTA 5339 future CNG buses | \$13,306 | P6760101 \$3001328 |
| Electric Vehicles | Purcahse of electric buses and charging stations | \$35,650 | P673800 \$3001290 CIP147 |
| Professional Services - Transit's Capital Improvement Plan | Professional services for development of Transit's Capital Improvement Plan | \$7,000 | P2000000326 \$3001049 |
| Capitalization of Preventive Maintenance and Other Costs | Capitalize preventive maintenance and other costs for Metrobus, Metromover, and specialized transportation | \$831,634 | P2000000326 \$3000642 |
| | Funded State of Good Repair Projects FY 2021 - FY 2030 TOTAL COST (\$000s) | \$3,023,196 | |

7. VISION PLAN: 2030 AND BEYOND

In addition to the ten-year plan laid out in Chapter 6, DTPW has developed a program for projects that can be implemented from the 11th year onward. This list consists of a combination of projects that are scheduled for the later years of the 2045 LRTP, as well as DTPW's forecasted long-term needs. Many of these adopted projects are identified as Priority 3 (2031 - 2035), Plan Period 4 (2036-2045), or unfunded projects, which are beyond the 10-year planning horizon of the FY 2021 - 2030 TDP.

7.1. 2045 Long Range Transportation Plan - Priority Transit Projects

Table 7-1 and corresponding maps, Figures 7-1, 7-2, and 7-3 identify DTPW priority projects planned to take place beyond the ten-year threshold of the Implementation Plan presented in Chapter 6. These projects will require consideration by the Miami-Dade TPO for the purposes of amending the 2045 LRTP to promote these projects to Plan Period 1 or 2 time frame.

Table 7-1: 2030 and Beyond Transit Vision Plan

| Мар | | | | Cost - (in \$000s) | 2045 LRTP Plan Period |
|-----|---|--|---|--------------------|---------------------------------|
| ID# | Project Name | Location | Project Description | Capital Cost | and TPO Project Numbers |
| 1 | Direct Ramps to Palmetto Intermodal Terminal from Palmetto Express Lanes | Palmetto Metrorail Station | Provide greater connectivity and reduce transit travel time. | \$50,787 | Unfunded |
| 2 | Direct Ramps between the South Dade Transitway and SR-826 (Palmetto) Express Lanes | South Miami-Dade Transitway and SR-826 / Palmetto Expressway | Construct ramps connecting the South Miami-Dade Transitway and SR-826 (Palmetto) Express Lanes. | \$51,813 | Unfunded DT4326391 new212 |
| 3 | Direct Ramps between SR-878 (Snapper Creek Expressway) and Dadeland North Metrorail Station | SR-878 (Snapper Creek Expressway) and Dadeland North Metrorail Station | Construct ramps connecting SR-878 (Snapper Creek Expressway) to Dadeland North Metrorail Station. | \$46,170 | Not in LRTP |
| 4 | NW 7th Ave Enhanced Bus | NW 7th Ave from Downtown Miami to GGMTF | Premium limited-stop transit service along NW 7 th Ave between Downtown Miami and the Golden Glades Interchange park-and-ride facility. Will replace route 77 and MAX route 277, Service headways: 10 minutes during the A.M. / P.M. peak / 20 minutes during midday. This route will provide a premium transit connection to the NW 7th Ave Transit Village located at NW 7 th Ave and NW 62 nd St. | \$38,013 | Unfunded |
| 5 | Government Center Station (Downtown Miami Development of Regional Impact - Increment III) | 101 NW 1st St | Preserve existing transit facilities and equipment. Improve service reliability, safety, quality, convenience, and comfort. | \$14,460 | Unfunded |
| 6 | Historic Overtown/Lyric Theatre (Downtown Development of Regional Impact - Increment III) | 100 NW 6 th St | Expand capacity, support connectivity. Preserve existing transit facilities and equipment. Improve service reliability, safety, quality, convenience, and comfort. | \$5,495 | Unfunded |
| 7 | Collins Avenue Enhanced Bus | Miami Beach Convention Center at 17 th St & Washington Ave to Aventura Terminal | Improve the speed, reliability, identify, comfort and convenience of transit. | \$55,619 | Unfunded |

| Мар | | | | Cost - (in \$000s) | 2045 LRTP Plan Period |
|-----|---|--|--|--------------------|----------------------------|
| ID# | Project Name | Location | Project Description | | and TPO Project Numbers |
| 8 | SW 137 th Ave Enhanced Bus Service | Tamiami Station to Caribbean Blvd / US-1 | Improve the speed, reliability, identify, comfort and convenience of transit. | \$65,223 | Unfunded |
| 9 | MDC Sharks Central Station - SMART Terminal | Miami Dade College Kendall Campus - 11011 SW 104 th St (Killian Parkway) | Construct Transit Terminal with four bus bays. | \$1,919 | Unfunded |
| 10 | Dolphin Mall-Dolphin Station Connector Road | Dolphin Mall - Dolphin Station (HEFT/SR-836/NW 12 th St) | New cut and cover roadway to connect the Dolphin Mall to Dolphin Station. | \$10,260 | Unfunded |
| 11 | Park-and-Ride Facility at NW 27 th Ave / NW 119 th St / Gratigny Parkway | Gratigny Pkwy / NW 119 th St / NW 27 th Ave | Construct park-and-ride facility with 100 surface parking spaces. | \$14,826 | Unfunded |
| 12 | NW 7 th St Enhanced Bus | Dolphin Station to Government Center | Premium limited-stop transit service along NW 7 th St from the proposed park-and-ride/transit center station at Dolphin Station (HEFT at NW 12 th St) to Government Center. Service headways: 10 minutes A.M./P.M. peak-hour/20 minutes mid-day. | \$60,421 | Unfunded |
| 13 | SW 8 th St Enhanced Bus | FIU Panther Station to Brickell Metrorail Station | Premium limited-stop transit service along SW 8 th St from FIU Panther Station to the Brickell Metrorail Station. Service headways: 10 minutes A.M./P.M. peak/20 minutes mid-day. | \$69,024 | Unfunded |
| 14 | Little River park-and-ride | US 1 (Biscayne Blvd/SR-5) & NE 79 th St (SR-934) | Lease 100 parking spaces. | \$6,538 | Unfunded |
| 15 | Civic Center Transit Terminal | Civic Center Metrorail Station (NW 15 th St and NW 12 th Ave) | Construct transit terminal to increase bus terminal capacity and improve bus circulation. | \$55,619 | Unfunded |

CHAPTER 8

8. TRANSIT FINANCIAL PLAN

The previous chapters identify critical transit needs in Miami-Dade County without consideration of project cost. In this chapter, however, the DTPW must reconcile its transit improvement needs with available financial resources. In the financial plan, the estimated costs of providing the agency's existing and planned new services are projected over a ten-year horizon. The financial resources that will support those services are also identified and estimated. Through the development of this financial plan, DTPW determines which service improvements are financially feasible and establishes a timeline by when said improvements can be implemented.

8.1. Operating Expenses and Revenues

DTPW is the largest transit operator in Florida and the 18th largest transit provider in the U.S. per the 2019 Public Transportation Fact Book (based on unlinked passenger trips). DTPW's size is reflected in the agency's direct operating budget, which is projected at approximately \$395 million in FY 2020. The primary components of the direct operating expenses are shown in Table 8-1.

Wages and benefits make up 61 percent of DTPW's total operating expenses. This includes salaries and overtime, benefits, health and dental, retirement, and worker's compensation. Contractual services comprise another 9 percent of the operating budget.

In addition to these direct expenses, DTPW will support approximately \$89 million of other operating expenses in FY 2020. These other expenses are detailed in the subsequent tables of this chapter.

In total, DTPW will spend \$528 million in FY 2020 for the ongoing operation and maintenance of the transit system and the support of DTPW's other local and regional responsibilities.

| ra fi | State Block Grants | 1.0% |
| pe rov | Transportation Disadvantaged Funds | 0.0% |
| 0.0 | Local Option Gas Tax**** | 1.5% |

DTPW operations are supported by a range of federal, state, local, and directly-generated revenue streams. Table 8-2 shows the projected operating revenues for FY 2020 by major category that total over \$399 million.

Revenue categories listed in Table 8-2 are described below.

- Fare Revenues: DTPW currently recovers approximately 16% of its operating expenses from transit fare revenue.
- Other Operating Revenues: These operating revenues include advertising.
- Transportation Disadvantaged (TD) program: This program provides funding to assist TD populations, which include individuals with physical or mental disabilities, have low incomes, or older individuals who are unable to transport themselves, purchase transportation or use fixed-route services.
- County General Funds: Miami-Dade County supplies DTPW with funding each year from its general fund.
- People's Transportation Plan Surtax: The PTP provides sales tax revenue to support public transit and roadway infrastructure improvements.
- County General Funds: Miami-Dade County supplies DTPW with funding each year from its general fund.

8.1.1. Projected Operating Revenues

Future revenue growth is projected to fluctuate with a low level of tax revenue growth resulting from the existing state of the economy. However, in years without any major policy changes, total available funding for DTPW is expected to grow at a rate of 0.5% to 1% annually. Other funding growth assumptions that drive the Pro-Forma financial projections are outlined in Table 8-3. DTPW does foresee a separate major policy action related to funding during FY 2020 – FY 2029 to include:

Regular programmed fare increases: The Pro-Forma projects a 25-cent increase
in the base fare (from its current level of \$2.25 to \$2.50) in FY 2020, with additional
25 cent increase in fiscal years 2026. These increases augment the overall
revenue growth rate in those years. These programmed fare increases, which
are scheduled to occur every six years, are determined by policies approved
by the Miami-Dade County BCC that authorizes DTPW to implement regular
fare increases to keep pace with inflation.

Source: Transit Pro-Forma FY 2019-2020 (September 2019)

^{*}PTP surtax is reported as zero growth because DTPW is reducing its reliance on PTP funds for Operations expenses and shifting those revenues to the capital budget for the purposes of expanding transit service.

^{**} General Fund is projected to fluctuate between 2021 and 2023 and increase 3.5% annually thereafter.

^{***} Fare Revenue is projected to increase 0.5% annually through 2026 and fluctuate thereafter.

^{****} CILOGT reimbursement is projected to increase 1.5% annually through 2022, decrease to 0.6% in 2024, and have zero growth thereafter.

8.1.2. Summary of Operating Budget

The operating budget is carrying a surplus, as presented in the adopted FY 2019-2020 Pro-Forma for the ten-year period from FY 2021 to FY 2030 and summarized in Tables 8-4 and 8-5. The projected operating expenses are covered by the forecasted revenues from various sources. DTPW balances its operating budget by adhering to a combination of strategies aimed at producing cost efficiencies; an avoidance of any major service expansion and aggressive use of available local funding sources such as the Local Option Gas Tax (LOGT) and general funds.

This operating budget is based upon the budgetary assumptions that were applied within the FY 2019 Pro-Forma. It should be noted that these assumptions are subject to change due to the volatility in gas prices and pressure from the public to reduce the tax roll. Changes in the assumptions could have impacts to the general fund share DTPW receives and the availability of federal and state grants, thus resulting in a different budgetary outcome than that which is presented in this TDP.

Table 8-4: DTPW Operating Transit Revenues FY 2021 - FY 2030 (\$000s)

8.2. Transit Capital Expenditures and Funding Sources

This section provides an overview of expenditures and funding sources for DTPW's Capital Project initiatives. The tables in this section provide a tenyear outlook, with a horizon year of Fiscal 2029-2030.

8.2.1. Planned Capital Expenditures

DTPW's planned transit capital budget for the period between FY 2021 and FY 2030 is summarized in Table 8-6: DTPW Capital Transit Budget FY 2021 - FY 2030. Large capital projects or ongoing projects during this period (Metrorail Stations and Systems Improvements, for example), may be funded by a combination of debt proceeds and cash.

Many projects in the Capital Transit Budget will improve the quality of service and longevity of the existing DTPW system. Five projects have funding allocated in the outside five years of the capital budget. These are Bus Related Projects, Federally Funded Projects, Infrastructure Renewal Plan, Metrorail Track and Guideway Projects, and Metrorail Vehicle Replacement.

8.2.2. Summary of Capital Plan

DTPW's ten-year capital plan revenue sources are listed in Table 8-7. Revenue sources in the first five years are forecasted by fiscal year, while the second five years are aggregated into a future category. All projected capital expenditures could be funded with either PTP surtax debt proceeds, or on a pay-as-you-go basis, depending on the availability of funds. This capital budget is achieved by aggressive borrowing against the PTP surtax; ultimately requiring the inclusion of additional LOGT and general funds in DTPW's budget, to guarantee debt coverage.

Table 8-7: Projected "Cash" Revenue Sources for Transit Capital Projects FY 2021 - FY 2030 (\$000s)

| Projects | PRIOR | FY 20-21 | FY 21-22 | FY 22-23 | FY 23-24 | FY 24-25 | FUTURE | TOTAL |

8.3. Total Unfunded Need

The implementation plan laid out in Chapter 6 of the MDT10Ahead document identifies the agency's funded, partially funded and unfunded project needs for both operations and capital projects. The total unfunded need for the ten-year period encapsulates the difference between DTPW's programed needs and the total funding; this is summarized in Table 8-8: Ten-Year Implementation Plan Total Unfunded Capital Need.

The unfunded need is calculated as the sum of the capital costs for the Unfunded Operations, Capital, and State of Good Repair projects, combined with the unfunded portions of the Partially Funded Capital and State of Good Repair Projects. Overall, DTPW's unfunded need for the next ten years is over \$5.2 billion.

Table 8-8: Ten-Year Implementation Plan Total Unfunded Capital Need

| Ten-Year Implementation Plan Projects | Unfunded Capital Need |
|--|--------------------------|
| Unfunded Operations | \$202,379,000 |
| Capital Unfunded | \$1,587,196,000 |
| Capital Partially Unfunded | \$3,465,642,000 |
| Total: | \$5,255,217,000 |

Every year, we launch our #MDT10Ahead survey asking you, our riders, to provide feedback that will help inform our ten-year Transit Development Plan. This strategic vision helps the Department operate and grow a clean, safe, convenient, and reliable transit system. In addition, the results of this survey will allow us to evaluate our existing system while identifying existing and future service improvements. We will be collecting responses to our online survey from now throug... See More

Every year, we launch our #MDT10Ahead survey asking you, our riders, to provide feedback that will help inform our ten-year Transit Development Plan. This strategic vision helps the Department operate and grow a clean, safe, convenient, and reliable transit system. In addition, the results of this survey will allow us to evaluate our existing system while identifying existing and future service improvements. We will be collecting responses to our online survey from now through July 31, 2020. Learn more by visiting our website. // Each year we launch our #MDT10Ahead survey to ask you, our users, to send us their opinions in order to keep the Public Transportation Development Plan informed over the next ten years. This strategic vision helps the department manage and develop a clean, safe, comfortable and reliable public transport system. Similarly, the results of this survey will help us evaluate our current system while identifying where we should improve the current and future service. From now on, until July 31, 2020, we will be collecting answers to our online survey. For more information, visit our website:

Uncle Luke: A Seven-Point Plan to Reform Police Departments

What is #MDT10Ahead?

Miami-Dade County's Department of Transportation and Public Works' (DTPW) Transit Development Plan (TDP) is a ten-year strategic vision that helps the Miami-Dade Transit (MDT) operate and grow a clean, safe, convenient, and reliable transit system. This brief survey uses your input to influence our plans looking forward to the next decade.

What this survey does:

The TDP evaluates DTPW's existing transit system, identifies existing and future service improvements as well as capital investments, and in the end it presents a financial plan based on available funding.

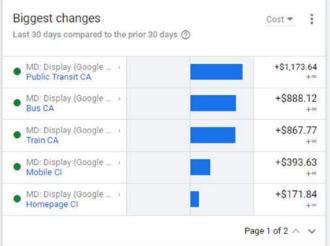

Fill out the online survey at: https://bit.ly/MDT10Ahead

Recommended Service Plan: The ten-year implementation plan guides decisions about existing and future services. The plan is based on service standards, citizen input (like this survey you're about to complete), and stakeholder coordination.

Capital Investment Plan: This plan prioritizes investments in buses, stations, infrastructure, and equipment needed to preserve and expand the transit system needed to implement the Recommended Service Plan.

Financial Plan: The financial plan identifies all available financial resources and identifies financial needs based on the Recommended Service Plan and Capital Improvement Plan.

| Kendall Corridor | North Corridor |
| Northeast Corridor | South Corridor |

¿Qué es #MDT10Ahead?

El Plan para el Desarrollo del Transporte (TDP) del Departamento de Transporte y Obras Públicas del Condado de Miami-Dade (DTPW) es una iniciativa estratégica de diez años diseñada para ayudar al Departamento de Transporte de Miami-Dade (MDT) a operar y crear un sistema de transporte público limpio, seguro, conveniente y confiable. Esta breve encuesta usa sus comentarios para influir en nuestros planes para la próxima década.

Cuál es el objetivo de esta encuesta: El Plan para el Desarrollo del Transporte evalúa el actual sistema de transporte público de DTPW; identifica las mejoras actuales y futuras en el servicio, así como las inversiones de capital; y al final presenta un plan de financiamiento, conforme a los fondos disponibles.

Cómo puede ayudar usted:

- Complete esta breve encuesta y envíela a:
 Department of Transportation and Public Works
 MDT10Ahead
 - 701 NW 1st Court, 15th Floor, Miami, FL 33136 (franqueo prepagado)
- Envíe los comentarios adiciones por correo electrónico a: MDT10Ahead@miamidade.gov
- Complete la encuesta en internet en: www.miamidade.gov/transit/mdt10-ahead.asp
- Asista a uno de nuestros eventos en la comunidad.
- Síganos en las redes sociales con @GoMiamiDade en Twitter, Instagram, y Facebook. Use #MDT10Ahead para participar en la conversación.

Plan recomendado para el servicio: El plan de ejecución, para un período de diez años, sirve de guía para tomar decisiones relativas a los servicios actuales y futuros. El plan se basa en las normas de servicio, los comentarios de los ciudadanos (como esta encuesta que usted va a contestar), y la coordinación de las partes interesadas.

Plan de inversión de capital: Este plan prioriza la inversión en autobuses, estaciones, infraestructura y equipos necesarios para preservar y expandir el sistema de transporte y que se necesita para poner en práctica el Plan Recomendado para el Servicio.

Plan de financiación: El plan de financiación identifica todos los recursos financieros disponibles, así como las necesidades financieras, conforme al Plan Recomendado para el Transporte y el Plan de Mejoras de Capita.

Para más detalles, visite la página web: www.miamidade.gov/transit

Conforme a las exigencias del Titulo II de la Ley de Estadounidenses con Discapacidades (ADA), el Condado de Miami-Dade no discrimina a individuos con discapacidades que retinen los requisitos en el acceso a servicios, programas, actividades o instalaciones. Hay artículos y servicios auxiliares a disposición del público. Es necesario solicitarios con cinco dias de antelación. Para solicitar materiales en formato especial (audiocinta, Braille o disco de computadora), los servicios de un interprete del lenguaje de señas u otras adaptaciones, sirvase comunicarse con: Miami-Dade Transit, Office of Civil Rights and Labor Relations, 701 NW 1st Court, Suite 1700, Miami, FL 33136. Attención: Marcos Ortega, Telefono: 786-469-5252. Fax: 786-469-5258. Correo electrónico: mo7225@miamidade.gov. Si es sordo o tiene dificultades auditivas, puede llamar a Florida Relay Service al 711, 1-800-958-877 (TTY) o 1-800-955-877 (OVO2).

| Corredor del Noroeste | Corredor Sur |

Kisa #MDT10Ahead ye?

Plan Devlopman Transpò (TDP), Plan Depatman Transpò ak Travo Piblik Konte Miami-Dade (DTPW) se yon vizyon estratejik dis ane ki ede Miami-Dade Transit (MDT) opere ak devlope yon sistèm transpò pwòp, san danje, pratik, ak fyab. Sondaj kout sa a sèvi ak opinyon ou pou enfliyanse plan nou yo pou pwochen deseni an.

Kisa sondaj sa a fè: TDP a evalye sistèm transpò ki egziste deja nan DTPW, idantifye amelyorasyon sèvis ki egziste deja ak pwochen sèvis, envèstisman kapital yo, epi finalman li prezante yon plan finansye ki baze sou finansman ki disponib.

Kijan w ka ede?:

- Ranpli epi voye sondaj kout sa a tiunen pa lapòs nan: **Department of Transportation and Public Works** MDT10Ahead

701 NW 1st Court, 15th Floor, Miami, FL 33136 (postage is on us)

- Soumèt kòmantè adisyonèl pa imel nan:
- MDT10Ahead@miamidade.gov
- Ranpli sondaj la sou entènèt nan: www.miamidade.gov/transit/mdt10-ahead.asp
- Chèche nou nan youn nan evènman kominote nou yo.
- Swiv nou sou medya sosyal nan @GoMiamiDade sou Twitter, Instagram, ak Facebook. Itilize #MDT10Ahead pou patisipe nan konvèsasyon an.

Plan Sèvis Rekòmande: Plan aplikasyon dis ane a gide desizyon sou sèvis ki egziste deja ak sa ki ap vini. Plan an baze sou nòm sèvis yo, opinyon sitwayen yo (tankou sondaj sa a ou pral ranpli a), ak kowòdinasyon moun enterese vo.

Plan Envestisman: Plan sa a bay priyorite a envestisman nan otobis, estasyon, enfrastrikti, ak ekipman ki nesesè pou prezève ak elaji sistèm transpò a ki nesesè pou aplike Plan Sèvis Rekòmande a.

Plan Finansye: Plan finansye a idantifye tout resous finansye ki disponib yo ak idantifye bezwen finansye ki baze sou Plan Sèvis Rekòmande a ak Plan Amelyorasyon Kapital la.

Pou plis detay, vizite:

www.miamidade.gov/transit

Dapre egzijans Tit II ADA a, Konte Miami-Dade pap fê diskriminasyon kont moun ki kalifye ki gen andikap sou baz andikap nan sêvis, pwogram, aktivite oswa enstalasyon ii vo. Ed adisyonêl ak sêvis pou komini-kasyon yo disponib avêk yon av senk jou davans. Pou materyel nan fôma altene (kasêt cdyo, Bray oswa disk sou odinatê), yon entêprêt langaj siy oswa lôt akomodasyon, tanpri kontakte: Miami-Dade Depart-ment of Transportation and Public Works, Office of Civil Rights and Labor Relations, 701 kW 1st Court, Suite 1700, Miami, FL 331366. Atansyon: Marcos Ortega. Telefön: 786-469-5225, Faks: 786-469-5589. Imèl: mor225@miamildade.gov. 5 iou soud oswa difisil pou tande, ou ka kontakte ajans lan avèk Sèvis Relé Florid nan 711, oswa 1-800-955-8771 (TTY) oswa 1-800-955-8770 (Wwa).

 $[\]mbox{\ensuremath{\$}}$ Question was included in both the paper and online survey

1. How often did you use Miami-Dade Transit services prior to the COVID-19 outbreak (March 2020)?

Figure 1 provides insight into the types of transit being used by respondents. This question was on the electronic survey, as well as the paper survey. Approximately 33 percent of the respondents use Metrorail more than four times per week. Meanwhile, approximately 28 percent use the Metrobus and 17 percent use the Metromover more than four times per week. Just about 3 percent of respondents were occasional Special Transportation Services (STS) users.

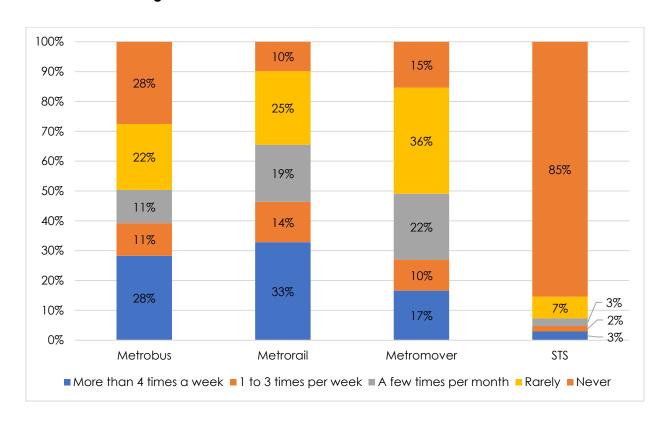

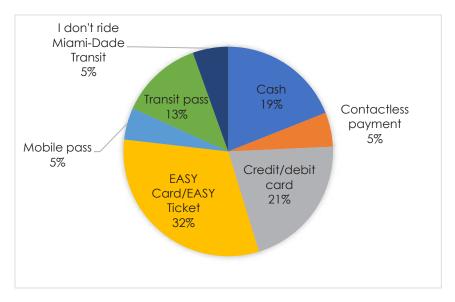

Figure 1 – How Often Do You Use Miami-Dade Transit Services?

2. Transit Payment Methods

Respondents were asked how they paid for transit fares. As shown in **Figure 2**, approximately 32 percent of respondents use the EASY card to pay their transit fares. Another 21 percent use credit cards. 19 percent pay cash for their fares, and only 13 percent Transit pass as their form of payment. Approximately 5 percent of responders either use a contactless form of payment or pay with their mobile pass.

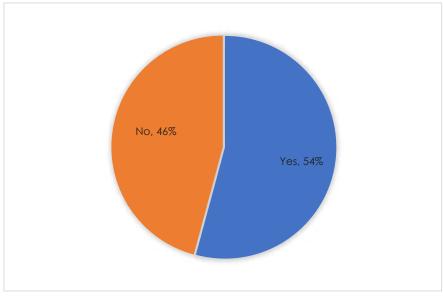

Figure 2 – How Do You Pay for Transit?

3. Transfers

Respondents were asked if they use transfers on the MDT system. About 46 percent indicated they do not transfer when they travel. Results are shown in **Figure 3**.

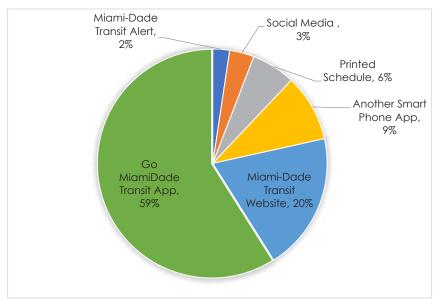

Figure 3 – Did/Do you Make Transfers?

4. Transit Information

Survey respondents were asked about how they access transit information as shown in **Figure 4**. 59 percent rely on the GoMiamiDade App for transit information while 20 percent get their information from the Miami-Dade Transit website. 9 percent of respondents use other smart phone apps. 6 percent of riders prefer to use a printed schedule. Approximately 3 percent of respondents use social media and transit alerts as their primary source of transit information.

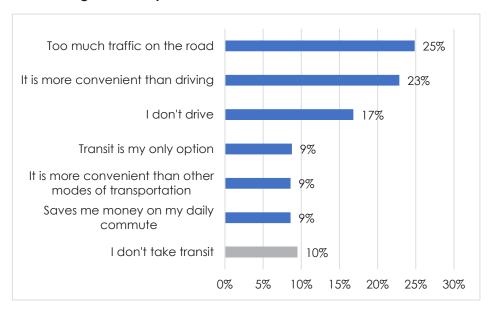

5. Transit Use

Figure 5 examines the reasons respondents use public transit. 25 percent of respondents indicated that their primary reason for using transit is congested traffic conditions and 23 percent use transit because its more convenient than driving. 17 percent of respondents use transit because they do not drive. Approximately 9 percent use transit because its their only option, because it is more convenient that other means of transportation or because it saves them money on their daily commute. 10 percent of respondents indicated that they do not use transit.

Figure 5 – Why Do You Use Transit?

6. Transit Connections

Respondents were asked about the means of transportation to the nearest transit service point and to their final destinations. The results showed that 49% of respondents walked to transit points while 31% drove to transit point. While walking and driving were also the top two methods of reaching their destinations after getting off transit, a greater percentage completed their journey by walking (77%) while only 5 percent of respondents completed their journey by driving. Figure 6 and figure 7 shows the detailed responses to these questions.

Figure 6 – How Do You Get to the MDC Transit Station?

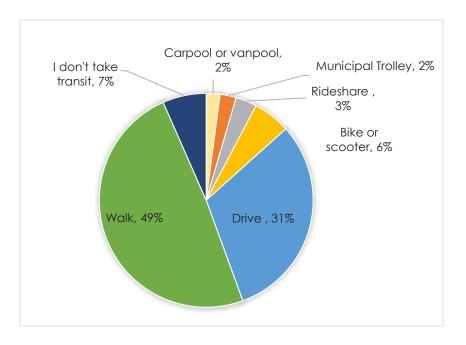

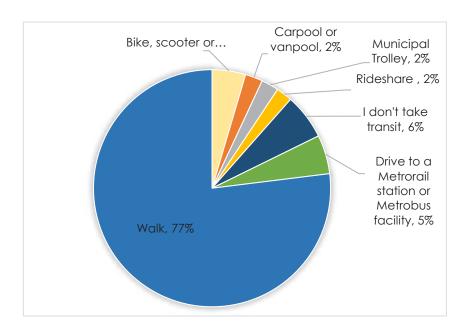

Figure 7 – How Do You Get to Your Final Destination?

7. Travel Time

The results of a question which asked respondents how long it took to get to the nearest transit station showed that most respondents (48%) travelled less than 10 minutes to access transit. 34 percent of respondents indicated that they had to travel between 10 to 30 minutes. See **Figure 8** for a complete breakdown of all responses.

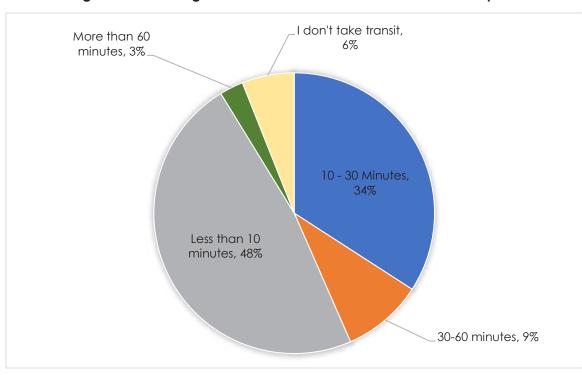

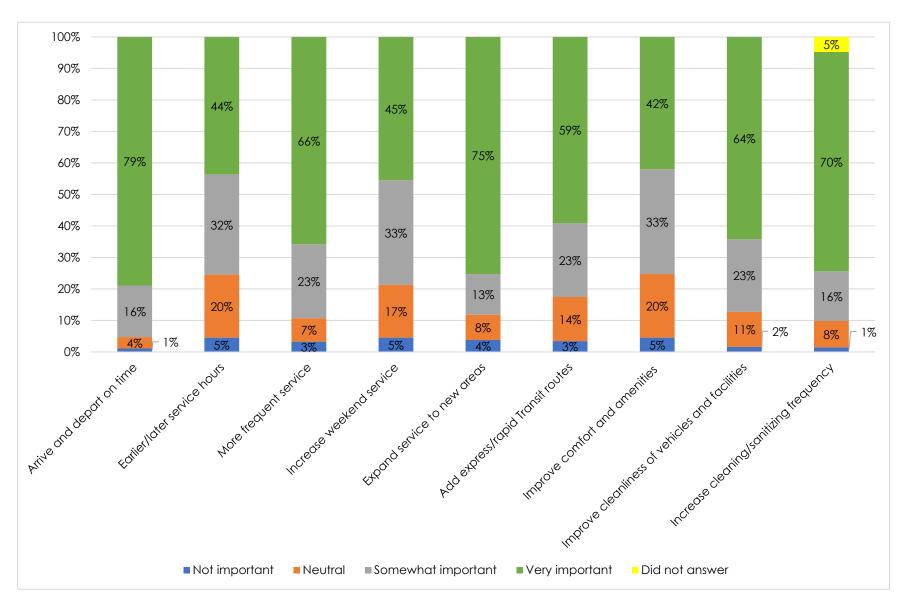

Figure 8 – How Long Does It Take to Get to the Nearest Transit Stop?

8. Service Priorities

When asked about service priorities for the next 10 years, respondents indicated on-time performance was the most important service priority, followed by expanding service to new areas and more frequent service. **Figure 9** shows the total breakdown of all service priorities.

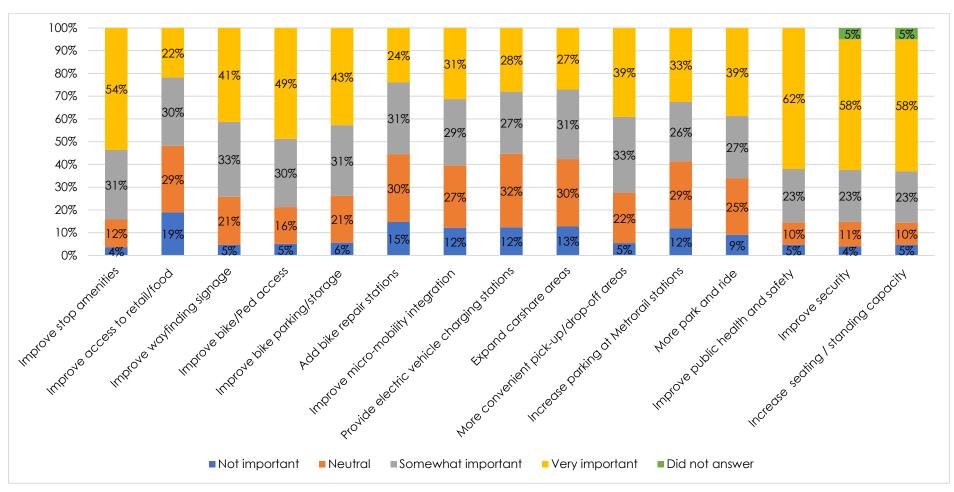

Figure 10 – What Should the Miami-Dade Transit's Service Priorities Be for the Next 10 Years?

9. Facility Related Priorities

When asked about facility-related priorities for the next 10 years, respondents indicated improving public health and safety was the most important facility priority, followed improved security and increasing seating capacity and standing room to allow for social distancing. **Figure 10** shows the total breakdown of all service priorities.

Figure 10 – What Should Miami-Dade Transit's Facilities-Related Priorities Be for the Next Ten Years?

10. What Would Motivate You to Use Miami-Dade County Transit Services?

This question sought to find out would motivate respondents to increase their patronage of transit services. The responses indicated that most people (79%) would use transit if it reached more destinations. Other key motivators include shorter wait times (65%), on-time service (64%), proximity of transit facilities to residences (56%) and improved multimodal connections at transit facilities (51%). See **Figure 11** for detailed results.

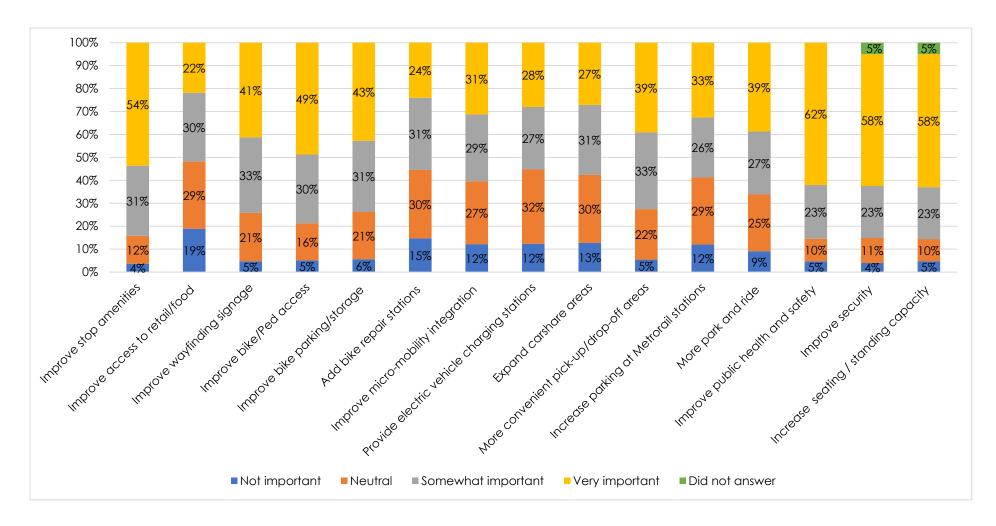

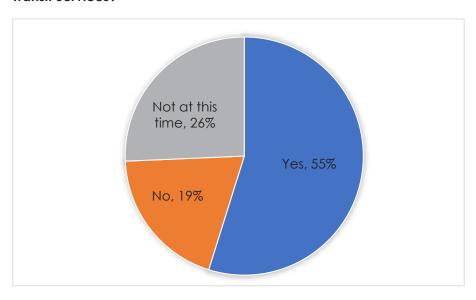

Figure 11– What Would Make You Use Miami-Dade County Transit Services?

11. Fare increase

As displayed in **Figure 12**, when asked about the tradeoff between better service and higher fares, 55 percent of respondents indicated they would be willing to pay more for better service.

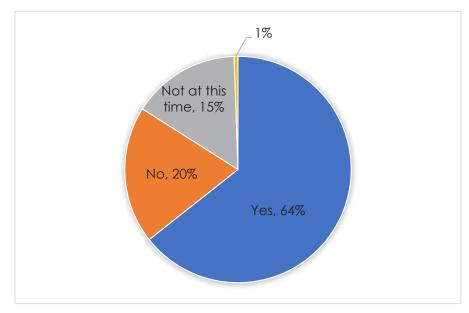

Figure 12— Would You Be Willing to Pay Increased Fare to Improve Transit Services?

12. Sales Tax Support

Figure 13 provides an overview of the responses from a question asking users whether they would support a referendum for an additional ½-cent sales tax which would support improved/expanded transit services. Approximately 64 percent indicated they would support a referendum for transit.

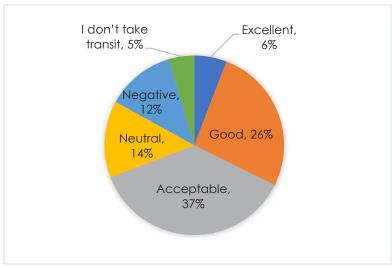

Figure 13 – Would You Support A Referendum for An Additional Half Penny Sales Tax for Improved/Expanded Miami-Dade?

13. Satisfaction

Figure 14 provides an overview of responses to a question which asked users to rate MDT's services. Almost 14 percent of all respondents noted they would rate their experience with MDT as average. However, approximately 37 percent indicated they are satisfied with MDT's services.

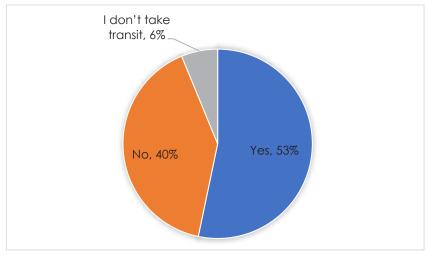

Figure 14 – Rate Your Overall Riding Experience with Miami-Dade Transit.

14. Security

Respondents were asked about their perceptions of the adequacy of security systems on Miami-Dade Transit services. While 40 percent of respondents were of the view that existing security systems on the transit network are inadequate, 50 percent felt confident about the existing security systems. See **Figure 15** for detailed results

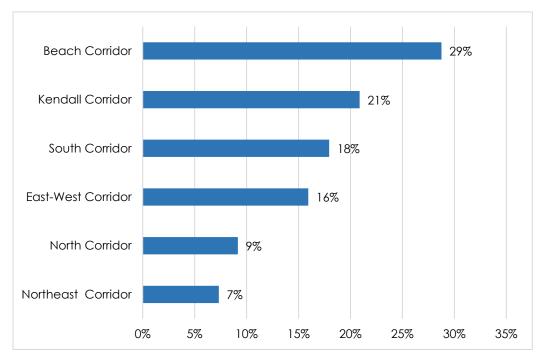

Figure 15 Do You Feel Security Systems Are Adequate While Using Miami-Dade Transit?

15. Smart Corridors

When asked about which of the six corridors in the Strategic Miami Area Rapid Transit (SMART) Plan respondents would use the most, the Beach Corridor came up as the top corridor followed by the Kendall and South Corridors. See **Figure 16** for details.

Figure 16 – Of the Six Corridors in The Strategic Miami Area Rapid Transit (SMART) Plan that are Being Considered for Miami-Dade County,
Please Rank the Corridors Which You Would Use the Most

16. Destinations

Figure 17 provides insight into what types of destinations respondents would like to travel to. The number one response was to provide service to Beaches followed by Colleges and Universities and the Miami International Airport.

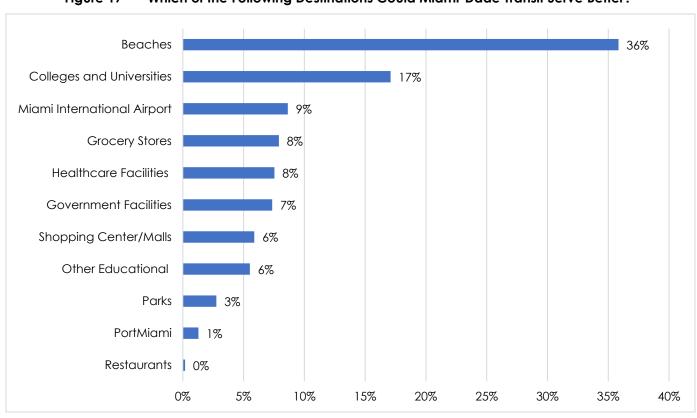

Figure 17 – Which of the Following Destinations Could Miami-Dade Transit Serve Better?

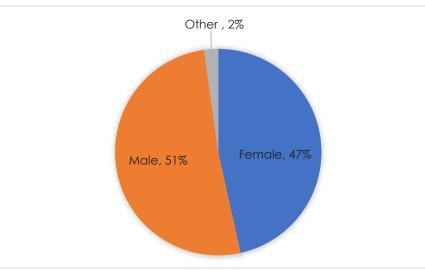

17. Demographic Information

The remainder of this report provides demographic information of those taking the survey.

Gender

As shown in **Figure 18**, 2 percent of respondents did not indicate their gender. Of those who did indicate their gender, there was a slight skew towards males (3%)

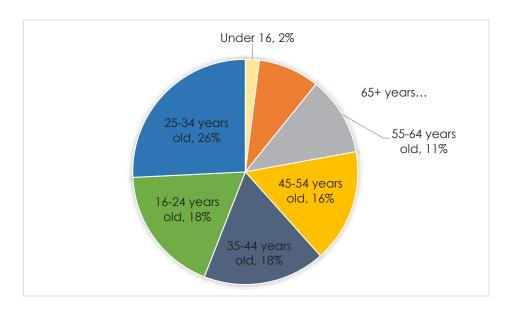

Figure 18 – What Is Your Gender?

Age

Respondents are categorized by age group in **Figure 19**. The largest cohort is between 25 and 34 years old.

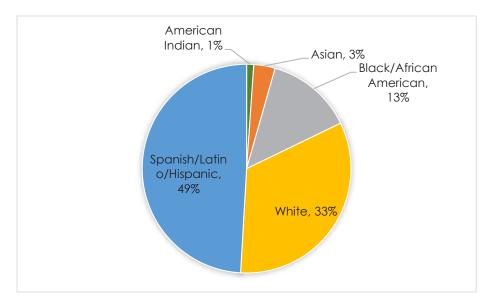

Figure 19 – What Is Your Age Group?

Race/Ethnicity

Figure 20 provides information on the race and/or ethnicity of survey respondents. The two largest groups to complete the survey were Spanish/Hispanic/Latino and White with 39 percent and 33 percent, respectively.

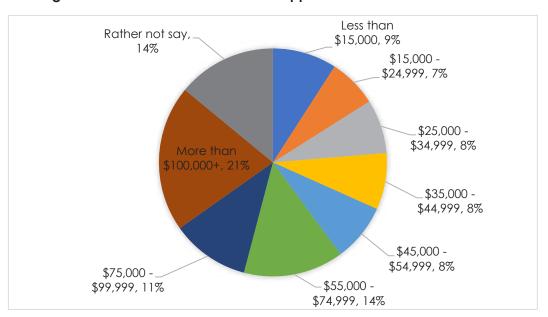

Figure 20 – What best describes your ethnicity?

Annual Income

Figure 21 displays the income levels of respondents. The largest group of respondents reside in households with a total income of at least \$100,000 annually. Approximately 9 percent of respondents have a total household annual income of less than \$15,000.

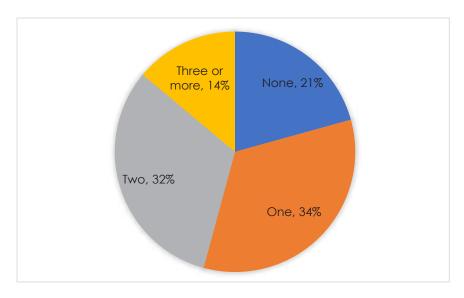

Figure 21 – What is Your Household Approximate Total Income?

Household Vehicles

As shown in **Figure 22**, approximately 21 percent respondents do not have a working vehicle at home. 34 percent have one working vehicle while 32 percent have two working vehicles.

Figure 22 – How Many Working Motor Vehicles Are Available in Your Household?

Zip Code

Figure 23 lists the top ten most frequently reported zip codes among survey respondents.

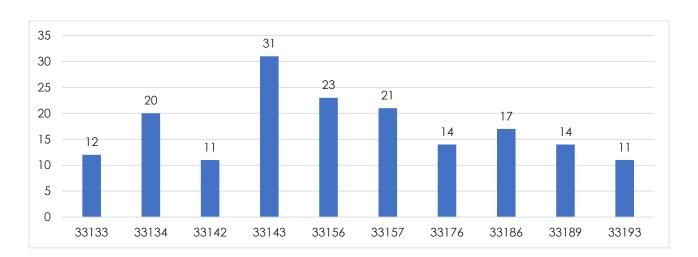

Figure 23— Where Do You Typically Start and End Your Trip?

GENERAL COMMENTS

When asked if there were any other comments respondents would like to share with MDT, many respondents chose to do so. The following themes were noted:

- Service Expansions: Respondents were supportive of expansions in Metrorail service all throughout the county.
- <u>Disfavor with Sales Tax Results:</u> Respondents generally disagree with the idea that the prior sales tax referendum was used to improve service. Furthermore, many respondents expressed dissatisfaction over how these funds were allocated, with some even suggesting that funds were misappropriated
- <u>Improve Service Reliability:</u> Many respondents voiced concerns over the lack of reliable service due to technical and operational issues.
- <u>Cleaner Buses and Trains:</u> Survey respondents advocated for improved maintenance services on trains and buses and asked for sanitation stations to be provide on transit services.
- Improve On-time Performance: By improving the ability for transit services to remain on schedule, respondents agreed travel would be much easier for riders.
- <u>Security Enhancements:</u> Riders expressed a need for improved station security, at parking facilities and on transit vehicles themselves.
- Other Key Themes, less commonly expressed, yet still reported by at least a dozen respondents include:
 - o The need for more rail, not buses, because it avoids traffic
 - Provide more exclusive bus lanes
 - o Have better contingency plans in times of breakdown
 - o Provide shaded waiting areas
 - o New trains should be purchased because the current ones are deteriorating
 - o Resources should be devoted to improving peak-hour frequencies
 - Facility improvements including more reliable elevators/escalators, adding air conditioning/fans, fixing bus announcement and signage, as well as adding public restrooms
 - Provide bus shelters for bus stops that don't have them
