Summary Minimum Experience and Qualification

The Bidder or the Bidder's Subcontractor shall have as a minimum the following licenses:

- 1) Pursuant to the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:
 - a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified; or
 - b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter

In addition to the license requirements,

A. The Contractor shall submit to WASD at the time of submitting the bid, the name of the manufacturer and the time it takes to fabricate and deliver the product to the job site. If the Bid submitted without the name of the Manufacturer and the Lead Time, it will be considered non-responsive (if applicable).

B. With his/her bid, the successful Bidder shall submit proof that his/her firm has a minimum of seven (7) years of successful contract experience in the construction of well and water facilities of similar scope. This experience shall include medium voltage systems (2.4 kV or higher), which may be from a named electrical subcontractor. Such proof shall consist of at least two (2) projects, completed prior to the bid date, with the names and telephone numbers of the owners or representatives that the Owner can contact to confirm the listed experience.

C. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. The Bidder shall provide a list of no less than three (3) references who can confirm that the bidder has successfully constructed well facilities and medium voltage systems (2.4 kV or higher). Each project reference shall include the following: contact's name, telephone number, e-mail address, and location..

D. The Bidder must also state their proposed project manager by name and list a minimum of one (1) similar project managed by him/her with references along with his/her resume. Each project must be under a different contract. Only Bidders including their project manager with the capabilities and experience on similar projects will be considered qualified for bid consideration. The successful Bidder cannot replace their project manager without providing a suitable replacement which is determined under the sole discretion of the Department.

E. In the event a firm is established by executives, supervisors and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, the Owner reserves the right to qualify the firm based on Owner's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the Engineer. Should such evidence not be satisfactory to the Engineer, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

F. Subcontractors cannot be used to qualify for Contractor qualifications except as noted above. Contractor must retain the services of a Florida licensed well contractor to provide services named herein and shall be named on the subcontractor list.

G. Qualifications' eligibility determination is at the sole discretion of the Department/Owner or the Engineer.

The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrate their ability to perform the requested services while meeting project schedules and budgets.

Summary Minimum Experience and Qualification

The Prime Consultant is highly preferred to be a full service hydrogeologic and engineering firm experienced in potable water, Class I and Class V Injection Well, and Aquifer Storage and Recovery systems, and monitoring well networks projects in South Florida. The Consultant should have hydrogeological and engineering design, permitting, and construction experience with a specific emphasis on projects of similar size and complexity to those being implemented by WASD. The successful experience on the above items should be demonstrated prior to the date of this solicitation. The Prime consultant should provide a list of members of the proposed team, identifying the project/contract Manager, and the team leaders for key specialties.

Provide qualifications to demonstrate the Prime and/or Subconsultant has the following preferred experience of:

1. Five (5) years of experience providing professional hydrogeologic/engineering services, potable water well, ASR and injection well design services in South Florida.
2. Three (3) projects in Florida requiring potable water system hydrogeologic groundwater flow and solute transport modeling experience on systems equal or greater than 10 MGD.
3. Three (3) projects in Florida providing potable water system design, permitting, and construction experience on systems equal or greater than 10 MGD.

Summary Minimum Experience and Qualification

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

LICENSE REQUIREMENTS:

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold one of the following valid, current, and active credentials:

a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified.

or

b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter 489.115.

EXPERIENCE:

In addition to the license requirements:

1. At the time of bidding the bidder shall submit a separate sealed envelope containing:

- Proof that his/her company has successfully performed Sanitary Sewer Evaluation Services (SSES), cleaned, and inspected at least 200,000 linear feet of sanitary sewer mains, up to 24 inches in diameter for at least one (1) year, and has been regularly and successfully engaged in cleaning and inspecting laterals and main gravity lines by Closed-Circuit Television (CCTV) for a minimum of one (1) year. The information shall be included in the following:
 - Project Number
 - Number of LF was performed SSES.
 - City (Locations)
 - Representative's name (Project Manager, Construction Manager, Engineering)
 - Phone Number.
 - Submitted reference Project must demonstrate that the Bidder:

Summary Minimum Experience and Qualification

The Prime Consultant should have engineering experience in all phases of wastewater engineering with expertise on the operation and maintenance of wastewater treatment plants and collection and transmission systems.

The Prime Consultant should provide a description of one (1) successfully completed CMOM project, asset management or comparable program which they planned, implemented, and managed for a major utility within the past ten (10) years from the date of solicitation. For projects which the Prime Consultant has served as the CMOM, asset management or comparable program consultant, the Consultant should provide the name and contact information for a Utility Executive with the Utility they served as the program management consultant who can confirm their role. The descriptions shall include the client (i.e., municipality or agency), key project staff, the project name, a summary of the work performed, the contract amount, the schedule (to include start and completion dates), the specific role of the prime firm, the achievements (e.g., programs delivered on schedule, innovative information management systems implemented, new technology utilized), and a client reference and contact information.

The Consultant's team should demonstrate their successful experience with assessment, implementation, and integration of information systems, with WASD's enterprise portfolio. The current WASD portfolio includes:

- Environmental Systems Research Institute (ESRI) ArcGIS Pro- Geographic Information Systems
- Informs
- e-Builder
- HxGN EAM

LICENSE REQUIREMENTS:

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold one of the following valid, current, and active credentials:

Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified.

OR

Certification as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Section 489.115, Florida Statutes.

EXPERIENCE:

In addition to the license requirements:

- The Bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/ horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past five (5) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided.
- The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public right-of-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents and which best illustrates their ability to perform the requested services while meeting project schedules and budgets.
 - Demonstrate the experience requirement by providing a detailed description of at least three (3) projects similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel is currently engaged or has completed within the past five (5) years.
 - List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities. For each project listed, the pipe installation shall have been completed and accepted by the project owner prior to the bid submittal date.
 - For each project used to demonstrate experience, the Bidder shall provide the names and telephone numbers of the owners or representatives that WASD can contact to confirm the listed experience.

In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, WASD reserves the right to qualify the firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for an award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

LICENSE REQUIREMENTS:

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold one of the following valid, current, and active credentials::

- a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified,
OR
- b. Certification as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Section 489.115, Florida Statutes.

EXPERIENCE:

In addition to the license requirements:

1. The Bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/ horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past five (5) years.
2. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public right-of-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by:

Summary Minimum Experience and Qualification

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

LICENSE REQUIREMENTS: At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:

- c. Certificate of competency from the county's construction trades qualifying board as a general engineering contractor or as a pipeline engineering contractor. The pipeline engineering contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned code as being the work of other than that of the engineering specialty for which certified,
OR
- d. Certification, as a general contractor or as an underground utility and excavation contractor, provided by the state of Florida construction industry licensing board, pursuant to the provisions of section 489.115, Florida Statutes.

EXPERIENCE:

In addition to the license requirements:

The Contractor must demonstrate that it has full-time personnel with the necessary experience to perform the project's scope of work. The Contractor must demonstrate experience in the construction of roadway/horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past ten (10) years. Submitted reference projects must demonstrate that the bidder served as the prime contractor for the referenced projects provided.

For each referenced project, describe the project scope of work and state whether the work was performed for the county, other government clients, or private entities. For each referenced project, the pipe installation shall have been completed and accepted by the project owner prior to the bid submittal date. The description must identify the following for each project:

- 1) The identified personnel and their assigned role and responsibilities for the listed project; 2) The client's name and address including a contact person and phone number for reference; 3) Description of work; 4) Total dollar value of the contract; 5) Contract duration; 6) Statement or notation of whether bidder's referenced personnel is/was employed by the prime contractor or subcontractor; and 7) For completed projects, provide letters of certification of final acceptance or similar project closure documentation issued by the client and available contractor's performance evaluations.

In addition, the Contractor must have successfully completed the installation of a minimum of two (2) pump stations within private property pump station easements within the last ten (10) years, meeting the following requirements:

- a. Experience shall include the installation of an eight (8) feet diameter and fifteen (15) feet deep wet well (minimum), valve vault and sanitary sewer connections greater than twelve (12) feet of depth, while utilizing the installation of sheet piling, dewatering and/or commercial divers.
- b. In addition to submittal requirements stated elsewhere, to qualify for work on this contract the bidder shall be experienced in raw sewage pump station construction, including the installation of submersible pumps, and medium voltage electrical power systems. The bidder shall also be experienced in the installation of concrete wet wells over fifteen (15) feet deep utilizing shoring, sheet piling, and similar shoring systems, working within utility easements, and construction methods to minimize noise, dust, and other impacts to surrounding residential neighborhoods.

The Contractor should have five (5) years under its current business name (which can include the experience of key supervisory employees that would man the project). In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, WASD reserves the right to qualify the firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose
