Yes/No									

In addition to the license requirements,

- A. With the bid, the successful Bidder shall submit proof that his/her firm has at least the minimum successful contract experience as required below for this CONTRACT being bid. Such proof shall consist of a list of projects, completed prior to the bid date, with the names and telephone numbers of the Owners or representatives that OWNER can contact to confirm the listed experience.
  - B. In addition to submittal requirements stated elsewhere, to qualify for WORK on this CONTRACT, the Bidder or Bidder's Subcontractor shall be experienced in electrical distribution buildings, including installation of diesel engine and generators, fuel storage tanks and accessories, and construction of fuel pipe system.
  - C. The Bidder or Bidder's Electrical Subcontractor shall have successfully completed a minimum of one (1) project demonstrating experience procuring and installing main electrical equipment between 13.2kV to 480 V, HVAC equipment, medium and low voltage electrical power systems, including transformers and switchgear and instrumentation and controls including connections into an existing SCADA. This project shall have been performed within the past ten (10) years from the date of the Invitation to Bid.
  - D. The Bidder must have successfully completed the construction and/or rehabilitation of a minimum of two (2) electrical distribution rooms with at least 2 diesel engine type generators along with fuel storage tanks, within the last ten (10) years.
  - E. The Bidder or the Bidder's Auger Cast Pile (ACP) Contractor shall have at least five (5) years of experience and at least five (5) successful installations of similar type, size, length and quantity to those required for support of the project structures. The superintendent proposed for the WORK shall have at least five (5) years of experience and shall be experienced in auger cast piling operations of this class and nature.
  - F. In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.
- The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrate their ability to perform the requested services while meeting project schedules and budgets.

	and Aquifer Storage and Recovery Wells								

### Summary Minimum Experience and Qualification

The Prime Consultant is highly preferred to be a full service hydrogeologic and engineering firm experienced in potable water, Class I and Class V Injection Well, and Aquifer Storage and Recovery systems, and monitoring well networks projects in South Florida. The Consultant should have hydrogeological and engineering design, permitting, and construction experience with a specific emphasis on projects of similar size and complexity to those being implemented by WASD. The successful experience on the above items should be demonstrated prior to the date of this solicitation. The Prime consultant should provide a list of members of the proposed team, identifying the project/contract Manager, and the team leaders for key specialties.

Provide qualifications to demonstrate the Prime and/or Subconsultant has the following preferred experience of:

- Five (5) years of experience providing professional hydrogeologic/engineering services, potable water well, ASR and injection well design services in South Florida.
- Three (3) projects in Florida requiring potable water system hydrogeologic groundwater flow and solute transport modeling experience on systems equal or greater than 10 MGD.
- Three (3) projects in Florida providing potable water system design, permitting, and construction experience on systems equal or greater than 10 MGD.
- Three (3) projects in Florida showing deep well experience in the design, permitting, and construction management of either Class I Boulder Zone Injection Wells or Class V Aquifer Storage and Recovery Wells.
- One (1) project in Florida showing experience in the design, permitting, and construction management of UIC Class I Injection Wells and Class V Exploratory Wells into the Cretaceous formations below the Lower Floridan Aquifer.
- One (1) project showing experience in Biscayne Aquifer groundwater modeling for wellfield and aquifer optimization.

Accelerate Ordinance No. 14-77	ISD Project No. & Commission Districts & Project Description	Contract Amount & OMB Project No.	ISD Review SBE Goal (Small Business Enterprise) Architectural/ Engineering (A/E), Construction, Goods & Services (G/S)	Proposed Method of Award	Advertisement Date COS Begins	Industry Pre-Submittal Conference (Project Briefing)	First Tier/Step 1 Selection	BCC Committee Meeting	Firms Awarded, Status and Comments
Yes/No							Second Tier/Step 2 Selection Oral Presentation	BCC Meeting Date	* Projects Under the Cone of Silence (COS)

### Summary Minimum Experience and Qualification

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

#### LICENSE REQUIREMENTS:

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

1. At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:
  - a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified;
  - or
  - b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Section 489.115, Florida Statutes.

Qualifications shall be submitted with the Bids. Submit experience history with a minimum of references along with the bid. The work shall have been completed with the Contractor's own forces and key personnel.

#### EXPERIENCE:

In addition to the license requirements, the Prime Contractor and personnel shall have experience with installation of pipe 36-inches or larger. The Contractor shall demonstrate their experience by providing details about three (3) projects on which the Contractor acted as the Prime Contractor and completed in the past 10 years that involved the installation of pipe 36-inches or larger to include internal cleaning and testing. At least one (1) of the three (3) projects shall be a directional drill 36-inch or larger. The Contractor's key personnel (foreman, equipment operators and pipe fitters) shall also meet the minimum experience qualification requirement.

The Directional Drill Sub-Contractor shall have at least 5 years of continuous experience performing directional drilling projects.

Verifiable references are required with Project Name, Organization Name, Contact Person, Phone Number, Date of Work and Work Performed. Submit experience history with references on the two most recent Contracts along with the bid. The work shall have been completed with the Contractor's and own forces or key personnel with any applicable permits secured by the Contractor.

The experience of key senior personnel with other firms may be counted toward the experience requirement, if acceptable to the Engineer. Should such evidence not be satisfactory to the Engineer, whose decision shall be final, the bid will be considered nonresponsive, and the second low bidder will be considered for award.

In the event a firm consists of executives, supervisors and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, the Miami-Dade Water and Sewer Department reserves the right to qualify the firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm.

The County reserves the right to request additional information and/or contact listed persons pertaining to the bidder's experience.

### Summary Minimum Experience and Qualification

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

#### LICENSE REQUIREMENTS:

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

- General Engineering
- Pipelines Engineering Contractor
- Underground Utility / Excavation

The Contractor shall have successfully installed at least 4,000 LF of gravity sewer 8-inch and larger on a public right-of-way.

#### EXPERIENCE:

In addition to the license requirements:

The Bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past five (5) years. Submitted referenced projects must demonstrate that the Bidder served as the Prime Contractor for the referenced projects provided.

The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work in the public right-of-way, similar in detail to the Project's Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by:

Providing a detailed description of at least three (3) projects similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel is currently engaged or has completed within the past five (5) years. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities.

For each project listed, the pipe installation shall have been completed and accepted by the project owner prior to the bid submittal date.

or

b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter 489.115.

**EXPERIENCE:**

In addition to the license requirements:

1. At the time of bidding the bidder shall submit a separate sealed envelope containing:
  - Proof that his/her company has successfully performed Sanitary Sewer Evaluation Services (SSES), cleaned, and inspected at least 200,000 linear feet of sanitary sewer mains, up to 24 inches in diameter for at least one (1) year, and has been regularly and successfully engaged in cleaning and inspecting laterals and main gravity lines by Closed-Circuit Television (CCTV) for a minimum of one (1) year. The information shall be included in the following:
    - Project Number
    - Number of LF was performed SSES.
    - City (Locations)
    - Representative's name (Project Manager, Construction Manager, Engineering)
    - Phone Number.
    - Submitted reference Project must demonstrate that the Bidder:
      - Served as the Prime Contractor for the referenced Project provided and
      - Self-performed at least 40% of the negotiated construction cost for the referenced Project.
  - Further, the successful bidder, before award, shall submit more detailed information on the experience of the firm and personnel assigned to the review, survey, and cleaning work, and especially the experience of the crew leaders who will supervise the work in the field, as well as information on all equipment and the type of process that will be used for cleaning by the line segment cleaning method.
2. Experience shall include the performance of SSES via the utilization of Closed-Circuit Television Imagery for the inspection of manholes and sanitary sewer lines up to twenty-four (24) inches in diameter, cleaning of active lines via mechanical means utilizing plugs and bypass methods/equipment, the recording of data within pertinent computer software for the purpose's storage/compilation of records.
3. The Contractor must submit proof that his/her firm has the ability to interface with MDWASD and familiarity with County guidelines. The ability will be based upon the evaluation of the Company by "Past Performance Evaluations" (PPE) from the Miami-Dade County approach including experience in Sanitary Sewer Evaluation by Closed-Circuit Television Video (CCTV) projects under WASD's Contracts.

In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. ### Summary Minimum Experience and Qualification

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

#### LICENSE REQUIREMENTS:

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold one of the following valid, current, and active credentials:

Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified.

OR

Certification as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Section 489.115, Florida Statutes.

#### EXPERIENCE:

In addition to the license requirements:

- The Bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/ horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past five (5) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided.
- The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public right-of-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents and which best illustrates their ability to perform the requested services while meeting project schedules and budgets.

**Summary Minimum Experience and Qualification**

The Prime consultant is highly preferred to be a full-service surveying and mapping firm. The Prime should demonstrate experience in the following areas listed below:

**Land Surveying:**

- Performed as built/records, boundary, right-of-way, and topographic surveys. Firms are preferred to have Certified Survey Technician(s) in their team. The Prime should provide five (5) reference projects with three (3) projects in water/wastewater infrastructure.
- Performed 3D laser scanning to a high-definition 3D surveyed surface for visible areas with a high degree of accuracy for interior and exterior visible surfaces. The 3D laser scans should be color enhanced. The 3D laser scans should be clean of noise, external images not part of the facility, i.e. shadows, people, movable objects to the extent possible with point cloud technology available. The 3D laser scanner should include an integrated high-quality digital photo stitched together to provide a complete panoramic "real view" of the scanned area. The Prime firm should provide three (3) reference projects.
- For photogrammetry and Lidar mapping with Unmanned Aerial System (UAS), the firm should identify at least one team member with Remote Pilot Certificate (RPC) issued by the Federal Aviation Administration (FAA), or a pilot certificate issued under Title 14 Code of Federal Regulations part 61 who have completed a flight review within the past 24 months. Must have registered the unmanned aircraft under Small UAS Rule (part 107) and the drone must be labeled with firm's registration number. Must follow the requirements in the Small UAS rule (Part 107), following the rules of Section 333 of the FAA Modernization and Reform Act of 2012 grant of exemption, and obtain an airworthiness certificate for the aircraft when is necessary. The Prime should provide three (3) reference projects.
- Ability to prepare descriptions and exhibits for use in legal instruments, tentative plats, waiver of plats, and record plats. The Prime should provide one (1) recorded legal instrument.

**Underground Utility Locations:**

- Performed Subsurface Utility Engineering in accordance with the American Society of Civil Engineers ASCE CI-38-02. The Prime should have geophysical sensing equipment for identifying, designating, locating, and mapping existing and abandoned utility infrastructure, i.e. magnetic, sonic, and acoustic, ground penetrating radar, radio frequency detection, and vacuum excavation equipment. The Prime should be able to design Maintenance of Traffic plans and obtain permits with different agencies. The Prime should provide five (5) reference projects with two (2) in water/wastewater infrastructure.

**Hydrographic Surveys**

- The Prime should provide five (5) reference projects.

**Benthic Surveys**

### Summary Minimum Experience and Qualification

In addition to the general qualifications provided in SP 2.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

LICENSE REQUIREMENTS: At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:

- c. Certificate of competency from the county's construction trades qualifying board as a general engineering contractor or as a pipeline engineering contractor. The pipeline engineering contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned code as being the work of other than that of the engineering specialty for which certified,  
OR
- d. Certification, as a general contractor or as an underground utility and excavation contractor, provided by the state of Florida construction industry licensing board, pursuant to the provisions of section 489.115, Florida Statutes.

#### EXPERIENCE:

In addition to the license requirements:

The Contractor must demonstrate that it has full-time personnel with the necessary experience to perform the project's scope of work. The Contractor must demonstrate experience in the construction of roadway/horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of water main distribution systems and/or

## Water & Sewer Infrastructure Projects in Procurement: MARCH 2025

Accelerate Ordinance No. 14-77	ISD Project No. & Commission Districts & Project Description	Contract Amount & OMB Project No.	ISD Review SBE Goal (Small Business Enterprise) Architectural/ Engineering (A/E), Construction, Goods & Services (G/S)	Proposed Method of Award	Advertisement Date COS Begins	Industry Pre-Submittal Conference (Project Briefing)	First Tier/Step 1 Selection  Second Tier/Step 2 Selection Oral Presentation	BCC Committee Meeting  BCC Meeting Date	Firms Awarded, Status and Comments  * Projects Under the Cone of Silence (COS)
Yes/No									
<p>sanitary sewer main collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past ten (10) years. Submitted reference projects must demonstrate that the bidder served as the prime contractor for the referenced projects provided.</p> <p>For each referenced project, describe the project scope of work and state whether the work was performed for the county, other government clients, or private entities. For each referenced project, the pipe installation shall have been completed and accepted by the project owner prior to the bid submittal date. The description must identify the following for each project:</p> <p>1) The identified personnel and their assigned role and responsibilities for the listed project; 2) The client's name and address including a contact person and phone number for reference; 3) Description of work; 4) Total dollar value of the contract; 5) Contract duration; 6) Statement or notation of whether bidder's referenced personnel is/was employed by the prime contractor or subcontractor; and 7) For completed projects, provide letters of certification of final acceptance or similar project closure documentation issued by the client and available contractor's performance evaluations.</p> <p>In addition, the Contractor must have successfully completed the installation of a minimum of two (2) pump stations within private property pump station easements within the last ten (10) years, meeting the following requirements:</p> <p>a. Experience shall include the installation of an eight (8) feet diameter and fifteen (15) feet deep wet well (minimum), valve vault and sanitary sewer connections greater than twelve (12) feet of depth, while utilizing the installation of sheet piling, dewatering and/or commercial divers.</p> <p>b. In addition to submittal requirements stated elsewhere, to qualify for work on this contract the bidder shall be experienced in raw sewage pump station construction, including the installation of submersible pumps, and medium voltage electrical power systems. The bidder shall also be experienced in the installation of concrete wet wells over fifteen (15) feet deep utilizing shoring, sheet piling, and similar shoring systems, working within utility easements, and construction methods to minimize noise, dust, and other impacts to surrounding residential neighborhoods.</p> <p>The Contractor should have five (5) years under its current business name (which can include the experience of key supervisory employees that would man the project). In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, WASD reserves the right to qualify the firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.</p>
