- Installation of 6-inch wastewater line along the Snake Creek Canal from NW 199 Street to Pump Station #0374 (2749 NW 199 Terrace)

FACT SHEET

Wastewater Line Replacement

BACKGROUND

On April 9, 2014, the United States District Court for the Southern District of Florida authorized a Consent Decree between Miami-Dade County, the United States of American, the State of Florida, and the Florida Department of Environmental Protection, for improvements to the County's wastewater collection system.

PROJECTED SCHEDULE

Construction began in April 2015, with an expected duration of four (4) months. Work within the pump stations will continue until approximately August 2016.
