Note: In 2001 Particulate Matter changed from PM10 to PM2.5. In 1997, the ozone standard was changed from 120 ppb 1 hour to 85 ppb 8-hour average and in 2008 the ozone standard was lowered to 75 ppb 8-hour averages. In 2008, the PM2.5 standard was lowered from 65 ug/m³ to 35 ug/m³.
