## Agricultural Classification – Property Access and Inspection Authorization Requirement

Our records indicate that either an original agricultural classification application has been filed or that the existing agricultural classification status of the above-referenced property is up for annual renewal. In order for the Property Appraiser's Office to offer an initial grant or bring forward the existing agricultural classification, physical evidence supporting the desired classification must be obtained for purposes of confirming the bona fide commercial agricultural use. Such information is best obtained and thereafter verified through periodic site inspections of the subject property.

I understand that failure to grant the Property Appraiser's representative reasonable access for purposes of conducting physical inspections may result in the denial or non-renewal of the agricultural classification. If bees are being used for pollination in other locations, a pollination schedule, pollination contracts and/or business plan confirming this use should be submitted to the Property Appraiser's Office. You are encouraged to keep the Property Appraiser's Office apprised of any changes in previously submitted documents should any such changes subsequently occur.

If access restrictions or hazardous conditions exist on your property, please provide a brief explanation and a contact phone number. Restrictions include, but are not limited to the following: ongoing construction, a locked gate, perimeter fencing, a "No Trespassing" sign, "Keep Out" sign, "Beware of Dog" sign, electric fence, aggressive animals, and/or periodic application of herbicides, pesticides, fertilizer or waste products.

**Explanation of Restriction/Hazard**

**Contact Information/Phone Number of Signee Listed Below**

I understand that the Property Appraiser's Office requires periodic site inspections for purposes of confirming bona fide commercial agricultural use and that by executing this document I am agreeing hereby to such inspections. I understand that failure to allow the Property Appraiser's representative reasonable access to the subject property may result in the denial or non-renewal of the agricultural classification being requested.
